THOUSANDS CHEER THE PRESIDENT IN CHICAGO

Strikers Seek An Audience With Roosevelt

The Program In Chicago Includes A Reception For The President By The Iroquois Club, A Democratic Organization

Chicago, May 10.—Cheering thousands greeted President Roosevelt on his arrival here at noon. Crowds filled the station and the streets. The presidential party will remain here until midnight, when the journey to Washington will be resumed. The program here includes a reception to the president by the Iroquois club, a Democratic organization.

A committee representing the striking teamsters is seeking a conference with the president, but the outlook at this hour is not encouraging.

On the run from Denver the president was greeted by enthusiastic throngs at every stop. He made a number of addresses, which as usual caught the fancy of the crowds. Despite the rain 5,000 people turned out at Grand Island, Neb., where the business men and school children of the town presented the chief magistrate with a bouquet. At North Platte the president spoke on irrigation. At one point Mr. Roosevelt defended his action in the Panama affair, saying: "It is perhaps unnecessary for me to say that I am perfectly aware that many most admirable gentlemen disagreed with me in my action toward the Panama canal, but I am in an unrepentant frame of mind. The ethical conception on which I acted was that I did not intend that Uncle Sam should be held up. But without regard to that, when the canal comes into operation, I think it will have a very important regulatory effect in connection with the transcontinental commerce of the railroads. I think when such is the case, these great railroads will have to revise their way of looking at the interests of certain inland cities. I understand thoroughly the argument from their standpoint and see that they can in all sincerity hold the position, and while I do not think that anything I can say could have any effect in making them alter that position, I have considerable hopes for the effect of the Panama canal. We have the right to look forward with confident hope to the future of this republic, because it will not and shall not become the republic of any class, either poor or rich, because it will and shall remain as its founders intended it to be and its rescuers under Abraham Lincoln intended it to be, a government where every man, rich or poor, so long as he did his duty to his neighbor, was given his full rights, was guaranteed justice and has had justice exacted from in

return."

LARGE SUM

Realized on Stolen Equitable Policy. An Arrest.

New York, May 10.—William Daly, under arrest at Stroudsburg, Pa., is charged with the larceny of \$27,000 from the Equitable Life Assurance society in this city and by conspiracy with an employee of the Equitable society. Daly's name is said by detectives to be Samuel Lobley, but he is alleged to have operated under the aliases of Edwards, Robert C. Henderson and Father Smith. In a statement issued by officials of the Equitable society it was explained that William C. Cotton of Brookline, Mass., is the owner of a \$50,000 policy in the Equitable society. In March, 1904, he borrowed \$27,000 on it, depositing it with the society as a security for the loan. A few months later, the officials say, the policy was stolen from the vaults of the society by a trusted employee working in conjunction with Lobley, the books of the society containing a record of the previous loan were altered and Cotton's name was forged to an application for another loan of \$27,000. The second loan was made, it is declared, to Lobley.

Loeb Escapes Service.

Missouri Valley, Ia., May 10.—William Loeb, Jr., secretary to the president, passed safely through Nebraska without being served with summons in an action filed by Miss Mae Wood, demanding \$35,000 on a charge of conspiring to deprive her of certain misuses alleged to have been written to her by a United States senator. The secretary's escape from service was the result of a change in the itinerary of the presidential special by which the train was transferred to the tracks of the Elkhorn division of the Chicago and Northwestern at Fremont, Neb., and run to Missouri Valley, Ia., where connection was made with the main line. The change left Douglass county, Neb., and the sheriff with his summons, about 30 miles off the route of the special.

Shot Wife and Self.

Richmond, Va., May 10.—Frederick M. Hill, a machinist of this city, while in a state of mental aberration shot and killed his wife and then himself. He fired two bullets into his wife's body and the same number into his own. He was in poor health lately.

MAN TWICE DIVORCED AND MARRIED THREE TIMES

Lima, O., May 10.—For the third time within 12 years Jacob Gottfried, foreman of construction work on the Western Ohio traction line, has married the same woman, having been twice divorced from her. The first divorce was granted in 1893, the second in 1903, and since the last divorce Mrs. Gottfried sued Daniel Miller for breach of promise, asking \$6,000 damages. The case was settled June 16, 1904, by Miller paying \$200 and the divorce was granted. She has now consented to become Mrs. Gottfried for the third time.

