# THE BANNER.

MOUNT VERNON, OHIO, OCTOBER 15, 1899.

## LOCAL BRIEVES.

Horse thieves are doing a splendid business over in Columbiana county.

There is some talk of establishing a steam laundry in Mt. Vernon, it being such a difficult matter to get washing done.

The job of gravelling Main street is nearly completed. It will now be one of the dryest and cleanest streets in Ohio.

Our friend J. P. Hossey, Esq., has been removed to Celina, Ohio, and has entered into the practice of the law with D. J. Callen, Esq.

Christmas comes on Sunday this year.

Now is the time to bring in your Fall advertisements.

The lady who wears a veil must not think it strange if she is thought to be ashamed of showing her face.

The trees show considerable change, which is more than can be said of our pockets.

Potatoes are abundant in the market and sell at 50 cents a bushel. Cheap enough.

It is estimated by the Commissioner of Agriculture that there will be \$150,000,000 bushels of corn less than a fall crop this year.

Rev. James Kent Stone, late President of Kenyon College, has written to friends at Columbus, Ohio, saying that he has become a Roman Catholic.

We this week received an order for the BANNER from Fort Bridger, Wyoming Territory, with the "spondonicks" enclosed.

That whole-sold lady Mrs. Rebecca Smith, of Jefferson township, has our thanks for a basket of the most delicious peaches we have tasted this year.

Some of our subscribers have promised us wood on subscription. We are now ready to receive it, so bring it along before the roads get bad.

Go to Baldwin & Warden's and get some of their fine cigars. They keep the best in town.

At Ashland, Ohio, one night last week, some unknown persons could do no better to show the devil in them than to cut to pieces and disembowel the cow of a poor German named Hart.

V. P. Wilson, of New Philadelphia, has gone to Kansas, to locate a colony on the Union Pacific Railroad.

We were honored by a call this week from our old friend JOSEPH ANKENY, Esq., formerly of Ankeny, Iowa, this county, but now residing at Rock Grove City, Iowa. He is enjoying health and prosperity in his Western home, and we are glad of it.

The Ohio Farmer estimates that the corn crop in Northern Ohio, will not be more than one-third an average, with half a crop of fodder, and that the whole State will not yield much more than half a crop this year.

Messrs. Harrod & Roberts, the gentlemanly Nurserymen of Sparta, Morrow county, have our thanks for a box of splendid grapes. These gentlemen, we are pleased to learn, are doing a fine business, and they well deserve success.

**Our Campaign Subscribers.**

Our contract with our Campaign Subscribers was completed last week; but we send this week's BANNER to all them, with the glorious news that the Democracy have redeemed Knox county. We hope that all our friends who have taken the paper during the campaign will consent to become regular subscribers to the "good old BANNER," and order the paper at once.

**Marriage Licenses.**

Licenses to marry the following parties were issued by the Probate Judge of Knox county, for the month of Sept. 1899:

John L. Higbee and Alice Martin.

John Davis and George F. Wright.

Charles E. Castel and Harriet Clemens.

David Grubb and Katie J. Sikot.

Daniel Randall and Mary E. Allen.

Sam I. Vail and Tamar Lewis.

Johnson Simmes and Harriet Floyd.

Theo. Garber and Martha A. Lee.

William F. Giffin and Laura J. Blue.

Leander Hanger and Christiana Hyatt.

John French Jr. and Mary B. Teagarden.

Jas. B. McKibben and Mary A. Worman.

John Kemble and Margaret A. Gardner.

Joseph Miller and Catharine Ryle.

Alfred R. McFetridge and Helen Richards.

John F. Gay and Mary A. Nevins.

John L. Black and Theodora J. Sapp.

**Election of Land Appraisers.**

The Democracy, on Tuesday, elected a large majority of the Land Appraisers in Knox county. Not only did our friends carry the close townships, but they succeeded in many of the Republican strongholds. In College township, Major Riley, the Democratic candidate, was elected by a majority of 35. In Howard, James White, Democrat, beat his Radical opponent, by a majority of 17; and in Wayne, Andrew Caton, Democrat, beat the big gun of Radicalism, E. Rowley, by a handsome majority. Everything is lovely, and the Radical goose hangs high in old Knox!

