We haven't seen a bit of gold since the election.

The Bank of England has fixed the rate of interest at 3 1/2 per cent.

Cuyaboga county thus far gives Hayes a majority of 6,048, and the count is still going on.

Notwithstanding the election of Hayes, failures in the Eastern cities, are abundant as ever.

Hayes ran a little better than Allen in the State, but the dogs—we mean the dog tax—outrun Hayes.

The Radical papers all tell us that "the Rag-Baby is dead." Then, for conscience's sake, let it lie in peace.

The Democrats of Iowa and Nebraska had a Hard Money plank in their platform, and yet they were badly beaten.

The New York and Pennsylvania elections came off on the first Monday in November. Look out for—well, wait and see.

As the next Legislature will be Republican, we will now see if they will repeal the Gage Bill. Come, gentlemen, no dodging!

We pity the poor man who voted the Republican ticket on the 18th, under the promise that his family would be taken care of during the winter.

The first installment of the "better times" and "renewed prosperity" promised by the Radicals, is the reduction of wages in the Pittsburgh Iron Mills.

Mack, of the Sandusky Register, a very clever gentleman and an earnest Republican, but who never "mixed his drinks," has been defeated for State Senator.

The Radicals say that "the people of Ohio ratified specie resumption" on Tuesday week. Very well, let it come. We will be glad to get a hat full! Shell out!

People who voted for Hayes have no right to complain of the scarcity of money and want of work. They haven't come down to hard pan yet. You only see the beginning of the end!

The rural districts stood by the Democracy nobly at the late election. It was in the large cities, where the money influence was brought to bear, that the Democracy were overwhelmed.

It will now be in order for the Reverend Hamilton to write an article about the "Whisky Republicans." He can get all the information he wants from any of the leaders in Mt. Vernon.

Bascom Cassel refused to go into the Radical Whisky Ring, and hence he only received a straight Republican vote. He would rather be beaten than to receive success by such disreputable means.

If some people who talk so sneeringly about "Rag Money" and the "Rag Baby," would "expand the volume of currency" by paying their honest debts, it would be much more to their credit.

The editors of the Columbus Journal and Dispatch are calling each other "blackguards," "idiots," "foegers," etc.—Why not call "cross-eyed parallelograms" and "knee-knocked right angled triangles?"

The Bondholders made a good investment when they employed Carl Schurz to stamp Ohio in their behalf. Their Coupons still command Gold, but the poor man will be glad to get Greenbacks for his labor.

The election in many parts of the State is regarded by the women as a Crusade victory. It is not so considered, however, in Mt. Vernon, as nearly the entire "whisky interest" was enlisted on the side of the Radicals.

The cable telegraph reports that the London papers are unanimous in their expression of satisfaction at the result of the October election in Ohio. These papers, of course, speak for the British Bondholding aristocracy.

Those fellows who sold themselves and their votes for Radical money and whisky will do a favor to all decent people by remaining hereafter with their new friends. The Democracy don't want such lunatics on humanity.

The Columbus Journal will now be happy. "Private Dalzell" has been elected to the Legislature by the Republicans of Noble County, and will do doubt be the Republican leader in that body. Dalzell is one of Conly's pets.

We entirely agree in opinion with the New York Sun that if the Democracy of Ohio had made a contest on the square issue of administrative reform and the overthrow of Gratiam, they would have carried the State by at least 30,000 majority.

Many poor men who voted the Radical ticket under a pledge that their families would be taken care of during the winter, already begin to discover that they were lied to and cheated. They will be fully satisfied on this point before the winter is half over.

Tramps are around again in great numbers, and the indications are that the country will be swarming with them during the coming winter. As the Radicals have promised to give us "honest money" and good times, of course they will take care of these wandering Arabs.

The Springfield Republican nominates Rutherford B. Hayes, of Ohio, for President, and Stewart L. Woodford, of New York, for Vice President; and the Columbus Journal responds: "So says we all!" If that Postmaster's head don't come off, we shall be surprised.

If the Catholic question had been ignored, as Mr. Halstead desired, where would his Western Reserve vote have been?—Aron Bacon (Rep.)

That tells the whole story. The Radicals knew they were beaten on the Currency question, and hence they dragged in the hugar about the Pope and the Schools to alarm the Puritans on the Western Reserve. Behold the result.