Minister's Plight.

Cincinnati, O., May 10.—With his mind a blank as to his movements during the past few weeks, Father Eugene O'Brien, who is in charge of a wealthy congregation at Havana, Cuba, was sent to New Orleans by friends here. His case is an unusual one. He does not remember leaving Cuba or anything else that happened about the last thing he remembers, about the last thing he remembers, he says, was drinking a glass of wine

with several of his Cuban friends. He is loath to believe that the wine was drugged.

Lost Torpedo Boats.

Victoria, B. C., May 10.—Japanese advisers received here state that rumors are current that the Russian squadron has lost many torpedo craft during the voyage.

CUT TO THE QUICK.

Knight & Fresse company, stock brokers of Boston, went into hands of receivers and all their offices in Massachusetts are closed.

At Coatesville, Pa., five children were poisoned by eating red hennep berries, which they thought were strawberries, in the woods. Some of the cases may prove fatal.

Ernest Barbour of Butte, Mont., married Chingilla, an Indian vaudeville actress. Barbour is a son of Rev. H. H. Barbour, Baptist, formerly of Columbus, O., now ill at Newark, N. J.

ON A TRAIN

Feudists Finally Settle a Dispute Over a Railroad.

Houston, Tex., May 10.—Edward Calhoun was shot and killed on board an incoming San Antonio and Aransas Pass train at Wallis, by W. T. Eldridge of San Antonio, Tex., formerly vice president and general manager of the Cane Belt railroad. Calhoun is a brother-in-law of Captain William Donovan, who was killed by Eldridge about three years ago on a passenger train on the same road. He was recently acquitted of murdering Captain Donovan. The latest tragedy grew out of the murder of Donovan, and subsequent attempts made upon the life of Eldridge. Eldridge was shot through the lungs by an unknown party, but recovered. Dissension over the control of the Cane Belt railroad, in which Eldridge and Donovan were jointly interested, resulted in the killing of Donovan, since which time a feud is said to have existed between relatives of the deceased and Eldridge. All of the parties are prominent.

Earthquake and Landslide.

Bombay, May 10.—An earthquake was experienced at Bander Abbas, Persia, April 25, and 50 persons are reported to have been buried by a landslide. Two hundred yards of the mountain behind the town collapsed. In the town a number of towers and buildings fell and there were a few casualties. Seismic shocks have occurred daily since April 25, and the population is encamped outside the town. Neighboring villages are reported to have suffered severely. Bander Abbas, also written Bunder Abbas, is a port on the Persian gulf, the most northerly point of the strait of Ormuz. Its trade is chiefly with British India and Arabia. The town is dirty and unhealthy.

Woman Cremated.

Urbana, O., May 10.—Mrs. William Apple, 70, burned to death when her dress caught fire at her home in New Paris, O. She was alone at the time.

TORNADO'S TRAIL

Shows Thirty Persons Dead and Nearly Fifty Injured.

Marquette, Kan., May 10.—Thirty persons lost their lives in the tornado that wrecked part of this town and did much damage in this vicinity, and that 44 persons were injured. Of the injured 35 were seriously hurt and some of them may die. Several of the others are suffering from broken limbs and internal injuries. In several cases entire families were killed. A man named Switzer, a night watchman at the railroad yards, lost his three children. N. W. Nelson, with his wife and three children, were found dead. Two other children were not at home and escaped injury. Order has practically been brought out of the chaotic condition and a relief committee has begun dispensing aid. Among the relief sent from outside were 25 pupils from Bethany college who acted as nurses. The tornado struck the southern end of the town and cut a clean swath 100 yards in width through its entire length. Coming as it did at midnight, the people were caught without a moment's warning.

Chicago Strike.