**Temperance Lecture.**

Mr. PUTNAM BRISTER, of Newark, a son of the late M. P. Brister, editor of the Newark Times, delivered a Lecture on the subject of Temperance, at the Presbyterian Church, in this city, on Wednesday evening. The audience was not as large as we expected to see, which is a bad sign for the Temperance cause in Mount Vernon. The Lecture was interesting, and gave great satisfaction to those who heard it.

Mr. Brister is quite a young man, being only nineteen years of age. He is a young gentleman of fine talents, and a pleasing speaker. He made a good impression upon all who had the pleasure of hearing him.

**Cleveland Business College.**

A horse is a horse, but who so stupid as to suppose an animal for which a seller takes a buyer at ten dollars, to be of the same quality and value of another sold by the seller at one hundred dollars? A course of study is a "course of study," but who so stupid as to imagine that one advertised by some rural aspirant, to teach which, including all departments, Penmanship, Arithmetic, Law and Accounts may possibly equip besides himself one or two assistants, to be measured with that of a large institution whose Faculty number from six to ten Teachers and Lecturers, and in the Union Business College of Cleveland the students enjoy the instruction of such teachers as E. F. Felton and Platt R. Spencer both evidently known in their respective departments—a sufficient guarantee we think of the claims of this highly respected school.

Go to W. C. Sapp & Co.'s and look at their stock of ladies' and children's shoes. You can save money.

## Masonic.

The Grand Lodge of Ohio met in Cleveland on the 19th of October, and upon that day there will be a grand procession, an oration by Rev. J. Kelly O'Neil, R. W. Grand Orator, and other appropriate exercises. Grand Master Henry Matthews in a circular issued to the various lodges throughout the State, says: "From the note of preparation which we already bear, the meeting of the grand lodge of Ohio, at Cleveland, in October, 1899, will be signalized by the largest assemblage of masons ever seen in the west." Commanderies from the principal cities in the State and elsewhere will be present, and the ceremonies throughout will be of the most imposing character.

## The Newspaper Cash System.

The Wisconsin editors have been holding a convention at which the proposition was broached for establishing a general news-paper system, out of the cash payments. Why not everywhere? It is the only prosperous way. Most of our country newspapers live half starved on the credit system. Our war correspondence for instance, during the late war cost us over a million in cash. We could afford it with our cash system, but where would we have been under the old credit system? Nowhere. Of all things in the world, newspapers call for cash system, and it is always the best for buyer and seller. "Mr. Speaker," once said John Randolph, "I have found the philosopher's stone. It is pay as you go."—N. Y. Herald.

## Sad Accident.

A letter from Belleville, Oct. 4th, to the Mansfield Herald, says: A sad accident occurred about four miles South of this place on Saturday, the particulars of which I send you as I have been able to get them. Mr. James Mowry, who drove a team for the purpose of getting produce of the farmers, stopped at the residence of Mr. C. Moore on Saturday afternoon, and while standing in his wagon engaged in weighing some butter, his horse (a peculiarly vicious one), ran instantly away, and Mr. Mowry was thrown from his wagon and sustained injuries which caused his death the same night. A daughter of Mr. Mowry was with him on the wagon at the time, but happily escaped slight injury. Mr. Mowry was a good citizen, and leaves a wife and seven children to mourn his irreparable loss. May they look to him for comfort who tempests the wind to the shore lamb and heareth even the young ravens when they cry. The people of the neighborhood gave evidence of their sympathy by attending the funeral in large numbers, notwithstanding the rain to-day.

## Cold Chain Lost.

A Ladies' Gold Neck Chain, about 18 inches long, was lost between the First Ward School House, and the corner of Gay and Gambier streets, about three months ago. The finder will be liberally rewarded by leaving the same at Baldwin & Warden's store.

W. C. Sapp & Co.'s stock of Black and Fancy Silks, Poplins, Merinos, Em-press Cloths, and all other styles of Dress Goods, is the finest in the City, and at the lowest prices.

Look out for a big crash on the 15th inst., at Arnold's.

W. C. Sapp & Co. are receiving daily a splendid stock of Fall and Winter Goods, in every variety.

## Cranberries.

I am and will receive through the season Cranberries. For sale by the barrel. G. C. LYBAND.

Go to Arnold's and buy the best quality of Silver Plated Spoons, Knives, Forks, Castors, Baskets, Ice Pitchers, &c. Cheapest in central Ohio.

