McKinleyism Briefly Told.

Free Trade for Liberty, but Protection for the products of Labor.

The nail workers at Salem, Ohio, refused to accept the 10 per cent. reduction in their wages, and they are now idle.

The National Bank of Kansas City, which failed during the summer, resumed business on Tuesday, with a capital of \$3,000,000.

The yellow fever is still raging at Brunswick, Ga., without any apparent change for the better. The new cases average from 30 to 35 per day.

JUDGE GARY, who tried and sentenced the Haymarket anarchists at Chicago, was unanimously re-nominated by the Republican Convention on Friday.

SATURDAY, October 21, will be New York Day at the World's Fair, and all ready extensive arrangements are being made to crown it with abundant success.

The case of "heresy" against Professor Henry Preserved Smith is now before the Presbytery Synod of Ohio, at Cincinnati, on an appeal from the Presbytery of Cincinnati.

Two students of the Pennsylvania State College were expelled because a cider was found in their room, whereupon 100 students, composing the entire freshman class, went out on a strike.

The Carnegie steel works at Homestead, near Pittsburgh, are now running on double time, to fill their big orders for armor plate. The "calamity shriekers" will please make a note of this.

Mrs. CATHERINE FRETZBERGER deliberately shot and killed Mrs. Caroline Pearl, New York, because she believed the latter was too intimate with her husband. The murderer was placed under arrest.

The New Army Barracks at Roslav, province of Smolensk, Russia, was burned last Thursday night. Eleven of the soldiers were killed by jumping and twenty-eight were suffocated to death.

THE REPUBLICAN STATE CONVENTION

Was in session at Syracuse, N. Y., at the same time the Democratic Convention was in session at Saratoga. It was anything but a harmonious body. The contest was between the Platt and Anti-Platt factions for supremacy, but the old Boss came off victorious, having secured the nomination of his candidate for Supreme Judge, Edward T. Bartley, by a vote of 5884 to 97 for Wm. Ramsey, and 85 for John S. Smith.

The other candidates nominated are as follows:

Secretary of State—General John Palmer, of Albany.

Comptroller—James A. Roberts, of Buffalo.

Treasurer—Addison Colvin, of Warren county.

Attorney General—Theodore Hancock, of Syracuse.

State Engineer—Campbell W. Adams, of Onida.

Democracy's Good Work on Saturday.

The Democracy of Knox county have a grand ticket. Now let them turn out in all their might and strength and elect it by a routing majority.

The good feeling, harmony and unanimity that were displayed by the Democracy of Knox county, at their Convention on Saturday, are all harbingers of success.

EVERY name on the Democratic ticket is a tower of strength. They are nearly all young, active and popular men, who enjoy the confidence and respect of the people.

Old Knox is a Democratic county, and will remain Democratic so long as the party nominees honest, true and capable men like unto those selected on last Saturday.

The ticket nominated by the Democracy of Knox county on Saturday will favorably compare with the ticket nominated by the Republicans on the Saturday previous. Let the voters of the county carefully scan the names on the two tickets, and we have no fears as to their decision.

And Still They Go.

J. W. Bell, a prominent attorney of Plymouth, Richland county, has left for parts unknown, and is accused of leaving his creditors in the lurch to the extent of \$45,000. Part of the amount is borrowed money and the balance is due estates which he was settling up. The best information obtainable is that Bell has left the United States.

A sensation has been created at Upper Sandusky by the sudden disappearance of Wood Hayes, an implement dealer, who came originally from Chillicothe, and soon became a favorite. It seems he dabbled too much in cards, borrowed money from his friends to the amount of \$2,000, and being unable to pay it back, took French leave.

William Williams, contracting freight agent of the Green line, who disappeared over a week ago, from Cincinnati, has not been heard from yet. His accounts are perfectly correct. His friends think he has been testing on the roads, as he has borrowed large amounts of money, and that he is afraid to face his creditors.

A DISPATCH from Paris, Oct. 9, reports that Ferdinand de Lesseps is dying at his country home at La Chaux-de-Fonds.

AMERICA VICTORIOUS.

The Vigilant vanquishes the Valkyrie in Two Straight "Heats."

Lord Dunraven brought his crack fast-sailing English yacht, the Valkyrie, over to this country to contest with the Yankee fast yacht, Vigilant, for America's prize cup. The two vessels went down the New York bay into the Ocean on Thursday last to enter the race, but the wind refused to blow and the contest proved a fizzle. On Saturday, however, old Boreas was more accommodating, and the race came off in magnificent style. The English vessel took the lead and maintained it for a short time, but the vigilant soon forged ahead, passed her rival and kept in the lead to the close of the race, coming out ahead 7 minutes and 36 seconds. This result was as gratifying to Americans as it was mortifying to Lord Dunraven, who confidently calculated upon an easy victory. [We may here say, parenthetically, that Lord Dunraven is an Irish gentleman and not an Englishman.]