The Future of the South.
Ex-Gov. Seymour wrote as follows in a letter declining an invitation to attend the Georgia State Fair: "In five years from this time the census will show our numbers to be more than 50,000,000. The day, then, is dawning when the lands of the South will be greatly lifted up in value. I have given much time and thought to the agricultural condition of the United States. I have traveled extensively, and I have examined with care into the industrial interests of all sections, and I am confident that hereafter the South will get a large and growing share of those who are seeking new homes either from Europe or from the older States of the Union. This flood-tide will bear with it wealth and varied industries. I pray for the day when the South shall be prosperous in all its pursuits, for until it is so there can be no assured prevailing welfare in other sections of the Union."

Toledo Election. The result of the late election, brought about by bribery and fraud, should make Democrats draw closer to each other than ever before, for while the fruit of victory are in the hands of our enemies, the Democrats are in the condition of the Union forces at Chickamauga who while being compelled to leave their dead and wounded on the field, were strong enough to re-organize and win victory at Mission Ridge. We have in the late election the proof that we are strong enough in Ohio to re-organize at once and bear the Democratic flag to victory in the Presidential battle. Let no Democrat be discouraged because the Republicans have elected a Governor by one fourth of one per cent of the whole vote cast, and obtained their bare majority by basely lying about the Democratic party on the school question, for just as certain as the sun shall rise and set the Democrats will carry the State of Ohio for President, if the party remains intact and makes no change of base. If the party sticks to the cause of the people, the industrial masses will give it victory.

There is a "blue stocking" Presbyterian Democrat in one of the Eastern townships in this county, who would not go to the polls to vote, assigning as a reason, that he had heard (from some lying Radical of course) that the Democrats had allowed the Catholics to erect an altar in the Penitentiary! That same gentleman stopped the BANNER during the war, because we did not take the side of Jeff. Davis and the South; and he has probably taken no other Democratic paper since, it was a very easy matter for him to be imposed upon by unprincipled political tricksters.

Pittsburg Post: We hope the preachers of Ohio who mounted the pulpit for Hayes and urged his election on the ground that the free schools would certainly be abolished if Allen was elected, will turn their attention to the Gospel and preach a few sermons in reference to bearing false witness against their neighbors. People who have very little religion of their own are generally the most concerned about other people's.

The Washington National Republican, Administration organs says that the Pope's toe had more to do with the result in Ohio than the majority of hard-money Republicans are willing to admit. It adds that the hard-money plank was not sufficiently popular to win the election, and the Republican party would have been defeated if it had not assumed the same position as was taken by Grant in his speech in Des Moines, Iowa.

An expert in fine penmanship recently managed to write several thousand words on a postal card, and the smart country postmaster where it was mailed thinking this altogether too much writing to be carried around the country for one cent, sent it to the dead-letter office. It was returned with the decision that it makes no difference how much a man writes if he only gets it all on one side of the card.

The Pennsylvania election takes place on the first Monday of November. The Democracy feel very confident of their ability to carry the State, from the fact that the great mass of the people are miners and manufacturers, who feel the pressure of Radical hard times, and will vote as they did in the mining and manufacturing districts of Ohio. The "Pope's Toe" don't frighten people over there.

The New York Graphic (Grant organ) says: "We have reason to believe that thousands of letters were sent to Ohio by the Democrats of this and other States urging the defeat of Allen at all risks." There is no doubt but the Democratic Bondholders of New York, did every thing in power to defeat Allen. It was with them a question of dollars and cents and not principle.

An exchange says that among the first acts of the next Democratic House of Representatives will be to follow up and punish Clews. It is highly probable that several "clews" will be followed up before the Democratic House shall conclude its labors, and if we are not mistaken some of them will be found to lead into the White House.—(Detroit Free Press.)

The report of the Commission appointed to investigate the charge of mismanagement in the Red Cloud Agency, preferred by Prof. Marsh, made its appearance on Tuesday; and as was expected, the calculating brush was freely used upon the great and good Delano, and he is made to appear as pure and spotless as an angel.

The New Sun: Mr. Beecher preached damnation squarely last Sunday. Yet the Good Book sends auditors to the fiery lake. The escape provided by the gospel, Mr. Beecher, is in repentance and confession. But do you really believe in a hell, or are you only talking for effect?

There was a great deal of flour, potatoes, greenbacks and whisky distributed by the Radicals of Mt. Vernon just on the eve of the late election; but that kind of business ceased as soon as the votes were counted out. Come, gentlemen, don't go back on your friends in that way.

