Republican State Ticket. For Secretary of State, MILTON BARNES. For Supreme Judge, WILLIAM WHITE. For Member Board of Public Works, GEORGE PAUL.

Republican County Ticket. For Clerk of the Court, WILLARD S. HYDE. For Probate Judge, ISRAEL GREEN.

For Prosecuting Attorney, W. C. CULBERTSON. For Commissioner, CHARLES MURRAY.

For Surveyor, A. K. HARVEY. For Infirmary Director, BASIL ROBINSON.

For Coroner, B. B. SCOTT. Republican Meetings. The meeting at Danville Saturday evening was such as will do a vast deal of good to the Republican cause.

The Republican Executive Committee made the following announcements: Green Valley—Hon. R. C. KIRK, Esq., W. M. KOONS, Esq., and Col. ALEX. CASSIDY, Esq., Saturday evening, Oct. 5, 1878.

Fredericktown—H. H. GREENE, Esq., and J. B. WAIGHT, Esq., Saturday evening, Oct. 5, 1878. Green Valley—J. B. GRAHAM, Esq., and J. D. EWING, Esq., Monday evening, Oct. 7, 1878.

Mass Meeting. Next Monday evening the Republicans will close the campaign in this county with a mass meeting at Kirk Opera House, at which time several prominent speakers will address the audience. Let every one turn out.

Liberty Township. In your issue of September 19 I noticed an article with regard to Callahan's matters. Your editorial correspondent has certainly behind the times. Callahan has been admitted to the bar for some time but will not take the plaintiff's side in such a case as was before the J. P. in Milford on the 13th inst. Robert Kingston—how did he go? We suppose the Suits are said to grind goback on Brent and many other on account of the illegal charges Brent has made.

Fredericktown. Miss Julia Manly, a sister-in-law of Mr. S. H. Sherwood, died last Saturday. There was a temperance meeting in the Odd Fellows Hall last Tuesday evening, addressed by A. S. Collins.

John Mitchell, a student with Dr. E. Hall, has gone to Columbus to the Homoeopathic Medical College. Mr. Sockman, a student with Dr. Potter, left for Philadelphia to complete his studies, and Mr. A. L. Bore, another student of Dr. Potter's, left for Columbus this week. Herbert Darling and W. M. Ferguson, Jr., have commenced the study of medicine with Dr. P. The mills of the State are said to grind goback on Brent and many other on account of the illegal charges Brent has made.

Captain Coe returned from Hot Springs, Ark., last Tuesday, in his usual health. About six o'clock on Sunday morning the early risers of the village heard a crash and it soon became generally known that the south-west end of the grain warehouse, near the depot had fallen out and let out a large amount of grain and other produce on to the ground. There was 1700 bushels of oats, 10 bushels of wheat, and a number of chickens were shipped the day previous, 50 dozen of eggs, an \$18.00 straw outfit, and other apparatus was piled up in one promiscuous mass. A number of citizens assisted the proprietor of the warehouse in soon loading an empty box car with oats, and thereby enabling the crowd to pry back the building into position. The building is new, and what caused the break is not known, as there has been over 6000 bushels of wheat in the bin at that time. The total loss of wheat \$600.

Last Sunday evening three giddy lads were centering on horseback out Hartford Avenue and in the dense darkness ran over a buggy from behind, badly wrecking it and somewhat scratching the horses.

Friday evening Frank Williams and a companion, while driving, and in the inky darkness stopped on a narrow bridge when a buggy containing J. Fridel and two other men came up, and Fridel demanded passage way. Williams used some profane language, when Fridel jumped out of his buggy and a general knock down was indulged in. Williams receiving the most injury. Fridel secured passage way, got into his buggy and drove on. Young Williams got out a warrant and had Fridel arrested for assault and battery.

E. C. Emley, the druggist, began this week the erection of his new drug store and residence, on the most prominent business corner in the town.

