Women Take Part In Matriculation Rites

The Founders' Day and Matriculation ceremony on October 30 could be considered the final step in Kenyon's transition to coeducation.

The women students stood alongside the men and repeated the matriculation oath "as faithful sons and daughters of Kenyon College . . ." and also for the first time, feminine names are among the entries in the Matriculation Book which contains the names of Kenyon students for over a century.

The rite of matriculation was also extended to the upperclass women who enrolled in the coordinate college and had not participated in previous years. A special ceremony was held the following week so that all students now enrolled would be included in this Kenyon tradition.

In his address for the Founders' Day ceremony, Thomas B. Greenslade, College Archivist, traced the history of the Matriculation Oath and Book to 1842 when it was instituted by Major David Douglas Bates, Kenyon's third president. At one time, Greenslade said, the successful completion of a term of 20 weeks was required for matriculation. Later, a special examination was required. Today, all new students who have successfully completed entrance requirements and who have remained enrolled since the beginning of the term, are invited to participate in the ceremony.

President William G. Caples holds the Matriculation Book for Terry and Christine Henry of Cleveland, the first women to sign the book as Matriculants of Kenyon College. The two freshmen are also the first female twins to enroll at the College.

Detroit Publisher Named To Board Of Trustees

Peter B. Clark, president of The Evening News Association and publisher of The Detroit News, has been elected to the Kenyon College Board of Trustees for a term which runs through 1977.

Clark received his undergraduate degree from Pomona College, his master's degree from Syracuse University and his doctoral degree from the University of Chicago.

He has served as a research associate and instructor of political science at the University of Chicago and assistant professor of political science at Yale University.

He held the position of corporate secretary and vice president of The Evening News Association before assuming the presidency of that organization in 1963. He became

chairman of the board in 1969. The Evening News Association is composed of The Detroit News; WWJ-TV, WWJ-AM, WWJ-FM, Detroit; KOLD-TV, Tucson, Ariz.; and WALA-TV, Mobile, Ala.

Clark currently serves as a director of the American Newspaper Publishers Association, the Greater Detroit Chamber of Commerce and the United Foundation of Metropolitan Detroit.

He also is deputy chairman of the Federal Reserve Bank of Chicago and a trustee of both the Founders Society of the Detroit Institute of Arts, and Grace Hospital. In addition, he is a member of the American Political Science Association and the American Society of Newspaper Editors.

Bauer Heads Public Affairs Conference Center

Robert A. Bauer, former head of the Foreign Press Center of the United States Information Agency (U.S.I.A.), has been appointed Director of Kenyon's Public Affairs Conference Center, President William G. Caples has announced.

Bauer will coordinate all aspects of this year's conference entitled, "The United States in World Affairs: Leadership, Partnership or Disengagement?" To run from May 3 through 6, the participants will consider the future course of American foreign policy in light of the Vietnam War and the changing international scene.

The papers prepared for the conference will be published in the Rand McNally Public Affairs series. Past volumes have been widely used as college textbooks throughout the country.

Bauer comes to Kenyon after almost 40 years with the U.S. Foreign Service. He was resident lecturer on international affairs for the American Embassy in New Delhi from May, 1971 to July, 1972. Prior to that, he had assisted foreign resident and visiting correspondents in covering U.S. domestic affairs and foreign relations as head of the Foreign Press Center.

From 1963 to 1967 he planned and administered American cultural and information programs in Egypt as Counselor for Public Affairs and First Secretary for Cultural Affairs at the American Embassy in Cairo, Egypt. Earlier he founded, supervised construction, and organized funding for Iran's first Student Center, where students of the University of Tehran could learn more about the United States through books, periodicals and personal contacts.

He also served with the Voice of America and in 1968 drafted "A Guide to Modern Communication Findings" used by information specialists and the U.S.I.A. training program. He was awarded the U.S.I.A. Meritorious Honor Award for "exceptional contribution to the success of the agency's program."

Bauer is a 1931 graduate of the Institute of International Studies in Geneva. He earned a Doctor of Jurisprudence degree from the University of Vienna in 1933. He also received a diploma in Middle East Studies from the University of Tehran in 1960 and a master's degree in Arabic Studies from American University in Cairo in 1967.