And still the leading Republicans are not happy, because the majority for Hayes—obtained as they know and generally admit, by a base fraud on the school question—is so small as to leave no doubt but what they will lose the State in the Presidential election.

Mr. Alexander H. Stephens says his chief object in coming North to lecture this Winter is "to do good in bringing about a better state of feelings and a better understanding between the people of the different sections of our great and common country."

ELECTION NOTES.
The Democratic majority in Fairfield county is 1537.
Crawford gives Allen 1769 majority, a Democratic gain of 182.
Perry county gives Allen a majority of 953, being a Democratic gain of 475.
Official vote of Anguila county, 1773 Democratic majority; Democratic gain 420.
Allen's official majority in Coshocton county is 532, Republican Representative elected.
7836 votes were cast in Seneca county at the late election. Allen's majority over Hayes 694.
The Democracy of Little Holmes gave Allen a majority of about 1800—carrying every township in the county. Well done, Holmes!
The Democracy of Tuscarawas county elected their entire ticket by majorities ranging from 329 to 1015. Allen's majority was 779.
Mahoning county, where a large number of miners and iron manufacturers are employed, made a Democratic gain of 688. Good enough.
The Democracy of Licking county, notwithstanding the efforts of a few sore-heads and tricksters, did nobly. Their majorities average about 1500.
Had Hamilton, Cuyaboga, Franklin and Lucas counties done as well as usual, the Democracy would have carried Ohio by a majority of 10,000.
Stark county, 850 majority for Allen, a gain of 248. O. R. Haines, Senator from Stark and Carroll, Democrat, is elected.—The entire Democratic county ticket is elected by majorities ranging from 150 to 500.
Sandusky county, the home of Hayes, gave Allen a majority of 744, and elects the entire Democratic ticket by a similar vote. Hudson, for Senator, lends Mack 383.
Franklin county went back on the Democratic ticket about 1000 votes. Allen's majority over Hayes only 1108. Number of votes 14,397, the largest ever cast in the county.
Allen's official majority in Wayne county is 454, and the entire Democratic ticket has been elected by a similar majority.—778 more votes were polled than ever before in the county.
The total vote of Crawford county was 5343, of which Allen received 3834, Hayes 2065, Odell 44. Allen's majority 1768.—The Democratic carried every township in the county but two.
The majority for Hayes over Allen in Morrow county is only 130. The Democrats have elected their candidates for Probate Judge, Auditor and Commissioner. Well done, Morrow.
The Democracy of Champaign county have elected Bloie, their candidate for Treasurer, by 265 majority. Hayes' majority over Allen is 487, which is a Democratic gain of 200.
The Democratic ticket in Erie county has been elected with the exception of the candidate for Probate Judge. Erie has always been a Republican stronghold.—Schurz didn't buy up the German vote there.
Deerfield township, Warren county, claims the banner. At the late election it cast 526 votes. Democratic majority 104, being a Democratic gain of 110. In no other township in Ohio can be equal there.
Ross county, Gov. Allen's home, did badly at the late election, his majority being only 299, while it was 647 two years ago. The Advertiser says the National Bankers have complete control of the county.
In Summit county (outside of Akron) 8110 votes were cast at the late election, the majority for Hayes being only 415.—The vote of Akron was 2791, the largest on record—Republican majority 410, or 855 in city and county.
Montgomery complete gives Allen 822 majority, and Cary 579. One Republican and two Democrats are elected Representatives. A Democratic Senator is elected in the district. The Soldiers' Home polled 1200 votes, giving Allen a majority.
The Newark Advocate says: "The heaviest frost of the season thus far, was on Monday night. The bright sun and heavy vote of the succeeding day caused a sad wilting of the hopes of sundry local sore-heads and disorganizers."
Allen's majority in Muskingum county is 302. We congratulate Bro. Irvine, of the Zaneville Signal upon his election to the office of Auditor, by a majority of 282. Muskingum is now firmly rooted among the reliable Democratic counties in the State.
The Cleveland Plain Dealer states that the Lutheran and Presbyterian Germans of that city voted a straight Republican ticket on account of the "Pope's toe," which explains the Democratic losses in many of the wards.
The "Loyal Oranges" of Cleveland had a grand parade on Thursday, in honor of the election of Hayes. President Grant and "William the Third, the Prince of Orange" were lauded, and the "Battle of the Boyne" fought over again. What consummate folly!
The Stark County Democrat comes to us decorated with six rosettes, lustily crowing over the grand Democratic triumph in Old Molly Stark. Nearly 13,000 votes were cast. The entire Democratic ticket except Probate Judge and Commissioner, was elected by majorities ranging from 152 to 900.
The majority for Hayes in Delaware county is 127; Young beats Carey 49, and Williams beats Greene 81. The Democracy have elected the Probate Judge, Treasurer, Clerk, Commissioner, and Inferiary Director, and the Republicans the balance of the county ticket.
Bro. Gleason brings out his roster to crow over the result in Richland county, and well he may, for Allen received a majority of 765, being a gain of 144. The entire Democratic county ticket is elected by majorities ranging from 640 to 121. Bullly for Richland. Gold bribes didn't win up there!