THE REPUBLICAN. A LAST WORD. This issue of the REPUBLICAN closes its work for the campaign. Through-out the State the prospects of a Republican victory are good, wherever a full vote is polled. The cry of hard times and the idea held out both by Democrats and Nationalists that greenbacks would relieve the people, no matter how issued, may affect us considerably, yet the canvas throughout the State has been thorough and we look for good results. As Judge West said in his speech at the Court-house Wednesday evening, the principles of the Republican party are the only hope of our country. We may have made mistakes, we may have had men in office, but that is no reason for voting with and for those who have been the real enemies of our peace and prosperity. We know that Republicans are free thinkers and free actors; but they should also remember the old adage, "Hold fast to what you have until you find something better." In this campaign we have failed to see anything better. Let every Republican, then in old Knox give up one day to his country's good, send the word along the line, let no one whom you can induce to vote right remain at home, and when the last ballot is in you can feel that you have done your duty let the result be what it will.

Doctor Blackburn, brother of Hon. J. C. S. Blackburn, of Kentucky, a special from Hickman, Ky., says, "is still here, going day and night." It will be recalled that this is the man who gathered up cast-off clothing which he believed to be infected with yellow fever, and distributed it in the North and in the Union Army during the war, and we desire to know if that is his business now, in going day and night among the sick of yellow fever at Hickman.

The Nationalists, in their most important nominations, have a prescription for their candidates for Congress in Ohio said to be generally men of large wealth, who have made their money by shaying notes.

Vote for Willard S. Hyde, the most agreeable, pleasant and business like Clerk Knox county ever had.

Rev. J. H. Hamilton has been elected President of this Conference or District by the Cambridge Conference. Dr. Hissey, the former President, will have charge of the circuit lately filled by Rev. Mr. Sampson. The latter has been appointed to the Hanover circuit.

"W. C. CULBERTSON, Prosecuting Attorney." How does that sound? Well, that is the way it will be if Republicans do not try to beat their Democratic neighbors at staying away from the election. See to it that our prediction is fulfilled. You cannot elect a better man.

"JOHN J. LEXSON, Esq.," continues to challenge Col. Cooper to discuss the political questions of the day. Come, John, take some one of your strength. What do you say to Vinc. Pryor, of Danville? We'll see your play if it is Vinc. keeps sober enough to get on a store box.

We think the people of Knox had better elect Basil Robinson for Infirmary Director. He might distinguish the ring that now manages that institution, and save the county several hundred dollars by so doing.

As Rev. Pepper has withdrawn from politics by accepting a new charge, we have elected John E. Jones and let the National movement collapse, as it certainly must soon.

How many Republicans of Wayne township are satisfied with Johnny Gay's way of setting up the township books? Will you vote for him and thereby sanction the frauds.

Though not personally acquainted with A. K. Harvey, our candidate for Surveyor, the mere fact that he has not been around electioneering is a good reason for voting for him.

The Republican who thinks of casting a vote for John F. Gay, will remember that we have charged him with taking fees that did not belong to him and we can prove it.

The Nationalists, in their most important nominations, have a prescription for their candidates for Congress in Ohio said to be generally men of large wealth, who have made their money by shaying notes.

Vote for Willard S. Hyde, the most agreeable, pleasant and business like Clerk Knox county ever had.

Rev. J. H. Hamilton has been elected President of this Conference or District by the Cambridge Conference. Dr. Hissey, the former President, will have charge of the circuit lately filled by Rev. Mr. Sampson. The latter has been appointed to the Hanover circuit.

"W. C. CULBERTSON, Prosecuting Attorney." How does that sound? Well, that is the way it will be if Republicans do not try to beat their Democratic neighbors at staying away from the election. See to it that our prediction is fulfilled. You cannot elect a better man.

"JOHN J. LEXSON, Esq.," continues to challenge Col. Cooper to discuss the political questions of the day. Come, John, take some one of your strength. What do you say to Vinc. Pryor, of Danville? We'll see your play if it is Vinc. keeps sober enough to get on a store box.

We think the people of Knox had better elect Basil Robinson for Infirmary Director. He might distinguish the ring that now manages that institution, and save the county several hundred dollars by so doing.

As Rev. Pepper has withdrawn from politics by accepting a new charge, we have elected John E. Jones and let the National movement collapse, as it certainly must soon.