LETTERS

To The Editor

Dear Sir:

As a graduate of a very small, state supported, strictly technical school I enjoyed reading the November issue of the Kenyon College Bulletin. At one stage I even got a slightly nostalgic feeling — you see I was on the campus one cold, drizzly, early spring morning a couple of years ago.

I could not help but compare the advantages of a cultural education against my own Alma Mater's strictly pragmatic approach to education (?). This small western (west of the Mississippi — yes, even west of the Rio Grande) school was chosen in those depression years because it offered the cheapest opportunity I could find to get a parchment — sheepskin was too expensive — diploma. Of course, I would have preferred M.I.T. but then that was a long way to hitchhike in those days. Besides, tuition was six hundred dollars a year!

As I remember it, said Alma Mater's total liberal arts education consisted of a couple of courses in Spanish taught by a fine old lady ("lady" in the finest sense of the word) and a few hours of English taught, when he could find time from his other duties, by the athletic director, basketball coach, track coach, baseball coach and physical education instructor. If anyone had mentioned the word 'sonnet' he would have been thrown out immediately. Spencerian and Shakespearean sonnets just did not fit in with hydraulics and stress and strain diagrams. (And who is this guy, King Lear?)

In spite of everything, we had some interesting times, I remember I once had a roommate who could — and did — catch rattlesnakes with his bare hands. He could also speak Navajo as well as he could English. But then he had some other

advantages too. He had previously spent two years at a church affiliated liberal arts college.

I think the school catalog boasted that most of the graduates were able to find jobs. That is what it was all about — jobs, not suitable employment, not rewarding experiences — jobs. It was emphasized that if we studied hard enough to learn the basic practical aspects of our chosen fields we would have a little better chance of getting on the payroll than some of those other fellows in the "rustling line." Once on the payroll, if we worked hard enough we might someday even get to be a shift boss.

Maybe it wasn't such bad advice at that time and place. At least I ended up being able to send one son to Kenyon and three other children to taxpayer supported institutions. I am also a taxpayer.

Now, lest someone misunderstand, I want to go on record as saying that I heartily believe in the liberal arts college. Otherwise would I permit, let alone encourage, my son to obtain a *better* education at Kenyon?

A Kenyon Father

Four Bequests Are Received

Kenyon has received four bequests since October totaling more than \$65,000.

Two of the bequests were unrestricted. These were \$37,058 as the residual of the estate of Wiley W. Glass '13 which came to the College at the death of his wife, and a \$5,000 bequest of Scott Turner H'40.

A partial distribution from the estate of William E. Cless, Jr. '25 totaling \$25,000 has established an endowed scholarship fund. Bessie I. Hamister bequeathed \$100 to Kenyon in honor of her husband, Victor C. Hamister H'61 which was added to the Kenyon Fund endowment.

The Kenyon College Development Office would be pleased to supply information on bequests and other forms of deferred giving.

ALONG MIDDLE PATH

Gambier is alive this year with a variety of student-initiated projects and activities that go far beyond the formal academic program and add a new dimension to the "Kenyon Experience."

There is the Gambier Experimental College which is a variety in itself. It offered 30 courses in its fall term and its winter catalog lists 34 offerings, ranging from crafts to film making to discussion topics in religion and politics.

Several of the G.E.C. courses concern American folk art, and this interest was further expressed in a week-long folk festival this fall in which musicians, scholars, and craft artists participated. The students have a regular folk dancing group which meets weekly and (though many of us would resist classifying it as a folk dance) even a jitterbug club.

There has been increased participation also in a program of intramural athletics with activities for men, women, and on a coed basis. In addition to the regular basketball, volleyball, etc., students and interested faculty members have collaborated to form special interest groups such as the Boat Club, an Ice Hockey Club (which has been playing intercollegiate matches), and a Fencing Club.

This surge of interest and variety is due only in part to the increased number of students now on campus. Two other factors are playing a large part.