Radical Frauds. The pitiful falsehood of the Republicans papers concerning an alleged correspondence between Hon. John G. Thompson and Mr. Dodd, of Toledo, which would have been innocuous and natural enough even if it had passed, and the howl of fraud, etc., come with an ill grace from the party that cast forty thousand votes in Cincinnati, when by its own declaration 36,000 votes could not lawfully be cast in the city; that rolled a gain of 800 and a majority of 1,200 votes in a ward in Cleveland, which only polled 1,300 votes; that brought repeaters from four or five States to help "the cause"; that has procured the election of Hayes by wholesale fraud and corruption in our large cities. The Republicans talking dolefully about cheating!

A Famous Medical Institution.
From the Chicago Times.
"The name of Dr. R. Pierce, of Buffalo, N. Y., has become so familiar to the people all over the country as a 'household word,' that a whole-page communication from Dr. Pierce, and our readers may gain from it some idea of the vast proportions of his business and the merits of his medicines. He has at Buffalo a mammoth establishment, appropriately named 'The World's Dispensary,' where patients are treated, and the remedies compounded. Here nearly a hundred persons are employed in the several departments, and a corps of able and skilled physicians stand ready to alleviate the sufferings of humanity by the most approved methods. These physicians are in frequent consultation with Dr. Pierce, and they combine their experience is brought to bear on the successful treatment of obstinate cases. The Doctor is a man of large medical experience, and his extensive knowledge of materia medica has been acknowledged by presentations of degrees from two of the first Medical Colleges in the land."
If you would patronize a Medicine, scientifically prepared by a skilled Physician and Chemist, use Dr. Pierce's Family Medicines. Golden Medical Discovery is nutritious, tonic, alterative, and blood-purifying. Extract of Sarsaparilla is a powerful remedy for skin diseases, and is a reliable and safe remedy for Pain, Bile Complaints, and an unequalled Liniment for both human and horse-flesh; while Dr. Sage's Cathartic Remedy is known the world over as the greatest specific for Constipation. "Colic in the Head" ever given to the public. They are sold by Druggists.

How the Democrats Talk in Pennsylvania.
The Democrats are by no means discouraged over the result of the Ohio election. Read what the Philadelphia Times says:
Pennsylvania has born of her own political necessities, the most vital issues presented for her arbitrament, which were unfelt and comparatively unknown in Ohio. If to the Democracy such a prompt rally its legions by bold, aggressive warfare, such as the cause deserves, and demands, the Ohio war will spread harmlessly over the sands of our shores, and half-way to the judgment of the great God of the Universe. No temporary, half-work will meet the emergency, no dress parade will win the battle that is now upon us. There must be assault upon assault, charge upon charge, and bayonet must lock bayonet, if the people of Pennsylvania would vindicate themselves from those who have flung shame and oppression upon them. The Cameron prodigies and the Platteau reactionaries front us here, and their presence in the lead of the conflict searchingly appeals to the integrity and patriotism of every citizen who would have an honored government and a prosperous people.

Suicide of a Tiffin Banker.
Tiffin, O., Oct. 15.—This evening, about half past five, John T. Huss, cashier of the First National Bank, shot himself through the heart at his residence, in his room, while the family were at supper. Hearing the report of the pistol in the bedroom, the family rushed in and found Mr. Huss in bed, dying, with a pistol in his hand. The cause of the act is the financial embarrassment of himself and bank. Many rumors are current on the street that the bank will suspend, but it is believed that the stockholders, who are able men, will avert the storm and the bank be sustained. There is great excitement among business men, but on consultation with the leading financiers, it is believed that the most of the manufacturers of the city keep accounts at the bank, and much interest is felt.

