Kenyon Military Academy.

ANNOUNCEMENT.

The site of the Academy is on an arm of the plateau upon which Gambier is situated. It is half a mile from Kenyon College, and a quarter of a mile from Bexley Hall and Harcourt Place Seminary. The grounds comprise sixty acres. They afford large stretches of lawn, ample play grounds, and pleasant walks, as well as farming, gardening, pasture and meadow lands.

The temporary buildings occupied by the school on its removal to Gambier, have long since been destroyed. In 1834, Milnor Hall, a substantial brick building, named for the late Rev. Dr. Milnor, Rector of St. George's Church, New York, was erected for the use of the school, and it continued in use until the 7th of May, 1889, when it was destroyed by fire. In 1880, by the liberality of Hon. Columbus Delano, of Mt. Vernon, a large and substantial brick building, called Delano Hall, in honor of its respected and generous builder, was added to Milnor Hall. These two, with North Hall, a brick and frame extension, and the Annex, built in 1887, formed the home of regents, masters, and pupils, and afforded every requisite accommodation for a well-ordered school. But the destruction of Milnor Hall was immediately followed by the erection of a much larger and better building, bearing the same name and occupying the same site. It is built of brick, is 100 feet long, 40 feet wide, admirably arranged, and substantially constructed. It was completed and occupied in January, 1890.

A spacious drill hall and gymnasium, a building 100 feet long and 50 feet wide, also was built the past season. About \$25,000 were expended in the improvements of the property and furnishing.

The buildings front the south, and command a wide sweep of the Kokosing Valley. They are heated by steam, provided with bath rooms containing hot and cold water, and have the best system of drainage. The school room is 38 x 50 feet, with windows on three sides. The dining room is of the same size, on the floor below.

About sixty thousand dollars within the past ten years have been expended upon permanent improvements of the property; and since these improvements have been made, the material equipment of the Academy has become one of the very best in this region of the country, and is superior to that of many of the better known Eastern schools.

Six years ago (June, 1885,) the institution was completely reorganized, and practically became a new school. With a determination to make it in all respects equal to the best schools in the land, many important changes, involving considerable expense, were made. This new departure, taken in the face of the hard times, was regarded as somewhat hazardous. Gratifying success, however, has shown the wisdom of the step. At that time the school had only 25 boarding pupils. They have increased to more than 100, the attendance this year being the largest in the history of the institution.

DOMESTIC ARRANGEMENTS.

The Rector and his family, with the Masters and Cadets, occupy the same buildings and form one household. A large reception room in Milnor Hall, with hard-wood floor, fire-place, and piano, is open to the Cadets at all times. A reading room well provided with periodicals is also always open.

STUDIES.

The studies are arranged to accommodate three classes of boys. The Classical Course prepares for the classical department of any college or university in the

United States. The Semi-Classical substitutes German for Greek. The Scientific Course prepares for any scientific school and the government schools at West Point and Annapolis, and is intended also to meet the wants of boys who do not intend to go to college, but who leave school to enter upon the active business of life.

To insure thoroughness, no pupil is advanced from one form to another who has not passed satisfactorily an examination on the course of study pursued.

Pupils entering the Academy are assigned to the forms for which they are prepared. They are not allowed to change from one course of study to another, except at the beginning of a term.

GYMNASIUM AND PHYSICAL TRAINING.

An elegant gymnasium, 50 x 100 feet, has been completed during the year. It has been supplied with apparatus under the direction of Dr. Sargent, Director of the Hemenway Gymnasium at Harvard College.

We have engaged for the next school year an experienced teacher of gymnastics, and regular physical training will hereafter be prescribed for all the cadets.

The military drill secures to the cadets regular and systematic exercise. The play grounds are large and attractive, affording every facility for ball and tennis, and other out-of-door sports.

MILITARY DRILL AND INSTRUCTION.

