Mail Service to Be Used Instead.

This Change Became Effective Feb'y I.

Heretofore the Forecasts Have Been Received and Distributed by Mr. A. M. Stadler-Rural Delivery to Be Utilized.

It is a matter of regret and inconvenience to this city that the telegraphic weather service has een discontinued, as an order an. lling it went into effect Febru-1. The service was first established about ten years ago, and had come to be of great value to persons and merchants whose business is influenced by the weather. There is some interesting history in connection with the service in this city.

When the service was first established ten years ago, the city council refused to make the necessary expenditures, amounting to properly display the bulletins. The matter was then taken up to Mr. A. M. Stadler, the clothier, who paid for the flags and signals necessary, and inaugerated the service. Several years ago, the bureau decided to make a change and have the bulletins distributed by the postoffice department. But this was unsatisfactory, and Mr. present month.

The caring for the service does not consist, as some persons suspect, in merely posting the bulletins. On the contrary, fifty postal cards are made out and mailed every day to different parts of the county, and in addition a complete record is kept daily, weekly and monthly, and submitted to the department. This entails considerable painstaking labor, but it Between Two Cakes of Ice-Joseph has been carefully and promptly formed by Mr. Stadler.

# Nervous

Like all other organs of the body, the heart is controlled and regulated in its action by the nervous system. So absolute is this nervous control of the heart, and so readily does it respond to impulses of the mind, that its pulsations are fast or slow, strong or weak, according to the emotions that are in control. Fear, anger, sorrow, worry, anxiety, care, low spirits and mental or bodily overwork have a very depressing effect on the heart nerves. Those persons whose nerves are so weak or so exhausted that the heart's action is disturbed on every slight occasion, or who are irritable, nervous, restless and cannot sleep at night, will find quick and lasting relief in Dr. MILES' NERVINE.

A Misstep at This Time Would Prove Disastrous to Cuba's Hopes.

WARNING NOTE IN THE CONVENTION.

Governors of the Provinces to Be Elected by Direct Vote of the People-Constitutional Proceedings.

Havana, Feb. 6 .- In the Cuban constitutional convention the question of provincial government came up for discussion, and it was voted that the governors of the provinces should be elected by the direct vote of the people, the motion to have the president appoint them being defeated.

Senor Giberga, in the course of a patriotic address, said he was in sympathy with the desire of the revolutionists to form an independent government, but he wished to warn the delegates to proceed intelligently, as a misstep now might result in losing forever that long-sought goal which other republics had reached during the last century. "Many of those republics," he said, "starting out with ill-conceived plans and mistaken ideas, failed, but contrived to start out again aright. The situation of Cuba, however, is different. Failure would mean the stepping in of the United States and permanent American occupation. The world would call for that intervention." He contended that under both Spanish rule and American intervention the provinces and municipalities had never been self-supporting, but had always been obliged to ask aid of the central government, and he argued that, if full autonomy were now granted them, the result would be disastrous

# "Dont Speak to me."

# Overwrought Nerves.

As soon as a woman's nerves become excited by some feminine disorder, she loses control of her speech.

She has no patience with anybody or anything. The ones she loves the best are the ones to whom she talks the meanest.

Trifles light as air drive her almost frantic.

She is worse than crazy, because she knows what she is doing and can't help it.

She doesn't have hysteria and doesn't have fainting

She is nervous, horribly nervous.

Does she get sympathy? Oh, yes, she gets sympathy for awhile, but she acts so outrageously that everybody keeps out of her way as much as possible. After a while they begin to think she's malicious and could do better if she tried real hard.

She has turned her best friends against her.

This woman is sick with about the most discouraging sickness women can have, and there is a person who understands her case better than any one else in the world. That person is Mrs. Pinkham. The nervousness comes from some derangement of the feminine organs, and is constantly fed and made worse by the constantly developing disease. Female diseases never get better of themselves. They must have proper treatment. Ordinary physicians do not know how to grapple with these diseases of women. Out of the hundreds of thousands of women Mrs. Pinkham has cured, not one in five hundred tried her advice or her medicine until they had exhausted the skill of their own physician, sometimes of several

Mrs. Pinkham's address is Lynn, Mass. Her advice is prompt and free to all suffering women.

You may not know that your nervousness comes from female troubles. Your doctor may not know it. He may tell you it does not; but does he cure you? Does he help you any? Mrs. Pinkham will tell you the truth about yourself, and you'll believe her. Don't throw your life's happiness away and make yourself unlovable, when a little diligent heed to Mrs. Pinkham's advice will drive away your nervousness by removing the cause of your trouble. Read carefully the letters from women Mrs. Pinkham

After thirty years of success in curing women's ills, can you not believe it worth while to test the virtues of

Lydia E. Pinkham's Vegetable Compound?

## Heartfelt Stories from Cured Women.

"DEAR MRS. PINKHAM:-I feel it my duty to write and tell you of the benefit I have received from your wonderful remedies. "Before taking your Vegetable Compound I

one around me. I never laid my aching head upon my pillow without wishing I could die. "I suffered terrible pain in my back, head, and right side, was very nervous, would cry for hours. Menses would appear sometimes in two weeks, then again not for three and four months. I was so tired and weak, could not sleep nights, sharp pains would dart through my heart that would almost cause me to fall. I was so poor and white that my folks thought I was going to die. My mother coaxed me to try Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but to please her I did so.

The first bottle helped me so much that I continued its use. I am now well and weigh more than I ever did in my life. "Your remedies deserve the highest praise."-MRS. WINIFRED AL-LENDER, Farmington, Ill.

"DEAR MRS, PINKHAM:-It gives me great pleasure to tell you how much your Vegetable Compound has done for me. I had been a sufferer for years with female trouble. I could neither read nor sew but a few minutes at a time without suffering terribly with my head. My back and kidneys also troubled me all the time.

"' was advised by a friend to take Lydia E. Pinkham's Vegetable Compound. I had no faith in it, but decided to try it. After using one bottle I felt so much better that I continued its use, and by the time I had taken six bottles I was cured. There is no other medicine for me. I recommend it to all my friends."-MRS. SARAH SWODER, 103 West St., La Porte, Ind.

"DEAR MRS. PINKHAM:-I am very grateful to you for your kindness and the interest you have taken in me, and truly believe your medicines and advice are worth more to a woman than all the doctors in the world. For years I had female troubles and did nothing for them. Of course, I

became no better and finally broke down entirely. My troubles began with inflammation and hemor-rhages from the kidneys, then inflammation, congestion and falling of the womb, and inflammation of ovaries. I underwent local treatment every day for some time; then after nearly two months the doctor gave me permission to go back to work. I went back, but in less than a week was compelled to give up and go to bed. On breaking down the second time, I decided to let doctors and their medicine alone and try your remedies. Before the first bottle was gone I felt the effects of it. Three bettles of the Coverged of it. Three bottles of the Compound and a package of the Sanative Wash did me more good than all the doctors' treatments and medicine.

The first remark that greets me now when I go to any place is, 'How much better you look,' and you may be sure I never hesitate to tell the cause of my health. I have gained twelve pounds during the last two months and am better in every way. Thanks for your kind attention and advice."—Mrs. E. J. Gooden, Ackley, Iowa.