The second race between the Vigilant and the Valkyrie took place on Monday afternoon, and was witnessed by even a greater crowd of people than the contest on Saturday. A fine breeze was blowing, and each yacht did its best to win the prize. But "there is no talking"—John Bull was nowhere in the race. The American vessel won another victory with all ease, beating her rival 124 minutes. Now, let the eagle scream and the rooster crow, the youngsters yell and the steam whistle blow.

The New York Democracy.

The New York Democratic State Convention, which met at Saratoga Springs, on Thursday and Friday last, was largely attended and a very harmonious body. President Cleveland's friend, Congressman David N. Lockwood, was made the temporary as well as the permanent Chairman, and opened the proceedings with an eloquent and powerful speech.

The committee on resolutions, through George Raines, of Rochester, reported a platform, which was unanimously adopted. It congratulates the party and the people of the State for the way State matters have been managed since the Democrats came into power, cordially indorses the Administration of President Cleveland, condemns the Sherman silver purchasing act, and declares that the "transfer of legislative and executive branches of the Federal Government to the Democratic party was none too soon to correct, even if too late to avoid the widespread distress caused by unsound and plutocratic Republican legislation."

The following ticket was nominated, most of the candidates being chosen by acclamation:

Secretary of State—Cord Meyer, of Queens county.

Comptroller—Frank Campbell, of Steuben county (re-nominated).

Treasurer—Hugh Duffy, of Cortland county.

Attorney General—Simon W. Roseale, of Albany (re-nominated).

State Surveyor—Martin Schenck, of Rensselaer county (re-nominated).

Isaac H. Maynard, now Associate Justice of the Court of Appeals, by appointment, was nominated for election to that position by Wm. Von Aecker.

Only one gentleman, Mr. Weideman, of Rockland county, made opposition to and voted against the nomination of Judge Maynard, but after the nomination was made he acquiesced in the wishes of the people and moved to make the nomination unanimous.

Altogether, it was a grand Convention, and the entire proceedings were conducted in a spirit of harmony, not always attendant upon New York State assemblies.

Word comes from Mexico that Gen'l Manuel Escobar, at one time Governor of Chiapas, was assassinated at his house in Tanachila, twelve projectiles, which were fired from the street, lodging in his heart.

BARTLEY, JOHNSON & Co., one of the oldest and best known whisky firms in Kentucky, has suspended business, their liabilities being placed at \$400,000, while they claim assets to the amount of \$700,000.

A FLEET of train-wreckers has been unearthed at Brazil, Ind. Two of the gang, Joe Silver and Ed. Moore are said to be of good families; but if they are guilty, let them receive the severest punishment the law provides.

The new Cunard ocean steamer Lucia, made the passage from Europe to America last week, in 5 days, 13 hours and 25 minutes, which is the fastest time on record, beating the time of the City of Paris 59 minutes.

The trouble between France and Siam has been settled, the latter country being forced to accept every demand made by the superior power. This is only a repetition of the old European doctrine that "might makes right."

On the occasion of a marriage, last week in New York, the first solemn nuptial mass in the history of the Protestant Episcopal Church in America, was celebrated in the Church of the Redeemer, 82d street and Park Avenue.

SARILE BERNHARDT, the great actress, was in Rio de Janeiro during the late bombardment, and was an eye witness to the scene. She was delighted with the "sport," and wrote out a long and graphic description of the pyrotechnics.

Up in Canada, near Niagara Falls, there is a place known as the "Cave of the Winds." We'll bet a peck of chestnuts that it cannot "hold a candle" to the "Cave of the Winds" at Washington, usually called the United States Senate.

The Kelly Ax Manufacturing Company, of Louisville, has been reorganized with a working capital of \$1,500,000 and closed a contract to transfer their entire plant to Alexandria, Ind. The factory will begin operations with 500 skilled workmen.

The Democratic Judicial Convention for the 5th District, composed of the counties of Ross, Highland and Fayette, nominated Hon. H. L. Dickey, of Greenfield, for the regular term, and Reuben R. Freeman, of Chillicothe, for the special term.

The Democratic students at the Normal University, Ada, Ohio, have organized a L. T. Neal Club, composed of about 100 members, with F. D. Miller, of Columbiana county, as President, and V. H. Mowles, of Carroll county, as Secretary.

