Regulations of the Theological Seminary

ANY candidate for orders in the Protestant Episcopal Church in the United States, may, on examination, be received as a student in the Seminary; and any other person, who may give sufficient evidence of a fair moral and religious character. The candidates for admission, not Bachelors of Arts, will be examined in Latin and Greek Grammar, Sallust, Cicero's Oration, Virgil's Æneid, Jacob's Greek Reader, and the four Gospels and Acts of the Apostles; and on the general principles of Natural, Intellectual and Moral Philosophy, and Rhetoric. They will also be required to read an original composition.

Candidates for admission to an advanced standing, must pass an examination in the studies which the class they desire to enter, has pursued.

Every student, on admission, must subscribe the following declaration in the matriculation book of the Seminary:—

"We the subscribers, Students in the Theological Seminary of the Protestant Episcopal Church in the Diocese of Ohio, do solemnly promise, with reliance on Divine Grace, that we will faithfully obey the laws and prosecute the studies thereof, endeavor to promote the reputation and interests of the Seminary, and make daily effort by pious reading, self-examination and secret prayer, to cultivate all religious and moral dispositions and habits, and grow in those graces which should characterize the Christian and the Minister of the Cross."

The course of study occupies three years, including vacations, which are the same as in other departments.

The subjects of study during the Junior Year, are Hebrew, Biblical Geography, Biblical Antiquities, Septuagint, Historical Books of the New Testament, the Principles of Biblical Criticism and Interpretation, and the Antiquities of the Christian Church.

The subjects of study during the Middle Year, are Hebrew and Interpretation of the New Testament continued, Christian Ethics, the Evidences of Christianity, Systematic Divinity, and Ecclesiastical History.

The Senior Class is occupied with the study of the Scriptures, Systematic Divinity, Ecclesiastical History, Church Polity, the Composition and Delivery of Sermons, and the Duties of the Pastoral Office.

A weekly Exercise is conducted by the Professor of Sacred Rhetoric, in which the service is read, and a Sermon delivered by a member of the Senior or Middle Class,—and an Essay by some member of the Junior Class, in the presence of the Faculty. In addition to this exercise, each Student, once in two weeks, delivers an Extempore Sermon from a text previously furnished by the Professor.

Students are allowed to attend gratuitously, any recitations in Kenyon College which they may choose, provided they do not interfere with the appropriate duties of the Seminary.

A public examination of students takes place at the close of each year.

No charge is made for Instruction, Room rent, or use of Library. Indigent Students are aided from Scholarships, and from the funds of the Missionary and Education Committee of the Diocese.

The Seminary Library contains between five and six thousand volumes.

The following Societies exist among the students in Bexley Hall, viz :

RHETORICAL SOCIETY.—Exercises—Extempore sermon or address, and a debate by two of the members. Meetings weekly.

BEXLEY HALL MISSIONARY SOCIETY.—Object—Inquiry respecting Missions ; to establish Sunday Schools, and to employ other means of exerting a good moral influence in the vicinity of Gambier. Meetings semi-monthly.

A READING ROOM has been established in Bexley Hall, to which the Students have free access; and which is furnished with the principal religious periodicals.

English Grammar,	GREENE.
Geography,	MITCHELL.
Book-Keeping,	FULTON & EASTMAN.
Physiology (with Plates),	CUTTER.

Natural Philosophy,	SMITH.
Civil Engineering,	MAHAN.
Rail Road Curves,	HENCK.
Roads and Rail Roads,	GILLESPIE.

During the past year the Grammar School has been removed to Milnor Hall. This building, in which all School Exercises are conducted, is large and commodious, the Students' Rooms are airy and comfortable, and the grounds sufficiently extensive for purposes of recreation. A boarding-house is attached, at which the Principal and other Teachers, with the Students desiring to do so, take their meals.

Students belonging to this Department are permitted to attend Lectures and Recitations with the College classes, in such branches of study as they may desire and be qualified to pursue. It will be the aim of the Instructors to impart to students a sound, thorough, accurate and extensive business education.

Those wishing to study the French or German language, will have the opportunity. Tuition extra.

Weekly Rhetorical Exercises are held, in which all students of the Grammar School are required to participate.

Laws & Regulations of Kenyon College.