The discussions last year concerning the proposals for curriculum change centered on meeting the needs of each student as an individual—providing each with the opportunity to develop a program to meet his or her needs. It was recognized that, even with various independent study opportunities, Kenyon would not have formal course work to meet all of the students' interests, and the faculty has been steadfast in its policy of approving for academic credit only that which involves academic work. It does not grant credit for "practical experience" projects as do some colleges and universities today.

But Kenyon's new curriculum plan does include a return to the requirement of 16 units of course work for graduation, setting a norm of four courses in each year. The former requirement of 17 units meant that students had to take a fifth course in at least one year, and many were adding courses which interested them but were not included in the required courses for distribution. Now, with more flexible distribution requirements, the students have more time to diversify their college experience outside the classroom, and faculty members, with the resulting smaller classes, have more time to participate with them in these informal activities.

Another important factor in student involvement this year is that, with the dropping of the separate coordinate college for women, the entire student body is working together more effectively in campus government and in other organizations. One senses a fresh, new spirit in Gambier this year.

While Kenyon encourages student initiative in extracurricular affairs, limitations in budget prevent College sponsorship of all these important projects. This can be an advantage, though, in that the students themselves end up with considerable freedom in structuring their activities, and for many, the experience of organizing, financing and leading them.

Kenyon Receives NSF Grant

Kenyon College has received a \$4,900 grant from the National Science Foundation, President William G. Caples has announced.

The fourth in a series of Institutional Grants for Science, the grant brings the total amount awarded to Kenyon under this program to \$27,463.

The grants are awarded annually by the foundation to help colleges and universities maintain a strong academic base for their science programs, according to Dr. H. Guyford Stever, Director of the National Science Foundation. Although they are earmarked for science activities, the individual colleges may spend the funds to meet operating expenses at the point of greatest need, he added.

Kenyon's science facilities are housed in three separate buildings furnished with the newest scientific equipment. These three facilities give

Kenyon the most complete science laboratories of any college of comparable size.

Spiro Wins Fulbright Grant

Alan Mark Spiro '72 of Cleveland Heights, is one of only three Ohio students to receive a Fulbright-Hays Foreign Study grant.

A summa cum laude graduate of Kenyon with high honors in philosophy, Spiro was awarded the scholarship to study psychology at the Catholic University of Louvain, Belgium.

State Scholar awards are part of the American student grant program carried out under the Fulbright-Hays Act. A total of four candidates were recommended for State Scholar grants by the Ohio Committee. Final selection was made by the Board of Foreign Scholarships, whose 12 members are appointed by the President.

Steve Durning '75, and John T. Drake '63 and his wife, Mollie, watch the computer run through a few plays on offense during a demonstration in the computer center which was a feature of the Knox County Day program for area residents. Though the computer is normally in use for more serious projects, the game program provided an interesting introduction to computer operations and capabilities. Incidentally, the computer beat Drake in the ten-minute contest.

Computer Serves Many Functions

When Kenyon invited area residents for its annual Knox County Day festivities on November 11, a special open house at the college's Computer Center featured a computer football game simulating the Lords' clash with Centre.

Some of the visitors assumed the Kenyon head football coaching position and matched wits with the IBM 1130 computer. Members of the college staff were on hand to explain how the computer works and supervise the game.

The visitors called the offensive plays and typed them into the computer, which responded with the yardage gained (or lost). When the computer took over on offense, it called its own plays. It also made the right decisions concerning accepting or declining penalties. It was an interesting introduction to computer operation.

Kenyon has had the computer since 1968, and it is used as both an administrative and academic aid, according to C. J. Duckenfield, Director of the Computer Center.

"Use of the computer has increased administrative efficiency here

while serving as an immense time saver," Duckenfield said.

The computer aids the registrar in compiling class lists, grade reports and permanent record cards for each student. It also aids the accounting office in all areas of its operation, including its billing and budget reports.

Kenyon is one of the few colleges that allows students direct access to its computer. Students may use it seven days a week from noon until midnight and are encouraged to write programs and run them.

The IBM 1130 also is used as a supplement to many courses offered at Kenyon, including those in the sciences, mathematics and economics. Those using it for academic purposes have priority, but independent uses, which include faculty research projects and games like computer football, are permitted if they do not interfere with academic users.