A Terrible Tragedy.
SANDY BEACH, MICH., Oct. 11.—A terrible tragedy occurred one mile south of Verona, in this county, Sunday morning, in the family of John Noonan. The child had gathered in the night before in good humor made considerable noise, dancing, etc., after the old man had retired. He lay in bed, dying, with a pistol in his hand. The cause of the act is the financial embarrassment of himself and bank. Many rumors are current on the street that the bank will suspend, but it is believed that the stockholders, who are able men, will avert the storm and the bank be sustained. There is great excitement among business men, but on consultation with the leading financiers, it is believed that the most of the manufacturers of the city keep accounts at the bank, and much interest is felt.

After reaching "neutral territory," they went to work in earnest with their guns and lines, and the result of the two day's sport was the capture of 65 ducks and 300 fish, including perch, bass and pike. One after another, they hooked 150 fish. Upon returning home on Friday, they distributed their game very liberally among their friends, not forgetting the BANNER office.
Sabbath School Circular.
GALTON, O., Oct. 15, 1875.
The Sabbath Schools of Ohio are hereby respectfully reminded that the State Sabbath School Union kindly asked that each school in the State, on the first Sabbath in September, give to the State Sabbath School Union a donation to the amount of at least one cent for each member of the school. Some schools have responded nobly, to whom many thanks are due. Others, owing to political excitement, and other causes, have neglected it. The Association still looks to you, fellow workers for this much needed help. Please collect and send to the Treasurer, Mr. William M. Reid, Bucyrus, Ohio, without unnecessary delay, if you have not already done so.

One Hundred Years Ago.

The Centennial Tea Party at Banning's Hall.

A DELIGHTFUL AFFAIR.

Some Ancient and Interesting Relics.
The social event of last week, was the Centennial Tea Parties, which took place at Banning's Hall, on Thursday and Friday evenings of last week, under the auspices of the ladies of the First Presbyterian Church. To say that the whole affair was a grand success, but to describe the numerous expressions of all who were present on the evenings in question. There was but one drawback to the fullest enjoyment of the occasions, and that was the incapacity of the Hall to accommodate the vast concourse of people who were in attendance; but so admirable were the arrangements that few, if any, were compelled to leave without being served.
The Hall was beautifully and tastefully decorated with evergreens, flags and pictures, and the entire length of the Hall on the North and South sides, was occupied by booths, representing the thirteen original Colonial States. These booths were formed of a light framework of wood, over which were hung in graceful folds lace and damask window curtains, and contained a table and chairs, and were presided over in each instance, by three or more ladies, who were attired in the ancient costumes in vogue in "our grand-father's days."
Over the booths were the names of the States they represented, and the ladies in charge aimed, as near as possible, to conform with the manners and customs of the people who inhabited our country in its infancy. Old chests and attics were ransacked, and old-fashioned dresses, shawls, capes, head-gear, &c., &c., that had not seen the light of day for years, were brought forth, the dust shaken from their folds, and put in condition to be serviceable for the occasion.
When the hour arrived for the "party" to open, the Melitabes, Jerushas, Prudenices, Charities, Temperances, and so on, were assembled together, dressed in their long-waisted, high-cut, hoopless dresses, and hair a la mode—powdered or secured by turtle-shell combs, that resembled hair. While some of the "girls" were gaily dressed in the Henshaws, Jeddahs, Obidias, and others "old-time's," more prudish damsels, kept close to the sides of their equally prudish mammas, and contented themselves with occasional and furtive glances at the "guests."
At 8 o'clock, the announcement was made that George and Martha Washington, en suite, had arrived, and a passage way was made for them through the crowd. The "Father of his Country" was personated by Mr. Edward Fawcett, and his true-or-false, by Miss Fannie Oberst, both being attired in appropriate costumes and represented their characters very well indeed. Thomas Oberst and John Wyker acted as Ushers, and the party promenade to the East end of the Hall, where a "Reception" took place, and was the source of much amusement and pleasure to the lookers-on—the participants doing their parts in a dignified and graceful manner.
Among the personages represented at the reception were, "Wm. Penn." by W. P. Bogardus; "Mrs. Gen. Braddock," by Mrs. Bogardus; "John Adams," by W. Miller; "Benjamin Franklin," by Mr. Weeks; "Brother Jonathan and wife," by J. A. Tilton and Miss Fannie Blanchard; a "French Ambassador," by Mrs. Ewalt; "Mrs. Artemus Ward," by Mrs. J. A. Tilton. There were several others whose name we did not learn.
After the "Reception," the booths were thrown open to the "guests," who were before the hour arrived for dining, pretty well relieved. The "bill of fare" was so unique in design and composition, that we append it, so those who failed to attend can read, and regret their absence:

