OFFICIAL PAPER OF THE COUNTY.

MOUNT VERNON, OHIO.

THURSDAY MORNING, AUG. 24, 1893.

## DEMOCRATIC STATE TICKET.

For Governor, LAWRENCE T. NEAL, of Ross.  
For Lieutenant Governor, WILLIAM A. TAYLOR, of Franklin.  
For Judge of the Supreme Court, JOHN W. SATER, of Darke.  
For Attorney General, JOHN R. BAILEY, of Putnam.  
For State Treasurer, B. C. BLACKBURN, of Coshocton.  
For Member Board of Public Works, LOUIS WILHELM, of Summit.  
For Dairy and Food Commissioner, PATRICK H. McKEOWN, of Hamilton.

The Ohio State Fair will be opened next Monday.

A vote for Larry Neal is a vote for more money and better times.

The business outlook, all over the country, is improving every day.

The Northern Pacific Railroad has again passed into the hands of a receiver.

Every man who draws his deposits from the Bank, helps to make the times harder.

Gold is coming, currency is coming, and good times are coming. Now, stop your growling.

The National Bank note circulation outstanding is \$189,140,709, an increase of more than \$5,000,000.

The National Bank circulation outstanding is \$189,140,709, being an increase of more than \$5,000,000.

The Leadville National Bank, which closed its doors July 1, resumed business on the 17th, and is paying its depositors.

JUDGE LOCHREN, the Commissioner of Pensions, has made it quite plain that the honest pensioner has nothing to fear.

The Pension Agents have discovered that they cannot run this Democratic Administration. This is why they howl.

It is not British gold that is coming to this country, but American gold returning to its legitimate home. It is welcome.

HAYDEN'S Rolling Mill, at Columbus, which has been shut down since June 1, has resumed operations, employing two hundred men.

THERE is an avalanche of silver talk in Congress just now; but some members, who are not talkers, think that silver is golden.

Or course the financial depression in Europe is a result of Democratic threats against the tariff in this country, if Republican logic goes.

OWING to a business misunderstanding among the proprietors of the Mansfield News, the office has been placed in the hands of a receiver.

THE President has appointed Capt. George W. Skinner, of Fulton county, Pa., Pension Agent at Pittsburgh, to succeed H. H. Bengough, Rep.

HON. JAMES H. BROWN, late special commissioner to Hawaii, arrived in Washington on Tuesday. He will soon make his report to the President.

MR. MCKINLEY thinks he can reverse the decision of the people on Tariff taxation, as expressed last year, but he will find himself egregiously mistaken.

EVERY man who draws his deposits from the Bank and hides his money in his house, encourages thieves, burglars and murderers to make him a visit.

REDFIELD LEONHART, a Canton Republican, like Paul E. Werner, of this city, denounces the calamity howlers as enemies of mankind.—*Abram Democrat.*

THE New York *Reverberator*, the most influential Republican paper in the east, is out in an able article in favor of free silver, to the great surprise and chagrin of Wall street.

THE National Bank of Commerce, of Denver, in accordance with authority from Mr. Eckles, Comptroller of the Currency, opened its doors and resumed business on last Tuesday.

YANG YU, the new Chinese Minister to the United States, arrived at San Francisco on the 17th, accompanied by a retinue of thirty persons and 80 tons of baggage. Great heavings!

It is stated that President Cleveland and Secretary Gresham are displeased with the decision of the Behring Sea Arbitrators. Some of the officials think the seals will be exterminated.

SPEAKER CREEP has announced his appointment of the Committees for the present Congress. The Chairmanships are about equally divided between the Northern and Southern members.

PRESIDENT CLEVELAND has issued a Proclamation opening the Cherokee Outlet to settlement and homestead entry on Saturday, Sept. 16, 1893, at 12 o'clock, noon. Now for a rush and a race.

The Virginia Democratic State Convention which met at Richmond on Thursday last, nominated Col. Charles O'Ferrall for Governor on the 1st ballot, and R. C. Kent for Lieutenant Governor.

