A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising — aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

MT. VERNON, Ohio

Mount Vernon is an ideal place for business, or industry—or for bringing up a family. Diversified industries provide a stable basis for a progressive city, while uncrowded residential areas and a surrounding general country preserve the advantages of a small-town life.

It is a city with—

Strong financial institutions

Modern new hospitals

Recreational facilities, consisting of public parks, theatres, golf courses, country club, swimming pool and picnic grounds.

Churches representing practically all denominations.

An educational system with nine public grade schools, a centrally located modern high school, a parochial school with elementary and high school grades, business school, Mount Vernon Academy and Kenyon College at Gambier.

Abundance of artesian well water, softened in Municipal plant.

New modern sewage disposal plant.

Ample power, gas and telephone service.

Good transportation facilities.

Modern privately owned airport.

DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*

NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvasses. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

INTRODUCTION and GENERAL INDEX

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1957 edition of the Mount Vernon City Directory, which also includes the rural routes emanating from the Mount Vernon Post Office.

Confidence in the growth of Mount Vernon's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Mount Vernon to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Mount Vernon Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Mount Vernon, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Mount Vernon, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the num-

bered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

V. THE MOUNT VERNON RURAL ROUTE DIRECTORY is the fifth major department, printed on white paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Mount Vernon. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The first white man known to have viewed the present site of Mount Vernon was John Stilley, who, when a captive among the Indians, traversed Owl Creek (present Kokosing River) from its mouth upward, in June, 1779.

The first white man to locate within the present Knox County limits was Andrew Craig, who came from the mountainous region of Virginia, and built his cabin close to the little Indian Field, located where Center Run enters the Kokosing River, on the southeastern edge of the city. Here he lived when Mount Vernon was laid out in 1805 by Joseph Walker, Thomas B. Patterson and Benjamin Butler.

One of the settlers, being from the region of the Potomac River and thinking of the consecrated spot on its shores, suggested that the town should bear the name of Mount Vernon.

The first settlers were from Virginia, Maryland, New Jersey and Pennsylvania, and many of the direct descendants of those hardy pioneers still reside in this locality.

A frequent visitor to the settlement in the early days was the famous character in Ohio history, known as Johnny Appleseed (John Chapman). He is given credit for planting some of the old apple orchards in the county, and at one time owned two lots in the original plot of the village. These lots were located at the end of S. Main St., next to the river.

Knox County, of which Mount Vernon is the county seat, is one of the richest agricultural counties in the state, and leads in the raising of poultry, hogs and pure-bred sheep. It is the largest sheep-raising county in Ohio.

Mount Vernon is located on the Pennsylvania Railroad, 90 miles from Cleveland and 45 miles from Columbus. It also is located on the Wheeling-Chicago division of the Baltimore & Ohio Railroad, giving direct connections to the great market centers. Four motor-freight lines give cross-county industrial service.

The State and Federal highways traversing the county and Mount Vernon include State Route No. 3 (the well-known "Three C Highway"), the short route between Cleveland and Cincinnati via Columbus; State Route 13, connecting Sandusky and the Ohio River; U. S. Route 36, from

Denver, Colo., to Cadiz, Ohio, there connecting with U. S. 22 on to the Atlantic Coast; State Routes 229, 586 and 661; and U. S. Route 62, from Buffalo, N. Y., to the Rio Grande River, passing through the southeastern section of the county.

Mount Vernon has two banks and two building and loan associations. These institutions are well and conservatively managed and have facilities to take care of demands far in excess of the present requirements.

The educational facilities of Mount Vernon are unexcelled. The public high school is modern in every way. One new grade school and additions to three other grade schools have been constructed within the past year. The parochial grade and high schools are of a very high standard. The Mount Vernon Academy, operated by the Seventh Day Adventist Church at Academia, a suburb, is well and favorably known, and draws students from all parts of the world. Five miles east, at Gambier, is Kenyon College, an Episcopal school, which is the oldest men's college west of the Alleghenies. Many of the most famous men in American life were graduated from Kenyon College, including President R. B. Hayes, Edwin M. Stanton and others.

Mount Vernon is honored in the history of America's national music, being the birthplace of Daniel Decatur Emmett, immortal as the author and composer of "Dixie," that song beloved of the Southland and now one of the national songs of a reunited people. His last resting place in beautiful Mound View Cemetery is a shrine for all who honor and revere his memory.

Recently Mount Vernon was chosen as the typical small American city for the filming of five documentary movies for the U. S. Department of State. These films are now being shown in other lands, principally in South America, to show how average people live and work in this country. Mount Vernon again was picked as the typical small city in America, when it was chosen by the Department of State as the subject for a picture-story article featured in "Amerika," a magazine that was, until recently, distributed in Soviet Russia.

Industry is diversified and has experienced a sound and steady growth in Mount Vernon. Labor-management relations have a record of friendly cooperation. The principal industries now include:

The Cooper-Bessemer Corp., manufacturers of gas and Diesel engines, compressors and fluid pumps.

The Continental Can Company, Shellmar-Betner Division, manufacturers, printers and converters of laminators, cellophane, pliofilm, foils, paper and coatings.

The Pittsburgh Plate Glass Co., automobile and window glass.

The Mount Vernon Bridge Co., engineers and builders of bridges and structural steel work.

The Lamb Glass Co., manufacturers of milk bottles and Mason jars.

The Timken Roller Bearing Co., manufacturers of hard rock drill bits.

The Loma Linda Food Co., soybean food products.

The Jewell Ice Cream & Milk Co., dairy products and mayonnaise manufacturers.

