COUNTY FARM and BUSINESS DIRECTORY

CONTAINS FOUR SECTIONS

THE GENERAL INFORMATION SECTION presents pertinent facts and history of the County

THE BUYERS GUIDE leads rural residents to business establishments definitely interested in the progress of the County. The Buyers Guide and Listing Section are printed on canary paper and are sent with Home and Farm information to the rural residents of the County as a courtesy of Directory Subscribers. Its pages are identified by the "BG" following the page numbers.

THE COUNTY DIRECTORY SECTION

The Alphabetical List contains the names of the families in alphabetical order.

The Road Guide, which follows the Alphabetical List, is the only one in existence which shows each family in its proper position on the roads of the County

THE CLASSIFIED BUSINESS LISTINGS provide quick reference to advertisers whose items, services, phone numbers, and addresses are desired by the buying population of the County.

INTRODUCTION

From time immemorial the Art of Farming has been a continual battle against nature. Yet adverse weather conditions in themselves have seldom driven the farmer to the city. His fight to feed a hungry world has kept him on the land where he has learned through nature to live close to God. It is to the man who plants and harvests the crops and the businessman who serves him, that this volume is respectfully dedicated. The direct purpose of the Rural Directory is to bring a closer relationship between the farm families of the community and the businessman who serves them.

The information found in the directory will be found to be accurate and to the point. Alphabetically, it lists every rural family in the county, his wife, their RFD, phone exchange, road, acreage, ownership, type farm or occupation, their children and ages--this listing will help you locate and to know every family in your county. There is a large, detailed map and a completely indexed road section to show you exactly where every individual lives. For the businessman the Rural Directory supplies a wealth of reliable information of the most concise form. The rural family is provided with gardening, **butchering**, canning, storing, freezing and cooking tables; County, state and national histories, Agricultural statistics, farm forms, tables, and a buyers guide containing business listings; which when carefully used will save the farmer time, trouble and expense. There may be errors but we have worked to make your directory as accurate as is humanly possible.

Our Rural Directories involve from 10,000 to 25,000 man hours and car mileage equivalent to trips from 3,000 to 6,000 miles. The advertisers whose names you will find in these pages have brought you this volume at a small cost, and through their cooperation the buyers guide reaches every rural family in the County. They felt the expense justified, if only to show that they too, are a part of the Rural Community. Like the neighbor, who pitches in with the planting or harvest, these advertisers are ready to help in their own way; by having the things needed on hand when they are required.

For assistance and information necessary for the preparation of this book, grateful acknowledgement is made to the thousands of householders, throughout the county, who very graciously supplied pertinent data and contributed of their time and experience. Should any of you have further advice or suggestions for improving the Rural Directory, it will be gratefully received.

NOTICE

In accepting this publication the subscriber agrees that the information contained herein has been compiled from source and by person deemed to be reliable.

RURAL DIRECTORIES does everything possible to be accurate, but can not guarantee a complete absence of errors or omissions, therefore is not responsible for any such that might appear.

CONDENSED HISTORY OF KNOX COUNTY

By Carl L. Van Voorhis

President Knox County Historical Society

Knox County is located in what is known as the United States Military Lands, so called because this portion of Ohio was appropriated by an Act of Congress on the first of June, 1796, to satisfy certain claims of the officers and soldiers of the Revolutionary War.

Approximately one half the northern boundary of our county is formed by the famous Greenville Treaty Line, while the other boundaries were changed a few times by Acts of the State Legislature.

Knox was established as a county by the State Legislature on January 30, 1808. At this time the western boundary of Knox County ran due north from the western boundary of Hilliar Township and included Bloomfield, Franklin and Chester Townships lying directly north of Hilliar. This boundary existed until Morrow County was organized in 1848 when they were taken from Knox and given to Morrow by Act of the Legislature. This arrangement left the map of our county with a rather peculiar outline, with Hilliar Township extending farther west than the rest of the county.

The Early Settlement

Starting at about the turn of the 19th century there was a steady influx of pioneer settlers into this area. Naturally, among these were some who were merely seeking excitement, some renegades, and perhaps a few who were fugitives from justice. But from all accounts the overwhelming majority were good, honest, substantial citizens who were industrious and sincerely in search for a place to carve for themselves a home out of the wilderness. No roads, just Indian trails. No schools, no churches. But that latter condition did not exist for long, for as early as 1808 some churches were organized and various denominations were holding services in the scattered settlements.