GEORGE HARVEY, who robbed the First National Bank of St. Paul, of \$5,000, was captured at Chicago on Friday, by Pinkerton detectives. He was throwing away his ill-gotten wealth in a gambling house.

The Voorhees bill, says the New York *World*, simply enacts into law the financial plan of the Democratic platform. No Democrat can find a decent excuse for voting against it or delaying its passage.

GOLD to the amount of \$700,000, or \$9,980,000, was withdrawn from the Bank of England on Friday shipment to the United States. This will be bad news for the Republican "realists" shriekers.

LAWRENCE T. NEAL is an eloquent and magnetic speaker, forcible in statement, aggressive and fearless in action, earnest and captivating in debate and with an honest and sincere man.—*Delaware Herald.*

The New York *Advertiser*, a Republican paper, says it is cheering to observe the list of mills, banks and shops which have resumed business in rapidly catching up with the record of those which are closing.

The cholera epidemic is very severe in Moscow, where 116 new cases and 67 deaths were reported between August 8 and August 12. Eleven new cases of cholera and eight deaths were reported at Naples in a single day.

The Oliver Iron and Steel Company of Pittsburgh, one of the largest concerns in the country, went into the hands of a receiver on the 17th. The capital stock of the company was \$1,000,000, with an indebtedness of \$700,000.

The Iowa Republicans, in repudiating the Prohibitionists and setting up for themselves, show that "the fall will be the day hereafter." The indications are that Iowa will be classed with the Democratic States in the future.

## Increase of National Bank Circulation.

The bill of Senator Voorhees, of Indiana, making provision for an increase of the circulation of the National Banks, for the purpose of affording financial relief to the country, has been favorably reported upon by the Finance Committee of the Senate, and there is every reason to believe that it will become a law.

The New York *Times*, a paper well posted on financial subjects, says: "In payment of the 1 per cent. tax on circulation of the National Banks since the organization of the system has paid into the Treasury up to the time the last report of the Comptroller of Currency was prepared, \$72,640,412. This tax is a burden which weighs upon the banks, and which the Government does not need to exact. The proper measure of circulation tax would be the amount necessary to defray the expense of providing for the circulation and the examinations of the banks."

The *Times* adds: "If Mr. Voorhees' bill can be enacted, the tax will be paid into the Treasury up to a considerable extent, provide a remedy for the present distress arising from the hoarding of currency."

## A Decision in the Behring Sea Controversy.

The Behring Sea controversy has been settled, so far as the Arbitrators appointed to settle the question are concerned. The report that the United States had come off victorious in the settlement, has not been verified, so far as gaining exclusive jurisdiction over the sealery waters is concerned. Great Britain scored a victory in the principal points that were discussed, in securing a suspension of all sealing for three months in the year, and in protecting the seals for 60 miles around her island. The close season is established to begin May 1, and to continue until July 31. The close season shall be observed both in the North Pacific Ocean and in Behring Sea. Pelagic sealing is allowed outside the zone of Behring Sea from August 1. The use of firearms in sealing is prohibited.

Hon. John W. Foster, American agent of the Behring Sea Tribunal, said, after the decision had been rendered: "While no pelagic sealing can henceforth be carried on between May 1 and July 31, after that time such sealing may be prosecuted in Behring Sea with spears at a distance of 60 miles from the islands. This decision limits pelagic sealing to narrow bounds."

The worst feature of the settlement is that the United States must pay large damages to Great Britain for the use of seal hunting subjects who were kept out of the Behring Sea previous to this settlement.

Although the United States did not secure what was demanded in this controversy, and what rightfully belonged to her, yet it was well that a peaceable settlement took place, without involving our country in a horrible war, which might have resulted, if an amicable settlement had not been agreed upon.

## The Criminal Record.

A handsome tramp, who was only known by the name of "Billy," who was burning his way to Cincinnati, was stabbed to death by another tramp in Columbus Friday night.