This department is in charge of the Commandant, by whom the cadets are regularly drilled. Besides securing healthful and agreeable exercise, it tends to give an erect carriage and good manners; and it promotes habits of order and obedience, important elements of success both at school and in after-life.

RELIGIOUS SERVICES.

The cadets attend daily services of prayer at the Academy, and the public religious worship on Sunday at the College church. On Sunday afternoon, there is either a half hour's study of the Bible or a lecture on some religious subject.

DISCIPLINE.

In the government of the Academy, it is aimed to dispense with all unnecessary rules, to teach the pupils to be frank and manly, and to encourage such deportment on the part of each cadet as will justify his receiving a large degree of liberty in his actions. At the same time, the military system of the Academy secures a close supervision of health, habits and manners. This system is strict without being severe. It must be distinctly understood that no vicious, insubordinate, or persistently idle boy, if admitted through mistake, will be permitted to remain at the Academy. No cadet is punished for any offence until he has had opportunity to make an explanation. A record of all reports and demerits is kept, and is open at all times to the inspection of parents and guardians.

It is aimed to provide here a school where, under influences that tend to the development of Christian character, boys will receive efficient and careful instruction and training, intellectual and moral.

OFFENCES FORBIDDEN.

The following offences are strictly forbidden :

- The use of intoxicating spirits,
- The use of tobacco in any form,
- Visiting saloons and billiard rooms,
- The use of profane or obscene language,
- Leaving the Academy grounds without permission,
- Playing cards, betting or gambling in any form,
- The borrowing and lending of money,
- Willful injuring of school property,
- Reading books and papers which are disapproved.

OFFICERS.

In the selection of cadet officers, faithfulness in the performance of all duties, both academic and military, and fitness to command, are mainly considered. Long attendance at the Academy does not alone entitle any cadet to an office. Continuance in office is made dependent upon faithfulness and efficiency in the performance of all required duties. Any officer who proves inefficient, or whose influence on the school is known not to be good, is reduced to the ranks or dismissed, as may seem best.

The promotion of an officer does not necessarily follow his seniority of appointment, but is determined by his record for faithfulness and efficiency as an officer.

YOUNG BOYS.

Particular attention is paid to the training of young boys. Few boys make satisfactory progress in their studies at home. Professional men and business men are generally too busy to give the intellectual, moral, and physical training of their sons that attention which the average growing boy needs. Furthermore, a boy at home has generally to contend with so many interruptions and distractions that the formation of systematic habits of study, so essential to success, is rarely possible. The result is that when a boy of fifteen or sixteen is sent away from home for the first time to a good training school, not only much that he has done has usually to be undone, but it is often found that his faculties have become so blunted by misdirected efforts and he has formed such bad habits of study as to give him a positive dislike for books that can not be easily removed. Unquestionably the years from twelve to fifteen are the most important in a boy's education. Boys whose parents can afford to send them to a good training school should generally leave home during

these years. For a good education a good foundation is of the first importance, and boys who remain at home until they are fifteen or sixteen rarely have such a foundation. It is a very common mistake to think that boys at the most important age in their educational life are too young to leave home.

All the masters of Academy are college graduates and teachers of tried efficiency. Every cadet, except the commissioned officers, studies at regular hours in a room with one of these masters.

The Academy, in some respects, is unlike other military schools. It is essentially a home school. The cadets are treated as far as possible as the members of a large family, in which the rights of the youngest members are carefully protected. Annoying little boys is not tolerated here. Any boy who derives pleasure from giving pain to others is advised to avoid the Academy.

TERMS AND VACATIONS.

The scholastic year is divided into two terms. The first term begins on the third Wednesday in September. There is a vacation of three weeks at Christmas. The year closes on the last Thursday in June. Cadets are received only for the entire year, or the remainder of it, if it has begun. No deduction will be made on account of withdrawal or other absence, except for an absence of more than six weeks on account of sickness, when six dollars a week will be refunded for the time lost.

SCHEDULE OF FEES.

