PREFACE.

In presenting to the citizens of Mt. Vernon, the first issue of "Williams' Mt. Vernon, Directory, City Guide and Business Mirror," the compiler would express his thanks to that portion of them who have sustained the undertaking.

Those unacquainted with Directory publishing, have but a faint idea of the difficulties and obstacles to be encountered in obtaining and properly arranging the necessary information; we, from a long experience, are perfectly familiar with them in detail, and, while asking indulgence for a few errors which must necessarily have crept into the work, we claim that no city of like size in the United States, has a better Directory than the City of Mt. Vernon. It contains one thousand four hundred and forty-four names.—A very good estimate of the present population may be made from this data. ✓

Our intention is, if we meet with sufficient encouragement, to continue the publication of the Mt. Vernon Directory—for the present biennially. We hope to meet with better success in future issues.

GRINDING MILL,

Manufactured by
BUCKINGHAM, UPTON & CO.,
MOUNT VERNON, OHIO.

The above Mill was patented in 1854, and has been extensively used since that time. Its merits are so well established that it is deemed unnecessary to describe them here. The distinguishing features of the Mill are simplicity, convenience and durability. The upper stone runs on a spindle rigidly attached, which is hollow, and receives the Grain at the top, which is conveyed through it to the stones.

BUCKINGHAM, UPTON & Co. also manufactures Steam Engines of the best style, and Mill Gearing of all kinds.

Newspapers, 6 cents each; prepayment required.

GENERAL OBSERVATIONS.

All letter postage within the United States must be prepaid by stamps.

All transient printed matter must be prepaid by stamps.

The upper right hand corner of a letter is the most suitable place to put the stamp.

Parties should be particular in having legible directions with as little flourishing as possible. The County and State should always be designated as well as the Post Office.

Any writing whatever on printed matter subjects the same to letter postage.

A card printed on an envelope or wrapper of printed matter subjects it to letter postage.

Stamps cut out of Post Office envelopes are not reckoned as postage when used on letters, etc.

Stamps cut in pieces are not received as postage.

All letters remaining in the office over three months are returned to the dead letter office at Washington, where they are examined; if containing any thing of value are returned to the writer at the office at which they were originally mailed

POST-OFFICES.

This list of Post Offices in the State of Ohio, has been carefully prepared from the latest information. Citizens generally, and others who consult the Directory, will find it a useful appendage, and as Post Masters are generally business men, and such as, when properly applied to, are capable of, and will, freely furnish much commercial or other information relative to their respective Districts, it will contribute materially to the facilities of Merchants and Manufacturers in distributing their circulars, catalogues of Merchandise, etc.

Post Masters names are purposely omitted, as the changes are so frequent and numerous that it would be almost impossible to give anything like a correct list. The names of Post Offices are arranged alphabetically, with the name of the County in which they are located attached to each which is amply sufficient as a direction.