Near Houston, Texas, Lucien McClain and Andy Wagner, while riding along the road got into a dispute about some money, whereupon Wagner deliberately drew a pistol and shot his companion.

At Hot Springs, Ark., on the 18th John Lowry and Emory Sullivan, two well-known citizens, while riding on horseback, became involved in a difficulty, which ended in Sullivan shooting Lowry with a revolver, killing him instantly.

A negro tramp went to the farm of Albert Horn, at Hollow Rock, Tenn., and asked Mrs. Horn for food, which she refused to give him, and finding her man as assumed a malicious manner. The brute was afterwards captured and shot to death.

At the town of New Tazewell, Tenn., on Friday night a gang of White Caps whipped two women named Russell in a most unmerciful manner, bringing the blood from their naked backs at every stroke. They were fallen women, but this was no excuse for such a brutal and cowardly act.

A negro friend, named Charles Walton, near Morganfield, Ky., carried a white boy named Sam Keith to the woods, and then struck him on the head, cut his throat and robbed him of \$4, which he made by selling water-melons. The negro was taken from the officer by an "orderly" mob and hung to a convenient tree.

Douglas Curtis, a switch thrower in the employ of the Western Indiana Railroad, at Chicago, crazed by the excessive use of whisky, on Sunday morning deliberately shot and killed his wife and his seven-year-old daughter, and then shot himself. He left a note to his friends at Keokuk, Iowa, and Le Harpe, Ill., stating that "adversity" caused his horrible act.

A most atrocious murder was committed at Perkinsville, Wis., last Friday night. The victim was a fallen woman named Konemann. She was found in bed with her throat cut and with no less than thirty-nine knife cuts upon different parts of her body. An unknown man, who worked in a logging camp near by, was arrested for the horrible crime as his clothes were soiled with blood.

Hon. Wm. J. Bayas, the eloquent Congressman from New Jersey, delivered a long and powerful speech in the House of Representatives on Wednesday last on the silver side of the great question of the day. In the course of his remarks he made this declaration: "The Sherman law is not the cause of our financial stringency. The moneyed men of the East, through intention, of course, started the panic by exaggerating the dangers of gold exportation. When the panic came they were injured as much as anybody else. The trouble now is that depositors have withdrawn their money from the banks, and a repeal of the Sherman law will not increase the solvency of banks."

The Republicans in Congress announced that they would take no part in the silver discussion, thus giving an undisputed field to the Democrats, but this proved to be untrue, for Ohio's well-known Congressman, Charles D. Keener, on Saturday night, sweeping everything in his path, destroying houses and barns, uprooting trees and laying acres of cornfields bare as a desert. In Sonerville, a town of 5,000 inhabitants, there is scarcely a house left, what has been more or less injured.

BOODY riots still continue at Bombay, between the Hindoo and Mohammedan "religionists." A mob sacked and destroyed several mosques. All public buildings in the harbor are in readiness for action, if necessary. The local authorities are confident that they will be able to quell the disturbance.

NATIONAL Bank circulation is perfectly secured; why, not, therefore, enact Senator Voorhees' bill at once, authorizing these institutions to issue notes to the full amount of their bonds, and thereby increase the currency circulation of the country 70 per cent. above its present limit? This is the easiest way in the world to make money plenty.

DELEGATES from the various Trades Unions in New York, to the number of 100, met on Sunday afternoon and discussed the condition of the unemployed. The speeches were temperate in tone. Obedience to law and order was urged, and confidence in the Government expressed. Socialistic speakers were not contumacious.

The Democratic Senatorial Convention for the 23rd district, which met at Toledo on Thursday last, nominated M. A. McClure, of Putnam, and Rudolph Brand, of Lucas, for Senators on the first ballot. Col. W. A. Taylor, the Democratic candidate for Lieutenant Governor, was present, and delivered a rattling speech.

