KENYON COLLEGE

GAMBIER, OHIO.

THREE DEPARTMENTS

Collegiate	Kenyon College
Theological	Bexley Hall
Preparatory	Kenyon Military Academy

Printed by
The Lampson Printing Company
Jefferson, Ohio.

BOARD OF TRUSTEES.

Ex-Officio.

THE RT. REV. BOYD VINCENT, D. D.,

Bishop Conadjutor of Southern Ohio.

President for the year.

THE RT. REV. WILLIAM A. LEONARD, D. D.,

Bishop of Ohio.

THE REV. WILLIAM FOSTER PEIRCE, A. M., L. H. D.,

President of Kenyon College.

Permanent Members Elected Under Constitution, Article VIII.

THE RT. REV. CORTLANDT WHITEHEAD, D. D.,

Bishop of Pittsburg.

THE RT. REV. JOHN HAZEN WHITE, D. D.

Bishop of Michigan City.

THE RT. REV. LEWIS W. BURTON, D. D.,

Bishop of Lexington.

THE RT. REV. WILLIAM E. McLAREN, D. D.,

Bishop of Chicago.

THE RT. REV. GEORGE W. PETERKIN, D. D.,

Bishop of West Virginia.

THE RT. REV. THEODORE N. MORRISON, D. D.,

Bishop of Iowa.

THE RT. REV. JOSEPH M. FRANCIS, D. D.,

Bishop of Indiana.

Elected by the Board of Trustees, Under Article IV.

	Term Expires
The Rev. A. B. Putnam, Mansfield, O.....	1905
Charles E. Burr, LL. D., Columbus, O.....	1905
The Very Rev. Chas. D. Williams, D. D., Cleveland, O.....	1907
The Hon. Albert Douglas, Chillicothe, O.....	1907
The Rev. John H. Ely, College Hill, O.....	1909
Mr. Samuel Mather, Cleveland, O.....	1909
The Rev. Cleveland K. Benedict, Glendale, O.....	1911
Mr. D. B. Kirk, Mt. Vernon, O.....	1911

Elected by Conventions of the Dioceses of Ohio and Southern Ohio, under Article V.

	Term Expires
The Rev. John Hewitt, Columbus, O.....	1902
The Hon. U. L. Marvin, Akron, O.....	1902
The Rev. F. W. Bope, Zanesville, O.....	1903
Mr. John S. Ringwalt, Mt. Vernon, O.....	1903
The Rev. A. L. Frazer, Youngstown, O.....	1904
Dr. N. P. Dandridge, Cincinnati, O.....	1904

Elected by the Alumni under Article VI.

	Term Expires
The Rev. Charles S. Aves, Norwalk, O.....	1902
The Hon. T. P. Linn, Columbus, O.....	1902
The Rev. David H. Greer, D. D., New York City.....	1903
Florien Giauque, LL. D., Cincinnati, O.....	1903
The Rev. William Thompson, Pittsburgh, Pa.....	1904
Mr. James H. Dempsey, Cleveland, O.....	1904

Elected by Conventions of Other Dioceses under Article VIII.

	Term Expires
DIOCESE OF LEXINGTON.	
The Rev. R. G. Noland, Covington, Ky.....	1902
DIOCESE OF CHICAGO.	
The Rev. Peter C. Wolcott, Highland Park, Ill.....	1902
DIOCESE OF MICHIGAN CITY.

E. C. Cooke, M. A.

F. R. Salway.

C. A. Parmelee, B. A.

A. W. Clarke, B. A.

G. W. Burke, Jr.

KENYON COLLEGE.

The institution now known as Kenyon College was removed from Worthington, Ohio, to Gambier in the year 1828. It had been incorporated, and a constitution adopted by the Convention of the Diocese of Ohio, under the name of "The Theological Seminary of the Protestant Episcopal Church in the Diocese of Ohio." By a supplementary act of the Legislature, the president and professors of the seminary were empowered to act as the faculty of a College and confer degrees in the arts and sciences.

After many changes of plan, and some amendments to the constitution, the final result was the establishment of three institutions—a Theological Seminary, a College, and a Preparatory School, each independent of the others, but all under the control of the Bishop of the Diocese and the Board of Trustees. The Bishop was ex-officio President of the Board and President of the Theological Seminary. He had the power of nominating the President of the College, and during the recesses of the Board, he acted as Prudential Committee, with full power to decide all secular matters arising at such times.

In August, 1891, a new constitution took effect, having received the assent of the Convention of the Diocese of Ohio, of the Board of Trustees, and the Bishops of Ohio and of Southern Ohio.

By the new constitution the corporate name was changed from "The Theological Seminary of the Protestant Episcopal Church in the Diocese of Ohio" to "Kenyon College." The three heretofore independent institutions were

consolidated into one institution, of which the President of Kenyon College is the head. The Bishop of Ohio has voluntarily resigned most of his peculiar powers and privileges. He now presides alternately with the Bishop of Southern Ohio at the meetings of the Board of Trustees, and the two Bishops retain a joint supervision of the spiritual interests of the institution.

Instead of three independent institutions, there is one institution which includes three departments, or schools; a Theological School, Bexley Hall; a Collegiate School, Kenyon College; and a Preparatory School, Kenyon Military Academy.

In 1898 the constitution was again amended. The most important alteration is in the composition of the Board of Trustees. By Article VII of the amended constitution "the Bishop and Bishop-Coadjutor of any diocese outside the State of Ohio may become members of the Board by filing with its Secretary a written acceptance of an offer by the Board of such membership. And, upon such acceptance, by its Bishop, one additional Trustee may be appointed, for the term of three years, by the Diocesan Convention of such Diocese." The Bishops of Chicago, Pittsburg, Michigan City, Lexington, West Virginia, Iowa and Indiana have been elected to membership, and several of these Dioceses have already elected other Trustees.

Gambier, the seat of Kenyon College, is a village of about five hundred inhabitants, on the Cleveland, Akron and Columbus Railroad, a little east of the center of the State of Ohio, fifty miles from Columbus, five miles from Mount Vernon, and one hundred and twenty miles from Cleveland. The altitude of the College above sea level is more than a thousand feet. The site was chosen by Bishop Chase, after careful investigation, for natural beauty of surroundings, healthfulness of climate, and freedom from influences that might prove detrimental to the physical and

moral welfare of the students. The plateau on which the College and village are situated, rises about two hundred feet above the valley of the Kokosing River, which flows around it on three sides.

COLLEGE GROUNDS.

The natural situation of the College is favorable, commanding a view of the fertile, smiling valley of the Kokosing, with a gentle undulating background of cultivated hills. As Gambier Hill projects into the valley, the College park commands a wide prospect on three sides. The natural charm of the situation has been enhanced by good taste in laying out the grounds. In the park, which comprises seventy-five acres, as many as possible of the old forest trees have been retained, and pains have been taken to combine the effects of lawn and woodland. The extensive lands of the College have permitted wide choice in the selection of sites for various buildings, and the broad straight path which connects Old Kenyon and Bexley Hall is two-thirds of a mile long.

BUILDINGS.

The College buildings comprise Old Kenyon, the dormitory; Ascension Hall, the recitation and laboratory building; Rosse Hall, the gymnasium and assembly room; Hubbard Hall, the library; and the Church of the Holy Spirit, the College chapel; all stone buildings standing in the College Park; Bexley Hall, the theological seminary; Milnor and Delano Halls, the buildings of the preparatory school; "Kokosing," the beautiful stone mansion of Bishop Bedell, standing in its own extensive park; and various other buildings.

consolidated into one institution, of which the President of Kenyon College is the head. The Bishop of Ohio has voluntarily resigned most of his peculiar powers and privileges. He now presides alternately with the Bishop of Southern Ohio at the meetings of the Board of Trustees, and the two Bishops retain a joint supervision of the spiritual interests of the institution.

