WILL SELL YOU A LOT IN

## “Elmwood Place”

AT A LOW PRICE IN ORDER TO START “A BUILDING BOOM” ON THEIR ADDITION

This place is just south of the viaduct and along the Newark and Martinsburg Road, and we can safely assure you that in the very near future there will be one and possibly two Electric Roads built along our addition. This is no idle talk, for the surveys have been made, rights of way granted and franchises allowed, both in Newark and Mt. Vernon, and work will be started this fall.

**The Challingsworth Foundry** is located on this addition and **two other plants** will be built north and east of the foundry along the creek by January, 1907, and that will leave all the rest of the 105 acres for residences only.

The owners of this addition are WALTER C. CURTIS, HARRY C. DEVIN, BEN AMES, A. R. SIPE, D. B. GRUBB and C. L. STURGEON, and they are sparing no pains nor expense in making of this the **most attractive** and most **home like** addition to the city of Mt. Vernon.

The office of the company is in the Sipe Block, over McNabb's Grocery, and is in charge of C. L. STURGEON, the company's Secretary and Treasurer.

Lots will **not** be sold at auction, but will be handled by all the real estate dealers in Mt. Vernon.

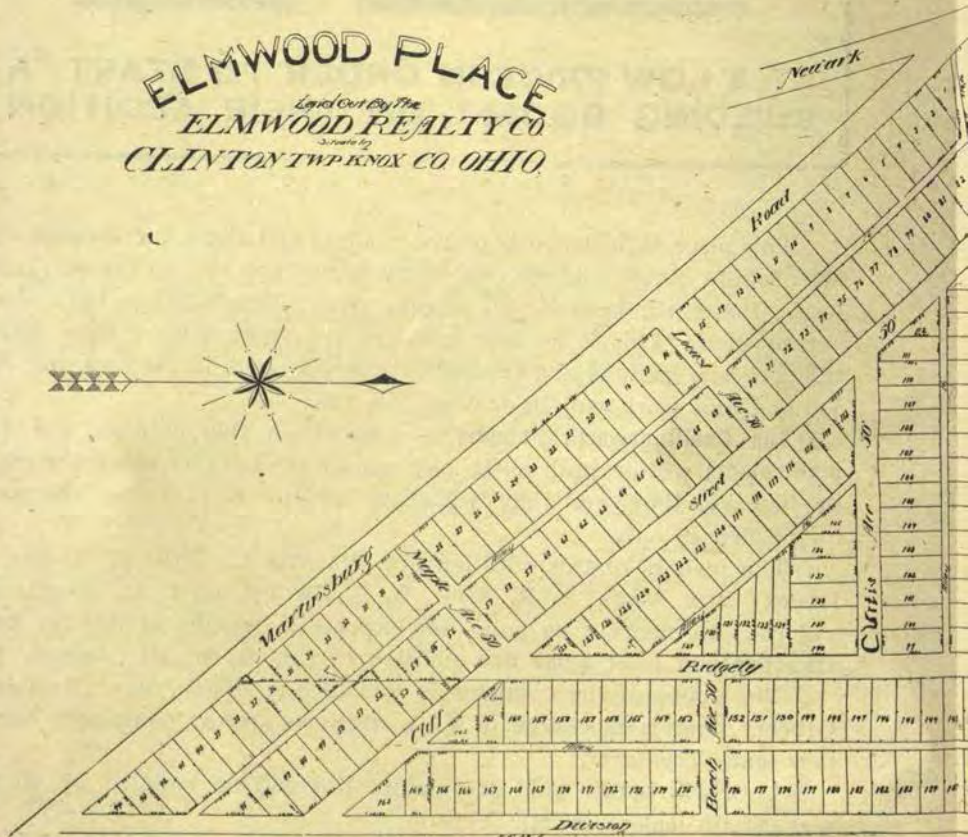

**The Elmwood Realty Company** is doing great work for Mt. Vernon by bringing in large manufacturing industries. Pitch in and help us, boom the city by buying a lot in Elmwood Place, You can do this and at the same time make a handsome profit on your purchase.

There will be no factories located south of Challingsworth Foundry. Call on any real estate dealer and look over the plat.

# F. M. FRENCH'S KNOX COUNTY Farmers' Directory

## 1906-1907

The following Directory is compiled from the list of those farmers whose names appear on the personal tax duplicate and the real estate records of the townships of Knox County. The figures immediately following the name indicates the township in which the party lives (see abbreviations). Figures following the letter (p) indicates the amount of personal property appearing on the tax duplicate of the township in which the party lives. Figures following the letter (a) indicates the number of acres owned by that party. The postoffice address appears abbreviated (see abbreviations) the last thing. Where a number follows the name of postoffice the number indicates the number of Rural Route.

Example:—"Brown C W, 4, a80,p285, Mt V 5," is read, Brown C W, lives in College Twp, has personal property on duplicate of that township amounting to \$285, owns 80 acres and his postoffice address is Mt. Vernon, O., Free Rural Delivery Route No. 5.