Duckenfield said more than one-third of the student body used the computer last year, but the goal is for everyone, including faculty and staff, to use it at some point during their stay at Kenyon.

Math Department Tries Flexible Format

Flexibility has become an important aspect of Kenyon's academic program and the Mathematics Department is developing an approach that offers each student freedom to complete introductory courses at a pace determined by the individual.

Designed by retired Columbia University psychology professor Fred Keller, the program is known as the Keller Plan. The innovative format is now being used in the beginning calculus course.

"The new format is better equipped to meet the individual needs of our students," according to Dr. W. D. Lindstrom, chairman of Kenyon's Mathematics Department. "Our entering freshmen have such diverse backgrounds in mathematics, that we felt it advisable to adopt a plan that provides our students with greater flexibility in meeting their course requirements," he added.

To help meet those individual needs, the year course is subdivided into 27 modules, and students may spend more time on certain areas that give them the most difficulty. Some require a full year to complete a semester's course work while others complete a year course in slightly more than one semester. The program includes scheduled lectures, home study, and individual assistance from instructors and tutors.

The Math Department provides each student with a study guide for each module which includes a list of topics to be covered in the module, a list of specific objectives, and detailed suggestions on preparation for the module test.

When a student feels he is ready, he may take one of several tests for a particular module and is given a mark of either "satisfactory or repeat." The student's examination is evaluated in his presence to provide immediate feedback while the subject is still fresh in his mind. After successfully completing a module the student moves on to the next one.

Nearly 75 students are participating in the program, according to Dr. Daniel T. Finkbeiner, Kenyon professor of mathematics and coordinator of the program. Finkbeiner and colleague Dr. Robert McLeod are currently reviewing the plan to determine whether it may be used successfully in other beginning mathematics courses.

The value of the plan is really threefold, according to Finkbeiner. "Students learn the subject more thoroughly because understanding is required at each level," he emphasized. "They may move at their own pace and spend more time on areas that give them difficulty. They may also plan their study schedule in mathematics in conjunction with their work load in other subjects," he added. The students are graded by the number of modules they successfully complete and by the final examination.

The experimental program makes use of a study center where students receive informal individual instruction. Throughout the course a chart of class progress is posted so students can evaluate their work in relation to others.

"Varying forms of the Keller Plan are being introduced at other colleges, and we have tried to design one to meet our own educational needs at Kenyon," Finkbeiner noted. The students will be asked to evaluate the plan, and their recommendations will influence a decision on whether the program will be modified next year, he said.

WKCO To Become Educational FM Radio Station

All systems are go for Kenyon College's proposed FM educational radio station.

The college has received permission from the Federal Communications Committee (FCC) to begin construction of an antenna and transmitter in anticipation of beginning broadcasting sometime this spring.

Kenyon students currently operate a closed circuit station, WKCO, which broadcasts on carrier current and reaches only campus dormitories. The new station, which will operate with approximately 30 watts of power and have a five mile radius, will service all of Gambier and parts of Mt. Vernon.

Station manager Gregory Widin '74 said a 30-foot antenna would be constructed on top of Peirce Hall, and the transmitter would be installed on the top floor. The equipment also would have to be connected with the main studios in Farr Hall.

Widin, who is from Watchung, N.J., said funds for the change came from a \$4300 grant from the Student Council awarded last year. "If the equipment works up to FCC standards, then we will receive our license, hopefully sometime this spring," he said.

The new station will operate at 91.9 FM, according to Widin. It will operate as an educational station free of commercials.

"The coverage and the fidelity of the signal will greatly improve, so we plan to expand our programming," Widin said. They plan to increase the educational programming and feature news coverage at the local, state and national levels.

WKCO began broadcasting in 1946 and has operated as a carrier current station since. It was started by returning servicemen who used their electronic knowledge to build the original equipment.

Foundation Gives \$50,000

Kenyon College has received a \$50,000 grant from the Arthur Vining Davis Foundations of Miami, Florida.

William R. Wright, executive director of the foundations, said the money could be used for "general support" of the college.

Kenyon President William G. Caples called the unrestricted grant "particularly important because it can be used at the point of greatest need." In the past unrestricted grants have been used for such things as scholarships, faculty salaries and library support.