In 1898 the constitution was again amended. The most important alteration is in the composition of the Board of Trustees. By Article VII of the amended constitution "the Bishop and Bishop-Coadjutor of any diocese outside the State of Ohio may become members of the Board by filing with its Secretary a written acceptance of an offer by the Board of such membership. And, upon such acceptance, by its Bishop, one additional Trustee may be appointed, for the term of three years, by the Diocesan Convention of such Diocese." The Bishops of Chicago, Pittsburg, Michigan City, Lexington, West Virginia, Iowa and Indiana have been elected to membership, and several of these Dioceses have already elected other Trustees.

Gambier, the seat of Kenyon College, is a village of about five hundred inhabitants, on the Cleveland, Akron and Columbus Railroad, a little east of the center of the State of Ohio, fifty miles from Columbus, five miles from Mount Vernon, and one hundred and twenty miles from Cleveland. The altitude of the College above sea level is more than a thousand feet. The site was chosen by Bishop Chase, after careful investigation, for natural beauty of surroundings, healthfulness of climate, and freedom from influences that might prove detrimental to the physical and

moral welfare of the students. The plateau on which the College and village are situated, rises about two hundred feet above the valley of the Kokosing River, which flows around it on three sides.

COLLEGE GROUNDS.

The natural situation of the College is favorable, commanding a view of the fertile, smiling valley of the Kokosing, with a gentle undulating background of cultivated hills. As Gambier Hill projects into the valley, the College park commands a wide prospect on three sides. The natural charm of the situation has been enhanced by good taste in laying out the grounds. In the park, which comprises seventy-five acres, as many as possible of the old forest trees have been retained, and pains have been taken to combine the effects of lawn and woodland. The extensive lands of the College have permitted wide choice in the selection of sites for various buildings, and the broad straight path which connects Old Kenyon and Bexley Hall is two-thirds of a mile long.

BUILDINGS.

The College buildings comprise Old Kenyon, the dormitory; Ascension Hall, the recitation and laboratory building; Rosse Hall, the gymnasium and assembly room; Hubbard Hall, the library; and the Church of the Holy Spirit, the College chapel; all stone buildings standing in the College Park; Bexley Hall, the theological seminary; Milnor and Delano Halls, the buildings of the preparatory school; "Kokosing," the beautiful stone mansion of Bishop Bedell, standing in its own extensive park; and various other buildings.

OLD KENYON.

Old Kenyon, the College dormitory, which was built in 1828, is a massive stone building, one hundred and sixty feet long and three stories high, with solid stone walls four feet thick. The building is surmounted by a spire which contains the old College bell, which during the past summer has been recast at the Meneely Foundry at the expense of the Alumni.

The building contains sixty rooms, all of which are now available for students. Through the generosity of Messrs. Samuel Mather, of Cleveland; Jas. P. Stephens, of Trenton, N. J.; and Francis B. Swayne, of New York; Mrs. Mary L. S. Parsons and Mrs. Gregory Thurston Bedell, of New York, and other friends, Old Kenyon was thoroughly renovated in the summer of 1896. Dry sub-cellars now insure good ventilation; water has been carried throughout the building, bath-rooms have been put in, a hot water heating apparatus heats the halls and rooms, and the whole building is in repair. In the renovation, care has been taken to preserve the quaint features of the old College, such as the deep window seats, the diamond panes, the old-fashioned woodwork, the heavy doors.

HANNA HALL.

In June, 1901, Senator Hanna, of Ohio, made a gift of \$50,000 for the erection of a new dormitory. It is expected that the new building, which will contain rooms for fifty students, will be ready for occupation for the year 1902-1903.

ASCENSION HALL.

Ascension Hall is a stately and spacious building of drab sandstone, in Collegiate Tudor architecture. It is one hundred and thirty feet long, fifty feet broad, and

three stories high. It was erected by the liberality of the Church of the Ascension, New York, through the influence of Bishop Bedell. It contains the lecture and recitation rooms, the physical and chemical laboratories and workshops, the halls for literary societies, the offices of the President and Treasurer, the museum, and the library of Government publications. The tower of the building serves as the astronomical observatory. During the summer of 1899, by the generosity of Samuel Mather, Esq., of Cleveland, boilers were placed in the basement to supply both Ascension and Rosse Halls with steam heat.

COLLEGE CHAPEL.

The Church of the Holy Spirit, the College chapel, was built in 1869, by the Church of the Ascension, New York, as a tribute to their former rector, Bishop Bedell. It is a cruciform edifice of early English architecture. It is built of freestone, laid in courses, with dressed quoins and facings. The nave and chancel are ninety feet, the transepts eighty feet in length. Ivy, transplanted from Melrose Abbey, covers the walls.

The interior of the church is finished in oak, the walls are tastefully illuminated, and all the windows are of stained glass. The organ is a memorial to Bishop McIlvaine, and a mural tablet, erected by the Diocese of Ohio, commemorates the founder of Kenyon College, the Rt. Rev. Philander Chase.

In the Church tower is the College clock and a set of bells, which ring the Canterbury chimes.

By the will of the late Mrs. Bedell a fund of \$5,000 has been established for keeping the church and Kokosing in repair.

BEXLEY HALL.

Bexley Hall, the home of the Theological Seminary stands in its own park of several acres. It is a three-story building, of pure Elizabethan architecture, and contains furnished suites of rooms for thirty-four students. Through a gift of Samuel Mather, Esq., of Cleveland, a steam heating plant has been recently placed in the building. It contains also the theological library of some 12,000 volumes, a chapel and recitation rooms.

MILNOR AND DELANO HALLS.

The preparatory department of the College occupies Milnor Hall and Delano Hall, two large substantial brick buildings, the latter of which was erected through the liberality of the late Columbus Delano, of Mount Vernon. They are heated by steam and provided with an abundant supply of pure water and an excellent system of drainage. The grounds about the buildings comprise about sixty acres, and afford large stretches of lawn, ample play-grounds and pleasant walks.

LIBRARY AND READING ROOM.

The library of Kenyon College contains about 32,000 volumes, of which about 20,000 are works of general literature, and 12,000 theological. By the generosity of the late Mrs. Ezra Bliss, of Columbus, the general library is provided with spacious and beautiful quarters. Hubbard Hall, so named in honor of Mrs. Bliss' brother, is a large stone building with many windows. The lower floor is occupied by the library alcoves and the upper contains a large, sunny reading room. The library is catalogued according to the decimal classification system of Mr. Melvil Dewey, and the librarian is in attendance six hours a day.

For a small college the library is remarkably full, and fulfills admirably its function as a working library for undergraduate courses. The collections in biography, English history and philosophy are particularly full, and the mathematical department contains the library of the late John N. Lewis, of Mount Vernon, which consists of some 1,200 volumes. Accessions are made on the recommendations of the several professors, and include the most important of the new publications.

The purchase of new books is well provided for by several endowments. The Hoffman Fund was established by Frank E. Richmond, Esq., of Providence, R. I., for the purchase of new books. During the past year the James P. Stephens Library Fund of about \$18,000 has been founded by James P. Stephens, '59, of Trenton, N. J. By the wish of the donor a considerable part of the income will for the present be devoted to the purchase of classical works in other languages than English. The Vaughn Fund provides for the binding of periodicals.

The library building is beautified by pictures and articles of vertu, presented by Mrs. Bedell. The library is a circulating library. All books except standard books of reference may be drawn out, and each student is entitled to four books at one time for a period not exceeding a fortnight.

The reading room receives the leading American and English periodicals, and two or three French and German reviews, and is open to students during the library hours. The same policy about circulation is pursued in the reading room as in the library; all periodicals except those for the current week or month may be drawn out for three days' time.

The general library of the college is chiefly valuable for the facilities it offers for work. The theological library, on the other hand, contains many rare and curious vol-

umes, valuable chiefly to the bibliophile. Polyglots and latin folios, bound in vellum and yellow with age, Elzevirs, and first editions hundreds of years old, make the library at Bexley a treasure-house. These old curios, many of which have no duplicates on this side of the Atlantic, were presented to Bishop Chase by members of the Oxford and Cambridge colleges, and not a few bear the inscription, "To the Lord Bishop of Ohio." The library has recently been enriched by the presentation of Bishop Bedell's private library of 2,500 volumes, and further additions are made from time to time from the Charles D. Betts fund.