L. H. Underwood, Inc., manufacturers of electric fence controllers, electric flares and highway lights.

A. C. Taylor Packing Co., meat processors.

Electric power is furnished by the Ohio Power Co., which has ample facilities for providing power for any size industry. Telephone service is furnished by the Mount Vernon Telephone Corp. through modern equipment, with direct long-distance connections with the Bell System. Natural gas is provided by the Ohio Fuel Gas Co. and the Ohio Cumberland Gas Co. City water comes from artesian wells and is softened in a modern municipal softening plant. This plant has been increased in size and an additional new reservoir, located on a high point east of the city, has been constructed, providing ample facilities for the future growth of Mount Vernon. The City also has a new, modern sewage-disposal plant, planned also for future expansion of the city.

Health conditions here are unexcelled in the state. Two modern hospitals serve a large portion of central Ohio. Mercy Hospital recently completed a new addition, and Memorial Hospital has plans drawn for the expansion of its present building. The Mount Vernon State Hospital, a multi-million-dollar institution, is located near Mount Vernon, as is also the Avalon Sanatorium, a tubercular hospital.

Mount Vernon has:

A beautiful memorial building with a large public auditorium, furnishing facilities for civic meetings and concerts.

A State armory building, providing another large auditorium for public affairs.

A handsome post office building, occupying half a city block in the business section.

A new \$265,000 public library.

A newly-remodeled Y. M. C. A., with swimming pool.

A country club with a fine golf course, beautifully located in the hills overlooking the city and surrounding country.

A new \$125,000.00 community swimming pool.

Twenty-two churches, representing practically all denominations.

A retail section occupying sixteen city blocks, with stores and shops equal to any city in Ohio.

Mount Vernon, during its long history, has drawn added strength from the successive waves of western emigration. Its growth in population, as in industry, has been of a slow but steady and sound nature. Older blood has been leavened by the new blood, new ideas and new energy of incoming peoples, with the old and the new combining as a solid and enduring whole. This is the kind of community that people do not like to leave, and which offers opportunity and inducements to keep its own young people at home, as well as attract those from elsewhere. It is truly "A Fine Place to Live and Work."

The Polk Market **picks new-car buyers out of the crowd**

To meet today's fierce competition, automobile advertisers and their agencies recognize that mass advertising is not enough. Everybody is not a prime prospect for a new car, just as everybody is not a prime prospect for a truck, a tractor or a cabin cruiser.

Certainly, mass advertising is essential to create a receptive climate for new automobiles. But the complete automobile advertising program must cultivate, personally and intensively, those individuals who *can* buy . . . and who *do* buy regularly!

The Polk Market is the one medium that picks these regular new-car buyers out of the crowd and identifies them by name and address.

Then the automobile advertiser and his agency can direct personal, forceful mail advertisements to these identified new-car buyers, using The Polk Market exactly as they use other printed media.

Automobile advertisers and their agencies who have used The Polk Market have been impressed by its ability to move people into action, to identify dealerships and to buttress an entire advertising program.

Continuing research and experience prove that advertisements mailed to potential buyers gain greater attention . . . win far higher readership than any other form of printed advertising . . . tell a much more complete sales story . . . and pay off in measurable sales results—all at a *surprisingly low cost per reader-prospect!*

R. L. Polk & Co. functions in mail advertising exactly as the publisher functions in other printed media. Standard gross rates and specifications have been established by R. L. Polk & Co. when acting as the complete publisher for specific types of mail advertising campaigns. These rates apply equally to advertisers and agencies and are fully commissionable to the agency.

We will be happy to show you how The Polk Market can help you make all your advertising dollars work more effectively. Let us hear from you.

Complete Financial Information . . .

**Published Semi-Annually
March and September**

POLK'S BANK DIRECTORY reports December 31 and June 30 status of the 14,700 banks operating throughout the United States. Each listing includes the statement, officers, directors, correspondents and other general data of banks.

Investment bankers are listed following the banks in each city. A separate section lists legal reserve Life Insurance Companies. Other sections list the latest available information on banks in other countries.

This twelve pound volume, with 2800 pages of accurate, up-to-date information is the recognized standard throughout the world for banking facts. It is easier to use than a dictionary. Price \$27.50 a copy, or \$20.00 an issue on term contract.

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against the City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? Do you need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists, to check against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces or students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

POLK'S MOUNT VERNON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1957

Copyright, 1957, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition

of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

World's "Largest

Circulation"

Names and addresses of 39,977,700 passenger car owners and 8,427,900 truck owners . . . families and concerns who buy more than three-fourths of the nation's consumer goods . . . arranged by street and number . . . by city, county and state . . . by make of vehicle and year model . . . are available to the nation's largest advertisers. Yearly, R. L. Polk & Co. compiles for the automotive industry the official registration list of car and truck owners — the largest, most accurate mailing list in the world.

Through this great "circulation list," and through Polk's nation-wide direct mail advertising distribution facilities, the automotive industry and hundreds of other major concerns reach selected markets for their products . . . send advertising messages pin-pointed to the very prospect or customer they wish to reach . . . each advertising message imprinted with the local dealer's firm name and address, and sent to his own selected sales territory.

This world's greatest "circulation list" is a major sales tool used by industry to help move the goods and services that keep our economy rolling, helping to sell not only automobiles, but oranges, magazine subscriptions, vacation tours, and household appliances.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

- 1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.
- 2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.
- 3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.
- 4 A "Yellow Section" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.
- 5 A *Statistical and Historical Story of your city* plus miscellaneous other information.

Typical Questions

Your City Directory
Will Answer