Candidates for admission to the Freshman Class are referred to the "Examination for Entrance," in Collegiate Course of Studies, for information respecting the studies in which they are expected to be prepared.

The stated examination for the admission of candidates, is on the day before Commencement annually; a supplementary examination, for the same purpose, is also held on the first day of each term; but students may be examined at other times, on application to the President.

Candidates, presenting themselves for examination, who may not have studied the prescribed course, will be admitted if they can pass a satisfactory examination in an equivalent portion of any other Latin and Greek Classics. Each student must be *thoroughly* acquainted with the grammatical construction of the English, Latin and Greek Languages. He will then realize the true benefits of Classic discipline in his College course, and be able to maintain a respectable standing in that department without engrossing so much of his time as to prevent his taking a full and complete course of pure and mixed mathematics. It is intended to make the examinations for admission especially searching in the elementary classics.

Candidates offering for *advanced standing*, will be examined in the studies of the College course corresponding to such standing.

No candidate is admitted into the Freshman class under *fifteen*; and even at that age, unless he is more than ordinarily mature he will find it rather difficult to meet all the requirements of his College course. *Sixteen* or *seventeen* is generally a better age, if proper attention has been paid in the preceding years, to the formation of good academic habits; and in that case, even two or three additional years are no objection. A proportionate increase of age is, of course, necessary for admission into the higher classes.

MATRICULATION.

No student even after his admission to *residence*, is allowed to *matriculate*, until he shall have sustained a satisfactory probation of *at least* twenty weeks, and established a personal claim to the confidence of the Faculty; failing in

which he is liable to be dismissed. Matriculation alone gives accredited membership in the Institution, and renders the student upon whom it is conferred a proper candidate for degrees and honors. Should any student after matriculation, abuse the confidence on which that act proceeds, he may be degraded, *i. e.*, reduced again to the condition of a Probationer, and then further disciplined as the occasion may require.

The conduct of undergraduates is marked and reported as follows:—

Absence from Church, or being tardy at Church, or egression from Church, without excuse, 2, under the head of Absence from Prayers; and absence from Prayers 1.

Absence from Recitation, or failure to prepare a lesson, without excuse, 1.

Being found by an officer at any play ground, shop, or eating-house, in study hours, or creating disturbance by boisterous conduct in or about the College building, in study or recitation hours, 1, to be reported under the head of "*Neglect of Study hours.*"

Twelve delinquencies during one Term will incur a private admonition, twenty-four a degradation from matriculation, of which the parent or guardian is to be informed, and thirty-six a suspension from College at the pleasure of the Faculty.

Any student having once been suspended for delinquency, may be dismissed, if twelve delinquencies accrue during any term within a year from the expiration of his term of suspension.

PATRONAGE.

Each student, after his admission, is required to choose,—and in failure to choose for himself within a reasonable time, the Faculty will nominate for him, some one of their number, to act as his *College Patron*. To this person, thus connected with him, he is at liberty, and is expected to apply, as to a friend, whenever his inclination or circumstances may lead him to seek advice or information on any subject connected with his academic standing and pursuits, or with his personal welfare.

The patron, on his part, is required to take an active concern in behalf of the client thus committed to his care:—exercising a parental guardianship over him, and giving him advice and caution as he may see occasion. In doing this he will consult the wishes of the Parents as well as the interests of the Institution, and will take care to be advised of both, as may seem necessary for his client's welfare, so long as he remains connected with the Institution.

ACADEMIC EXERCISES.

Lectures on Natural Philosophy, Chemistry, and Astronomy, will be delivered during the year by the Professor of Natural Sciences. And to those who desire it, a course of practical instruction in Astronomy and Experimental Philosophy, and the higher Mathematics, by the Professors of those departments.

The Students of the Senior Class will also receive demonstrations in animal and vegetable physiology, aided by the best modern achromatic microscopes.

RELIGIOUS WORSHIP.

Students are required to attend public services at Rosse Chapel, which is the parish church, twice on Sunday; and at morning and evening prayers in the College Chapel daily: also a Bible Class each Monday morning.

EXAMINATIONS AND PUBLIC EXERCISES.

There is a regular examination of all the classes at the end of each Term. That which takes place at the end of the Summer Term is called the Annual Examination, and is followed by the Commencement; the others are Term Examinations.

To attend and report on these examinations a standing Committee of nine is annually appointed by the Diocesan Convention. The final examinations, at the close of the year, are also usually attended by the Bishop.