W. C. Sapp & Co. are wide awake for trade. If you want good Goods, at bargain, don't fail to look through their stock.

## Every Young Man

in the country would be greatly benefited by a course of study at the Iron City College, and to those contemplating business life it is indispensable. Circulars containing full particulars on addressing the Principal, Smith & Cowley, Pittsburg, Pa.

Messrs. WOODWARD & SCHUBNER, wish to be distinctly understood that in consequence of Dr. Scribner's intended removal South, they will close out their immense stock of Drugs, Medicines and Fancy Goods, at from 15 to 20 per cent. less than former prices, viz: Articles formerly selling at \$1.00 will be sold at 85 and 90 cents.

Wanted, everybody to call and examine the best stock of Goods in the city, at W. C. Sapp & Co's.

Who does their goods belong to selling so cheap, at Arnold's?

Found, the place where you can buy Good Goods cheap, at W. C. Sapp & Co's.

If I want cheap Knives, and cheap Spoons, I go to Arnold's.

Don't fail to look at W. C. Sapp & Co's stock of cloths, cassimeres, jeans, twos and flannels, before you buy.

Must have money. Goods must be sold. Go and see the prices at Arnold's.

With Dyspepsia every is wrong—Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm; nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it, or it will become seated and confirmed, and life will be a burden and existence a curse. Planation Editors will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the luster in your eye will again be as bright as in your healthiest, happiest and most joyous days.

MAGNOLIA WATER.—Superior to the best improved German Cologne, and sold at half the price.

A. M. 1864, S. 2.—In the above year Seward & Bentley, Druggists, of Buffalo, N. Y., having observed the great demand for a good medicinal Bitter, and being satisfied that most, if not all the Bitters sold were not such as could be conscientiously recommended by the Physicians and Druggists, determined to prepare such an article so much needed by the debilitated. Selecting such roots, barks and herbs as were known by the Profession to be really good, and combining them in a proper form, using the purest of the medicinal lot of Edgar Wilson, near this city, belonging to John Finello. The owners of run around dogs, had better be careful. They might be called on to foot the bill.

Some boys hunting in the woods near Manhattan, close to Toledo, on Tuesday afternoon, came upon the dead body of an unknown man lying upon his back, still warm, who had either shot himself, or been shot in the mouth, the ball taking off part of his face and doubtless producing instant death.

**WANTED—Agents for OUR FAMILY PHYSICIAN.**

JUST PUBLISHED IN EVERY FAMILY, and so cheap that all can afford it. It is a handsome octavo of 342 closely printed pages, containing the matter of a 50 volume, but is sold at \$2.00. It differs from all similar works, by giving the different modes of treatment—the Allopathic, Homoeopathic, Hydropathic, Eclectic, and Herbal, thus rendering it available where other books are of no use. Agents find by far the best selling book of the kind ever published. Over Two Thousand (2,000) Copies have already been sent in the city of Chicago, where the author resides. Send for Circulars, giving full particulars, to

C. F. VENT, Publisher, 33 West Fourth street, Cincinnati, Ohio.

## Wit and Humor.

"A little nonsense, now and then, is relished by the wisest men."

To what color does a dog change a boy's complexion? Ans.—It makes him yell.

What makes a clergyman preach about? Ans.—About half an hour.

What makes a man unbecomingly? Ans.—An R. for it makes it rag.

Why was Noah never hungry? Ans.—Because he had Ham with him.

What flower would finish a drawing-room best? Ans.—Rose would.

It is very proper for the streets, but you should never allow your spirits to flag.

What is the difference between a hungry man and a glutton? One longs to eat, and the other eats too long.

A gentleman, talking with his gardener, expressed his admiration at the rapid growth of the trees. "Why, yes, sir," says the man; "please to consider that they have nothing else to do."

"When men break their hearts," remarks a moral female writer, "it is the same as when a lobster breaks one of its claws—another sprouting out immediately and growing in its place."

How to GET A HAT.—"Say, Pom, you nigger, where you got that new hat?" "Why, at de shop, of course."

"What was de price of such an article as dat?" "I don't know, nigger—I don't know—de shopman was dat."

The papers relate an anecdote of a beautiful young lady who had become blind, having received her sight after marriage. It is not an uncommon thing for people's eyes to be opened by matrimony.

An old man who thought he was dying was assured by his nurse that he would not die so long as his feet kept warm.

