L. HARPER, Editor and Proprietor
Official Paper of the County.

MOUNT VERNON, OHIO:
THURSDAY MORNING, NOV. 6, 1890.

Boss Reed has received a dose of his own medicine.

Ohio will probably lose and Illinois will gain a member of Congress under the new Census.

Reed and his reckless Congress have been repudiated by the honest voters of the United States.

Strikers among workmen are still the order of the day, notwithstanding the blessings promised by the McKinley bill.

HARTER's majority in this district of 3,500 is a stinging rebuke to those Republican editors who lied about him so shamefully.

Again the report is revived that an extra session of Congress will be called—for what purpose is not stated; but probably to push the Force bill upon the country.

Mrs. CAMPBELL, wife of Gov. Campbell, has invited Mr. and Mrs. Cleveland during their coming visit to Columbus to participate in the celebration of ex-Senator Thurman's 77th birthday to become her guest.

The Cincinnati Times-Star (Rep.) is authority for the statement that Gov. Campbell will not be a candidate for re-election but will support his influence in favor of Judge Judson Harman, who was the R. P. L. in Cincinnati.

DURING a fight with United States officers on Sunday, in the Comanche country, Les Allen had both arms broken with rifle bullets, and was captured and taken to Paris, Texas, where over 100 indictments for murder and cattle stealing are hanging over him.

This election being over, no attempt to decide the people in regard to tariff taxation, or the increase of prices under the McKinley act, can be successfully practiced. People will now learn for themselves which party and what newspapers told the truth during the campaign.

WILLIAM O'BRIEN, John Dillon, Timothy Harrington and T. D. Sullivan, the distinguished Irish patriots, arrived in New York Sunday on the steamer La Champagne, and were met by a delegation of Irishmen on board the tug boat John E. Moore, which was chartered by the Irish Societies of New York.

The proprietors of the Bessemer steel works at Cleveland, gave notice to their 500 employees on Saturday that wages would be reduced 30 per cent, which at once gave rise to a strike. This is one of the first "blessings" of the McKinley "protection" tariff scheme. When will workmen get their eyes open?

MR. GLADSTONE, one of the greatest statesmen the world ever produced, made a speech at Dundee, Scotland, on the 29th ult., at the tariff question, and particularly the relation of the McKinley bill to the trade of Great Britain. A pretty full synopsis of this great speech is printed on the first page of this week's BANNER.

DIPHTHERIA is making fearful ravages among the children in the village of Mercer, near Lima. There were nine deaths during the past week and fourteen new cases reported on Saturday. The public schools have closed and many of the inhabitants are leaving. The town has a population of 500. The greatest excitement prevails.

The United States Treasurer has received from the Bureau of Engraving and Printing a small supply of the one-dollar Treasury notes. He says he expects within two weeks to secure a quantity of ones and fives sufficient to meet all reasonable demands for small notes. The new one-dollar note contains the vignette of Ex-Secretary Stanton.

A REMARKABLE coincidence is the deaths in Selma, Iowa, of three pioneer citizens—William Birch, aged 83; J. Walker, 81, and Jacob Lefevre, aged 104. These three went to Iowa when Indians and bears made their homes in the hills of Burlington and vicinity, and have dwelt here ever since. Their deaths occurred within a few minutes of each other.

An autopsy held on the body of a young man who died in Brooklyn a few days ago, showed that death resulted from paralysis of the heart, caused by an immense tumor which had formed near the valves, extending through and totally destroying the left ventricle. The disease is supposed to have been brought on by the excessive smoking of cigarettes.

Just before the late election in Virginia, John M. Tamm, the negro who was not elected but seated by the Republican Congress as a Representative from the Petersburg district, issued an address in which he read, Gen. Mahone out of the Republican party. Now, don't laugh at once!

Langston was a candidate again on Tuesday but was defeated, and he is now crying "fraud."

JOHN OSCAR TURNER, the notorious train robber and murderer of Sheriff Cramm, made his escape from the Bouville, Mo., jail on Saturday night. One dummy was found in his cell. Two stolen horses aided the fugitive in his flight. In June last he killed the Sheriff and escaped, but was caught and returned to jail. His second escape was cunningly managed. If caught again he will be lynched.