PHYSICAL CULTURE.

Rosse Hall, which served as a gymnasium and assembly room, is an Ionic structure, built of sandstone, one hundred by seventy-five feet in dimensions. On May 9, 1897, it was destroyed by fire. The reconstruction of the building is due to the generosity of James P. Stephens, Mrs. Bedell, and other friends of the College, and especially of Mrs. Mary A. Simpson, of Sandusky, whose gift is to be known as "The William and Mary Simpson Memorial Fund." The work of rebuilding is now completed. The external appearance of the building is unchanged, but its interior arrangement is greatly improved. The principal hall is arranged, as before, for a gymnasium and assembly hall, and is equipped with an ample supply of modern apparatus presented by a number of classes of the Alumni. It is provided with a large and handsome stage well adapted for public assemblies and dramatic presentations. A dry high basement story extends under the entire building. Here will be placed a baseball cage, bowling alleys, lockers and dressing rooms, boxing room, bath rooms, and all of the necessary appurtenances of a good gymnasium.

The athletic grounds are ample and favorably situated

The baseball and football fields lie at the foot of the hill below Old Kenyon, where the shaded hillside affords a natural grandstand. The tennis courts are excellent. There is a quarter-mile cinder track, and the facilities for general field sport are good.

A room in the basement of Old Kenyon is fitted with shower baths, lockers and other appliances for the use of the athletic teams.

THE DEPARTMENT OF PHYSICS AND CHEMISTRY.

This department occupies ten rooms in Ascension Hall and is abundantly equipped with apparatus, much of which is new and costly, and opportunity is offered students to do accurate quantitative work in physics and chemistry. In addition to apparatus for student use, the department possesses standards of length, mass, resistance, etc., standard thermometers and chronometers for calibrating and standardizing cheaper instruments. In electricity the apparatus includes galvanometers of many kinds, resistance coils, voltmeters, ammeters, batteries of different sorts, a small dynamo, apparatus for magnetic measurements, apparatus for static electricity, including a quadrant electrometer, induction coils, all the appliances for illustrating the modern application of electricity, etc. Recently a 6 kilo-watt dynamo and 12 horse-power engine were placed in a new engine room in the basement of Ascension Hall, and the lecture room and laboratories were provided with electric lights. Provision is made for the use of this current for experimental purposes in the lecture room and the pier-room in the physical laboratory, suitable combinations being effected by a multiple switch-board. A two horse-power motor and several storage batteries, high-tension voltmeters, etc., were purchased at this time. Other recent purchases include a number of Crooke's tubes, fluor-

oscopes, air pump, etc., for experimenting in radiography, and new apparatus for micrometric measure in elasticity and torsion, also cylinders of oxygen, hydrogen, liquified carbon-dioxide, nitrous-oxide, etc.

The optical apparatus includes spectrosopes, a spectrometer, one of Rowland's concave gratings, prisms of the best quality, a polariscope, models to illustrate polarized light, a telescope, microscopes, a stereoptican, apparatus for solar projection, etc. The department owns a complete photographic outfit and produces its own lantern slides and photomicrographic plates.

The acoustic apparatus includes a large number of pieces of Koenig's make, diapasons, organ pipes, a siren, a sonometer, etc., besides a number of costly pieces to illustrate wave motion.

In other divisions of Physics and Chemistry the apparatus is equally good and varied.

The Physical Laboratory is a well lighted room supplied with furnace heat, and all the conveniences for individual work. In the center of the room has been placed a substantial pier, insulated from the floor and walls of the building and resting on foundations of masonry. The top of this pier is of polished sandstone, and is used in adjusting and testing delicate measuring instruments and for experiments in magnetometry. The department is supplied with micrometers, microscopes, balances, galvanometers, rheostats, and all apparatus required for the performance of those experiments which are adapted to train the eye and hand in refined use.

The Chemical Laboratory occupies five rooms in the north end of Ascension Hall. The main laboratory has recently been enlarged and now contains desks and lockers for thirty students, together with three large hoods and ample cupboards and shelves for storage of bottles and apparatus issued to students. This laboratory is provided

with water, gas, air blast and electrical connection with the main switch-board. Each student in chemistry receives his own outfit of glassware, tubing and tools, and is responsible for their return in good order at the end of the year; in addition to this he has access to the general stock of apparatus and materials. This general stock is very complete, including a large supply of Bohemian and common glassware, furnaces, tools and special apparatus and fittings, Hoffman's demonstration apparatus, graduated glassware, etc. The chemical stock is amply supplied with both the common grades and pure imported chemicals for general and analytical chemistry. All stock is kept in a general stock-room and is dispensed by the accountant, who receives a receipt from the student of each piece issued. Three analytical balances of the best make are provided by the department and kept in the pier-room of the physical laboratory. An additional laboratory for work in quantitative analysis has recently been fitted up, and provided with all of the apparatus necessary for advanced work in exact determination.

In the basement of Ascension Hall, under the chemical laboratory, is a room for furnace work in assaying and organic analysis. This room has cement walls and concrete floor and is provided with a combustion furnace, tube furnace, crucible furnace and large muffle furnace, the latter two furnaces being operated by a large double burner blow-pipe, using gasoline according to Hoskins. In this room are also the stock of crude chemicals, fluxes, etc., together with the muller and pulp balances and air-blast pump.

While it is intended to keep the apparatus and supplies used in the chemical laboratory distinct from the lecture-room equipment, a few advanced students are usually given access to the demonstration apparatus. This department is at present obliged to provide its own library, which is kept with that of the departments of physics and astron-

omy. A good collection of manuals, dictionaries and books of tables are to be found here; also files of the Astrophysical Journal, Electrical World, Cassius Magazine, American Journal of Chemistry, Astronomical Journal, together with memoirs, publications of the universities and of the Smithsonian Institution.

THE DEPARTMENT OF MATHEMATICS AND ASTRONOMY.

The observatory has a telescope of five and one-fourth inches aperture, the object glass of which was made by Alvan Clark & Sons. It is also supplied with a transit of two inches aperture and a sidereal clock. The Department of Astronomy owns a set of Trouvelot astronomical drawings.

The income of the Delano Astronomical Fund is used for the college observatory.

For the use of students in surveying, the department of Mathematics has an excellent transit Y level and a compass, with the necessary appurtenances. A series of field exercises in the use of these instruments is given in connection with text-book study.

RELIGIOUS INFLUENCES.

Morning and Evening Prayer are said daily in the College Church. The Holy Communion is celebrated every Sunday at 7:30 a. m., and also at 10:30 a. m., on the first Sunday in the month. On every Saint's Day the service of Morning Prayer and the Holy Communion is said at 9:00 a. m. The students are required to be present at Morning Prayer every day and at Church services on Sunday and the chief Holy Days. The other services are voluntary. The choir consists of College students.

A chapter of the Brotherhood of St. Andrew fosters

religious life among the students by weekly meetings and other means. A class for the study of missions has been formed voluntarily by the students and meets weekly under the direction of one of the professors. The College chaplain is always accessible to the students.

COLLEGE SERMONS.

The College preachers for the year 1900-1901 were the following:

- Eighteenth Sunday after Trinity,
The Very Rev. Professor Jones.
- Twentieth Sunday after Trinity,
The Rev. Royal Balcom, Rector of St. Paul's Church,
Jackson, Mich.
- Twenty-first Sunday after Trinity,
The Bishop of Oklahoma.
- Twenty-first Sunday after Trinity,
The Rev. Professor Smythe.
- Twenty-second Sunday after Trinity,
The Bishop of Ohio.
- First Sunday after Epiphany,
The Rev. Professor Smythe.
- Second Sunday after Epiphany,
The Rev. Professor Streibert.
- Second Sunday after Epiphany,
The Rev. President Peirce.
- Sexagesima,
The Very Rev. Professor Jones.
- Sexagesima,
The Rev. Professor Smythe.
- Sunday before Easter,
The Rev. Professor Davies.
- Sunday before Easter,
The Rev. President Peirce.
- Second Sunday after Easter,
The Bishop of Ohio.
- Third Sunday after Trinity,
The Rev. W. S. Baer, Rector of Grace Church, Sandusky.
- Third Sunday after Trinity,
The Rev. J. O. S. Huntington, Superior Order Holy Cross.