The foundations commenced operations in 1965, being created by

the will of the late Arthur Vining Davis, former president and major stockholder of the Aluminum Company of America (ALCOA). They have combined assets now in excess of \$50 million.

IF YOU MOVE . . .

please remember to send Kenyon a change of address notification. We pay a premium in postage for the return of address corrections after each mailing. One notification to the Bulletin is sufficient to change your address for all offices at the college.

Thank you

Boat Club Spurs Interest In Kenyon's First Crew

Rowing on the Kokosing?

Not quite, but Kenyon may soon have a crew rowing on a nearby lake through the efforts of two students, a history professor, and a core of students interested in the newly established Kenyon Boat Club.

Sophomore Carlie Berlin and freshman Rich Rinehart have been working together towards starting a crew at Kenyon and have achieved some encouraging results. They have arranged for the use of the lake at the nearby Apple Valley recreational development and have secured gifts of some basic equipment from two New England preparatory schools.

The equipment promised is a training pair and rowing machine from the Kent School (Rich's alma mater), and an eight-man shell from the Phillips Andover Academy. The problem now facing the group is the transportation of the equipment to Gambier.

Another problem is financing the project. The new boat club has received a grant of \$300 from student government, but is eligible only for moral support from the athletic department and the college administration.

But on the plus side is the interest of some 30 dues-paying members who are enthusiastic "without even so much as the sight of the boats," according to Berlin. The faculty adviser, Edmund Frederick who joined the faculty this year as assistant professor of history, is ranked nationally as a lightweight sculler.

"Although a significant lack of funds separate the club from its goals," Berlin said, "they are very much within our grasp, and with some help there could be rowing at Kenyon this spring."

Berlin calls crew "one of the most exciting and prestigious sports." He said that while rowing is more predominant on the east and west coasts, there are several mid-western schools with active programs in crew, citing nearby Marietta College and the University of Wisconsin.

"It is also one of the oldest sports, going back as far as the Greeks, Romans, and even the Egyptians in 6000 B.C.," according to Berlin. He said that rowing spread to America from England in the 1830's and, with the advent of the Harvard-Yale race in 1852, "rowing became the first intercollegiate sport in the U.S., preceding football by 17 years."

This sort of enthusiasm has sparked a number of organizations that offer quite a range of activities for the Kenyon community. Though the college budget will not permit financial support for all these projects, Kenyon officials support the efforts of students to provide a wider variety of activities. The Kenyon College Boat Club would welcome the ideas, and even more tangible forms of support, from anyone interested.

Lectures and Concerts Meet Variety of Interests

Kenyon has had quite a variety of lectures and performances on its campus this year, in addition to the curricular and extracurricular programs noted on these pages.

As an example of the range of events available to students and residents of nearby communities, we list here a sample of programs taken from the January and February calendars.

Dr. Robert A. Bauer, new director of the Public Affairs Conference Center, spoke on "Truman to Nixon—Major American Foreign Policy Developments."

Dr. Jerome H. Holland, former U.S. Ambassador to Sweden, told of his experiences in the Foreign Service in his lecture titled, "As Others View Us." He came to Kenyon under the auspices of the Association of Episcopal Colleges.

Henry O. Brandon, director of the Washington Bureau of the London *Sunday Times*, gave his views on "The U.S. and the European Community—Allies or Competitors."

Morton Kaplan, University of Chicago political science professor, spoke on "The Changing Contours of American Foreign Policy."

The Student Lectureships Committee brought The Rev. Dr. Robert West, president of the Unitarian-Universalist Association which owns the Beacon Press in Boston. He told of the F.B.I. investigation of his organization following publication of the "Pentagon Papers" last year.

Derek Walcott, poet, playwright and theater director, lectured under the auspices of the cooperative Poetry Circuit program.

Student Lectureships sponsored Robert Penn Warren, Pulitzer Prize-winning poet and novelist, in a reading and commentary on his work.