EDNA GOLDMAN, the Anarchist, is now on trial in New York, for inciting a crowd of workmen with a riotous speech. There was great trouble in securing a jury, as every man who said he was not an Anarchist, was challenged for cause by Okey Hall, Miss Goldman's attorney.

The Same Subject—Continued.

The Railroads have been behaving better than usual the past week—at least, fewer fatal accidents have occurred. We note a few of the most serious:

There was a bad wreck on the Louisville & Nashville road, five miles South of New Haven, last Friday. A freight train broke in two, leaving part on a bridge. The second section struck it, and caboose and engine were thrown into Pettigrew's creek. Engineer Andrew Burke, who was in the caboose, and Engineer Higgins of the second section, were killed.

An express train on the Big Four road dashed into a Mt. Auburn electric car at the toll-gate crossing, near Elmwood, a suburb of Cincinnati, on Sunday, killing five lives, the motor-man, and injuring five others.

While Matthias Foley, his wife and two sons were returning home from the Warren county Fair on Saturday evening, going along the Lebanon pike, they had to cross the track of the Big Four Railroad. Before their spring wagon and two horses got over the track, the express train dashed upon them, killing Mrs. Foley and the two sons. Mr. Foley, almost crazed with grief, was taken home before the corpses were removed.

The Rolling Mills in Pennsylvania announce their intention to employ none but American workmen, and the result is that the Huns and other foreigners heretofore employed, finding nothing to do, are leaving for their native lands. These "pauper laborers" were brought over by the protected monopolists, because they were willing to work at lower wages than skilled American workmen; but they soon learned American ways and struck for higher wages. Then the trouble began. Strikes, bloodshed and anarchy were inaugurated, and our readers know the rest. The Republican monopolists wanted free trade in labor, but protection for the products of labor.

ANARCHIST PALLAS, who attempted to take the life of General Martinez Campos, at Barcelona, Spain, by throwing two bombs at him, was tried by a Court Martial, found guilty and sentenced to be executed. The sentence was carried out on Friday, and the condemned man was shot to death. While the monks were praying for his soul before the execution, the Anarchist sang aloud an anarchistic song to drown their voices. The day before he was visited in prison by his mother. She asked him whether he believed in God, and he dryly responded, "No." He was a hardened wretch.

The village of Fletcher, Miami county, was the scene of a bloody battle between neighboring families on Friday last. The parties to the fracas were the families of John Simmons and Thomas Knick. While a young son of Simmons was engaged in gathering walnuts from under a line tree, the Knick boys lurled stones at him, and soon the male members of the two families took part in the fight, using stones, clubs and pistols. Several of the parties were badly injured, but none killed. A policeman, aided by neighbors, put a stop to the affray, and arrested the fighters.

COURT PALFREY, of Austria, married a beautiful and refined lady, but being of humble parentage, his friends refused to recognize her and his parents cut him off without a cent. He came to this country, and was given charge of small property in New Jersey, belonging to J. A. Havermeier, the millionaire sugar refiner, and managed to make a precarious living by selling apples and vegetables in New York. Getting tired of this style of living, a few days ago, he went into his house, kissed his wife, saying, "I love you dearly," and then shot himself dead.

The "calamity howlers," who edit the Republican papers in Ohio, studiously avoid making mention of the fact that the banks and business enterprises that were failing during the summer, are now nearly all resuming business, with bright prospects before them. These McKinley organs would let the country go to perdition, if they could keep their tariff plundering party in power. This is a great country, and has survived several panics that were tenfold more disastrous than the causeless one that has gone by.

W. Z. McDONALD, Ex-State Inspector of Workshops and Factories, and Ex-Secretary of the Republican League, has been indicted by the grand jury at Columbus, for fraudulently taking money from the State for services rendered.

The indictment is a surprise to McDonald and his friends, as he confidently expected to escape. He was advised quietly to leave the country, but he refused to do so, and he declares that he will face the music, even if it lands him in the penitentiary.

TANGIER, where the recent bloody battle was fought between the Moors and the Spanish garrison, is the capital of Morocco, the most northern point of Arabia in Africa, between the Atlantic Ocean and the Mediterranean Sea. The Moorish government has been completely cowed by Spain, which is erecting immense forts along the coast, under the pretense of repressing the savagery of the hostile tribes. The Moors, who are wild fanatics, say they are fighting a "holy war."

A CRACK-BRAINED preacher named Rev. John T. Jack, who distinguished himself by smashing a liquor exhibit at the World's Fair, repeated his pranks in Washington the other day by hurling a brick through a \$300 plate glass window of a wholesale liquor store. When arrested for the offence he told the magistrate that he was "opposed to the liquor traffic and wanted to break it up." He was committed to the work house for mental examination.