THE BEDELL LECTURESHIP.

A fund of five thousand dollars has been given to the College by Bishop and Mrs. Bedell for the establishment of a lecture or lectures on the evidence of Natural and Revealed Religion, or the Relation of Science to Religion. These lectures are given biennially on Founders' Day, which is celebrated on the Festival of All Saints. The foundation provides also for the publication of the lectures.

The following lectures have been delivered:

The Rt. Rev. John Williams, D. D., LL. D., "The World's Witness to Christ." 1881.

The Rt. Rev. Henry Cotterell, D. D., "Revealed Religion in its Relation to the Moral Being of God." 1883.

The Rt. Rev. Hugh Miller Thompson, D. D., "The World and the Logos." 1885.

The Rev. James McCosh, S. T. D., LL. D., "The Religious Aspect of Evolution." 1887.

The Rev. David H. Greer, D. D., "The Historical Christ, the Moral Power of History." 1889.

The Rt. Rev. Arthur Cleveland Coxe, D. D., LL. D., "Holy Writ and Modern Thought." 1891.

The Rt. Rev. William Leonard, D. D., "The Witness of the American Church to Pure Christianity." 1893.

The Rt. Rev. Boyd Vincent, D. D., "God and Prayer: The Reasonableness of Prayer." 1895.

The Rev. William Reed Huntington, D. D., "A National Church." 1897.

The Rev. Morgan Dix, D. D., D. C. L., "The Supernatural Character of the Christian Religion." 1899.

The Rt. Rev. Henry C. Potter, D. D., D. C. L., Bishop of New York, is the Bedell lecturer for 1901, his subject being "Man, Men, and their Master."

INTERCOLLEGIATE PRIZES.

The Association for Promoting the Interests of Church Schools, Colleges and Seminaries was incorporated in 1895.

through the efforts of Rev. Charles Frederick Hoffman, the late rector of All Angel's Church, New York. By his munificence the Association offers to students in Kenyon, Hobart, Trinity, St. Stephen's and the University of the South a number of prizes annually. Eighteen prizes are offered for the examinations in May, 1902, as follows:

To Seniors—A first prize of \$200 and a second prize of \$100, in English.

To Juniors—First prize of \$100 and a second prize of \$50 in each of the following subjects; Greek, Latin, English and science.

To Sophomores the same list of prizes is offered as to Juniors.

ASSISTANCE.

Fees for tuition and room rent are remitted to sons of clergymen and to candidates for the ministry.

THE HIGH SCHOOL SCHOLARSHIPS.

By action of the Board of Trustees, dated June 26, 1900, a free scholarship in Kenyon College is offered each year to a male pupil of a high school in each county of the State of Ohio. The application for such scholarship must state that the assistance is necessary to enable the student to come to Kenyon College, and must be signed by both the applicant and his father or guardian. A certificate from the Principal of the high school testifying to intellectual proficiency and moral character will also be required.

The free scholarship includes room rent and tuition.

THE HENRY B. CURTIS SCHOLARSHIPS.

The late Henry B. Curtis, LL. D., of Mount Vernon, granted to the Trustees of Kenyon College a fund for the aid of meritorious students by loans of money at a low rate of interest. The interest is intended to meet only the

risk of death, and is not to be greater than the average rate of life insurance.

The application for a Henry B. Curtis scholarship must be addressed to the College Treasurer, and must state the applicant's name, residence and age, his father's name and the amount asked for; and must be endorsed by the father or guardian stating that the loan is asked for with his knowledge and approval, and that he believes that the notes will be met at maturity. The Faculty will understand this application to be confidential, and in making the selection will consider all evidences obtainable as to the applicant's character, ability and merit, including his examinations in school and college, and his record for regularity, punctuality, and other good conduct. The appropriations will be made for only a year at a time. The scholarship is intended to help the student, but not to cover all his expenses. The maximum loan for one year is one hundred and fifty dollars, but for a student's first year in college, seventy-five dollars. The sum appropriated will be paid in three equal parts, one at the beginning of each college term. Upon each payment the student will give his promissory note for the re-payment five years from date, with interest at the rate of one and a half per cent.

THE ALFRED BLAKE SCHOLARSHIPS.

Three perpetual scholarships in Kenyon College owned by the Rev. Alfred Blake were given by Mrs. Blake to the College for the benefit of deserving students, to be nominated annually by the President and Faculty. These scholarships entitle the holders to free tuition.

THE FRENCH PRIZE SCHOLARSHIP.

This is a perpetual scholarship in Kenyon College which was given in trust to the College by Mrs. Sarah A. M. French, to the Trustees of the College, to be awarded

to a student of Milnor Hall standing highest in his class in grade and deportment. Other things being equal, preference is to be given to a member of the Protestant Episcopal Church.

THE HANNAH MORE SCHOLARSHIP.

This scholarship was established in 1835 by a bequest of two hundred pounds made by Mrs. Hannah More. The income of the fund, which now amounts to over twelve hundred dollars, is to be used by a student in the Theological Seminary.

THE CLARK SCHOLARSHIP.

This scholarship was established by Mrs. Lucy Clark in 1835. The principal of the scholarship is one thousand and seventy-one dollars, the interest on which is given to a theological student.

THE McILVAINE SCHOLARSHIP.

This scholarship in the Theological Department was founded by Bishop McIlvaine, through a bequest in memory of a beloved son, who was deeply attached to Gambier. The principal of this scholarship now amounts to over four thousand dollars. The incumbent of the scholarship is to be appointed by the Board of Trustees on a nomination by the Faculty; and he must have completed a classical course in college, and the studies of the first year in the course of the Theological Seminary.

THE AUSTIN BADGER SCHOLARSHIP.

This is a fund bequeathed by the late Austin Badger, of Medina, "to the Trustees of Kenyon College at Gambier, Ohio, the income to be expended in defraying the expenses of such dependent and needy student in said College, preparing for the ministry in the Protestant Episcopal Church, as said Board of Trustees may designate."

THE PLATT BENEDICT FUND.

By the will of the late Platt Benedict, of Norwalk, his store room in Whittlesy Block was left in trust to the Wardens and Vestry of St. Paul's Church in that city, the annual income of which should be paid over, "one-fifth part to the proper authorities of Kenyon College, to aid in the support and education of young men preparing themselves for the ministry in the Theological Department of said College."

THE ORMSBY PHILLIPS FUND.

This is a fund of a thousand dollars established by Mr. and Mrs. Bakewell Phillips, of Pittsburg, to be loaned, from time to time, without interest, to a superior student for the ministry. Nominations to this scholarship are made by the Faculty of the College.

THE LEONARD SCHOLARSHIP.

This scholarship is the gift of William B. Leonard and his wife, Louisa D. Leonard, of Brooklyn, New York. The income is for the support of a student of theology at Bexley Hall, and is to be paid annually to the Faculty of the Theological Seminary, for the use of such students as they may designate.

THE SULLIVAN SCHOLARSHIP.

This scholarship is the gift of Phebe S. Sullivan, of New York. Its income is to be used for the same purpose and under the same conditions as the Leonard scholarship.

THE NASH SCHOLARSHIPS.

By the bequest of the late Job M. Nash, of Cincinnati, \$10,000 was left in trust to provide for the tuition and living expenses of such worthy and needy students as shall be selected by the Board of Trustees. The income pro-

vides for three scholarships, of about two hundred dollars each.

THE BEDELL PRIZE SCHOLARSHIP.