Chicago, May 10.—Drivers of the Wenig Teaming company, a large concern, chiefly engaged in delivering flour, went out when one of their number was discharged for refusing to deliver flour to a boycotted house. The Wenig company is a strong factor in the Team Owners' association, which has heretofore sided rather with the teamsters' union than with the employers' association. Its stand in line with the latter organization was something of a surprise to both sides in the struggle. In some quarters it was feared that the strike of the Wenig company drivers would produce a shortage in the supply of flour, but the officers of the company say that they have a supply sufficient to last the city for a week, and that at the expiration of that time they will be able to make deliveries as before.

THE BIG AULTMAN PLANT IS SOLD AT CANTON

Canton, O., May 10.—The Canton plant of the Aultman company, which failed several months ago, was sold to E. G. Tilton, president of the Cleveland Trust company, who represented the creditors' committee, for \$262,500. The lowest for which it would have been sold under the appraisement was \$212,824. The sale does not include \$72,556 worth of machinery and outstanding claims. The total liabilities of the concern are about \$4,000,000. The creditors, it is said, will get about 5 per cent of their claims.

Caught No Fish; Killed Himself.

Cleveland, O., May 10.—The disappointment of an unsuccessful fishing trip, in conjunction with settled melancholy, led Charles Bayer, 410 Waverly avenue, to kill himself. He shot himself through the heart. Bayer went fishing at the foot of Waverly avenue. Some time later an acquaintance met him coming back empty-handed. "I've never had any luck at anything," said Bayer. "What is the use of living?" He then went to his home and shot himself.

May Day Demonstration.

St. Petersburg, May 10.—The Social Democrats are straining every effort to make the proposed demonstrations on the Russian May day. They have succeeded in interesting the workmen of several St. Petersburg factories, and at the committee's invitation, a meeting of workmen was held in the People's park on Petrovsky island, at which they affirmed their peaceful intent. It was decided to participate in the parades.

Cleveland Student Found Dead.

New Haven, Conn., May 10.—Arthur Haserot, a Yale senior living in Cleveland, O., was found shot to death in his room in Welch hall, one of the campus dormitories, and an investigation into the case is being conducted. Medical Examiner Bartlett stated he believed death was the result of an accident or suicide, but further than that he would not discuss the case. Haserot's body was found by one of his roommates, and after it was viewed by the medical examiner was removed to an undertaker's. A revolver was found near Haserot's side and there was a bullet wound in his head.

FATAL FRAY

Follows a Dispute Among Glass Blowers in Tennessee.

Chattanooga, May 10.—At the glass plant Fred Cummins was shot and killed, William Meacham was shot in the thigh and Albert Meacham was struck on the head with a heavy

monkey wrench and may die. The shooting was done by Albert Meacham, foreman of the plant. The difficulty occurred in the office. William Meacham, who was shot, is a brother of the man who did the shooting and the manager of the plant. Albert Meacham was arrested and is confined in the hospital ward of the jail. The coroner's jury placed the blame for the killing on Cummins and Albert Meacham.

Iron Workers' Scale.

Detroit, Mich., May 10.—The annual convention of the Amalgamated Association of Iron, Steel and Tin Workers adopted the wage committee's recommendation for the restoration of the muck and puddle mill scale of 1903-4. The wage committee made a similar recommendation in regard to the boiler scale, but this recommendation was referred to the boiler committee. It is understood, however, that the boiler committee has already agreed to second the recommendation of the wage committee. Last year there was a cut of approximately 10 per cent.

Goll May Make Confession.

Milwaukee, Wis., May 10.—Henry G. Goll, former assistant cashier of the First National bank, who is charged with embezzlement, may make a confession. He was in conference with United States District Attorney Butterfield, Bank Examiner C. H. Bosworth and Attorney George P. Miller, representing the bank. From a source that is absolutely authentic it is said that Goll's friends think he can best serve his own interests by making a clean breast of all that he knows. He could do no harm to Bigelow, for all the facts in the case are bound to be dug out before the present investigation closes.

OHIO OLIO.

Live Intelligence of the Buckeye State. Would Set Aside Service.

Tiffin, O., May 10.—Ex-Judge W. B. Sanders of Cleveland, representing the International Harvester company, in circuit court here argued a motion to set aside the service in the suit recently brought by the prosecuting attorney of Wyandotte county to oust the company from doing business in Ohio under the anti-trust law. The company avers that its agents served with process are not managing agents, as contemplated under the statute. Former Attorney General Monnett and Judge Pugh of Columbus and Hon. Eliza Kaster appeared for the prosecution. The decision will not be handed down for several days.