<i>Tuition, Board, Washing, 1½ doz., Fuel and Lights for the School Year</i>	\$ 400
<i>Payable at Entrance</i>	\$ 200
<i>Payable at Beginning of Second Term</i>	\$ 200
	<hr/> \$ 400

A fee of five dollars is required on entrance for medical attendance for the year.

A fee of five dollars for chemicals is required each

term from students in the Scientific Course, pursuing the study of chemistry.

A deposit of fifteen dollars, to cover the cost of books, incidentals, damages, and for spending money, is required at the beginning of each term. Willful damage to school property is charged to the perpetrators if they are known; otherwise it is assessed upon the whole school.

An itemized statement of account will be rendered at the end of each term.

No money will be advanced for clothing, except on a written order of parent or guardian.

All bills not paid promptly are subject to sight draft without notice.

Cadets who remain at the Academy during vacation are charged at the rate of ten dollars a week, and they are subject to such regulations as are deemed necessary.

All checks should be made payable to the order of H. N. Hills, Treasurer.

REQUISITES.

Each pupil should bring with him a Bible, Prayer Book, and Hymnal, a rubber coat, a pair of overshoes, a pair of rubber boots, blacking brush, clothes brush, four sheets ($2\frac{1}{2} \times 1\frac{1}{2}$ yds.), four pillow cases (22×32 inches), one pair blankets, one comfortable, and two white spreads for single bed, six towels, six napkins, napkin ring, and two clothes bags. *To avoid loss, each article should be distinctly marked with the owner's name.*

UNIFORMS.

Two suits, a dress and a fatigue, similar to those worn at West Point, have been adopted for the Academy. These suits should be procured from the

Academy tailor, that there may be no variation in shape or color. By making a contract with a large and responsible house to furnish all the suits for the Academy, the cost of the two uniforms is forty dollars, and of the two caps five dollars and a half. As the coat buttons to the throat, vests are not usually worn, and are not included with the uniforms. A very serviceable overcoat with cape has been adopted for the Academy. It is of gray cloth, well made, and costs nineteen dollars. Its use is not insisted upon, but boys who are in need of a new overcoat are advised to get this, as it has many advantages for school wear. No citizen's clothes will be allowed in use after the uniforms are supplied. Boys will be measured on arrival, and the suits at once ordered.

RECEPTIONS AND HOLIDAYS.

A pleasant and useful feature of the Academy are the receptions given to the cadets on Wednesday evenings. These are sufficiently formal to insure the cultivation of courteous and easy manners, and yet they add greatly to the home-like character of the Academy, and are occasions of genuine enjoyment.

The greater part of Thursday is set apart as a holiday.

TAKE NOTICE.

A prompt attendance at the beginning of each term is very important. Time lost then adds greatly to the difficulties met by pupils, as they fail to receive many important directions and explanations then given.

Dentistry should receive attention during vacations.

Cadets are not permitted to receive from home eatables of any kind, except fresh fruits in their season. This applies as well to boxes at Thanksgiving as at other times.

ABSENCES.

Absence during term time is considered a very serious evil at all good schools. We have been compelled to take a decided stand against it. Leave of absence during term time is not allowed, except in cases of great urgency. Parents should make application for absence directly to the Rector. We must insist upon the observance of this rule.

It frequently happens that a cadet on his return to the Academy, after having been away only a few days, finds that his class has, in his absence, gone over ground a knowledge of which is essential to the continuation of some study. Especially is this likely to be the case in mathematics. He finds that he is unable to go on with his class, becomes discouraged, and often his whole subsequent education is seriously affected.

Many boys require to be treated kindly but firmly ; and unless important rules are adhered to, a good school is an impossibility. We have no rule more important than the one relating to absentees.

The rapid growth of the Academy, the improvement of the cadets, and the expressions of hearty approval which we have received from many of our patrons, convince us that the system which we have adopted here is a good one. We can not, however, expect any system to suit every one, and if any father is unwilling that his son should conform to the regulations which, in our judgment, are necessary to the maintenance of a good school, we prefer that he should send him elsewhere.