This scholarship is the gift of the late Mrs. Julia Strong Bedell, and is awarded to that student entering the Theological Seminary who shall have maintained the highest standing when an undergraduate of Kenyon College.

THE THOMAS A. McBRIDE SCHOLARSHIP.

By the will of Mrs. Mary A. McBride, of Wooster, the sum of two thousand dollars was set aside to found a scholarship in Kenyon College in memory of her son, Thomas A. McBride, M. D., an alumnus of this College, the income of the same to be applied by the President and Faculty to the support of some deserving student.

THE SOUTHARD SCHOLARSHIP.

Mr. George F. Southard, '78, of Paris, France, has established a scholarship of twenty-five hundred dollars, the income to be given by preference to students in full and regular standing.

TEACHING.

Students whose grade of scholarship is high can often add to their resources by tutoring during the Junior and Senior years.

COLLEGIATE DEPARTMENT.

Kenyon College.

HENRY TITUS WEST, A. M.

V. L. BARKER, A. M.

JAMES BYRNE SHAW, A. M.

REQUIREMENTS FOR ADMISSION.

I. GENERAL EXAMINATIONS FOR ADMISSION TO ALL COURSES.

(1) Mathematics.

- (a) Arithmetic. In addition to the usual course in Arithmetic an acquaintance with the Metric System of weights and measures is required, and a thorough study of Mental Arithmetic is strongly recommended.
- (b) Algebra, through Radicals and Quadratics.
- (c) Plane Geometry.

The use of simple drawing instruments should be taught in connection with Plane Geometry, and original constructions and demonstrations required.

(2) English.

- (a) Reading—A certain number of books will be set for reading. The candidate will be required to present evidence of a general knowledge of the subject matter, and to answer simple questions on the lives of the authors. The form of examination will usually be the writing of a paragraph or two on each of several topics to be chosen by the candidate from a considerable number—perhaps ten or fifteen—set before him in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. In place of a part or the whole of this test, the candidate may present an exercise book, properly certified by his instructor, containing compositions or other written work done in connection with the reading of the book. No student will hereafter be

admitted without examination except on the presentation of such properly certified exercise book, or of an explicit statement from his instructor of the books read in class and the amount of composition work required. The substitution of equivalent books for those given below will for the present be permitted. In preparation for this part of the requirement it is important that the candidate shall have been instructed in the fundamental principles of rhetoric.

- (b) Study and practice—This part of the examination presupposes the thorough study of each of the works named in this division. The examination will be upon subject matter, form, and structure. *In addition the candidate may be required to answer questions involving the essentials of English grammar, and the leading facts in those periods of English literary history to which the prescribed books belong.*

Note—No candidate will be accepted in English whose work is notably defective in point of spelling, punctuation, idiom, or division into paragraphs.

1901 and 1902. *For General Reading:* Addison's Sir Roger de Coverley Papers; Coleridge's The Ancient Mariner; Cooper's The Last of the Mohicans; Eliot's Silas Marner; Goldsmith's The Vicar of Wakefield; Pope's Translation of the Iliad, Books I., VI., XXII., and XXIV.; Scott's Ivanhoe; Shakespeare's The Merchant of Venice; Tennyson's The Princess. *For Study and Practice:* Burke's Speech on Conciliation with America; Macaulay's Essays on Milton and Addison; Milton's Minor Poems; Shakespeare's Macbeth.

1903, 1904 and 1905. *For General Reading:* Shakes-

- (b) Advanced Algebra, including ratio, radicals, progressions, logarithms, and series.
- (c) Trigonometry, with special attention to the derivation of the fundamental formulae, and the accurate solution and checking of problems.
- (3) History and Political Science.
 - (a) Universal History, as much as is contained in Myers' General History.
 - (b) English History, as much as is contained in Montgomery's Leading Facts of English History.
 - (c) Political Science, as much as is contained in John Fiske's Civil Government in the United States.
- (4) German, same as above for the Philosophical Course.

D. FOR THE LITERARY COURSE, leading to the Degree of Bachelor of Letters.

- (1) Latin Grammar, and Gate to Caesar,
- (2) History and Political Science, as in the Scientific Course.
- (3) German, as in the Philosophical Course.

The regular examination for admission to College takes place on the Tuesday preceding Commencement, beginning at 8:30 a. m. A second examination is held on the day before the opening of the Christmas term, at the same hour.

Candidates for admission must present testimonials of good moral character, and if they come from other Colleges, certificates of dismissal in good standing.

ADVANCED STANDING.

Candidates for advanced standing will be examined in all prescribed studies antecedent to the desired grade, including the requirements for admission to College, and in

such elective studies as shall be chosen by the candidate and approved by the Faculty.

Students from other Colleges in good standing, who present letters of honorable dismissal, may be admitted provisionally to such standing, and on such terms as the Faculty may deem equitable in each case. Such candidates are required to present to the President a complete statement, duly certified, of the studies they have pursued and their proficiency therein, and a catalogue of the college from which they come. No student will be received as a candidate for a degree after the beginning of the second term of the Senior year.

ADMISSION BY CERTIFICATE.

Any student applying for admission to the Freshman Class at the beginning of the collegiate year will be admitted without examination, provided he bring a satisfactory certificate from the Principal of a High School of any city in Ohio, or from the Principal of any reputable Preparatory School or Academy, that he has thoroughly done all the work prescribed in the catalogue for admission to the Freshman Class, and provided that the Principal will also state that, in his opinion, the applicant is able to maintain a good position in his class, and that he is of good moral character and habits.

All certificates must be made out on blanks prepared for the purpose, which will be furnished on application to the President and must be in the hands of the Faculty before the opening of the Christmas term.

Teachers are requested not to give certificates unless clearly merited, but, in doubtful cases, to throw the responsibility on the Faculty.

ADMISSION WITHOUT GREEK OR GERMAN.

Graduates of High Schools of any town in Ohio, who lack preparation in Greek or German, may enter the Freshman Class, and opportunity will be given them to begin either of these studies as College students, provided that they are able to make up this deficiency in preparation, besides doing the regular amount of required College work.

SPECIAL STUDENTS.

Students may be admitted as special students, not candidates for a degree, provided their preparation is such that they can enter with advantage existing College classes, and that their time can be fully and profitably occupied.

DEPARTMENT OF LATIN LANGUAGE AND LITERATURE

PROFESSOR BRYANT

EXHIBITION

Departments of Instruction.

DEPARTMENT OF LATIN LANGUAGE AND LITERATURE.

PROFESSOR SMYTHE.

FRESHMEN.

Cicero and Livy. Constant practice in prose composition, and in reading Latin. Four hours.

SOPHOMORES.

Christmas Term—Tacitus, Germania and Agricola.
Three hours.

Easter Term—Horace, Odes. Three hours.

Trinity Term—Terence, two plays. Four hours.

ELECTIVE COURSES.

Offered in 1900-1901:

Christmas Term—Prose of the Republican period; Caesar, Cicero, Sallust. Lectures on the decline and fall of republican government at Rome.

Easter Term—Juvenal and Martial.

Trinity Term—Plautus.

Offered in 1901-1902:

Christmas Term—Roman Oratory, its History and Theory; Cicero's Brutus, with analytical study of several of Cicero's Orations.

Easter Term—The Letters of Cicero, with a study of his life and times.

Trinity Term—Plautus.

Elective courses are open to both Juniors and Seniors.

DEPARTMENT OF GREEK LANGUAGE AND LITERATURE.

PROFESSOR NEWHALL.

Greek is required of all candidates for the degree of A. B., during the Freshman and Sophomore years and is offered as an elective study during the Junior and Senior years.

Practice is frequently given in sight-reading and in hearing Greek read aloud, and attention is paid to the history and daily life of the Greek people. As books of reference, Goodwin's Greek Grammar is required and Gow's "Companion to School Classics" is recommended.

I. FRESHMAN YEAR.

First Term—Lysias, four orations, three hours; Allinson's Greek Prose Composition, one hour.

Second Term—Thucydides, Felton's selections, three hours. Prose Composition continued, one hour.