A CONVENTION of Free-thinkers from all parts of the county and Canada, assembled at Portsmouth, O., on Friday. Among those present were Chas. Watts of Toronto, at one time Charles Bradlaugh's chief associate in the free-thought work of England, Col. Robt. G. Ingersoll, E. M. McDonald, Thaddeus B. Waterman of New York, L. K. Washburn of Boston, Dr. Henrietta Westbrook, Ida C. Craddock of Philadelphia, Susan Nixon of Fall River, Mass., Rabbi Philipson of Cincinnati. Addresses and music were the chief features of the gathering.

A Death-bed Marriage.

Miss Mary Butterworth, the beautiful and accomplished daughter of Congressman Butterworth of Cincinnati, and Mr. Houghwout Howe, of Washington City, were engaged to be married; but on the time the wedding was to have taken place Mr. Howe was so prostrated with sickness as to render his recovery an impossibility. Miss Butterworth, however, in her devotion to her affianced, insisted that the marriage should take place, as she wished to bear the name of her intended husband. Her desires were complied with and the couple were privately married at the bedside of the dying man on Wednesday last week. She never left his bedside until the spark of life went out, about twenty-four hours after the marriage. Mr. and Mrs. Butterworth, the parents of the lady, arrived at Mr. Howe's chamber too late to see him alive. The immediate cause of the death was heart failure.

In connection with the above following will be read with interest:

Mr. Howe has been once before married. The bride was Miss Vandycke Charlier, the youngest daughter of Prof. Charlier. Prof. Charlier vigorously opposed this marriage, which, indeed, resulted in little happiness to either party, and was shortly followed by a separation and divorce. His marriage with Miss Butterworth and its unusual surroundings, recall to the minds of many people his former marriage in New York City, under circumstances which made it one of the most romantic in many years.

In November, 1881, Mr. Howe, who was then Private Secretary of Postmaster Pearson, married Miss Mary Vandycke Charlier, the youngest daughter of Prof. Charlier, of Charlier's Institute. The wedding took place in Trinity Chapel. Rev. Dr. Morgan officiating. Prof. Charlier vigorously and bitterly opposed the marriage of his daughter to Mr. Howe, his opposition being so strong that he drove his son Vandycke and his daughter Jennie from his home because they took sides with her sister, and supported her in her attachment for Mr. Howe. The wedding took place on Nov. 16, 1881. The divorce was obtained on the petition of Mrs. Howe, the husband making no defense.

Ruling Out Reed.

A New York firm has brought suit to recover on alleged unjust debts, claiming that the law according to which they were taxed was passed when there was no quorum in Congress and was only shored through by Tom Reed's arbitrary ruling.

That a dividend firm (says the World) should succeed in downing the czar is too much to expect. But there is no harm in representing Thomas Reed as a ruler "by the grace of Reed." It will have as much effect on him as the languid tread of an automaton if on his polished front. Still, it is good.

The Philadelphia Natural Gas Company, which supplies most of the manufacturers and private families of Pittsburgh, has cut off the gas from 500 puddling furnaces, to their great injury and loss, and has notified its 30,000 householding consumers that the price will be advanced 50 per cent. hereafter. This movement, it is said, was forced upon the company in consequence of so many wells giving out, thus cutting off the supply. This will be a serious inconvenience to the manufacturers and business men of Pittsburgh as well as a heavy drain upon the pockets of private families. Pittsburgh people will have to go back to the use of coal, and then the name of "the Smoky City" will be revived.

The steamship Vizcaya of the Spanish-American line collided with a four-masted schooner on last Thursday evening when she was off Barnegat and both vessels sank almost immediately. It is supposed that over sixty persons have been lost. The steamer Humboldt, which arrived in Brooklyn, on Friday morning from Brazil, rescued eight of the crew, the first and second officers, the engineer and surgeon of the Vizcaya. So far as is known these are the only persons out of a total crew and passengers list of eighty-six of the Vizcaya and the crew of the unknown schooner that have been saved. It is feared that all the others have been lost.

The case of Remondel et al. against Mayor Mosby, of Cincinnati, which, by agreement of all the parties, was taken to the Supreme Court of Ohio, for speedy decision, was summarily disposed of on Friday, adversely to the plaintiffs, as follows:

It is reasonably certain that out of eleven Congressional districts in Kentucky, ten have gone Democratic by increased majorities. The eleventh is in doubt. W. C. P. Breckinridge has been elected to Congress by a majority of 8000.