INDEPENDENT

Telephone Men In West Virginia to Form an Association.

Huntington, W. Va., May 10.—Steps have been taken toward the formation of an association of the independent telephone companies of the cities of West Virginia. Officials of the different companies are now holding a meeting at Fairmont with this in view. Representatives of more than a dozen companies, including the independent companies at Huntington, Charleston, Parkersburg, Fairmont, Granton, Wheeling, Clarksburg, Martinsburg and other points are represented. The purpose of the association is particularly to arrange for a better long distance service between the different cities of the state.

Public Execution.

Bellefonte, Pa., May 10.—Ira Green and William Dillon were hanged here for the murder of Jerry Condo, a turnkey in the Center county jail. Fully 1,000 persons witnessed the execution, and as many more were unable to gain admission to the jail yard.

Saved By Dynamite.

Sometimes a flaming city is saved by dynamite a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, Coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At G. R. Baker & Son, Mt. Vernon & F. F. Hosack, Fredericktown drug store, price 50c and \$1.00; guaranteed. Trial bottle free.

Noted Painter Dead.

Washington, May 10.—Flavius J. Fisher, 73, a noted portrait painter, died here. He was the first American artist to be admitted to the German art institute at Berlin.

Snow and Sleet.

St. Cloud, Minn., May 10.—A snow and sleet storm raged here two hours, accompanied by a strong gale. The weather was similar to that of a stormy February day.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. In had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at G. R. Baker & Son, Mt. Vernon, and F. F. Hosack, Fredericktown, drug stores; price 50c.

Judge Pence Suicides.

Covington, Ky., May 10.—Judge Cecil Pence, a former member of the Kentucky legislature, known all over Kentucky as a lawyer and politician, committed suicide at his home in Covington by shooting himself in the head. The cause for the suicide is unknown. Judge Pence was 35 years of age. He entered the legislature when barely of age, and had been police judge of Covington the past six years.

A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at G. R. Baker & Son, Mt. Vernon, and F. F. Hosack, Fredericktown drug stores.

Taft's Request.

Washington, May 10.—Secretary Taft sent for Mr. O'Beirne, the British charge d'affaires, and requested him to ask the British government that no immediate action be taken by the New Brunswick authorities looking to the removal of obstructions in the St. Johns river. That such action was contemplated was communicated to Secretary Taft by the department of justice.

Cleared For Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. At G. R. Baker & Son, Mt. Vernon & F. F. Hosack, Fredericktown drug store, 25 cents.

REGULATION OF RATES ON EVERY RAILROAD

Must Soon Come Says Secretary Of War Taft

He Jars The Railroad Men With His Statement That Lines Cannot Be Run As Private Business And Says Railroads Must Comply

Washington, May 10.—At the banquet tendered the 300 railway men, members of the International Railway congress, now in session here, Secretary of War Taft startled his hearers when he declared that railway rate legislation must come; that if the railway men of the country were wise they would aid and not hinder it; the sentiment of the country is such that failure of proper regulation meant a campaign on the subject that would do no good to the railroads. Absolute silence reigned as Secretary Taft spoke his mind on the subject of rates. He was positively against government ownership, he said, believing that nothing so deleterious could come to the country as this solution of the question. "But," he continued, "you can not run railroads as you run private business. You must respond to the public demand. If there is danger of discrimination, then you must allow the establishment of some tribunal that will remedy that discrimination." The secretary saw no reason why a tribunal properly constituted should not be competent in every sense of the word to fix a maximum rate.

President Stuyvesant Fish of the American Railway association had introduced Secretary Taft. In his capacity as toastmaster Mr. Fish was on his feet the instant the secretary concluded. He answered the secretary at length, taking the view that the law to prevent discrimination, double dealing and secret rebates was plain. He vigorously called for the enforcement of that law. Mr. Fish talked of the vested rights of money tied up in railways. He apologized for allowing himself to be diverted, and as he sat down Secretary Taft, who sat next to him, quivered in a low tone, "May I have 15 minutes to reply?" This time was given, and the secretary utilized it in making himself even more positive as to his position in favor of legislation creating a tribunal with authority to name a maximum rate.