Students who by sickness or any other unavoidable necessity, are prevented from appearing at the regular examination, may be examined *separately*; but no student, under any circumstances, is deemed to have made good his standing, or kept his term, till he has passed a proper examination.

MARKS OF SCHOLARSHIP.

Every student at each recitation is marked, according to his performance, from 0 to 10: the first symbol indicating a *total failure*, and the last a *perfect recitation*. When any one absents himself from a recitation, *if previously excused*, he is marked in proportion, *otherwise*, 0. Perfect recitations in any one subject during a whole term, give the *maximum* number attainable in that subject; and the performance of each student is estimated by the comparison of his actual number with that maximum. Parents are earnestly requested to have their sons prompt in attendance at the beginning of each Term, as absence at such time is highly injurious to the student, and materially affects his grade of scholarship.

A similar grade in *Conduct* is also made out at the end of each term.

founded upon the observance of the College requirements, as stated under the head of Matriculation.

LITERARY SOCIETIES.

These are two, viz: The Philomathesian and the Nu Pi Kappa. They meet weekly in their respective Halls, and possess, each of them, valuable and extensive Libraries. Occasional exercises are had by each of them in public.

Connected with the Grammar School is the Phi Delta Society, in successful operation. The members have access to the Libraries of the College Societies.

LIBRARIES AND TEXT BOOKS.

The Libraries to which students may have access, are as follows, viz:—

- | | |
|--|-------------|
| 1. The Library of the Seminary and College, containing 6,000 vols. | |
| 2. That of the Philomathesian Society, | “ 2,940 “ |
| 3. That of the Nu Pi Kappa | “ “ 2,500 “ |

STUDENTS' ROOMS.

The rooms are large, neatly papered, and furnished with a stove. Two students occupy one room, unless otherwise permitted; and are held accountable for damage to the room during their occupancy.

Each student must deposit \$1 with the College Treasurer at the beginning of each term, to cover breakage and incidental damages to the College Buildings; the balance, if any, to be refunded at the end of the year.

BOARDING, &c.

Board is furnished in private houses, at rates varying from \$1.75 to \$2.50 per week. Students board themselves at 90 cents per week.

Washing may be contracted for at one dollar per month, and *Fuel* costs \$1.00 per cord, delivered at the College.

COLLEGE EXPENSES.

To be paid to the Treasurer, *one-third* at the beginning of each Term, *in advance*,—*Tuition*, \$30,—*Room Rent*, care of Halls, Recitation Rooms and Chapel, and all other items, except a deposit for damages, \$4 per session, or \$12 per year. Total annual expense, exclusive of vacations, \$42.

Tuition in Grammar School, \$20 per year. Other items, the same as above.

INCIDENTAL EXPENSES.

For the same period of Forty Weeks, payable to individuals as they accrue, viz :—*Board* from \$26 to \$100. *Washing*, \$10. *Fuel and Lights* from \$8 to \$15. Total, from \$54 to \$125.

The estimate of *expenses*, exclusive of cost of Text Books, and furniture for rooms, will, therefore, be from \$96 to \$167 per annum, exclusive of vacations : and in Grammar School, from \$86 to \$157 per annum. When convenient, it will be well for students to bring from home bedding, towels, &c.

Parents are respectfully requested, for obvious reasons, to make their remittances, in all cases, through the College Patron, or in some way subject to his control; and to advise with him as to any allowance of money they may wish to furnish their sons, over and above the estimate here given.

During the past year valuable additions have been made to the Astronomical and Philosophical apparatus, the most of it made expressly for this College, and not surpassed in size and efficiency by that of any other Institution. The principal additions were a Plate Electrical Machine, of the largest size, the plate four feet in diameter, and mounted on a rosewood stand ; an Air Pump of the first class, likewise mounted on a rosewood stand, together with necessary auxiliary apparatus for various experiments. These two instruments were made for the College by Mr. RITCHIE, of Boston, and are most beautiful specimens of workmanship, and entirely satisfactory in their performance.

A large Achromatic Telescope, 7½ in. clear aperture, equatorially mounted, and moved by clock work, has also been erected, and is sufficiently powerful to exhibit all the principal objects of interest in the heavens. Many donations have also been made to the Geological Cabinet.