How many Republicans of Wayne township are satisfied with Johnny Gay's way of setting up the township books? Will you vote for him and thereby sanction the frauds.

Though not personally acquainted with A. K. Harvey, our candidate for Surveyor, the mere fact that he has not been around electioneering is a good reason for voting for him.

The Republican who thinks of casting a vote for John F. Gay, will remember that we have charged him with taking fees that did not belong to him and we can prove it.

Bully for Colorado! Returns from the election in Colorado, show that the Republican State ticket has been elected by a large majority, over the Democratic ticket. Bully for Colorado. Republican majority 2,500.

Has Pepper Withdrawn? The Nationals are still trying to run Rev. Pepper for Congress, when it is well known that he has withdrawn. When Bishop Wiley put the question to him what he intended to do, he replied, that he would not go to Congress if elected. He was still loyal to the church. As evidence of his resolution to have no more to do with the National party he has accepted a station at Bellevue, and will remove his family there soon. In view of these facts it will not pay Republicans to throw away their votes on the Rev. Mr. Pepper.

We have it from the highest authority in the Church in the Mt. Vernon District, M. E. Church, that the Rev. Mr. Pepper has resigned his position on the National ticket.

We wonder how Michael Smithhiser, Elias Payne, Isaac T. Beum and their friends feel about that little item of \$ which Samuel J. Brent, the Democratic candidate for Clerk of the Court took from them without rendering a single iota of labor. Do not say that this is a Republican lie, but go to the Clerk's office and examine the books for yourselves. If not true we will acknowledge that we are wrong and make the necessary amend to Mr. Brent.

Another Lie Nixed. The following story fled at Mr. Hyde in the Banner of last week: "To forge a name to a check or any other piece of paper, is a Penitentiary offence, and yet the Republicans have a man upon their ticket, who forged his employer's name to a check, put the money in his pocket and after being detected, cried like a blubbering child."

It is a falsehood that the currency has been contracted. It is untrue that the Republican party has contracted the currency. It is false that there is not more currency in the country to-day than in any former period.

It is a lie that the Republican party has legislated for the special interest of the rich man. It is untrue that the Republican party has been guilty of class legislation of any kind.

It is a lie that any legislation of the Republican party has been intended to, or does oppress the poor man. It is a lie that anything which the Republican party has done is in any way responsible for the hard times.

It is false in every particular that the Republican party could be induced under any circumstances to favor the rich at the expense of the poor class. It is a lie that any different political policy than that adopted by the Republican party would have been suggested by any more beneficent results.

Harper takes especial delight in referring to the card signed by Attorney-General, which Mr. Brent caused to be published in a late issue of the REPUBLICAN. Of all silly things this appears to be the silliest and neekiest defense. Although intended to deceive, any careful reader will readily observe that the Attorney merely says that they never saw Brent take anything that did not belong to him. Are men to be governed by such a negative statement in spite of the positive proof which we have furnished of the party's systematic course of extortion and overcharges. Attorneys do not say that Brent did not defraud the poor litigant. They simply say that it had not come to their knowledge until now. Read the card again carefully. We reaffirm that every man who has published, is as we believe, strictly true. We have cited nearly 200 cases. We have yet to know of a single one in which we have made an

large clerical force, in preparing statistics, showing maps and giving information to the large number of immigrants who daily call. In his office and the hall adjoining, he has neatly arranged a large quantity of seeds, grasses, grains, &c. Among others I noticed some very fine orchard grasses and Texan grass, at least four feet high, very dense and having heads about nine inches in length, also a very curious looking grass called the mesquite, which is indigenous. There were also fine specimens of millet and flax and fine red clover from 3 1/2 to 4 feet high. There was a magnificent specimen of a kind of oats that grows to a great height, this specimen being over eight feet and one inch, and the heads of which were about 18 inches in length. There were also specimens of timothy about 7 1/2 feet high, with heads a foot long. There was a specimen of...

CLUB WHEAT, which is the designation of a kind of wheat whose heads are not over 14 inches in length but are very thick and well filled and the flour made therefrom is said to be of peculiar excellence. Another variety of great length and is called...