Third Term—Homer's Odyssey, selections from Books I. to XII., with lectures on the private life of the Greeks, especially in the Heroic Age, four hours.

II. SOPHOMORE YEAR.

First Term—Plato's Charmides, Laches and Lysis with Jebb's Primer of Greek Literature, three hours.

Second Term—Lyric poets or Lucian, Greek Literature continued, three hours.

Third Term—Sophocles, Oedipus Tyrannus or Euripides, Alcestis, with lectures on Greek Tragedy, three hours.

III. ELECTIVE COURSES.

Three hours a week through the year.

A. First and Second Terms—Aeschylus, Aristophanes, Euripides, Sophocles, each one play, with lectures on the corpus of the Greek Drama, the archaeology of the Greek Theatre, etc. Third Term—Demosthenes' De Corona or Pindar's Olympian Odes—Given in 1897-8.

B. First Term—The Electras of Sophocles and Euripides. Second and Third Terms—Plato's Phaedo and Republic, I.-III., with studies in the Platonic canon—Given in 1898-9.

C. First Term—Homer's Iliad, selected readings, with lectures on the Homeric Question. Second Term—Aristophanes' Birds and the development of Attic Comedy. Third Term—Pindar and Bacchylides. History of Lyric Poetry, or History of Greek Art—Given in 1899-00.

DEPARTMENT OF FRENCH AND GERMAN.

PROFESSOR WEST.

MR. DAVIES.

In the Department of Modern Languages, five courses in German and three in French are offered. In German, Course 5, and in French, Course 3 is changed from year to year, which makes it possible for a student to secure an additional year's work in each language.

German is required of Freshmen and Sophomores in the Philosophical and Scientific Courses, and of Freshmen, Sophomores and Juniors in the Literary Course. Sophomores in the Classical Course are required to take either German or French. German is offered as an elective for Juniors and Seniors in the Classical, Philosophical and Scientific courses, and for Seniors in the Literary Course.

For students in the Philosophical, Scientific and Literary Courses who enter College without preparation in German, regular classes are provided in which the necessary German for admission to the College Courses can be obtained in two years.

French is required of Sophomores in the Classical Course who do not take German, of Sophomores in the Philosophical Course, and of Freshmen and Sophomores in the Scientific and Literary Courses. It is offered as an elective to Juniors and Seniors in all courses.

Courses in German.

1. Elementary German grammar, reading and composition. Sophomore and Junior Elective, three hours a week. Christmas Term—Harris's German Lessons. Easy reading and elementary German composition.

- Easter Term—Storm's *Immensee*, Hillern's *Höher als die Kirche*, and German composition.
- Trinity Term—Heyse's *Hochzeit auf Capri*, Storm's *In St. Jürgen*, Seidel's *Leberecht Hünchen*, and German composition.
2. Junior and Senior Elective, three hours a week.
- Christmas Term—Zschokke's *Das Wirtshaus zu Cransac*, Schiller's *Maria Stuart*, Grammar and composition.
- Easter Term—Schiller's *Wilhelm Tell* and *Lied von der Glocke*, Selected Lyrics and German composition.
- Trinity Term—Lessing's *Minna von Barnhelm* and German composition.
3. Freshmen required course, Senior Elective, four hours a week.
- Christmas Term—Keller's *Romeo and Julia auf dem Dorfe*, Kleist's *Prinz Friedrich von Homburg*, Grammar review and composition.
- Easter Term—Goethe's *Egmont*, Lessing's *Emilia Galotti*, composition and syntax.
- Trinity Term—Schiller's *Wallensteins Tod*, composition and syntax.
4. Sophomore year, three hours a week.
- Christmas Term—Goethe's *Hermann and Dorothea* and Selected Poems. History of German Literature and German composition.
- Easter Term—Goethe's *Faust*, Part I, History of German Literature and German composition.
- Trinity Term—Lessing's *Hamburgische Dramaturgie* (Harris). History of German Literature and German composition.
5. Junior and Senior Elective, three hours a week throughout the year. Omitted 1901-1902.
- For 1902-1903. The Romantic Movement in Germany.

Courses in French.

1. Elementary French. Elective for Sophomores in the Classical Course, required of Sophomores in the Philosophical Course, and of Freshmen in the Scientific and Literary Courses. Three hours a week for Sophomores and four hours a week for Freshmen.

Christmas Term—Elementary French Grammar and easy reading.

Easter Term—Halévy's *L'Abbé Constantin*, Scribe and Legouvé's *Bataille de Dames*, Enault's *Le Chien du Capitaine*, and French composition.

Trinity Term—Dumas' *La Tulipe Noire* (Fontaine), Sand's *La Petite Fadette* (Aston-Binns), and French composition.

2. Required of Sophomores in the Scientific and Literary Courses, Elective for Juniors in the Classical and Philosophical Courses. Three hours a week.

Christmas Term—Mérimée's *Colomba*, Hugo's *Hernani* or *Ruy Blas*, Beaumarchais' *Le Barbier de Séville*, Balzac's *Le Curé de Tours*, grammar and composition.

Easter Term—Sandeau's *Mlle. de la Seiglière*, Canfield's *Lyrics*, Outline of French Literature and French Composition.

Trinity Term—Corneille's *Le Cid* and *Polyeucte*, Racine's *Athalie* and *Iphigénie*, Molière's *Les Femmes Savantes* and *Le Misanthrope*, French composition and syntax.

3. Elective for Seniors in all courses, and for Juniors in

the Scientific and Literary Courses. Three hours a week.

For 1901-1902—The Romantic Movement.

Christmas Term—Chateaubriand, Lamartine and De Musset.

Easter Term—Victor Hugo; lyric poetry, drama and fiction.

Trinity Term—Dumas and Gautier.

DEPARTMENT OF ENGLISH LANGUAGE AND LITERATURE.

PROFESSOR REEVES.

The Department of English offers four main branches of study: Composition, Speaking, Literary Criticism and English Philology. The work in composition is both constructive and critical, and some amount of constructive exercise is required in each of the English courses. In the Freshman year constant writing is required, with study of selected texts and exercise in public speaking. Expository essays accompany the historical work of the Sophomore year. The first term of the Junior year is given to Debating.

In the literary study of English much reading is assigned, together with work upon a text in class. A clear account of the substance of the text is followed by appreciation of the means used by the writer to make the matter effective. Select periods in the history of the literature are offered, and the development of the literature is illustrated by the study of particular writers. Stress is laid upon the relations of the writer and of his works to his contemporaries.

The growth of the English Language is shown by reading, philologically, texts selected from the Old, Middle and Modern English periods. By this means an historical grammar is built up, and standards for the written and spoken language explained. The relationship of English to other languages is brought out by studies in derivation, vocabulary and syntax.

1. Composition, Literature and Speaking. Freshman, Christmas, Easter and Trinity Terms, three hours a week. Required.

2. Argumentation and Debating. Christmas Term, three hours.
3. Shakespeare. Easter Term, three hours.
4. The English novel. Trinity Term, three hours.
5. Old English. Bright's Anglo-Saxon Reader. Senior elective, Christmas Term, three hours.
6. Old English. Prose and Poetry. Beowulf. Senior elective, Easter Term, three hours. (Course 6 pre-requisite.)
7. The English Language. Course 7 continued, with Emerson's History of the English Language, and reading of later texts. Senior elective, Trinity Term, three hours.
8. Nineteenth Century Prose. Macaulay, Carlyle, Ruskin, Arnold. Senior elective, Christmas Term, three hours.
9. Nineteenth Century Poetry. Tennyson and Browning. Senior elective, Easter Term, three hours.
10. Nineteenth Century Poetry. Arnold and minor poets. Senior elective, Trinity Term, three hours.

Note:—Courses 2-4 are required of Sophomores in the Literary course, and of Juniors in the Classical, Philosophical and Literary courses; they are elective for Juniors in the Scientific course, and for Seniors in all courses. There are changes in these courses in successive years.

DEPARTMENT OF MENTAL AND MORAL PHILOSOPHY.