Among the very early settlers was Nathaniel Young, Robert Thompson, A. M. Douglas, Joseph Walker, John Simpkins, and Samuel H. Smith. It was this Smith who platted and recorded, thus establishing, the village of Clinton, about one and a half miles north of Mount Vernon. This was December 8, 1804.

Shortly after this there was quite an increase to the population by emigration from Ten Mile, Washington County, Pa., of John Mills, Henry Haines, Ebenezer and Abner Brown and Peter Baxter. These all settled a short distance south of Owl Creek. This

settlement, increased by the Leonards, was, in 1805-06 the largest and best community in the county, and upon its organization and for several years there-after, it furnished the leading men. It is very noticeable in reading the detailed early history of the county that these names appear time and time again as public officials, leaders in the organization of churches and schools and as heading practically all worthy improvements.

Up until the time of the organization of Knox as a county, in 1808, all county business had to be transacted in New Lancaster, so naturally the inhabitants were very happy that they were to have a seat of local government.

In the meantime, three named settlements had been established, Mount Vernon, Clinton and Fredericktown. But in the fight for the honor of being named the Seat of Justice, Mount Vernon and Clinton were the main contenders. The story of how Mount Vernon won reads like fiction.

The County Government

To us of today the original County Government may appear rather crude, but we must bear in mind that every thing here was new, the officers inexperienced with no established precedents to follow. Money was extremely scarce, and a taxing policy had to be set up. Wolves were plentiful to the extent they constituted a nuisance and bounties were paid for their scalps.

The first regular meeting of the county Commissioners assembled October 24, 1808.

In January, 1809, they ordered the clerk to pay the Grand Jurors \$1.50 each for serving two days on the Jury, (seventy five cents a day).

Knox County has had four Court Houses and four jails. The first Court House built in 1808 or 1809, was a log building, one story in height, 15 x 18 feet with a dirt floor and greased paper windows. The second was of brick, built in 1811, and stood on the north east corner of Main and High Streets.

But in grading the streets it became undermined and collapsed in 1829. It was immediately replaced by a third one which was destroyed by a tornado on April 9, 1854. The fourth and present one, was then erected at a cost of almost \$40,000.

The first jail was built in 1809, the second in 1823, the third in about 1854 and the present one in 1913.

Agriculture

Agriculture was the primary industry during the early years of settlement and has remained of primary importance through all the years. An agricultural society was organized in Morris Township in 1846 and out of this grew the Knox County Agricultural Society. In 1847 and subsequent years, fairs have been held.

Naturally, the first industries in the county were based upon the primary products of grain and timber and grist and saw mills were constructed as early as 1804. Through the years manufacturing plants have developed until today we have a diversified industrial business producing steel structures, gas and diesel engines, plate glass, milk bottles, cellophane packaging, rock-bits, castings, and others.

Churches and Schools

Probably the first religious meetings were held about 1804, one mile south of Mount Vernon, at the cabin of William Leonard, a Presbyterian. In 1806 a presbyterian Church was organized in Mount Vernon, and in 1808 at Martinsburg and Fredericktown. The Methodists had services in Clay Township in 1808. Baptist services were held in Mount Vernon in 1807, but no church was established until 1835. The Lutherans met in 1835. In 1822 the Catholics in the vicinity of Danville established a church said to be the second Catholic Church in Ohio. The first Episcopal meetings were held in Mount Vernon in 1824-1825 and the Congregationalists in 1834. In 1828, the Disciples, or Church of Christ, was organized in Bladensburg. This was the first church of that denomination in Ohio.

The earliest schools in Knox County were of the subscription type, the parents of the pupils paying a small fee for the instruction. Later, to supplement these schools, academies were established in Mount Vernon in 1815 and 1834, and in Martinsburg in 1837. In 1893 the Seventh Day Adventists established an academy which is still in operation. However, these academies soon were replaced by the free public schools which started in 1841 and by High schools which started in 1859.

