Knox County Directory

1912-1913

The following list of names are only those persons whose names appear on the personal tax duplicate for the townships and villages represented, and the figures opposite represent the assessed value of real estate and personal property as reported for taxation. The names on the personal list represent the resident taxpayers in the township and villages. These names are compared with the names reported on the real estate list and where they correspond the value of the real estate is transferred to the personal list. Where no real estate value is found the name shows only the personal assessment. The amount of real estate shown here does not represent the full amount of real property, assessed to the persons, but only that found in the township where the names appear on the personal list. Any property owned in other townships or counties does not appear in this statement. Nor does the name of real estate owners who are not represented on the personal list appear in the list of names. Only the resident personal taxpayers are given.

The National Real Estate Journal

¶ The National Real Estate Journal has created a decided stir in real estate circles. It has been widely read, widely quoted and widely talked about by real estate men everywhere.

¶ It has, by virtue of being the official organ of the National Association of Real Estate Exchanges, assumed its position of leadership in the real estate field, and is rapidly establishing its reputation for progressiveness and for filling its pages with the best, most interesting, entertaining and valuable information pertaining to the real estate profession.

¶ The National Real Estate Journal is a real estate institution. If you read it this year, you will want it next year, and the year after.

¶ The subscription price is $1.00 for the year—for 12 big, hearty, helpful numbers. Better send your dollar right now.