PRESIDENT PEIRCE.

PROFESSOR SHAW.

1. Psychology.

(a) Easter Term. The Briefer Course in Psychology of Professor James is used in the class-room. In accordance with James's arrangement, the physiological basis of the science is first discussed, with constant illustrations and practical experiments. A careful critical comparison of Professor James with the older school of psychologists is made at every step, and independence of thought on the part of the student is made the prime object of the course. Juniors. Three hours a week. Required in all courses.

(b) Trinity Term. Continuation of the work of the Easter Term, with special attention to the more abstract and theoretic questions of psychology. Special effort is made to encourage in the student original thought in the discussion of psychological theory. Juniors. Three hours a week. Required in all courses.

2. The History of Philosophy. A brief but systematic and critical outline of Ancient, Mediaeval and early Modern Philosophy is presented during this term. Weber's "History of Philosophy" is used as the text-book. Seniors. Christmas Term, three hours a week. Required in all courses.

3. Metaphysics and Logic. On the foundation of the outline of the History of Philosophy furnished by the work of the Christmas Term, a more thorough study of one or two particular systems of philosophy is made. The course

varies from year to year, Berkeley and Kant forming the subject in 1902. Toward the end of the term a course of lectures on the principles and theory of Logic is given, with assigned reading. Seniors. Easter Term, three hours a week. Required in all courses.

4. Ethics. This course is devoted to both the History and the Theory of Ethics. Conscience, moral law, the will, and the ultimate ground of moral obligation are discussed historically and scientifically. A text-book is used as the basis of suggestion for free discussion between instructor and students. Essays on ethical questions form an important factor in the work. Seniors. Trinity Term, three hours a week. Required in all courses.

DEPARTMENT OF HISTORY AND ECONOMICS.

PRESIDENT PEIRCE.

PROFESSOR REEVES.

1. Mediaeval and Modern European History.

The text-books used are Thatcher's Short History of Mediaeval Europe and Schwill's History of Modern Europe. The private reading of historical authorities is an integral part of the course. Each student is, from time to time, required to write, after individual investigation, themes on such subjects as may be assigned by the instructor. The course seeks primarily to familiarize the students with the great historical authorities, and to encourage original thought and criticism on historical questions. The period of history covered by the course extends from the fall of the Roman Empire and the Great Migrations to the present day, special attention being devoted to the present state and living problems of Europe. Christmas, Easter and Trinity Terms, three hours a week. Required of Sophomores in the Scientific Course. Required for Sophomores in other courses who do not elect mathematics.

2. Political Science.

This course forms a natural sequel to the work in European History. Its object is to familiarize students not merely with the abstract principles of the science of politics but with the organization and practice of the existing governments of Europe and America. Woodrow Wilson's "The State" is the text-book employed, and it is supplemented by a considerable amount of outside reading. Comparison of national, executive, legislative and judicial methods is encouraged by requiring abstracts and debates from

the members of the class. The problems of local and municipal administrations are also discussed. The United States, England, France, Germany, Austro-Hungary and Switzerland are the principal countries studied. Juniors. Christmas Term, three hours a week. Required in all courses.

3. American Constitutional History.

This course includes the period from the beginnings of the spirit of independence to the completion of reconstruction. Outside reading and private investigation of special subjects form the principal part of the course, the only text-books used being the second and third volumes of the "Epochs of American History" Series. At least one paper on an extended study of some particular subject is required each term from every student. Seniors. Christmas and Easter Terms, three hours a week. Required in all courses.

4. Economics.

Little more than a discussion of the elementary principles is attempted. A small text-book, either Walker, Marshall, or Andrews, is made the basis of work, and a large part of the recitations is devoted to debate on economic theory and its application to pressing social and industrial questions. Seniors. Trinity Term, three hours a week. Required in all courses.

DEPARTMENT OF MATHEMATICS.

PROFESSOR SHAW.

Three terms of work in Mathematics, covering the Freshman year, are required of all college students. Students in the Scientific Course are required to continue Mathematics through the Sophomore and Junior years. Classical, Philosophical and Modern Language students may elect Mathematics. Opportunity is also afforded students in the Scientific Course to elect further work in the Junior and Senior years.

The text-books used in this department for the coming year will be: Taylor's College Algebra, Beman and Smith's Plane and Solid Geometry, Lyman and Goddard's Trigonometry, with Tables, Lambert's Analytical Geometry, Lambert's Differential and Integral Calculus, Kelland and Tait's Quaternions, Ziwet's Theoretical Mechanics.

The work of the several terms will be as follows:

Freshman Year—For Classical, Philosophical, and Literary Courses: First term, Solid Geometry; second term, Algebra; third term, Trigonometry.

For Scientific Course: First term, Theory of Equations and Analytical Geometry; second term, Analytical Geometry; third term, Analytical Geometry and Surveying.

Sophomore Year—Differential and Integral Calculus, with applications. Required of Scientific students.

Junior Year—Theoretical Mechanics. Required of Scientific students. Quaternions. Elective.

Senior Year—Advance Geometry. Elective.

Astronomy is taught by this department. The text book used for reference is Young's General Astronomy.

DEPARTMENT OF PHYSICS AND CHEMISTRY.

PROFESSOR EBAUGH.

Messrs. Morris, Schley and Jackson, Assistants in the
Laboratories.

Physics.

1. Four hours a week during the Junior year are given to the study of Physics by the students in all courses, using as a text-book Hastings and Beach's "General Physics." The students are also required to provide themselves with Jones' Examples in Physics.

The text-book will be supplemented by lectures, of which the students will be required to take notes, and all the important laws of Physics will be illustrated by the aid of the abundant and excellent apparatus at the disposal of the Department.

(a) Christmas Term. General physics, mechanics and sound.

(b) Easter Term. General physics, heat and static electricity.

(c) Trinity Term. General physics, electricity, magnetism and light.

2. The course in Practical Physics, three periods of two hours each per week through the Senior year, is required of all candidates for the degree of Bachelor of Science, but is offered to other students as an elective.

The course consists of personal experimentation in the Physical Laboratory, accompanied by lectures and recitations on methods of manipulation, the theory of instruments, and discussion of results, correction and computation of errors. The endeavor is not merely to train the eye and

hand, but to inculcate a habit of orderly and scientific thinking.

(a) The first term of the Senior year is occupied with preliminary practice in the simple measurements of length, mass, and time, followed by the mechanics of solids, liquids, and gases, and thermometry and expansion.

(b) The second term is a continuation of the first, taking up acoustics, optics, determination of wave length, interference, etc.

(c) The third term is devoted to electricity and magnetism, together with the calibration of instruments.

The text-books used are Loudon & McLennan's Manual of Experimental Physics, Pickering's Physical Manipulation, Stewart & Gee's Practical Physics, Thompson's Electricity and Magnetism, Louis Wright on Light, and Nichols's Manual.

3. (a) Dynamic electricity. During the Easter term of the Senior year a course of laboratory work is offered in dynamic electricity, elective for all courses. All experiments in this course are performed with dynamo current and are designed to be practical and are based on the methods of commercial electrical testing, as is usually conducted on the large scale. This course comprehends determination of power, loss, magnetization loss and characteristic curves; hysteresis, Fancault currents, efficiency, armature reaction, candlepower of arc and incandescent systems. A few lectures are given and calculations and designs are made corresponding to a few typical modern installations.

(b) Light. During the Trinity Term of the Senior Year a short experimental course in light is offered as an elective to all courses.

Course 3 (a) is intended to be entirely distinct from Course 2 (c), the latter being theoretical in character and requiring very complete preparation in mathematics. Course 3 (a) requires only plane trigonometry for entrance

and is designed to be a practical illustration of modern commercial methods.

Chemistry.