Wm. J. JAMESON, a colored "doctor," was hanged in the basement of the court house, at Quincy, Ill., on Friday, for the murder of Charles N. Aron, whose wife he undertook to cure of facial cancer for \$500, but failed. He demanded his fee, but Aron refused to pay him, whereupon the "doctor" shot him dead.

## The Happy Family.

Democratic harmony and Republican dissensions are the order of the day. The nomination of Lawrence T. Neal for Governor has limited the Democracy, while the old quarrels between the Foraker and Anti-Foraker Republicans, have broken out with greater bitterness than ever.

The Republican Congressional primaries in the Portsmouth district, have been attended with scenes of unparalleled bitterness. Two calls were issued in the two rival papers at Portsmouth, the *Press* and *Blade*, and two sets of delegates were chosen to the Congressional Convention. The indications are that there will be two Republican Conventions and two candidates nominated for Congress.

A dispatch to the *Cincinnati Commercial Gazette* (Rep.) from Portsmouth, August 19th, says: "A report comes that Adams and Lawrence counties held double primaries to-day, this evening. If this is universal throughout the district there will be two Congressional Conventions at Ironton on the 29th, each of which will nominate a candidate for the unexpired term of the late Congressional Encocks."

Muskingum county is witnessing a terrific fight between the rival Foraker and Sherman factions. The Foraker men had a majority in the Central Convention, but the Sherman men, who are the organization, had the Sherman men appeared with proxies, which gave rise to a fearful wrangle; but the Sherman faction, with their proxy majority, selected an Executive Committee to suit themselves. Thereupon, the Foraker men, in disgust, went to another hall and selected an entirely different Executive Committee. Hon. Levi Burgess came down from Columbus to manage the Foraker "bolters."

Oh, the happy family!

## RECENT DEATHS.

Rev. Joseph L. Blyn, a well-known Catholic priest, of Tiffin, died on the 27th, aged 72 years.

Congressman John Logan Chapman, of the First Michigan district, died on Thursday last, of pneumonia.

Zelma S. Davis, wife of Postmaster David S. Davis, of Wapakoneta, and sister of Congressman Logan, died on the 17th.

E. H. Kirlin, late Captain in the United States Army, who was chief of the Foraker staff, died in Washington, August 14th.

Hon. W. W. Beatty, late a Representative as well as a Senator from Logan county, died at Pella, Iowa, on the 25th, of apoplexy.

Frank Little, formerly of the Adams Express Company, was found dead in his room at the Sturz House, Zanesville, on the 17th.

Thomas McClure Peters, Arch-deacon of the Diocese of New York, died of heart failure at Peckskill, N. Y., on Saturday. He was found dead in bed.

Thomas D. Messler, a well-known railroad magnate, who some years ago was a director in the C. & O. R. R., died at Cresco, Pa., Aug. 14, in the 61st year of his age.

George Shiras, one of the oldest pioneers of Pittsburgh, died on Friday last, aged 88 years. He was the father of Justice George Shiras, of the U. S. Supreme Court.

Major William M. Robinson, city editor of the New Orleans *Picayune*, died on the 17th, aged 63 years. He was a native of New Hampshire, and came from revolutionary stock.

## More Railroad Disasters.

A most horrible disaster occurred on the Baltimore and Ohio Southwestern Railroad, twelve miles west of Gallitzin, on Friday, by the explosion of the boiler of a locomotive which was pulling a freight train going eastward loaded with eggs, beer, poultry, hogs, flour and general merchandise. The engine was torn to fragments, and the boiler was found in a field 90 feet away, and other portions of the engine were scattered for a distance of 100 yards. Of 22 loaded cars, twelve were completely wrecked. Engineer Boston, brakeman Quinn, and fireman Brown, were killed, being torn to pieces. Conductor Bache and brakeman Thatcher escaped without injury, being in the coaches in the rear of the train. The loss to the company, outside of freight, is placed at about \$12,000.