Look Out For These Swindlers. Chicago, May 10.—Two or more men using the names Anderson, Craft and Todd have been engaged fraudulently for two months in soliciting subscriptions for magazines and other periodicals in the name of the American Press Association as subscription agent. They have operated here, in Omaha, South Omaha, Council Bluffs, Elkhorn, Iowa and other places. At an earlier date they had worked the eastern states. The American Press Association is not a subscription agency; any one soliciting subscriptions in its name is necessarily a swindler.

Columbus, O., May 10.—The supreme court will wrestle with the question whether a girl's hair is worth \$5,000. This is the amount of damages awarded by a Hamilton county jury to Jennie Marshall, who was employed by C. S. Enders to sell candy. A gasoline flambeau exploded and burned off the candy clerk's hair. The case has just been filed in the supreme court.

Her Comb Exploded. Marion, O., May 10.—Miss Bonnie Blake narrowly escaped death at her home here as a result of a celluloid comb exploding in her hair while she was sleeping on a couch. She lay with her head near a gas fire, causing the comb to become heated. It was thought for a time that her reason would be impaired, but prompt medical attention saved her.

Engineer Killed. Springfield, O., May 10.—Arthur Stafford, engineer of a Detroit Southern engine, was instantly killed by a collision of his engine with one of the Big Four road at the Lagonda crossing, near this city. The Detroit engine was thrown over, crushing the engineer. His home is at Bluefield, W. Va.

Trial Postponed. Lima, O., May 10.—Judge Cunningham, who will occupy the bench at the trial of President Wagner and other indicted officials of the defunct German National bank, at Sidney, announced that the serious illness of President Wagner made an indefinite postponement necessary.

Thrown From Car. Hillsboro, O., May 10.—Luther Steinhart, 18, son of the foreman of the construction gang on the Cincinnati and Columbus Traction company, was instantly killed five miles west of this place by being thrown from a car upon which he was riding.

Senator Brandegee.

Hartford, Conn., May 10.—Frank B. Brandegee of New London, member of congress from the Third Connecticut district, was chosen United States senator to succeed the late O. H. Platt by a majority vote in each house of the general assembly.

SUGGESTIONS

Regarding The Two Proposed Monuments

To Memory Of Gen. Morgan And Dan'l D. Emmett

They Should Be Located On The Public Square

Where They May Be Most Accessible For View By Our Citizens As Well As The Many Visitors Who Come Here

Mt. Vernon, O., May 10.
Editor The Banner:

As it seems to be in order now for individuals from the ranks to make helpful suggestions or express their private views upon and in relation to subjects of general interest to the residents of our city and county, I would invite your attention briefly to a matter pertaining to the proper commemoration of our distinguished dead and at the same time beautify our small but handsome park on the Public Square, and also at the same time making it a place of historic interest, not only to ourselves and our successors, but also to the "strangers within our gates" in years yet to come.

Some petitions are now being circulated looking to ask the Ohio State Legislature to make an appropriation for a monument to the memory of our late townsman, General George W. Morgan, of an amount equal to that appropriated by said body for the erection of local monuments to the memories of General Philip H. Sheridan and General William H. Gibson, an amount, I now think, of \$10,000 in each case. I believe the senator from this district will stand ready to present the matter for us at the next general session of the Legislature if our people manifest such a desire.

We are also now practically assured of a pretty good fund from various sources to commemorate the name and fame of our citizen, the late Daniel Decatur Emmett, the "father of minstrelsy," who was born, raised and died near Mt. Vernon, having spent the greater part of his life here and spending his last years at his suburban home just north of the city.

General Morgan, while yet a young man, went to Mexico as a volunteer when the war of 1846 was precipitated and was advanced in the rank very soon for bravery upon the battlefields of that contest, and upon his return home the good people of Ohio and Knox county, wishing that he should be made aware of their appreciation of his service to his country and to his fellow men and to do him high honor as a soldier, presented him a fine sword and a brace of pistols mounted with ivory and gold, the former by the State of Ohio, the latter by Knox county, as a token of his esteem and valuable services.