The Empire State has wheeled into the Democratic column. The entire Tammany ticket in the city of New York is elected by a majority of 22,000 over all combinations. The Democrats will have a majority in the Legislature, which will insure a Democratic U. S. Senator. The Congressional delegation will probably stand: 20 Democrats to 14 Republicans.

MICHIGAN.

In Michigan the candidates for Governor are making a close run, and the result is uncertain. The indications are that the Democrats have carried First, Second, Fifth, Seventh, Eighth and Tenth Congressional districts, with good chances for the Sixth, Ninth and Fourth.

WASHINGTON AND OKLAHOMA HAVE PROBABLY GONE REPUBLICAN.

So far as returns have been received the Democrats have done unusually well in Missouri, probably electing a solid delegation to Congress.

KANSAS.

The Farmers' Alliance made strong inroads upon the Republicans in Kansas, and the probabilities are that Willets, the Alliance candidate for Governor is elected.

WISCONSIN.

The Democrats claim the election of Peck for Governor and their entire State ticket in Wisconsin, but the Republicans will not concede it. The Congressional delegation will probably stand: 4 Democrats and 5 Republicans.

OUR GREAT COUNTRY.

COMPLETE RETURNS OF 1890. TOTAL: POPULATION 62,480,540.

Comparison With the Census of 1880. A Gain of 12,324,757.

We present below the complete Census of 1890, except Alaska and the Indian Territory, as officially returned by the enumerators employed by Mr. Porter. It will be seen that the total population of the United States is reported at 62,480,540, being an increase of 12,324,757 since 1880, and an increase of 26,922,160 since 1870.

Ohio has fallen to the fourth State in population, giving place to Illinois, which outnumbered us 151,817, owing to the wonderful increase in the population of Chicago.

If there had been a full and accurate report of the Census of 1890 taken, there is no doubt but the population of the country would have shown up more favorably; but we will have to take the figures as we find them, as the authorities in Washington positively refused to allow a new enumeration of New York City and other places to be taken.

McKinley's Boobie.

The methods used by the Republicans in the Stark district to elect McKinley were simply appalling. After paying \$20 to a Democrat to get his vote, the man bribed was required to take an oath that he was a Republican from principle and would remain so until after Nov. 5. A young man named C. C. Lloyd was arrested at Canton for being a boobie.

He was drunk and taken to jail. Upon his person was found a check for \$50, signed by Henry A. Wise, chairman of the Republican Committee, which he confessed was to be used for the election of McKinley. These checks were given out by the hundred.

JAMES G. BLAINE made a rousing speech in Philadelphia on the Saturday preceding the election, which, no doubt, had a wonderful effect upon Republicans who had determined to vote upon Quakerism in Pennsylvania. He worked upon the ghost of free trade "to frighten the souls" of all those who wished a clean and honest State administration.

The Republicans are claiming the election of Delamater, the Quay candidate for Governor, and they may thank Blaine for the result.

EX-Senator GRADY of New York, who joined Governor Hill at Wheeling, W. Va., declared in an interview that Hill would be a candidate for the Democratic nomination for President in 1892, and would have the New York delegation solidly at his back.

The recent tour of Gov. Hill through Ohio and West Virginia, Senator Grady initiated, was the beginning of an active campaign for the nomination.

SPEAKER REED, having commingled too freely with his admirers in Iowa with his pocket unprotected by a broad sack was deplored of his pocket-book at Waterloo and compelled to borrow money to pay for a berth in a sleeper. It was rough on Reed, but a Waterloo for the untipped porter.

CONSOLIDATED.

The Various Educational Institutions at Gambler Street.

Under One Name.

The conference committee appointed by

the Episcopal Convention, which met at

Gambler, last week, as briefly mentioned in

these columns, concluded their labors

Thursday evening, by resolving and recom-

mending the consolidation of the College,

Healy and Miller Halls under one head,

and to change the corporate name from "The

Theological Seminary of the Protestant

Episcopal Church of the Diocese of Ohio,"

to that of "Knox College," by which the

institution has been long and favorably

known. In the past the Bishop of Ohio has

been the President of the diocese college

and Bexley Hall, while the college proper

has had a separate President, the present

incumbent being Rev. Dr. Bolin, who last

summer declined his resignation to take

effect when the proposed changes should be

adopted. It is understood that the Bishop

of Ohio have indorsed the action of the

Conference Committee and that the recom-

mendations will be ratified at the annual

convention to be held next year. It is

hopefully expected that under the new or-

der of things the various institutions will be

greatly benefited.