An awful accident occurred on a Virginia railroad, near Danville, on last Wednesday morning. Two passenger coaches were precipitated into a creek below, a distance of sixty feet, by a trestle bridge giving way. Seven passengers were killed and a number of others were badly injured. The engine and six cars were overturned, but the passenger cars and sleeper were not late and went down being slivered into kindling wood. The escape of any of the passengers was a miracle.

## The State Committee Organizes.

The Democratic State Executive Committee organized at Columbus on the 17th, by electing James P. Seaward, of Mansfield, chairman; T. J. McDermott, of Zanesville, Vice Chairman; Wm. T. Wear, of Urbana, Secretary; and Gille H. Bargar, of Columbus, Treasurer. It was organized to cast the regular election vote in Ohio for Governor Cleveland January. Hon. L. T. Neal, candidate for Governor, was present.

The State Committee will open at Newark on the afternoon of Thursday, Sept. 14. Hon. Lawrence T. Neal, the gubernatorial candidate, and Vice President Stevenson will speak.

## During the celebration of Pontifical Mass in St. Patrick's Cathedral, in New York, by Mgr. Sarotti, Archbishop Corrigan made an address in which he said that he recognized the Apostolic Delegation's high position and recognized all stories which had been circulated about there being any fiction.

THROUGH the influence of Senator Price, George W. Hardin, one of the few colored Democrats in Greene county, has been appointed Postmaster at Wilberforce. The Wilberforce College officials opposed the appointment because Hardin was a Democrat, but Price carried his point.

CHAMBERLAIN, S. D., enjoys the distinction of having a large station on the well in the world. Disputes place the well at 8,000 gallons of pure water per minute. The well is eight inches in diameter, and the water is shown to the height of four feet above the top of the pipe.

The French elections, on Sunday, contrary to expectations passed off quietly and peaceably. All the members of the present Cabinet were re-elected. Mr. Wilson, son-in-law of the late President Grety, was elected by a large majority, notwithstanding the recent Legion of Honor scandal.

EX-GOV. CAMPBELL, in an interview in New York, Saturday, said that, while he preferred another candidate than Neal for Governor, yet he is for him, and the whole ticket, and will come to Ohio and make as many speeches as he is asked to, or at least has time to make.

The Senate Finance Committee has agreed upon and reported a bill for the unconditional repeal of the silver purchasing clause of the Sherman law. Silver men are weakening and talking about compromise, while sound men are gaining confidence.

THAT unchained crank, Allen O. Myers, is afflicting the readers of the *Commercial* and *Gazette*, with "most forcible" law of slush about the Democratic State Convention and its candidates. Allen's delight is to make himself miserable.

## Harcourt Place Seminary.

A school of the highest grade for Young Ladies and Young Men, situated in the erection of a new building last year, a large number of applicants would have been received for the vacant room.

Location of great beauty and healthfulness; elegant buildings.

Teachers all college women, receiving much larger salaries than usual in boarding schools. Advantages of instruction unequalled. It is believed that any church school for girls in this country.

Admission courses of study:

1st. Special courses for High School graduates and others who wish to supplement their previous training by a year or two of college study, with attention to languages and accomplishments.

2d. An Academic Course, planned on new lines, affording a practical education and one suited to the practical needs of life. It aims at rendering the student conversant with Mathematics except a thorough practical knowledge of Arithmetic and Elementary Book-keeping, to allow time for an extensive study of English, including Language, Literature, History, and Biography as related to Literature and History; Classic Literature studied by means of the best translations. Modern Languages taught by a native teacher, and best instruction given in practical Science. This course was originated here, introduced last year, has proved exceedingly popular, and is widely commended by educators as a long step toward the best education of the average girl.

3d. A College Preparatory Course, designed to give as thorough preparation for college as can be had in this country. Graduates admitted to Wellesley, Smith and other colleges without examination. Our graduates have been uniformly and remarkably successful.

Exceptional advantages in Piano and Vocal Music and Art.

Careful attention to everything pertaining to good health, sound learning and general culture, wholesome and happy home life.