"But I have heard of a man who died with very warm feet."

"Who was he?" replied the incorrigible wag.

Dickens says—"I have known vast quantities of nonsense talked about bad men not looking you in the face. Don't trust that conversational idea. Dishonesty will stare honesty out of countenance any day in the week, if there is anything to be got by it."

A missionary was asked the cause of his poverty. "Principally," said he with a twinkle in his eye, "because I have preached so much without notes."

Little three-year-old Mary was playing very roughly with the kitten—carrying it by the tail. Her mother told her that she would hurt pussy. "Why, no, I won't," said she, "I'm carrying it by the handle."

Over and above the fact that over and above mean the same thing, there is a vast difference between a man who is above-board and one who is over-board.

## Knox County Farmer

Better Tillage.

Farmers in general expect a yield of crops more in proportion to the surface of land occupied than to the depths of the soil whereon they grow. Yet it is obvious that if one should scatter seed over an acre of rock it would perish; if over the rock there was a layer of soil two or three inches in depth, the seed might reproduce itself; and as much more and an ordinary yield might result; and again if this depth should be doubled, and made available to the plant, who doubts that proportionally large profits would be derived? Suppose this layer of soil contained plant life plentifully, and of a consistent, impetuous nature, so that the tender roots could not penetrate it, and make use of its fertility, it would then require hoeing, pulverizing, aerating, and in short, thorough cultivation, and according to the depth and thoroughness of that cultivation would be the amount of plant food made available and consequently the yield of the crop.

This is practically the condition of most of our land; it contains plant food enough to double the average yield of crops, if it were only made available to them, but the unworked sub-soil is like rock, confining the roots of plants to the comparatively thin surface soil. Instead of covering your neighbor's lands and putting forth great efforts to secure more surface, it is not more profitable to cultivate deep, than to work the sub-soil, and double its productiveness. With most of our farm crops the amount of roots determines the yield of products, and the more we develop abundantly wherever there is room and food for them, but they cannot push their way into stony lumps, nor live in hardpan layers where there is no air.

On many farms underground lies, at the foundation of improved culture, the stagnant water mass of air or will not enter the soil, nor the latter remain loose any length of time after being stirred. Then comes a fair depth of surface plowing, following by subsoiling to any practicable depth. This way of preparing stubble land for spring grain is called deep plowing, and is the best method of preparing the furrows with a long-toothed cultivator. A seed bed of finely pulverized earth, ten or twelve inches deep, can thus be obtained.

We have seen a valuable preparation for wheat by blowing to the depth of twelve inches, harrowing, rolling, then stirring, the soil nearly to the bottom of the furrow by a long-toothed wheel cultivator, to which four horses were attached four abreast, and all was finely pulverized. Such a chance for wheat on strong loam or clay land is better than most summer-fallows.

Farmers, look to your possessions deep in the ground; there are richer mines than those in the far mountains, and the patient worker thereof wins health, peace and competence.—*John Howard.*

Two Hints for Horsemen.

The Rural American gives these hints for horsemen: 1st. To prevent chafing the breast of horses. The common practice of using pads or sheepskin under the collar is objectionable, especially in warm weather, because it accumulates heat and makes the breast tender. A better way is to take a piece of thick and smooth leather, or a little wider, and let it fit on the neck and shoulders of the horse. This will lie smooth on the neck, while the collar itself moves about, and so it will prevent chafing. In addition to this, let the breasts of working horses be washed of every night with clean water.

2. In reference to blanketing horses in winter. It is doubtless true that blanketing keeps a horse's coat smoother in winter. And hence, the carriage horses and saddle horses will doubtless look better, and be kept more serviceable for show, we think they had better wear the blanket. Keeping them constantly covered makes them tender and liable to take cold. Better give them a warm stable, and plenty of straw for bedding, and good food. When they are to stand for any length of time out doors in a cold winter's day, they should have blankets. And so when they come in from work sweating hot, they should be allowed to stand a short time until they have partially cooled off, then the blanket should be put on for an hour. Be careful and not delay putting on the blanket until they have become chilled.

The man named Dunbar, whom Grant hired for \$25,000 to instruct the Government in horsemanship, turns out to be a dead beat, and the Quartermaster General has offered him \$10,825 to quit and call it square. He has got what the boy had the school mistress, and is bound to deliver the rest of his horse lectures.