As an instance of the luxuriant growth of vegetation in this country there was a specimen of a hazel brush, which had been cut from a bush originally 40 feet high, 12 feet of which was from four to five inches in diameter. In the office proper was a large number of little bins containing specimens of Oregon cereals, a sample of which is under the microscope. I find one exception in the fact that the eastern section of South Temple street is called Brigham street. On this street, behind a wall twelve to eighteen feet high, made of alkali mud and boulders, are the famous tiling house, various offices, and the houses in which many of the prominent farmers of Knox county and elsewhere. Mr. Schulze, being somewhat facetiously inclined, has a wood-cut of an animal that is part man and part grasshopper stuck up in his office, said picture as the inscription informs us is one of their emigration aid agents his name—Mr. G. Hopper—location Kansas. Apropos Mr. Schulze has a specimen of Kansas wheat which is very scraggly and diminutive looking but which, after passing through the metamorphosing process of a planter in Oregon, comes out fine, clear, bright grains more than twice their original size.

The hotels in Portland are mostly on the European plan and the restaurants are consequently excellent as those who have tested them say. I cannot speak from experience. Portland has a very fine government building containing the post office and other government offices. It is situated in one of the pleasant parts of the city and presents a fine architectural appearance.

The water works here supply excellent pure water. There are several suburbs to the city the principal of which is East Portland, a place of about 2,500 inhabitants and a thriving village. Portland's water-works is lined with stately warehouses along side of which can always be seen vessels of large tonnage loading for foreign parts. All in all Portland is one of the prettiest most enterprising and substantial cities of the West.

ASTORIA A. CASSIDY.

Letter From Utah. SALT LAKE CITY, Sept. 17th, '78.

REPUBLICAN:—If your readers will be interested in a web of gossip with just enough threads of fact to make a texture of possible truth, I will see what I can do for their entertainment.

Salt Lake City is a large, wonderful city and has a peculiar look of getting ready to be a beautiful city. The wide, graded, untidy, and in many cases grass-grown streets, run parallel to each other from east to west, or from north to south; the one set crossing the other at right angles, as you see this makes it like Washington, "a city of magnificent distances." These streets are separated from the wide, graded sidewalks by irregular ditches (called gutters), with grassy banks that make you think of the ditches at the side of country roads in Ohio. Some of these are narrow and a foot and a half deep, others broad and shallow with pebbly bottoms, a few are narrow and deep, and carefully walled up with stone. The shallow gutters look like creeks and are very pretty. The principal gutters run from north to south and in them the water is always flowing, but the branches east and west are usually dry, except on the days when the supply is turned on for the watering of particular streets; then each family living on those streets is permitted to let the water run into their lot through a small, dirty, wooden trough or open ditch, for an hour and twenty minutes. A person called the "Water-man" goes his round to see that no one steals water by turning it on too soon or by letting it run too long. By this means the yards and gardens are watered thoroughly and systematically once every week. There is no anxiety about it as when people depend on the clouds for the watering of their gardens. When I first came here I supposed that the drinking water was obtained in the same way, and as I passed along the streets and saw cows, dogs and children refreshing themselves in the cooling streams, I concluded I was not thirsty, but I soon found that the water used for house purposes is obtained from wells that vary in depth from thirty to seventy feet. It is of course

very "hard" when used for toilet and laundry purposes, and requires a good deal of breaking before it can be made suitable for the latter. In addition to these wells and gutters, there are pipes and filters under the control of the city, and all who can afford to do so, have water brought through and from these into their yards and houses, just as in cities situated on lakes and rivers; consequently fountains and lawn-sprinklers are no novelty, and many lawns have beautiful grass and are kept in good order, for lawn mowers are as frequently seen and heard here as in your own city. At the corners and on the sides of many of the streets are hydrants from which clear, cool water is constantly flowing, and to which are fastened tin cups or dippers, for the convenience of a thirsty public.

The sidewalks, as I said, are very wide, very uneven, and most of them bordered by closely planted locust, poplar or box-elder trees. The foliage of these trees is much more dense and spreading here than in Ohio, and make so good a shade that few ladies carry parasols or sunshades of any kind even in the middle of the day, or, at least, from 10 a. m. to 4 p. m. the heat of the sun is intense.

