Minister Mayashi and Baron Suyematsu, former Japanese minister of the interior, were both disirclined to give a hasty exprestion of opinion or to anticipate official advices giving the facts as to the period the Russian ships may stay in French waters. Minister Hayashi was particularly reticent, and said he preferred to await confirmation of the reports, which have appeared to indicate a serious breach of neutrality. Baron Suyematsu, who took a view that was Very far from being alarmist, said that if the reports were true Japan would have good cause to complain. Japan, however, had no intention of picking quarrel with France, and added: Japan is far from coveting Cochin China, as has been imputed in some quarters. London, April 19.-Japanese diplo- hai, is busy with reconnaissances as ready been recruited to the strength it had before the battle of Mukden. Many of the wounded have been returned to the ranks, and the morale is excellent. The present position of the army is naturally strong and has

many strategic advantages. The intrigue that caused downfall of the peasant commission presided over by M. Witte was the communication to the emperor of strong words used by M. Witte at a meeting of the commission, in which, in urging the necessity for expedition, he declared that if something tangible was not accomplished soon the peasant movement would get beyond control and an actual reallotment of land out of the imperial domain would be necessary. Minister of Agriculture Yernoloff is drawing up a plan to meet the peasants' demand for land which contemplates practically the introduction

Manager For Each State And Canada Named As A Committee To Push The Matter---What Was **Done At Meeting**

Want Equitable Policyholders In So-

ciety Directorate

INSURANCE COMPANIES

New York, April 19 .- After a session at the Hotel Savoy, lasting for nearly six hours, the 200 managing agents of the Equitable Life Assurance society from all parts of the United States adopted resolutions asking the New York state legislature to exercise its plenary power by enacting an amendment to the society's power. This amendment is to give the policy-holders admission to the directorate of the society.

The resolutions also provide that a committee consisting of one manager from every state in the Union and one from Canada, together with all the managers in New York city, should be named to visit Governor Higgins and Superintendent of Insurance Hendricks and secure their assistance in getting the legislature to act in the matter. This committee, representing the whole country, will be designated before the agents finally adjourn.

The session was replete with developments. Several sets of resolutions were adopted. President Alexander made a brief speech. Vice President Hyde followed him, and in the course of his remarks referred to the sale by Second Vice President Tarbell of the latter's interest in the renewal account to the Equitable company, which brought forth a sharp retort from Mr. Tarbell. Then all three officers left the meeting and the agents devoted their time to discussion behind closed

The first set of resolutions which came out declared that the agents pledged their "unqualified support" to cresident Alexander, and expressed their "entire confidence that the president will continue unfalteringly and finish the work of mutualization that he has so courageously begun." There was no reference in any of the resolutions to Mr. Hyde. Resolutions were adopted by the agents giving their "unqualified approval of the firm stand taken by Vice President Tarbell in support of the president on the mutualization issue." The Tarbell resolution was introduced by E. A. Woods of Pittsburg. SHOOTING AT CHICAGO

In Connection With the Strike of Ward's Teamsters.

Chicago, April 19 .- The first shooting and the most serious assault since commencement of the Montgomery Ward strike occurred at Van Buren and Sherman streets. Charles Ocker. a nonunion teamster, was leaving the Atlantic hotel when he was attacked by a union picket. Ocker drew a revolver and fired twice at his assailant and, although he was only a few fee from the man, the bullets went wide and one of them struck Walter Klagor a teamster, who was unloading a wagon half a square away. Ocker was ar rested. Klager's wound is not dangerous. Shortly after this trouble was over, John O'Reilly of St. Louis, who was walking in Van Buren street near the scene of the shooting, was attacked. by union teamsters and beaten into insensibility.

hone it k This is the story brought to Secretary Loeb by Elmer Chapman, a

courier with a close mouth, who was chosen to bear\messages between the president and the temporary seat of government at the Hotel Colorado in this city. While he came through Newcastle, where are camped numerous correspondents of newspapers, he brought his story intact. There was no leakage, and all information obtained at that place was from the view of a closely rolled fresh bea."-

skin which Chapman transferred from his saddle to the car at the railway station. "Is that all you've got?" he was asked. "Isn't that enough?"

This was about the substance of the conversation in which Chapman participated at Newcastle. He was chosen because he knows when not writes Theodore Schuele, of Colum- to talk.