1. A course of one year in General Chemistry is required of all candidates for a degree; this course is given in the Sophomore year, and comprises lectures, recitations, laboratory work and the solution of numerous problems. The text-book is Remsens' Chemistry, briefer course. The first term is devoted to a systematic study of the non-metallic elements, the second and third terms to the metallic elements. The course is illustrated by lectures and experiments before the class, and students are required to take full notes of these. In addition to this the members of the class perform all experiments described in the text-book and a number of quantitative experiments designed to give grasp of the fundamental principles of definite proportions and substitution. Five hours per week, including in all about forty-five exercises of two hours each in the laboratory.

An additional year of chemistry is required of candidates for the degree of Bachelor of Science and is elective to students of other courses. The work of the several terms of this year is as follows:

2. First term, Junior year. (a) Qualitative analysis. The systematic detection of inorganic bases and acids.

Laboratory work in analysis is accompanied by weekly recitations planned so as to make a careful review of General Chemistry with especial reference to the periodic classification of the elements. Some discussion of minerals and metallurgical processes is also given.

Students who have already had laboratory work in qualitative analysis, if competent to do so, will have opportunity to take up the determination of more difficult or insoluble substances, the rarer elements and some common organic bodies, poisons, etc.

(b) Assaying. Students who have already completed Course 2, or its equivalent, either at Kenyon or elsewhere, are at liberty to undertake a brief course in assaying instead of advanced qualitative analysis, if they prefer. A general survey of methods in gold and silver assay is possible, and some study of the properties of various ores and fluxes. All necessary appliances are provided by the department, but students are encouraged to bring in specimens for examination.

3. Second term, Junior year. Quantitative Analysis. Students are expected to complete about thirty determinations of common elements and radicals, and should obtain experience in careful, precise manipulation. The text-book is Thorpe's Quantitative Analysis.

4. Third term, Junior year. Lectures and recitations in Organic Chemistry, with laboratory work in simple organic preparations and ultimate analysis. Remsen's Organic Chemistry.

5. First term, Senior year. Assaying like Course 2 (b) above.

6. Second term, Senior year. Mineralogy, using Crosby's "Tables for the Determination of Common Minerals."

7. Third term, Senior year. General Chemistry using Remsen's "Advanced Course." Lectures only.

Geology and Physiology

Are taught by Professor Ebaugh and Dr. Sterling. The text-books used are Le Conte's Geology and Martin's Human Body (advanced course.)

DEPARTMENT OF THE BIBLE AND EVIDENCES.

PRESIDENT PEIRCE.

THE REV. OWEN J. DAVIES, CHAPLAIN.

In the Freshman year; one hour each week is devoted to the study of the Prayer Book and the English Bible. The instruction is mainly given in lectures by the instructor. Outside reading and study are required from the students.

In the Senior year, one hour each week of the Easter and Trinity Terms is given to the study of the Evidences of Christianity. The text-book used is Fisher's Grounds of Christian and Theistic Belief.

GENERAL INFORMATION.

RULES AND REGULATIONS.

MATRICULATION.

A student is admitted to matriculation when he has sustained a satisfactory probation. Matriculation gives accredited membership in the Institution, and entitles the student to an honorable dismissal and is essential to his obtaining a degree. Each student, when matriculated, signs the following obligation:

We, the subscribers, undergraduates of Kenyon College, being now admitted to the rite of matriculation, do promise, each for himself:

1. That we will faithfully observe and obey the laws and regulations of the College, and all authoritative acts of the President and Faculty, so long as we are connected with the College; and as far as may be in our power, on all occasions we will give the influence of our good example and precept to induce others in like circumstances to do the same.

2. As faithful sons of Kenyon College, we will render to her as our Alma Mater, at all times and on all occasions, due honor and reverence, striving to promote her welfare by all proper means, and abstaining carefully from all things that may tend to impair her influence or limit her usefulness as a seminary of learning.

DEGREES.

The degree of Bachelor of Arts is conferred upon all students of the Classical Course in good standing who are approved at the final examination of the Senior Class.

The degree of Bachelor of Philosophy is conferred upon

all students of the Philosophical Course in good standing, who are approved at the final examination of the Senior Class.

The degree of Bachelor of Science is conferred upon all students of the Scientific Course in good standing, who are approved at the final examination of the Senior Class.

The degree of Bachelor of Letters is conferred upon all students of the Literary Course in good standing, who are approved at the final examination of the Senior Class.

The degree of Master of Arts is conferred on Bachelors of Arts, Philosophy, Science, or Letters of three years' standing, who have pursued a year's study in some branch of the Liberal Arts, under the direction of the College faculty. For Bachelors graduated before 1883, the rule remains as published before that date.

HOODS.

The College has adopted the American inter-collegiate system of academic costume, and its gowns and hoods are regulated by the Association. For the Bachelor's degree the hood will be black in color and not exceeding three feet in length. It will be of the same material as the gown and lined with mauve silk, the College color. The binding or edging, not more than six inches in width, is to be distinctive of the faculty to which the degree pertains, as follows: Arts, white; Theology, scarlet; Law, purple; Philosophy, dark blue; Science, gold yellow. The hood for the Master's degree should be the same shape as the Bachelor's but one foot longer. The Doctor's hood will be the same length as the Masters, but will have panels at the sides.

TERMS AND VACATIONS.

The College year is divided into three terms—Christmas, Easter and Trinity.

EXAMINATIONS AND CONDITIONS.

Students who are not present at the opening of the term must show by written statement from their parents or guardians, that the absence was necessary.

Regularity in the performance of all College duties is important for the welfare not only of the individual student, but also of his class, and any student who persistently neglects these duties will be required to leave the College.

Students are required to take final term examinations in all subjects. Any student absenting himself from such examinations is required to repeat the subject in class, and is not allowed to make it up by examinations. A student, who, by reason of poor work during the term, or on the final examination, is conditioned in any subject, is allowed to remove the condition by examination, unless in the opinion of the instructor his work has been so poor as to require repeating the subject in the class-room.

Examinations for the removal of conditions will be held within the first week of the following term. For those failing to pass this examination another opportunity will be offered within one week from the middle of that term. Failure to pass both of these examinations will oblige the student to take the subject over again in class. Members of the Senior Class will be allowed one further examination in addition to those specified, which examination shall be given during the Senior vacation.

PUBLIC WORSHIP.

Students are required to attend Morning Prayer in the College chapel and also the Church services on Sundays and the Principal Holy Days.

Every absence from or tardiness at Morning Prayer shall be counted as one demerit, and every absence from or tardiness at a Church service, at which attendance is com-

pulsory, shall be counted as two demerits. A student shall be allowed twenty-nine demerits a term and shall be suspended for the remainder of the term if he shall exceed that number. No application for excuse on any ground whatever will be received from the student.

When twenty demerits have been thus recorded against a student, he shall be admonished of the fact. After such admonition ten additional demerits will necessarily cause suspension for the remainder of the term.

DISCIPLINE.

The Faculty reserve the right to suspend or remove any student, whenever they believe that the interests of the College require such action.

LODGING.

Students are required to room in the College building, unless by special permission from the president. Each room is sufficiently large and convenient to accommodate two students. The rooms are painted and papered by the College. Students provide their own beds, furniture, light, books and stationery. Furniture can often be bought at second-hand.

EXPENSES.

Entrance Fee.....	\$ 5 00
Tuition	75 00
Incidental Fee	10 00
Library and Reading Room.....	3 00
Gymnasium Fee.....	3 00
Room Rent.....	15 00 to \$50 00
Heat.....	10 00 to 30 00

Each student must keep on deposit with the Treasurer

\$5 as security for damages. Any balance is returned at the close of the year.

Furniture must be provided by the student.

Board can be obtained in private families and in students' clubs, at prices ranging from \$2.25 to \$4.00 a week.

Of general or personal expenses no estimate is attempted.

All students are required to pay their term bills in advance. Any student whose term bill shall not have been paid within three weeks from the beginning of the Christmas Term, or within two weeks from the beginning of the Easter or Trinity Term, will be suspended from all College privileges until payment has been made. If the bill shall remain unpaid at the end of the term, the suspension will become final.

All checks and drafts should be made payable to James Byrnie Shaw, Treasurer, Gambier, Ohio.