POCKET MONEY.

Too liberal an amount of pocket money causes the ruin of many boys. It is a fruitful source of disorder, habits of extravagance, and neglect of studies. An admirable plan, which has been adopted by some parents, is to fix upon a regular monthly allowance which their sons must make the limit of their expenses. All money for the use of pupils must be deposited with the Rector, to be disbursed at his discretion. Parents and guardians are earnestly requested not to violate this rule.

ADMISSION.

Blank forms of application for admission to the Academy may be obtained from the Rector.

All communications concerning the Academy should be addressed to LAWRENCE RUST, Rector.

COURSE OF STUDY FOR GRADUATION. FIRST FORM.

REQUISITES FOR ADMISSION.

Candidates for the Freshman Class are examined in the following studies :

ENGLISH — Grammar, Composition, Geography, United States History.

HISTORY — Grecian, Roman and American. The History of Rome by Pennell will be accepted in Roman History.

GEOGRAPHY — Ancient and Modern. In reading Cæsar and Xenophon, there should be constant reference to the map.

MATHEMATICS — Arithmetic; Algebra, through radicals and quadratics; Plane Geometry, the entire subject as treated in the best college text books. The thorough study of Mental Arithmetic is strongly recommended. The use of simple drawing instruments should be taught in connection with Plane Geometry; and original constructions and demonstrations should be required.

LATIN — Grammar, including Prosody; Arnold's Prose Composition to Chapter X; Cæsar, four books; Cicero, six orations; Virgil, four books of the *Æneid*.

The English method of pronunciation is preferred.

GREEK — Grammar including Prosody; Prose Composition, twenty lessons in Jones; Xenophon's *Anabasis*, three books; Homer's *Iliad*, one book. Goodwin's Grammar is used as a manual. Some simple reader or companion book of exercises should be used in connection with the Grammar.

MYTHOLOGY — Grecian and Roman.

A hand-book, such as Baird's Classical Manual, should be studied in connection with Virgil and Homer. A good classical dictionary and a dictionary of antiquities are necessary to classical students.

GERMAN — (if taken in place of Greek) Grammar; Grimm — *Kinder-und-Hausmärchen*; Schiller — *Wilhelm Tell* and *Die Jungfrau von Orleans*; Goethe — *Hermann and Dorothea*; Prose Composition; Outlines of German History.

Ability to translate at sight easy German prose, and to render into German, easy, connected English prose, will be required.

ADVANCED STANDING — Candidates for advanced standing are examined in the above studies, and in the studies that have been pursued by the class.

Fair equivalents are received for any of the above named books, or for parts of them. The books named serve to indicate the amount required.

Candidates for admission must present testimonials of good moral character; and if they come from other colleges, certificates of dismission in good standing.

The regular examination for admission to College, takes place on Tuesday preceding Commencement, beginning at 8:30 o'clock A. M. Another examination is held on the day before the opening of the Christmas Term, at the same hour. Students may be examined for an advanced standing at any time before the commencement of the second term of the Senior year.

For each examination for admission at any other day than those appointed in the calendar, a fee of two dollars will be charged.

Admission By Certificate.

Any student applying for admission to the Freshman class at the beginning of the Collegiate year will be admitted without examination, provided he bring a satisfactory certificate from the Principal of a High School of any city in Ohio, or from the Principal of any reputable Preparatory School or Academy, that he has thoroughly done all the work prescribed in our catalogue for admission to the Freshman Class, and provided that the Principal will also state, that, in his opinion, the applicant is able to maintain a good position in his class, and that he is of good moral character and habits.

All certificates must be made out on blanks prepared for the purpose, which will be furnished on application to the President and must be mailed so as to reach Gambier before the opening of the Christmas Term.

Teachers are requested not to give certificates unless clearly merited, but, in doubtful cases, to throw the responsibility on the Faculty.