"Rebecca at the Well," represented by Miss Anna Mead, on Friday evening was a beautiful and attractive scene. A miniature well was constructed, covered with mosses, ivy and vines, and Miss Mead, arrayed in flowing robes, sandals and turban, presided with easy grace and true Oriental style.
Perhaps the most interesting feature of the evening's entertainment was the "Museum," that contained all the ancient relics and curiosities that could be gathered together for the occasion. We append a list of the relics and the names of the exhibitors, and are sorry that lack of space prevents us from giving a detailed description of each article on exhibition. The Way to Judge of Wool on a Live
Sheep.

The finest and softest wool is always
found on the shoulder of a sheep. But not
one person in 10,000 is aware of this fact.
Let us watch an expert when he is about
to pass judgment on a sheep concerning
the value of the animal for producing wool,
and it will be seen that he always looks at
the wool on the shoulder first. A writer
of extensive experience in rearing fine-
wooled sheep and in handling wool, com-
municates the following advice on the
selecting a good wooled sheep: "Always
assuming that the wool to be inspected is
really a fine wool, we first examine the
shoulders at the part where the finest and
best wool is usually found. This we take
as the standard, and compare it with the
wool from the ribs, the thigh, the rump
and the shoulder parts, and the nearer the
wool from the various parts of the body
approaches the standard the better. First
we scrutinize the fineness, and if the result
is satisfactory, we pronounce the
fineness in respect to the length of the
staple, and if we find that the wool on the
ribs, thigh and back approximates reason-
ably in length to that of our standard, we
again declare that sheep, regarding length
of staple, true and even. We next desire
to satisfy ourselves of the density of the
wool, and if we do this by closing the
hand upon a portion of the rump, and of
loosening the fleece at these points, being
usually the thinnest and faintest, and if
this again gives satisfaction, we signify the
fact by designating the wool "even" as
representing density. Now we summarize
these separate examinations: If you find
the fleece of equal fineness from the
shoulder to the thigh, of nearly equal
length, shoulder, ribs, thigh and back, and
density on shoulder and across the loins,
you may conclude that you have a perfect
sheep for producing valuable wool. Se-
lecting sheep for valuable fleeces is quite
another thing."—*Trade Journal*

Public Report

OF A
POLICEMAN.

I HAVE NOT enjoyed good health for
several years past, yet have not allowed it
to interfere with my labor. Every one belonging
to the laboring class knows the inconvenience
of being obliged to labor when the body, from
debility, almost refuses to perform its daily
tasks. I never was a believer in doing with
medicine, but, having heard the Vegetine
spoken of so highly, was determined to try it,
and shall never regret that determination. As
soon as I commenced using it, I felt a relief
I never experienced before. It is a great
cleanser and purifier of the blood. There
are many of my acquaintances who have taken it,
and all unite in praise of its satisfactory effect.
Especially among the aged class of people,
it imparts to them the one thing most needful
in old age—health of mind and body. There-
fore, strengthen the mind as well as the body.
One aged lady, who has been suffering from
life from rheumatism, and has become blind from
its effects, having tried many remedies with-
out favorable result, was induced by friends to
try the VEGETINE. After taking a few bot-
tles, she obtained such great relief that she ex-
pressed a wish for her sight, that the night be-
fore she was able to look upon the man who had sent her
a blessing. Yours respectfully,
O. H. P. DURANG, Police Officer, Station 6,
BOSTON, Mass., May 9, 1871.

Heartfelt Prayer!!

SAINT PAUL, MINN., August 22, 1861.