Four faculty lectures were held in the two-month period. Prof. William V. Frame, political science, on "The Marxism of Mao-Tse-Tung;" Prof. Gordon Johnson, chemistry, a slide lecture on "The Pueblo Indians;" Prof. Alfred Wohlpert, biology, on "The Origin of Life by Natural Causes;" and William F. Klein, English, on "A Sense of the Heroic" in Anglo-Saxon and Icelandic poetry. There were also a number of open lectures sponsored by various academic departments.

Fine arts programs included a concert by the French String Trio,

FACULTY NEWS

Dr. Alan Batchelder, professor of economics, has completed a college textbook entitled, *International Economic Theory*, scheduled for printing by Grid Publishing Co. of Columbus in May.

* * * *

Timothy Bates, assistant professor of economics, has written an essay, "The Economic Origins of Political Power in America," which appears in a book recently published by Harper and Row entitled, *The Political Economy of Federal Power*.

* * * *

Dr. Robert A. Bauer, Director of Kenyon's Public Affairs Conference Center, recently gave a series of lectures on "American Foreign Policy in South Asia" at the Lyndon B. Johnson School for Public Affairs at the University of Texas.

Dr. Bauer also was elected to the School Board of Cairo American College in Egypt and President of its PTA.

* * * *

Professor Robert W. Daniel has been elected president of the College English Association of Ohio, an affiliate of the National Council of Teachers of English. Dr. Daniel, who is chairman of Kenyon's Department of English, also was named to the National Committee for the dedication of the James Agee Memorial Library in Saint Andrews, Tenn., honoring the late Pulitzer Prize winning novelist.

Dr. Daniel also serves as Director of the Poetry Circuit of Ohio which schedules campus appearance by nationally known poets for member colleges and universities.

* * * *

Martin J. Garhart, assistant professor of art, has been commissioned to produce two lithographs by Lakeside Studios of Lakeside, Mich., one of the most prestigious print studios in the country.

The prints will become part of the permanent collections of twenty-five museums and schools, including the Smithsonian, Library of Congress and Philadelphia Museum of Art.

* * * *

and lecture-recitals by tenor Mario Alch and by Dr. Shirley R. Wynne with the Ohio State Baroque Dance Ensemble.

Two creative projects by senior drama majors, Marc Donnenfeld directing Brecht's "The Measures Taken" and Colleen Kelley in her original production of Irish mythology, song, drama and poetry titled "A Terrible Beauty is Born," were presented during the period.

One program extending into March is a conference on "Human Sexuality," a series of three weekend sessions of lectures and discussions featuring both outside lecturers and Kenyon faculty members.

Dr. Edwin S. Harwood, associate professor of anthropology, wrote a book review for the Jan. 5 edition of the Wall Street Journal entitled, "On the Other-Worldliness of Intellectuals."

Dr. Harwood, who is chairman of Kenyon's newly created Department of Sociology and Anthropology, examined Edward Shils' work, *Intellectuals and the Powers & Other Essays*.

* * * *

Richard Hettlinger, professor of religion, had his article, "What Should Colleges Do About Sex," published in the November issue of *Sexual Behavior* magazine.

He also spoke Feb. 14 at a seminar on "Publishing for Sex Education" in New York which was sponsored by the Religious Book Publishing Division of the Association of American Publishers.

* * * *

Professor Robert H. Horwitz, chairman of Kenyon's Department of Political Science, has been elected to the Governing Council of the American Political Science Association for a two year term.

* * * *

Dr. Thomas C. Jegla, associate professor of Biology, delivered a paper at a meeting of the American Association for the Advancement of Science in Washington, D.C. last December entitled, "Development and Molting Physiology of Horseshoe Crab Larvae."

Jegla's latest scientific paper, "Effects of Ecdysone and Some Synthetic Analogs on Horseshoe Crab Larvae," appeared in the latest issue of the international journal of *General and Comparative Endocrinology*.

Both works were supported by a \$20,000 grant from the National Science Foundation.

* * * *

Dr. Paul Schwartz, professor of music, has been elected president of the Ohio Music Teachers Association.

An affiliate of the Music Teachers National Association, the Ohio group is the second largest state organization with more than 800 members.

* * * *

Frederick Turner, associate professor of English, gave a poetry reading of some of his original work Jan. 26 at Wabash College.

