Ayer's Ague Oure,

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents is, that it contains no quinine or mineral, and those who take it are frea from danger of quinism or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its success that thas gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison

the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shakes or chills, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Pal-pitation, Splenic Affections, Hysterics, Pain in the Bowels, Colic, Paralysis, and derange of the Stomach, all of which become intermit-tent or periodical, have no speedier remedy than

AYER'S AGUE CURE, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords. For Liver Complaints, arising from torpidity,

it is an excellent remedy; it stimulates this organ into healthy activity, and produces many remark able cures where other medicines fail. Prepared by Dr. J. C. Ayer & Co., LOWELL, MASS. SOLD BY ALL DRUGGISTS EVERYWHERE.

to the distressed and suffering subject of

Rheumatism or Neuralgia We canot be too grateful for the discovery of any remedy which will alleviate the ru ferings of humanity, not only in the pangs of pain which the patient alone suffers, but in the distress which it entails upon others. Most every sufferer from his own personal experience is aware that the ordinary methods of treating Rheumatism, Neuralgia, Sciatica

and kindred diseases by external medicine, is of no avail, and so fast is this impression gaining hold upon intelligent patients that they demand a more potent remedy. The discovery of LAWSON'S CURATIVE was a priceless boon to thousands who have been cured, and the thousands who are now being relieved of their terrible agonies bear willing estimony to its virtues. Here we have a CURATIVE agent which hough applied externally exerts a powerful

and beneficent influence on the whole nerve system-a remedy of indisputable efficacyseldom failing to afford prompt relief in cases of acute or chronic pains in the nerves For every kind of Rheumatism, for

euralgia in every Form, for nervous or Sick Headache, for Nervousness, for Lame Back or Side, for Erysipelas, for Diphtheria and Sore Throat, for Chilplains, for Sprains Bruises, Cuts, Wounds, for Burns and Scalds, for Toothache In fact for all Pains, Inflammations and Swellings no remedy is known which pos-sesses the remarkable healing and soothing malities, which is so universal in its charac crand scope or so simple and safe in its application. For these reasons Lawson's CURATIVE should have a place in every

the afternoon was passed in pleasant conversation recalling rem iniscence of "auld lang syne," and relating experiences of their past lives, which have extended over more than half a century. All felt that it was indeed "a feast of reason and a flow of soul." At last, as the shades of evening were gathering, they separated, the older ones feeling at least ten years vounger for the meeting, the younger that much knowledge had been gained, and

all feeling that it was "good for them to be there." THE YEARS.

Why do we heap huge mounds of years And scorn the little days that pass Like angels on the wind

As beautiful as near; Because it is so small a face And so it turns from us, and goes Away in sad disdain; Though we could give our lives for it. It never comes again!

LOST IN A JUNGLE.

In the year 1854, I belonged to the United States North Pacific Surveying and Exploring Expedition. For some months we had worked diligently in Gasper Straits, and along the Malaysian Islands, and at last had brought our arduous labors to a close. One delightful morning, while anchored near the island of Banca, most of the crew went ashore to enjoy the pleasures of the day on land, myself among the number. There was a beautiful beach of sand and shell reaching down into the playful waters, and stretching along for miles; and just beyond this, a belt of green sward, like the bright lawn of artificial grounds, with mighty trees reaching heavenward, and which seemed if standing sentries over the thick, dark jungle that formed the background of the romantic scene. The air was soft and balmy, and we anticipated rare pleasure in strolling over this unknown region of beauty, and now and then perhaps venturing into its mysterious depths and challenging the perils which we e forward the most timid, and the be constantly within call, that in the