H. R. STEVENS, Esq.,
Dear Sir—I should be wanting in gratitude
if I failed to acknowledge what the VEGETINE
has done for me. I was attacked about eleven
months since with Rheumatism, which settled in
to consumption. I had night sweats and fever
chills; was distressed for months, and fre-
quently spit blood; was all emaciated; very weak,
and so low that my friends thought my case
hopeless. I was advised to make a trial of the
VEGETINE, which, under the Providence of
God, has cured me. That he may bless the use
of your medicine to others, as he has to me,
and that his divine grace may attend you, is
the heartfelt prayer of your admiring, humble
servant, HENRY PETTIBOND.

MAKE IT PUBLIC.

SOUTH BOSTON, Feb. 9, 1871.

H. R. STEVENS, Esq.,
Dear Sir—I have heard from very many
sources of the great effects of the VEGETINE
in cases of Rheumatism, Kidney Complaint,
Pain, Catarrh and other diseases of kindred
nature. I make no hesitation in saying that I
know VEGETINE to be the most reliable
remedy for Catarrh and General Debility.
My wife has been troubled with Catarrh for
many years, and at times very badly. She has
thoroughly tried every supposed remedy that
we could hear of, and with all this she has for
several years been gradually growing weaker,
and the discharge from the head was excessive
and very offensive.

Yard for Pigs.

I believe that one great reason why pigs
do not prove more profitable on a great
many farms is because they do not have
enough clean yard room in which to run
and range. Too often they are confined to
a small pen and are small yard, and of
which are dirty. They have not even a
clean glass pot, or grass or other green
food to eat, but must constantly stay in a
filthy yard or pen. For large hogs, this
restriction is injurious, but for little pigs
it is very much worse. Young animals
want liberty to exercise their muscles and
clean grass on which to feed. A few farmers
let their pigs run out at will, but they are
not apt to do a great deal of mischief.

One of my neighbors, who raises a great
many pigs, used to let them run into my
garden, corn and potatoes, tread down my
grass, and they did great deal of damage
to my crops; but he has now had nice pigs,
and there was no evident reason except
that he allowed them full liberty out of
doors. Now, I do not approve of having
a drove of pigs running through gardens
and crops, but I think it would pay even
small farmers to fence in an eighth or a
fourth of an acre of land adjoining their
yard, and let their pigs run a part of
the time every day in this enclosure.

When they get large enough to roll tur-
key land, they can be shut into their own
yard or have the tendons of their noses cut
or rings put in to keep them from doing
mischief. But whether it is used for
large hogs or not, it will certainly pay
farmers who raise many pigs to furnish
them such a yard.—*Chr. Buffalo Live

Ten Rules for Farmers.

1. Take good papers and read them.
2. Keep an account of farm operations.
3. Do not leave implements scattered
over the farm, exposed to sun, rain and
heat.
4. Repair tools and buildings at a
proper time, and do not suffer subsequent
threefold expenditure of time and money.
5. Use money judiciously, and do not
attend auction sales to purchase all kinds
of trumpery because it is cheap.
6. See that fences are well repaired and
cattle not grazing in the meadows or grain
fields or orchards.
7. Do not refuse to make correct experi-
ments in a small way of many things.
8. Plant fruit trees well, care for them,
and of course get good crops.
9. Practice economy by giving stock
shelter during the winter, and good food,
taking out all that is unsound, half rotten
or moldy.
10. Do not keep tribes of cats and snar-
ling dogs around the premises, who eat
more in a month than they are worth in a
lifetime.

A Good Remedy for Galls.

A good application for a gall of any
kind, whether it be on a horse, an ox or a
man, is prepared and used as follows:—
Dissolve one ounce of saltpetre, one ounce

PUBLIC REPORT

OF A
POLICEMAN.

I HAVE NOT enjoyed good health for
several years past, yet have not allowed it
to interfere with my labor. Every one belonging
to the laboring class knows the inconvenience
of being obliged to labor when the body, from
debility, almost refuses to perform its daily
tasks. I never was a believer in doing with
medicine, but, having heard the Vegetine
spoken of so highly, was determined to try it,
and shall never regret that determination. As
soon as I commenced using it, I felt a relief
I never experienced before. It is a great
cleanser and purifier of the blood. There
are many of my acquaintances who have taken it,
and all unite in praise of its satisfactory effect.
Especially among the aged class of people,
it imparts to them the one thing most needful
in old age—health of mind and body. There-
fore, strengthen the mind as well as the body.
One aged lady, who has been suffering from
life from rheumatism, and has become blind from
its effects, having tried many remedies with-
out favorable result, was induced by friends to
try the VEGETINE. After taking a few bot-
tles, she obtained such great relief that she ex-
pressed a wish for her sight, that the night be-
fore she was able to look upon the man who had sent her
a blessing. Yours respectfully,
O. H. P. DURANG, Police Officer, Station 6,
BOSTON, Mass., May 9, 1871.