General Conditions

We may not have made such phenomenal growths in wealth and population as some of our neighbors, but our municipal and county governments have been consistently conservative through the years. Our financial institutions have been well managed and sound with the result we went through the depression without a failure. Our industrialists are to be commended for their farsightedness and successful operation and expansion. The general economic prosperity of the county is best reflected by the fact that relief costs per capita during 1934 (the worst of the depression) were only \$4.05 in comparison with the state average of \$9.23.

FIRST AID TO THE INJURED

Drowning, Electric Shock, Gas, Smoke and other suffocations. Send for a Doctor and Pulmotor immediately. (Raise body keeping head low to permit water to run from nose and throat in case of drowning.)

1. Lay patient on his stomach, one arm extended directly overhead, the other arm bent at elbow and with the face turned outward resting on hand or forearm so nose and mouth are free for breathing.
2. Kneel straddling patient's thighs with your knees placed at such a distance from the hip bone so as to apply pressure direct from shoulder to heel of hands on the small of the back, with fingers resting on ribs.
3. With arms held straight, press forward slowly, so that the weight of your body is gradually brought to bear upon the patient. Do not bend you elbows. This operation should take about two seconds.
4. Release your hands so as to remove pressure completely.
5. After two seconds press forward again. Thus repeat twelve to fifteen times a minute, the double movement of compression and release, a complete respiration in four or five seconds.
6. Continue artificial respiration without interruption until natural breathing is restored, if necessary four hours or longer until a physcian declares the patient dead.
7. As soon as this artificial respiration has been started, clothing about the patient's neck, chest or waist should be loosened. Keep the patient warm and give no liquids whatever by mouth until fully conscious.
8. To avoid strain on the heart when the patient revives, he should be kept lying down and not allowed to stand or sit up.
9. Resuscitation should be carried on at the nearest possible point to where the person received his injuries.

FIRST AID TO THE INJURED - Continued

BLEEDING FROM WOUND - If from an artery, stop the current of blood to the wound by putting a compress or cloth pad over the artery. Fasten it firmly by a handkerchief or bandage, which may be tightened by twisting in a stick as a binder. The location of the artery can generally be determined by the throbbing sensation. If from a vein, apply pressure directly over the wound or by exposure or application of cold water. Perchloride of Iron may be applied with cloth or lint. Keep the part elevated.

WOUNDS - The part should be properly cleansed of all foreign matter, the edges brought together and fastened with strips of plaster; apply some anodyne solution; give stimulant.

BRUISES - Apply tincture of arnica and wormwood or hamamelis; keep well covered and warm.

POISONED WOUNDS, from Bite of Animals - Treatment should be prompt. If possible, suck the wound thoroughly two or three minutes; cauterize with either nitric acid, chloride of zinc or nitrate of silver.

STINGS OF INSECTS - Apply spirits of ammonia.

POISONS

GENERAL DIRECTIONS - Give an emetic as soon as possible; tablespoonful of powdered mustard in a tumbler of warm water, or twenty grains of ipecac, after vomiting, give freely of warm drinks.

SPECIAL DIRECTIONS - In case of poisoning from Arsenic, Corrosive Sublimate, Verdigris, Blue Vitriol, and from Vegetables kept in copper vessels; Give emetic and white of egg, sweet oil and milk.

SUGAR OF LEAD - Give emetic and epsom salt.

HEMLOCK, ACONITE, BELLADONNA and FOX GLOVE - Give emetic then tannin and stimulants.

OPIUM, LAUDANUM and MORPHINE - Give an emetic, follow with strong coffee or white of an egg. Keep patient walking two or three hours, and extremities warm.

SPEED

(All Speeds Approximate)

AIRPLANE - 584.82 mi. per hr. (World's Record 1/26/46)

Army P-80 Jet Plane.

AUTOMOBILE - 369.7 miles per hour.

Record set August 23, 1939 at Bonneville Salt Flats,

Utah, unlimited class by John R. Cobb.

BASEBALL - 139 ft. a second or 94.7 mi. an hour (8/30/39)

BIRD - Smallest bird flies as fast as 20 mi. per hr.

Ducks fly nearly 60 mi. per hr.

Some larger birds fly as fast as 100 mi. per hr.