The Temple is regarded as the center of the city. It and the Tabernacle occupy a block five-eighths of a mile square, and all the main streets are named from this block. The streets running north, south, east and west of it being called North Temple, First North, &c., and the same in the other directions. I find one exception in the fact that the eastern section of South Temple street is called Brigham street. On this street, behind a wall twelve to eighteen feet high, made of alkali mud and boulders, are the famous tiling house, various offices, and the houses in which many of the prominent farmers of Knox county and elsewhere. Mr. Schulze, being somewhat facetiously inclined, has a wood-cut of an animal that is part man and part grasshopper stuck up in his office, said picture as the inscription informs us is one of their emigration aid agents his name—Mr. G. Hopper—location Kansas. ASTORIA A. CASSIDY.

Letter From Utah. SALT LAKE CITY, Sept. 17th, '78.

REPUBLICAN:—If your readers will be interested in a web of gossip with just enough threads of fact to make a texture of possible truth, I will see what I can do for their entertainment.

Salt Lake City is a large, wonderful city and has a peculiar look of getting ready to be a beautiful city. The wide, graded, untidy, and in many cases grass-grown streets, run parallel to each other from east to west, or from north to south; the one set crossing the other at right angles, as you see this makes it like Washington, "a city of magnificent distances." These streets are separated from the wide, graded sidewalks by irregular ditches (called gutters), with grassy banks that make you think of the ditches at the side of country roads in Ohio. Some of these are narrow and a foot and a half deep, others broad and shallow with pebbly bottoms, a few are narrow and deep, and carefully walled up with stone. The shallow gutters look like creeks and are very pretty. The principal gutters run from north to south and in them the water is always flowing, but the branches east and west are usually dry, except on the days when the supply is turned on for the watering of particular streets; then each family living on those streets is permitted to let the water run into their lot through a small, dirty, wooden trough or open ditch, for an hour and twenty minutes. A person called the "Water-man" goes his round to see that no one steals water by turning it on too soon or by letting it run too long. By this means the yards and gardens are watered thoroughly and systematically once every week. There is no anxiety about it as when people depend on the clouds for the watering of their gardens. When I first came here I supposed that the drinking water was obtained in the same way, and as I passed along the streets and saw cows, dogs and children refreshing themselves in the cooling streams, I concluded I was not thirsty, but I soon found that the water used for house purposes is obtained from wells that vary in depth from thirty to seventy feet. It is of course

very "hard" when used for toilet and laundry purposes, and requires a good deal of breaking before it can be made suitable for the latter. In addition to these wells and gutters, there are pipes and filters under the control of the city, and all who can afford to do so, have water brought through and from these into their yards and houses, just as in cities situated on lakes and rivers; consequently fountains and lawn-sprinklers are no novelty, and many lawns have beautiful grass and are kept in good order, for lawn mowers are as frequently seen and heard here as in your own city. At the corners and on the sides of many of the streets are hydrants from which clear, cool water is constantly flowing, and to which are fastened tin cups or dippers, for the convenience of a thirsty public.

ing is believing, the wavering look about them, and as there is no one to remind them of the words of the psalmist, "I have seen the wicked in great power, and spreading himself like a green bay tree," there faith is reestablished.

The alkali of the soil has a peculiar effect on the foliage of the tree. Not long since my attention was attracted to what seemed to be new shoots, or branches of leaves on the very top and outer borders of the trees, and upon inquiring, learned it was caused by the roots striking into the alkali beds below the leached soil. I should have told you that before, the ground can be cultivated, it must lie under water for two years and then wheat must be raised on it for two years. In this way the alkali is removed, so that other vegetation will grow on it. I hope you to see a piece of land that is undergoing this leaching process. Irrigation is everything to the life of this country, but it has been accomplished at an enormous expenditure of money and labor.

Shopping facilities here are better than one would expect, and prices not as high. There is, of course, a New York store here, as in fact, there is in almost every station on the Union Pacific road.

