Both are wellknown throughout the State, and will do men and three horses and wagons all in their power to give the visiting correspondents a royal welcome, Cincinnati has not had a Democratic State Convention since 1876. That convention was a notable one, presided over by George H. Pendieton. The chief work was the selection of delegates to he National Convention at St. Louis. One faction desired the nomination of Wm. Allen for President, and another favored Allen G. Thurman. The convention finally endorsed Allen, although the majority of delegates were at heart Thurman supporters. The delegates-at-large were George W. Morgan, General Thomas Ewing, Col. W. L. O'Brien and Senator Pendleton. Wm. Bell. of Newark was a nominee for Secretary of State. There was not much of a State ticket that year, the only interest of the con-

vention being the selection of delegates The fact that the candidate for Governor and the general State Ticket is to be ominated at Cincinnati next month will make the coming convention of far more general interest than that of 1876 No one can deny that Cincinnati is the best place in Ohio for a convention, not alone of her Music Hall, but on account of the good treatment and hospitality which she bestows upon all visitors.

She was one of the most beautiful girls n the county and could do a man's work on the farm, putting in and taking care of forty acres of oats this spring.

She was noted for her physique the country round. This afternoon, while attempting to mount a horse, Charles McClain, a young farmer living near here, was thrown from the animal and landed on a rail which gouged out his bowels. The sight was most horrible to behold. The orse was a colt and was very restless and when in jumping upon the animal he slid over and landed with the above results. McClain was a very enterprisng young man and his terrible accident has created intense excitement in his

A Change in Postal Cards.

Postmaster General Bissell has decided to abandon the three sizes of postal cards now in use and to substitute one size for both single and reply cards. With that purpose in view the specifications which have been sent to prospective bidders for the contract of furnishing the postal service with cards during the next four years call for single cards of the uniform size of 3½ by 5½ inches. al size, it being used generally by the countries composing the National Postal union. Kentucky Divines Quarrel Over Dr. Briggs and His Case.

The expulsion of Dr. Briggs from the eneral assembly has caused strained relations to exist between the two most prominent divines in the Presbyterian church in Kentucky.

The ministers involved are Rev. Samuel A. Henderson, D. D., pastor of the Warren memorial church in Louisville, and Rev. Wm. C. Young, D. Kansas Tired of Prohibition.

Attorney General Little of Kansas, in letter to A. J. Richard of Fort Scott, ntimates that the state administration of Kansas has thrown prohibition overboard and will not use the machinery of state to enforce it. He says several cities, unable to meet their taxes, are asking that saloons be licensed to realize money to meet their indebtedness. Concluding, Attorney General Little says: "If this community wants peace and narmony, soberness and virtue, they must provide some system other than the present, for not only will the saloons run wide open, but crime of every conceivable nature will become rampant.'

In this calculation the two Ohio Senators, Messrs. Sherman, and Brice are put down as favoring the repeal. The policy of the Republican leaders, it is claimed, will be to keep off the repeal as long as possible, in the hope of influencing the November elections.

A Former Banner Employe. The Cleveland World of Thursday, contained the following item concerning a forner and well-known citizen of Mt. Vernon: General Passenger Agent B. F. Horner of the Nickle Plate, is a great friend of the newspaper boys. There is good reason for it. Mr. Horner is an old-time newspaper man himself. Back in the '50s he used to "set type" and do many other things that fall to the lot of a country printer, on what is now the BANNER, of Mt. Vernon, in Knox county. Cylinder presses were unheard of then, and Mr. Horner, although a boy used to pull the lever on a Washington hand press for the entire edition. Plates and "ready print" sheets had not come into vogue then and the printer boy was forced to forego the torture of two publication days a week. Mr. Horner delights in recounting his experiences, particularly to those who have had a taste of newspaper life. It is needless to say that Mr. Horner can to-day wash a roller or write an editorial with the same vim and vigor that characterized his journalistic efforts a third of a century ago.