BULLET - Muzzle Velocity

(A) Pistol - 800 ft. per second

(B) Rifle - 2700 ft. per second

(C) Machine Gun - 2700 ft. per second

FALLING OBJECT - First second fall - 16 ft.

Second second fall - 48 ft.

Third second fall - 80 ft.

Fourth second fall - 112 ft.

Fifth second fall - 144 ft.

FALLING STAR - 30 mi. per second (Solar System).

GOLF BALL - 250 ft. a second or 170 mi. per hr.

LIGHT - Approx. 186,000 mi. per second.

RAILROAD -

Schedule runs - Electric - 71.5 mi. per hr.

Steam - 78.4 mi. per hr.

Diesel - 84.0 mi. per hr.

Record Run - Union Pacific, Oct. 1934.

Dix-Potter, Neb., 9 mi.-120 mi. per hr.

SHIP -

(A) Steam - 33 knots per hr.

(B) Motor - 50', 180 H.P.

20 mi. per hr.

- 50', Outboard Motor Boat 50 mi. per hr.

SUBMARINE -

(A) Surface - 19 knots per hr.

(B) Submerged - 8 knots per hr.

Individuals of Families which make their home with another

SYMBOLS

- † Information from a secondary source. Δ Indicates that the family has a telephone. Check the phone exchange listed after symbol for number.
 § Information Refused.

TO LOCATE ANY FAMILY IN THE RURAL AREA OF THE COUNTY

- Find the family name desired in this, the County Alphabetical List.
- Note the Family number, and the Road number or Name.
- Turn to the Road Guide Index, after Tab 2, find the page number of the road on which the family lives.
- Turn to this page, then find the family number under the Road Title. This shows the family's position in regard to other houses, crossroads, railroads, etc.
- To locate the family's position on the map note in the Road Guide the cross road listed before the family and the one following. Here is an example:

Road Title	←	ROAD NO. 10	(1-25)	→	Map Code
<hr/>					
Road #2 Crosses					
<hr/>					
RFD #1 Woodstock, Ohio					
<hr/>					
3-FUNDERBURGH, Paul	(E)	→ Mailing Address			
4-RAPP, Ned L.	(W)				
5-LININGER, Carroll P.	(W)				
<hr/>					
Road #58 Intersects (W)					

- FUNDERBURGH, Paul's house is the only house on the east side of the road between these crossroads.
- Note the letter & number beside the Road Title in parentheses. Use this to locate the road on the county map found in rear of the book.

COUNTY ROAD GUIDE

The families in the County not living in any town are listed in this, the County Road Guide, and the County Alphabetical Listings. In the County Road Guide the families are listed in their proper position on the road in regard to the other houses and intersecting or crossing roads, with the side of the road which they live shown in parentheses.

SAMPLE ROAD GUIDE LISTING

30- BUCK, John W.	(E)
Family First	Side
Name Name	of
Family Number	Road

SYMBOLS

* Individuals or families living with another.

† Information from a secondary source.

§ Information refused.

△ Indicates that the family has a telephone. Check the phone exchange listed after symbol for number.

TO LOCATE ANY FAMILY IN THE RURAL AREA OF THE COUNTY

1. Find the Family name desired in the County Alphabetical List.
2. Note the Family number and the Road number or Name.
3. Turn to the Road Guide Index, after Tab 2, find the page number of the road on which the family lives.
4. Turn to this page, then find the family number under the Road Title. This shows the family's position on the road in relation to other houses, crossroads, etc.
5. Note the cross road listed before the family and the one following. Here is an example:

Road Title	ROAD NO. 10	(I-25)	Map Code
<hr/>			
Road #2 Crosses	<hr/>		
RFD #1 Woodstock, Ohio	<hr/>		
3-FUNDERBURGH, Paul	(E)	<hr/>	
4-RAPP, Ned L.	(W)	<hr/>	
5-LININGER, Carroll P.	(W)	<hr/>	
Road #58 Intersects (W)	<hr/>		

6. FUNDERBURGH, Paul's house is the only house on the east side of the road between these crossroads.
7. Note the letter & number beside the Road Title in parentheses. Use this to locate the road on the county map found in rear of the book.