Admission Without Greek or German.

Graduates of High Schools of any city in Ohio, who lack preparation in Greek or German can enter the Freshman Class, and opportunity will be given for them to begin either of these studies as College Students, provided that in addition to the requisites for admission as printed above, they are prepared to pass an examination in the following subjects: Algebra, to Series including Logarithms; Solid Geometry, Botany, General History and Civil Government, Physiology.

June 22 — Wednesday,	.	Meeting of Alumni.
June 23 — Thursday,	.	Commencement.
June 23 — Thursday,	.	Meeting of Trustees.

General Information.

LOCATION.

Gambier is a village, situated in the central part of Ohio, and is noted for its beautiful scenery, and its healthful and invigorating climate. No better place could well be found for quiet study, or for moral and religious culture. There are no saloons in the place. Gambier is distant by rail two hours from Columbus, four hours from Cleveland, and six hours from Cincinnati. The station of the Cleveland, Akron and Columbus railroad is immediately in the rear of the College grounds.

BUILDINGS AND GROUNDS.

The buildings are among the best in the United States. The Halls of the Literary Societies are unsurpassed. The College Park contains about a hundred acres, well shaded with maples, and with the grand old oaks of the native forest. To the east, the west and the south, it slopes most beautifully to the valley of the Kokosing.

TERMS AND VACATIONS.

The Commencement is held on Thursday before the last day of June. For particular dates see Calendar, page 37.

ATTENDANCE AND EXAMINATIONS.

Students not in their places at the opening of the term must show by written statement from their parents or guardians, that the absence was necessary.

When a student is necessarily absent from Gambier, and in cases of clear physical disability, known as such at the time by the Faculty, absences may be excused by special Faculty action. A student is not held morally accountable for such absences, and they are not considered in estimating his deportment grade; but in deciding the question whether or not a student shall be examined at the end of the term, all absences are counted. Regularity in the performance of all College duties is important for the welfare, not only of the individual student, but also of his class, and any student who persistently neglects these duties will be required to leave College.

It is deemed unnecessary to examine, at the end of the term,

those students who are regular in their attendance upon their College duties, and who show by their class work that they are well qualified to proceed with the studies of the next term.

Any student who fails to make a term grade of seventy-five in any study is examined in that study at the end of the term.

Any student who is absent from more than one-tenth of the recitations in any study is examined in that study at the end of the term.

PUBLIC WORSHIP.

Students are required to attend Morning Prayers in the College Chapel; also the public services on Sundays and on the principal Holy Days of the Church.

THE BEDELL LECTURESHIP.

Through the liberality of Bishop and Mrs. Bedell, the interest of \$5,000 has been devoted to the establishment of a course of lectures on the Evidences of Natural and Revealed Religion, and the Relation of Science and Religion. The lectures are delivered biennially on Founder's Day.

MATRICULATION.

A student is admitted to matriculation when he has sustained a satisfactory probation. Matriculation gives accredited membership in the Institution, and entitles the student to an honorable dismissal. Students who have entered the Freshman Class free from all conditions, or who have removed all such conditions before Founders' Day, and who, by diligence and good conduct, have given satisfaction, are entitled to matriculation.

DISCIPLINE.

The Faculty reserve the right to suspend, remove or expel any student, whenever they believe that the interests of the College require such action.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students of the regular course in good standing who are approved at the final examination of the Senior Class.

The degree of Bachelor of Philosophy is conferred upon those who have successfully pursued the study of Modern Languages instead of Greek, and who have sustained a satisfactory examination upon all other studies of the regular course.

The degree of Master of Arts is conferred on Bachelors of three years' standing, who have pursued a year's study in some branch of the Liberal Arts, under the direction of the College Faculty. For Bachelors graduated before 1883, the rule remains as published before that date.

LITERARY SOCIETIES.

The two Literary Societies, *Philomathesian* and *Nu Pi Kappa*, have always been fostered by the College. The society halls are very commodious, and have been handsomely fitted up, occupying the whole of the second and third stories of the central portion of Ascension Hall.