Now, the meeting, with the speeches of presentation and acceptance of the sword and pistols, was in the old court house then standing upon the northwest quarter of the public square and facing the east. Now, we would suggest that if this fund is obtained for a memorial, that it mark that spot that was so dear to him and loved and honored by the people of Knox county and the State of Ohio in its early history.

Farther, General Morgan also served with honor in the great Civil war and afterwards served in Congress and was also at one time a consul to Bordeaux, France, by appointment of President Franklin Pierce and afterward Minister to Portugal, so that it is not necessary to recall

further his services to his country, district, state or nation for he was conspicuous in each and all of them.

Now "Uncle Dan Emmett," as he was familiarly known to all, has achieved not only national, but international fame and renown from his song and music of "Dixie," not perhaps from the words of it, but from the air, the tune which upon rendition seems to at once please and captivate the musical ears of all who hear it without regard to his or her nationality. I have it from a gentleman, who, when in London, England, at a great band concert of the "Royal Military Band," the Queen's best, which he was so fortunate as to have attended, struck the opening performance by playing Uncle Dan's "Dixie," and that it was more heartily applauded than any selection of the concert, and that is no small praise. Not only so, but we are credibly informed that "Dixie" is played by all of the leading bands and orchestras of all civilized nations, and some that are denominated heathen, viz: Japs.

Now, in view of some recent information which would seem to indicate that it is not at all unlikely that the Emmett monument fund may amount to somewhere from \$25,000 to \$40,000, that would provide a very fine memorial that would do credit to all, that it also be placed where strangers in visiting our city could and would see it and learn of our famous men, we would suggest that the Emmett memorial be placed upon the Northeast quarter of the Public Square, facing south, as the words would suggest in his famous song. This would not, in any way interfere with the usefulness of the Public Square as a breathing spot, but would add not only to its beauty, but to its historic interest as only such memorials can do. Such works of art are for display and should be in conspicuous and easily accessible locations.

A recent experience with one of the leading cities of Ohio, viz: Cleveland, may be of special interest in this connection. The notable victory of Commodore Perry over the British on Lake Erie had a commemorative monument placed upon the Public Square of that city and it was the admiration of many visitors as well as residents of the Forest City for a great many years. A few years since, however, some persons conceived the idea that the proper place for Perry's monument was at Wade Park about four miles east of the Public Square, just off Euclid Ave., and it was removed to that site, but ere long a growing dissatisfaction became manifest and it lately assumed such proportions that it was decided to return the monument to its original site, showing that the populace want such thing where strangers as well as residents may see frequently and where it should have remained.

These we take to be pertinent facts that should decide us in selecting locations for such enduring structures as these promise to be from the present outlook. This central and public location would acquaint strangers who visit our city with some of the notable and historic personages who have lived among us to make history. Should such memorials be located in some place aside from the public eye, strangers would come and go without ever having suspected us of having had in our community very eminent men. So let us have these memorials where all may see and know who's who.

Respectfully submitted,
City Resident.

Lancaster, O., May 10.—(Special)—Rain stopped a fast game of base ball yesterday afternoon between Lancaster and Mt. Vernon at the end of the seventh inning, Lancaster winning the game by a score of 2 to 0.

Upp, the Pennsylvania recruit of the home team, had the Mt. Vernon sluggers at his mercy all through the seven innings of the game. Only two hits were made off his delivery, one by Humphreys and one by Strong.

Hughie Collins pitched a fine game for the visitors and allowed but four hits. Lancaster bunched two of their hits in the seventh inning and thus won the game.

Both teams played a very clean game, there being but one error on each side, one by Collins and one by Locke.

Humphreys played a good game at short stop and Ilger had another good day at first base, accepting everything that came his way.

The feature of the game was the fast double play pulled off by Locke Gygli and Sump.

MANAGER GOODRICH

Struck Over The Head With Umbrella By Umpire's Wife

Lancaster, O., May 10.—(Special)—During the progress of the Lancaster-Mt. Vernon baseball game yesterday afternoon, Manager Goodrich of the Mt. Vernon team was struck over the head by an umbrella in the hands of Mrs. Cook, wife of the umpire officiating at the game. The work of the umpire was very bad and the Lancaster people all joined in calling him a robber. Manager Goodrich also called the umpire when suddenly an umbrella was brought down over his head by the umpire's wife. Goodrich took it all in good nature as did the crowd, but the woman was very mad.