Heartfelt Prayer!!

SAINT PAUL, MINN., August 22, 1861.

H. R. STEVENS, Esq.,
Dear Sir—I should be wanting in gratitude
if I failed to acknowledge what the VEGETINE
has done for me. I was attacked about eleven
months since with Rheumatism, which settled in
to consumption. I had night sweats and fever
chills; was distressed for months, and fre-
quently spit blood; was all emaciated; very weak,
and so low that my friends thought my case
hopeless. I was advised to make a trial of the
VEGETINE, which, under the Providence of
God, has cured me. That he may bless the use
of your medicine to others, as he has to me,
and that his divine grace may attend you, is
the heartfelt prayer of your admiring, humble
servant, HENRY PETTIBOND.

MAKE IT PUBLIC.

SOUTH BOSTON, Feb. 9, 1871.

H. R. STEVENS, Esq.,
Dear Sir—I have heard from very many
sources of the great effects of the VEGETINE
in cases of Rheumatism, Kidney Complaint,
Pain, Catarrh and other diseases of kindred
nature. I make no hesitation in saying that I
know VEGETINE to be the most reliable
remedy for Catarrh and General Debility.
My wife has been troubled with Catarrh for
many years, and at times very badly. She has
thoroughly tried every supposed remedy that
we could hear of, and with all this she has for
several years been gradually growing weaker,
and the discharge from the head was excessive
and very offensive.

Yard for Pigs.

I believe that one great reason why pigs
do not prove more profitable on a great
many farms is because they do not have
enough clean yard room in which to run
and range. Too often they are confined to
a small pen and are small yard, and of
which are dirty. They have not even a
clean glass pot, or grass or other green
food to eat, but must constantly stay in a
filthy yard or pen. For large hogs, this
restriction is injurious, but for little pigs
it is very much worse. Young animals
want liberty to exercise their muscles and
clean grass on which to feed. A few farmers
let their pigs run out at will, but they are
not apt to do a great deal of mischief.

One of my neighbors, who raises a great
many pigs, used to let them run into my
garden, corn and potatoes, tread down my
grass, and they did great deal of damage
to my crops; but he has now had nice pigs,
and there was no evident reason except
that he allowed them full liberty out of
doors. Now, I do not approve of having
a drove of pigs running through gardens
and crops, but I think it would pay even
small farmers to fence in an eighth or a
fourth of an acre of land adjoining their
yard, and let their pigs run a part of
the time every day in this enclosure.

When they get large enough to roll tur-
key land, they can be shut into their own
yard or have the tendons of their noses cut
or rings put in to keep them from doing
mischief. But whether it is used for
large hogs or not, it will certainly pay
farmers who raise many pigs to furnish
them such a yard.—*Chr. Buffalo Live

Ten Rules for Farmers.

1. Take good papers and read them.
2. Keep an account of farm operations.
3. Do not leave implements scattered
over the farm, exposed to sun, rain and
heat.
4. Repair tools and buildings at a
proper time, and do not suffer subsequent
threefold expenditure of time and money.
5. Use money judiciously, and do not
attend auction sales to purchase all kinds
of trumpery because it is cheap.
6. See that fences are well repaired and
cattle not grazing in the meadows or grain
fields or orchards.
7. Do not refuse to make correct experi-
ments in a small way of many things.
8. Plant fruit trees well, care for them,
and of course get good crops.
9. Practice economy by giving stock
shelter during the winter, and good food,
taking out all that is unsound, half rotten
or moldy.
10. Do not keep tribes of cats and snar-
ling dogs around the premises, who eat
more in a month than they are worth in a
lifetime.

A Good Remedy for Galls.

A good application for a gall of any
kind, whether it be on a horse, an ox or a
man, is prepared and used as follows:—

of carbolic acid, one dram, Wash the
parts clean three times a day, and apply
the ointment to the ulcer. It frequently
happens that a horse's feet become galled
or injured, causing lameness. For in-
juries of this kind, as well as for split-
hoof, great relief is afforded by standing
the animal in a warm bath of common
salt water is better than hard plank floor.