LIBRARIES.

The students have access to the Libraries of the Theological Seminary and of Kenyon College. The aggregate number of volumes in the Libraries is about 22,000.

READING ROOMS.

A Reading Room has been fitted up, where copies of the leading English and American periodicals and newspapers are kept on file.

BOARDING AND LODGING.

Rooms are provided in the College building in which students must lodge unless they obtain permission from the President to room elsewhere. The College makes no special provision for board. This can be readily obtained in private families, or, at times, in clubs.

EXPENSES.

Each room is sufficiently large and convenient to accommodate two students. The rooms are provided with stoves, and are neatly painted and papered by the College. Students provide their own beds, furniture, light, books and stationery. Furniture can often be bought, as well as sold, at second hand, and the expense incurred by its use need not be great.

The College charges are: For Tuition, \$25 per term; for Room Rent \$5 (at least) per term; and for Incidentals, \$10 per annum. A matriculation fee of \$5 is charged to every student at his entrance. There are some minor expenses, consisting of taxes voluntarily imposed by the students in their classes and their literary societies, and the expenses of graduation.

Every student must keep on deposit with the Treasurer \$5 as security for damage. Any balance is returned to the student at the close of each year.

When a student is absent for a term, and is afterward, upon examination, allowed to go on with his class, tuition is charged for the time of his absence. Room rent is charged when a room is reserved for a student.

Fuel is supplied by the agent of the College, and must be paid for in advance, at the same time with the bill for tuition. The charge is \$6 per term for the first and second terms, and \$3 for the third term; and twice these sums when a room is occupied by a single student.

Board in private families costs from \$3.50 to \$4.00 per week. Clubs are sometimes formed, and the expense for board is thereby materially reduced.

Students are not allowed to board themselves in their rooms, as this practice has been found to be perilous to health.

The following estimate may be given of the annual expenses, not including expenses in vacation:

Tuition,	\$ 75
Room Rent,	\$15 to 50
Incidentals,	10
Fuel,	15 to 30
Board,	95 to 152
Washing,	15 to 25
Lights,	5 to 8
Total,	\$230 to \$350

Other incidental expenses, such as books and stationery, furniture, expenses in societies, traveling expenses, etc., vary according to circumstances, and the character and habits of the individual student.

The College bill must be paid in advance, according to the following rule of the trustees:

"All students shall be required to pay their regular term bills in advance. The Treasurer's receipt shall be required by the President before he shall sign a certificate of matriculation, or, after the first term, before the student shall attend recitations."

ASSISTANCE.

Tuition fees are remitted to sons of clergymen. A few scholarships are available for students of the highest character and ability.

THE HENRY B. CURTIS SCHOLARSHIPS IN KENYON COLLEGE.

Hon. Henry B. Curtis, LL. D., has granted to the Trustees of Kenyon College a fund for the aid of meritorious students by loans of money at a low rate of interest. The interest is intended to meet only the risk of life, and is not to be greater than the average rate of life insurance.

Application for the benefit of a Henry B. Curtis scholarship must be addressed to the Secretary of the College Faculty, Gambier, Ohio, and must state the applicant's name, residence, age, his father's name, and the amount asked for. The application is to be understood as confidential with the Faculty. In making the selections, the Faculty will consider all evidence that may be obtained as to the applicant's character, ability, and merit, including his examinations in school and college, and his record of punctuality and other good conduct, the best evidence being the Faculty's personal acquaintance with the applicant. The appropriations will be made only a year at a time. The scholarship is intended to help the student, but not to cover all his expenses. The maximum for one student for one year will be one hundred and fifty dollars, but for a student's first year in college, seventy-five dollars. The sum appropriated will be paid in equal parts, one at the beginning of each college term. Upon each payment the student will give his promissory note for the repayment in five years from date, with interest at the rate of one and one-half per centum per annum.