LIGHTNING

Burned Down Derrick And Set Fire To Well

On The Ward Farm Near Brandon—Driller And Tool Dresser Have A Narrow Escape

Brandon, O. May 10.—(Special)—Just as the gas well was being drilled in on the Ward farm, one half mile north of Brandon, at half past five this morning, lightning struck the derrick burned it to the ground and at the same time set fire to the well. An exciting scene followed and all the morning was consumed in extinguishing the blazing well.

Kaley and Workman, driller and tool-dresser employed at the well, saw the storm coming and ran to the engine room. This saved their lives as the lightning struck almost on the spot on which they had been standing. Both men were slightly shocked, but were not seriously injured.

The well came in with a capacity of 5 million cubic feet and as soon as the well took fire it made a big blaze. There was considerable excitement as a result of the burning well and many people visited the scene during the day.

Young Girls

Avoid The Dangers and Sufferings of Womanhood

Many a girl who graduates from high school or female college with a brilliant record and high standing is broken down before she is twenty.

Nowadays girls are pushed to the limit of their endurance both in school and society. They must make a success—even if they are forever unfitted for the larger school of life and debarred from wedded happiness and the bliss of motherhood.

At this time of life, when just entering upon womanhood, nature makes heavy drains upon the vitality, especially at each monthly period,

Lydia E. Pinkham's Vegetable Compound

the most wonderful of all tonic restorative medicines for women, will tide a young girl over this trying time and bring her safely into strong, noble, beautiful womanhood.

Experience of a Beautiful High School Girl

Her First Letter.

MY DEAR MRS. PINKHAM:—I write to see if you can suggest some means to cure me. A little more than a year ago I was sick with menstruation for the first time, and since then I have been sick all the time in some way or other and suffered with painful and irregular menstruation. I went to a summer resort for my health and was doctored all summer, but to no effect. I have not menstruated for two months and thought I would see if you could do me any good. I attend High School and would not like to miss any time if it is possible. MARION BARBER, North Adams, Mass.

Miss Barber writes again after two years

MY DEAR MRS. PINKHAM:—Sometime ago I wrote to you for advice, being troubled with irregular and painful menstruation and womb disease. I began taking Lydia E. Pinkham's Vegetable Compound and Liver Pills and using the Sanative Wash, and I am glad to say I am completely cured and have not had any sickness since. I wish to thank you for your kind advice and shall recommend your medicine to my girl friends. MARION BARBER, 101 Bracewell Ave., North Adams, Mass.

Free Advice for Young Girls

All young girls are earnestly urged to write to Mrs. Pinkham, at Lynn, Mass., for advice. Thousands of women are well, strong, and beautiful to-day because they made a confidant of Mrs. Pinkham and followed her instructions at this critical time of their lives.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How can he know, where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how can you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

FLEET QUILTS FRENCH PORTS

Admiral Rojestvensky Orders His Armada to Put to Sea.

POWERS AIRING NEUTRALITY

Only Informal Representations Made at Paris by the British Government. Officers in Indo-China Held Personally Responsible for the Execution of French Orders.

Paris, May 10.—A dispatch from Nhatrang, Annam, reports that Admiral Rojestvensky's fleet, which has been cruising for several days in the vicinity of Vanlong bay, has put out to sea. Orders were sent to civil and naval authorities in French Indo-China not to permit the junction within French waters of the Russian naval forces under Admiral Rojestvensky and Rear Admiral Nebogoff. Instructions were sent to Admiral De Jonquieres, the French naval commander, to see that Rojestvensky fully observes the promise he has given to leave French waters. These orders resulted from the receipt of a detailed dispatch giving an account of Admiral De Jonquieres' meeting with Rojestvensky. The dispatch says the Russian squadron made a four days' cruise outside the three-mile limit, and then returned last Saturday, anchoring at Konghai bay, coast of Annam, to take on provisions and water. When Admiral De Jonquieres was informed of the Russians' return, he proceeded to Konghai and requested Admiral Rojestvensky to immediately withdraw outside territorial waters. The Russian admiral gave De Jonquieres his word that he intended to leave his anchorage and take to the open sea.

