No Discrimination To Be Made As Between The Several Steamship Lines In Handling Their Business Across The Isthmus

Washington, April 26. - Secretary Taft has made a decision of the greatest importance to railroad interests especting the policy of the government relative to the existing monopoly of traffic across the isthmus of Panama and the fixing of rates over the Panama railroad as bearing on the existing rates on transcontinental traffic. The publication of several inerviews recently with the secretary himself, with President Shonts of the Rineer Wallace has led to much confusion in the public mind on these subjects. In his letter the secretary makes it plain that there is to be no discrimination whatever as between the several steamship companies in handling their business across the isthmus, and that he does not antici-Pate any considerable effect upon the transcontinental traffic arrangement of Panama rates, but that this resuch effects.

Secretary Taft's letter is addressed James I. Hoctor of Cincinnati, of

"The policy of the covernment in managing the Panama railroad is to charge such rates as will pay for the carriage of the goods across the isthmus a reasonable return on the investment of the government and nothng more. It will permit no discrimi-

We shall run them merely for the purpose of preventing a combination to raise the charges of the state witnesses. the rates for the delivery of material for the construction of the canal from the United States to the isthmus. The government is not running and does not expect to run a line between New York and San Francisco or between San Francisco and New York; hence the relation of its policy to transcontinental rates is only indirect.

can to make just rates and avoid discrimination. If this ameliorates conditions we shall be glad. If it does not, then it will not be in our power to do more."

New York, April 26.-Coroner's Physician O'Hanlon took the stand in the Patterson trial, and said in reply to questions that he had changed his opinion that Young had committed suicide. Dr. O'Hanlon performed the autopsy on Young's body. In his testimony he said: "My present opinion is not the opinion I formerly expressed to Coroner Brown." Mr. Rand then produced the official report of Dr. O'Hanlon, which did not define the case as one of suicide, and the doctor said that he simply expressed the suicide opinion in conversation with Coroner Brown. After some further questioning Mr. Rand asked the witness if he still held the same opinion that he expressed to Coroner Brown, and Dr. O'Hanlon replied: "I will only say this: my opinion is not what it was when I talked to Coroner

Dr. E. M. Riggin testified that the bullet which caused Caesar Young's death entered the left side and, after striking the backbone, lodged in the muscles of the back. Hemorrhage was the cause of death. While Dr. Riggin was being examined a headless and legless skeleton was brought into court. Lawyer Levy strenuously objected to its introduction, saying it was unnecessary and tended to prejudice the case against the defendant. Miss Patterson was affected.

Police Captain Sweeney told of a conversation he had with Miss Patterson soon after her arrest, in which she said she had put her hand in Young's pocket after the shot had been fired, had looked at the revolver and then dropped it back in the pocket. The scenes of West Broadway, where the shooting took place, were gone over by witnesses and the cab driver who was on the box when Young was shot was on the stand, but ly from that at the previous trial. driver, was asked why he did not look in the cab when he heard the first shot, he replied: "It was not my place. ## ROCKEFELLER MAKES REPLY TO DOCTOR GLADDEN

New York, April 26,-Stuart J. Murphy of John D. Rockefeller's private counsel issued a statement by Mr. Rockefeller's authority anent Rev. Washington Gladden's latest attack on the oil magnate. The attorney denies the intimation that Mr. Rockefeller committed perjury in his testimony before a New York legislative committee when the operations of the Southern Improvement company were under investigation, claiming Mr. Rockefeller was not connected with that corporation. He adds the report of that investigation was garbled, and concludes: "Dr. Gladden seeks to make out a case of perjury. Unfortunately his evidence is untrue. If Dr. Gladden has mendaciously garbled the testimony, there is nothing more to say. If he has done it ignorantly, he is scarcely less culpable, since it was his duty to know the facts."
