THE KNOX COUNTY INFIRMARY.

Knox County has invested \$85,000 in perhaps one of the finest buildings for an infirmary in the State. On a recent visit, we were through the courtesy of a friend taken out to the edifice. It is an immense building, four stories in height, of fine architectural outline, containing one hundred and twenty-ninerooms furnished with all modern improvements in the way of light, heat and ventilation. In the matter of a supply of pure water the arrangements are simply perfect, each story being supplied with this absolute requisite to health and cleanliness, both hot and cold water are on each floor. The dining rooms, laundry, kitchen and pantry are complete in every appointment. The rooms are of convenient size. Our attention was particularly attracted by the splendid heating furnace, Abbott's patent, located in a building on the east of the main structure, in the rear of this also was a fine brick ice house. The building is located about six miles west of Mt. Vernon, on the line of the C. & O. R. R., on a farm of four hundred acres of the best land in that county. We have not space to enter into a detailed description of this grand monument to the enterprise of our neighbors. The inmates of the infirmary number at present about fifty, and the institution under the care of John Williams, the gentlemanly Superintendent, to whom we are indebted for many courtesies, is admirably kept. It is a question of doubt in our mind whether so magnificent a structure, built at so great an expense to the county and with such luxuries and in some respects, unnecessary appliances does not rather promote and foster pauperism and its consequent evils instead of making men more self-reliant and independent in their efforts. For ourselves, we are of the opinion that the infirmary should be a place of refuge for the poor, and not a place of refuge for the poor. What ever may be the result, the contrast between the building erected by Knox to accommodate the paupers and that erected by the State for the insane, is a contrast that is well worth a visit to the infirmary.

Another Old Pioneer Gone.

Mr. James Lyon died at the residence of his sister, (Mrs. S. G. Rouse) in Martinsburg, on Friday last, Oct. 5th, in the 71st year of his age. The deceased was born in St. Clairsville, Ohio, on the 17th of April, 1806, and came to Knox county in 1825, when only 19 years of age, settling in Clay township, where he resided up to the time of his death. He was one of the oldest subscribers to the BANNER and punctually paid for the paper in advance every year. He was an Old School Jeffersonian and a Democrat, and was in all respects an honest and true man. He lived and died a bachelor. All his property, including a splendid farm in Clay township, he left to his nephews, Drs. Wm. L. and John D. Rouse, who are sons of his only sister, Mrs. S. G. Rouse, of Martinsburg.

The Season of Intermittents.

All miasmatic complaints, in other words, all disorders generated by unwholesome exhalations from the earth or water, are prevalent at this season. In every section subject to the visitation of fever and ague, or other forms of intermittent disease, the causes which produce these maladies are now actively at work. This, therefore, is a period of the year when the inhabitants of such districts should prepare their systems to meet the unwholesome condition of the atmosphere by a course of tonic and alterative treatment. For among the invigorants, recommended by time and experience as a means of fortifying the system against all endemic and miasmatic maladies, stand the Bitters. By a timely use of the Bitters, the feeblest residents of an unhealthy soil may escape the sickness which would otherwise befall them. The aid of this potent ally of nature, will be apt to overcome the strongest, Oct. 12th.

Grand Opening of Fashionable Millinery.

Mrs. NORTON & KENDRICK, the fashionable Milliners, desire to announce to the ladies of Mt. Vernon and vicinity that they have received and have now on display, a carefully selected and magnificent stock of Fall and Winter styles of MILLINERY and FANCY GOODS, consisting of HATS, BONNETS, FEATHERS, FLOWERS, and all the latest Novelties of the Season, which will be disposed of at rare bargains at least 25 per cent. cheaper than ever before offered in this market. Ladies will find that they can purchase a "perfect love of a hat," of the latest Parisian design, at moderate figures, by calling on Mrs. Norton & Kendrick; which is more desirable than paying the fancy prices for inferior work that are asked by Columbus and other "City Milliners." Oct. 12th.

The Excitement Over.

The new improved Davis Vertical Feed Sewing Machine is scarcely less than the great Democratic victory in Ohio. It does away with the old fashioned four motion under feed. It does a greater variety of work with less labor than any other machine. It is less complicated and more durable than any other machine. It will do more fancy work than any other machine. It is adapted as well for the manufacture of clothing, as the Dress Maker as well as the family. All are invited to call and see the Davis before purchasing any other machine. Office opposite the Post Office, Mt. Vernon, Ohio. Oct. 12th.

A Grand Excursion to South Eastern Kansas.

Will leave Mt. Vernon via R. & O. R. R. Tuesday, October 16th, 1877, at 3 p. m. This will give parties that intend going to Kansas a good opportunity to see the famous and beautiful Cherokee Indian Reservation, which the Mo. R., P. & G. R. R. are now selling from \$2 to \$8 per acre, in ten years time. This Excursion will go thro' the greatest wheat and corn country in the West. For information and tickets apply to W. A. SILCOTT.

Brooklyn Travel.

Passengers for Brooklyn, New York, via the Pan-Handle and Pennsylvania line, are now transferred by steamboat direct to Fulton street wharf, Brooklyn, immediately on arrival at Jersey City, thus avoiding the two ferries and the disagreeable transfer across New York City. This will be a very great convenience for Brooklyn travel.

I heard of your Medicated Crackers and have been using them about six weeks, and have been relieved of the numbness in my leg, the dizziness, and am beginning to feel again like a new man, and hope in a short time, by the continued use of the Medicated Crackers, to be entirely well. The citizens were determined to lynch Kelly.