The arrival in Paris of Paul Cambon, the French ambassador in London, following his conference with Foreign Secretary Lansdowne, probably will permit the authorities here to learn the sentiments in British official circles concerning French observance of neutrality. Thus far only informal talks between officials in London and Paris have permitted the British authorities to use friendly counsels with both sides toward preventing the controversy from assuming an acute form. Premier Rouvier, Foreign Minister Delcasse and Colonial Secretary Clementel are acting together in the adoption of various measures to secure the observance of neutrality. Admiral Touchard, chief of the naval staff, holds frequent conferences with Messrs. Delcasse and Rouvier regarding orders to the French squadron in the far east. The officials here having done their utmost, are holding Admiral De Jonquieres and other officers in Indo-China personally responsible for the execution of their orders.

Nebogoff Headed Off. Saigon, May 10.—Nebogoff's squadron appeared at daybreak of May 9, 20 miles off Cape St. James, preparing to ascend the river to Saigon, where the commander expected to find the necessary orders for effecting a junction with Rojestvensky and revictualing his fleet. He was hailed at sea by a scout belonging to the Russian second Pacific squadron, which communicated to him France's desire that the junction of the Russian squadrons should occur outside Indo-Chinese waters. Nebogoff's fleet disappeared on the open sea, sailing towards the second squadron, which doubtless is waiting off the Annam coast.

Battleship Yashima Lost. Victoria, B. C., May 10.—Lieutenant Count Keller and three other naval officers from the destroyed Russian Pacific squadron were among the passengers on the Empress of India, which arrived here from the Orient. Count Keller stated that the Japanese

STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

"About ten years ago I began to be afflicted with stomach trouble, also diarrhea," writes Mr. Wm. Walters, of Antrim, Mo. "In warm weather it grew worse, until it would throw me into a cramping chill. I was troubled so often that I sometimes thought my end had come. Tried many remedies, but they gave only temporary relief. In November, 1899, thought I would try Doctor Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the one left. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer, and the credit all belongs to your 'Golden Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered. 'If any doubt the above statement let them address me, and I will take great pleasure in answering.'"

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

ON THE OCEAN'S FLOOR.

How It Feels to Go Down into the Sea in a Diving Bell.

How it feels to go down into the sea in a diving bell is described as follows by one who made the descent: "Putting on a pair of stockings, leggings and heavy boots, I jumped on to the seat when the huge bell—it weighed forty tons and was as large as a good sized room—was swung by the powerful crane over the staging, and gradually we were lowered into the sea. The sensation at first was very strange. As we entered the water, which was driven out of the bell by compressed air, there was a distinct buzzing sound in the ears and head. I was told to hold my nose and blow through it, and I did so. Slowly we descended and at last reached the bottom, some fifty feet below the surface. The bell in question was seventeen feet long and ten feet wide. There were six of us in it. It was lighted by electricity and was almost as bright as day. We first landed on a bed which the divers had previously leveled. The moment the bell touched the ground there was perhaps about two feet of water in it. This was quickly driven out by the compressed air when we walked on comparatively dry ground with the sea all around us.

"By sending signals up to the man in charge of the great crane to which the bell is attached the apparatus can be moved as its occupants wish. After inspecting the smooth bed on which the bottom blocks are laid we went out to sea and, landing on the bottom again, obtained some idea of the difficulties of digging a foundation on the floor of the ocean. It was ragged and rocky. Four men work in a bell under a pressure of twenty-seven pounds to the square inch for three hours at a time, digging up the ground until it is perfectly smooth and level. The material is thrown into a large wooden box swung in the center of the bell.

"Climbing to our seats again, the

man gave the necessary signals, and away we went, all under water, of course, until we landed once more upon the stones just placed in position. The electric lights in the bell are placed close to the thick little glass windows. When we stayed on the bottom quietly for a little while the fish darted at the light, but at the noise of a shovel they quickly disappeared."