The L. C. M. I. (Lion's Cooperative Mercantile Institution) familiarly known as the Co-op, is to Salt Lake City, what Stewart's is to New York. I am told that all the bills are headed with "Holiness to the Lord," and I presume it is true as the same inscription is on most of the business signs on the streets. I have not yet noticed it over a liquor saloon, but shall not be surprised to find it there some day—for they use the name of God as freely as they do that of Joseph Smith, and less reverently—or at least it seems so.

I will not tire the patience of your readers further now, but after the conference, which is to be held in the Tabernacle in October, I may undertake a description of that building, its great organ and possibly may say something of the Mormons as fanatics. Yours truly, A GENTILE.

An antiquarian has unearthed the fact that yellow fever prevailed in New London, Ct., in September and October, 1739. There were 351 cases and 81 deaths.

Searching will discover all things; and to discover as well as remove impurities of the blood, the best blood purifier is Dr. Bull's Blood Medicine.

The best scholar, and the only one who went through the four years' course in three, at the Newport, R. I., High School, was a colored girl eighteen years of age.

Malarial Fever. Malarial Fever, constipation, torpidity of the liver and indigestion, are the nervous and neuralgic ailments yielded readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by carrying the food into rich blood, and it gives new life and vigor to the aged and infirm always. See "Proverbs" in other column.

Gen. Lafayette once stopped overnight in Biddeford, Maine, and the fact of the matter is, that he and his show you eleven different houses where he slept.—Ex.

Beaconsfield has given more than \$5,000 to the survivors of the recent steamboat disaster on the Thames.

Why Greatest and Best. We see some evasions mortals object to the Chicago & North-Western Railway being called the greatest and best line in the country. What means greatest? Is it the length of the line? Is it the business transported? What means best? Every one knows the reply. That this line is greatest, a few facts will show. It is the only line that carries one hundred miles of road (2,678 to be exact) and reaches nearly every important point in Northern Illinois, in Wisconsin, Northern Michigan, in Iowa, in Minnesota, and runs many lines into Dakota. What other line begins to traverse so many States?—None.—Not out her interest in it to the church, and has become wife No. 4 to a Mormon in Ogden. If half that is told of Amelia is true, she certainly made Brigham pay a heavy price in the coin of submission for having by fraud, deceit and compulsion bought up the romance of her life. Brigham's grave is in the rising ground back of the Lion and the Bee House, and overlooking them. It is a forlorn looking place; among nineteen widows and seventy-five children, it would seem that there ought to be enough of respect and affection to cultivate a few spears of grass, but sage brush and stones hold undisturbed possession of the grave, sterile soil. The grave is in one corner of an enclosure of about an acre of ground. The wall forming the enclosure is of rough stone, and the whole looks as though some one had laid the foundation for a house, and had forgotten to do anything more. The immense gray granite slab in the south-east corner is the only sign that it is a spot of any importance. Your readers will remember that Brigham caused himself to be securely buried, having the grave stone walled, like a vault, and then covered by a thick slab of sandstone, and then by an immense slab of granite and the whole cemented.

Hayes's Title. However varied may be the opinions concerning the validity of Hayes's title to the Presidency, there is not a question in the mind of either Democrat or Republican upon one important point, viz: the unquestionable right of Dr. Pierce's Family Medicines to the title of the Standard Remedies for the Sick. Listen to the voice of the sovereigns people.

NEW ORLEANS, June 10, 1878. Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir—Your Pleasant Purgative Pellets seem to be particularly adapted to the wants of the people in this warm climate, where bilious affections are particularly prevalent. I regard them as the best cathartic I have ever tried. Yours truly, JOHN C. HENDERSON.

Boston, Mass., May 14, 1878. Dr. R. V. Pierce, Buffalo, N. Y.: Dear Sir—Your Golden Medical Discovery has cured my boy of a Fever Sore of two years' standing. Please accept our gratitude. Yours truly, HENRY WRIGHT.

Turkey's paper currency is ample for the wants of trade, and yet we hear of misguided persons there who clamor to have it withdrawn, because it will not buy bread.

The katydid's song was heard at Mansfield, N. H., on the 9th of July. There is a tradition that frost falls within ninety days after the first song of the katydid, and the people are expecting it about the 6th of October.