The late storm along the Gulf coast, of a wholesale liquor store. When arrested for the offence he told the magistrate that he was "opposed to the liquor traffic and wanted to break it up." He was committed to the work house for mental examination.

There was an immense assemblage of Irishmen from all parts of the world at Dublin, on Saturday, to celebrate the second anniversary of the death of Charles Stewart Parnell. The immense procession took one hour and a half to pass the City Hall. The Irishmen of New York sent a handsome floral harp, five feet high and three feet across, made of green and gold immortelles.

W. ALEXANDER and James Shay, two inmates of the Soldier's Home at Dayton, while returning to the Home a few nights ago, were viciously attacked by two burly negro thugs. Alexander, when almost dead, was thrown upon the railroad track, and the cars completed the work. Both the soldiers were robbed of their pension money, which they had just drawn.

Five hundred boys and girls, from the Indian school at Carlisle, Pa., accompanied by a brass band of 32 pieces, attended the World's Fair on Tuesday of last week and enjoyed themselves to the hilt. They gave a concert of 80 voices which was highly pleasing.

Bad news for the "calamity shriekers" comes from the Ohio river industries. It is stated that ten thousand men have gone to work this week at Wheeling, Bellaire, Martin's Ferry and Steubenville. You will probably see no mention of this fact in the Republican papers.

It is announced that a truce has been agreed upon between the Government and insurgents at Rio Janeiro, which is a confession of the weakness of President Peixoto.

THE CLERGYMEN AND OTHER CHRISTIAN PEOPLE OF JERSEY CITY AND OTHER PLACES IN NEW JERSEY, HAVE BEEN HOLDING MEETINGS FOR THE PURPOSE OF ORGANIZING THE CHRISTIAN VOTE IN OPPOSITION TO RACE-TRACK GAMBLERS AND RUMSELLERS. THEY ARE VERY FEROCIOUS AND WARRIORS IN THEIR TOLERANCES, BUT WE WILL LEARN LATER SOMETHING ABOUT THE GOOD THEY HAVE ACCOMPLISHED.

An up-town Post Office has been established in New York near the Grand Central Depot. From the size of the building, as pictured in the Herald, it will no doubt in time become the main office, as business in that big town is rapidly working its way from the old downtown localities. The Herald was wise in moving with the business tidal wave.

The Republicans obtained control of the City Council of Newark, by making bold professions of reform, and to show what they mean by "reform," at their meeting last week a resolution was introduced to borrow ten thousand dollars to pay current expenses! As "reformers" the Republicans can always take the red ribbon.

The Columbus Journal may think it is smart to attempt to ridicule the speeches of Col. W. A. Taylor, the Democratic candidate for Lieutenant Governor, but it has not, and can not, answer or refute the stubborn facts in regard to Republican extravagance. The Colonel presents to the voters of Ohio in his speeches:

LILLIAN LEWIS, the actress, attempted to commit suicide at Springfield, Ill., last week, by shooting herself, but the bullet came in contact with a steel rib in her corset, which saved her life. The only reason she assigned for the act was that her husband, Lawrence Marston, always "gave her gloomy parts" to play.

Mrs. EDWARD PARKER DEACON, the divorced wife of Edward Parker Deacon, who killed Emilie Abeille, for criminal intimacy with Mr. D. in France, has arrived in New York, and taken up quarters at the Brewster House. She refuses to see reporters, or receive notes or telegrams sent to her room.

THE MEDITERRANEAN Sea, this week, is visited by the war fleets of Italy, Spain, France, Russia, England and Turkey, which will appear in front of Trieste, Naples, Toulon, Barcelona, Tangier, Tunis and Alexandria. What does all this mean? Probably to frighten the poor ignorant Moors.

A SPARK from an engine, pulling a freight train on the Ft. Wayne railroad, ignited 224 kegs of powder in one of the cars, on Monday night, near North Lebanon, Ohio, causing a terrific explosion, injuring five firemen and doing damage to the amount of \$75,000.

It is the same old story. A. P. Meek, of Sulphur Springs, Ohio, while visiting at the Emery Hotel, and upon retiring at night, blew out the gas, and was asphyxiated. His body was taken home for interment.

Just full of improvements—Dr. Pierce's Pleasant Pellets. To begin with, they're the smallest, and the easiest to take. They're tiny, sugar-coated anti-bilious granules, scarcely larger than mustard seeds. Every child is ready for them.

Then, after they're taken, instead of disturbing and shocking the system, they act in a mild, easy, and natural way. There's no chance for any reaction. Their only effect is to promptly relieve and permanently cure. They're put up in glass vials, which keep them always fresh and reliable, unlike the ordinary pills in wooden or pasteboard boxes.

And they're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.