Ben Butler, when a boy at school, used to steal the dinners of his mates.

Albany Argus—Boston young men are very careful how they get their scalps planned while paying their respects to a maid of Athens. Boston girls keep private charts of the human intellect.

Indigestion. The main cause of nervousness is indigestion, and that is caused by weakness of the stomach. No one can have sound nerves and good health without using Hop Bitters to strengthen the stomach. Purify the blood, and keep the liver and kidneys active to carry off all the poisons and waste matter of the system. See other column.

Farmer Miles bought a grand piano at auction cheap for his daughter Priscilla. The town, agast, wondered where they were going to put so large an instrument in so small a house. Farmer M. cut away the lower part of partition between the parlor and pantry, and through the long opening the piano into the pantry, and Priscilla now sits at the keyboard and plaintively sings, "Key-who will care for mother now," while the old woman rolls out doughnuts on the other end in the pantry.

A charming little fish story from Vermont: "A boy caught an immense pickerel, which broke the line and disappeared. The boy fell into the water and sank to the bottom, whereupon his brother grabbed him by the hair and pulled him out, only to find the lost pickerel finally clasped to the boy's arms."

Fulton Times: Last week a Fulton boy got angry with his mother and went to bed without his supper that night, writing her heart with sympathy. When she was creeping down stairs to get some pork and beans, after the family were asleep, he collided with a door spring and broke his toe! Moral.

An Undeniable Truth. You deserve to suffer, and if you lead a life of luxury, and if you live in this beautiful world, it is entirely your own fault, and there is only one excuse for you—your unreasonable prejudice and dislike for Hop Bitters. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sale now reaches every town on the Western Continent, and not a Druggist but will tell you of its wonderful cures. You can buy a Sample Bottle for 10 cts. Three doses will relieve you. 45-c.

SPONGES AND Chamois Skins. A Big Stock of the above just received and offered at the Lowest Prices, at GREEN'S DRUG STORE. MT. VERNON, OHIO.

DRUGS. The Largest, the Best Selected and Cheapest Stock of DRUGS and MEDICINES in Central Ohio, at GREEN'S DRUG STORE. MT. VERNON, OHIO.

SAFE. No risks, but buy the Perline Coal Oil, at GREEN'S DRUG STORE.

OLD, TRIED, AND TRUE MEXICAN Mustang Liniment, FOR MAN AND BEAST. This liniment very naturally originated in America, where it was first used by the Indians.

THIS NEW ELASTIC TRUSS. It is a safe and reliable substitute for Quinine. The only 25 cent ACUE REMEDY IN THE WORLD FOR CHILLS & FEVER.

THE PERFECT TONIC. THERMALINE. A safe and reliable substitute for Quinine. The only 25 cent ACUE REMEDY IN THE WORLD FOR CHILLS & FEVER.

THE CHEAPEST GASTRO-STEEL PLOWS. FOR FULL DESCRIPTION AND PRICES SEND TO COLLINS & CO., 212 WATER ST., NEW YORK CITY.

REMOVAL. The undersigned having removed their entire stock of Iron and Wood work to the room formerly occupied by Adam Weaver, and recently by C. A. Bove, would inform their numerous patrons that, in addition to their large stock of IRON and WOODWORK, they have added a full line of BUGGY TRIMMINGS, CLOTH, TOP LEATHER, &c. In fact, everything you want to complete a Buggy or Carriage. We keep Buggy Beds, Gearing, and all kinds Buggy Wheels. We have put in a General Line of Hardware, Nails, Glass, Rope, COIL CHAIN, and WIRE of all sizes, and everything in the Hardware Line. We are Agents for the DIAMOND IRON PLOUGH and POINTS, for Nos. 30, 60 and 80; the SHUNK STEEL AND COMBINATION PLOUGH; also, for the INDIANA & HORSE CULTIVATOR and the MALTA, STEVENS, and SHUNK DOUBLE SHOVELS. We shall be happy to see all our old friends, and as many new ones as will call on us, come and see our new stock of Hardware. No trouble to have Goods.