Turner also had published some original poetry by the Wesleyan University Press entitled, *Between Two Lines*.

* * * *

Dr. Jon L. Williams, assistant professor of psychology, recently completed a book entitled, *Operant Learning: Procedures for Changing Behavior*.

The book will be released by Brooks/Cole Publishing Co. in early March.

Gregg Cup Recipients Receive Certificates

Ten outstanding alumni were recognized, or perhaps we should say, re-recognized, during halftime ceremonies at the Alumni Day football game on October 14.

The ten are among the Gregg Cup recipients over the past 20 years who received framed certificates denoting their honor. The name of each winner had been engraved on the Gregg Cup which is kept at the College, but the Alumni Executive Committee decided that each recipient should have some tangible record of the honor.

Those present to receive the certificates at the game were Dr. John C. Drake '24 and H'65, of Mt. Vernon, O.; The Ven. Louis M. Brereton '34, B'38, H'55, of Cleveland; Dr. William G. Caples '30, H'61, President of Kenyon; Pierre H. McBride '18, H'58, Louisville, Ky.; David C. Cable '21, Solon, O.; Robert A. Bowman '16, Columbus, O.; William H. Thomas, Jr. '36, Kenyon

Alumni Director; Roger A. Houston '14, Dayton, O.; Fred Barry, Jr. '42, Mt. Vernon; and Randolph D. Bucey '50, Cleveland.

Other recipients unable to be present for the ceremony are: Robert A. Weaver '12, H'38, Cleveland, O.; Richard W. Brouse '11, Elma, N.Y.; R. Gale Evans '26, Cincinnati, O.; The Rt. Rev. John P. Craine '32, B'35, H'52, Indianapolis, Ind.; James A. Hughes '31, Chicago, Ill.; Donald C. Mell '21, Akron, O.; Robert H. Legg '39, New York, N.Y.; William R. Chadeayne '50, Columbus, O.; Robert J. Hovorka '25, Wilmette, Ill.; and Edgar G. Davis '53, Indianapolis, Ind.

The Gregg Cup has been awarded annually since 1934 to the alumnus who has done the most for Kenyon during the year. Last year Bill B. Ranny '50, of Cincinnati received the award, and was presented with his certificate, at the Alumni Weekend in June.

Above — Charles R. Leech, Jr. '52 and his family happily help themselves to the Alumni Day picnic lunch as David Thompson '74 supervises the food service. In the background several "tailgate" parties are in progress. At right, Pierre McBride '18 acknowledges the applause of the stadium crowd after receiving his certificate as a Gregg Cup winner from Jon Barsanti '58 and David Harbison '48.

ALUMNI NOTES

'15

Wallace H. King represented Kenyon at the inauguration of President Sprunger of Bluffton College on Oct. 27, 1972.

'16

Robert A. Bowman
1652 Guilford Rd.
Columbus, Ohio 43221

Clifton Loomis writes that he is enjoying his eighteenth year of retirement in the backwoods of Vermont.

'17

William Kerber, retired from his position as a vice-president of the National Steel Corporation, is a member of the Board of Directors and Executive Committee of the Humane Society of the United States.

'18

Carl R. Brick
10 Deepwood Blvd., #3
Mentor, Ohio 44060

Charles (Eckie) Clark reports that during a trip to Minneapolis this summer he had dinner with Mr. and Mrs. John Gregg. It was their first meeting in 56 years.

'19

Todd M. Fraizer
167 N.W. Salem Ave.
Port Charlotte, Fla. 33950

John L. Snook, president of the Service Corporation of Retired Executives, has been appointed to serve on the Camps Committee of the Cooperative Area Manpower Planning System. This organization is an attempt by the state of Florida to reduce unemployment by establishing channels of communication between employers and the unemployed.

Frederick P. Young reports that he has been spending his winters in Palm Beach and his summers in the Adirondacks. With fifteen grandchildren, he says his life is "brim full of activity the year round."

'21

David L. Cable
5826 Briarwood Lane
Solon, Ohio 44139

Rev. Almon R. Pepper has accepted an interim position as Deputy Director of the Episcopal Mission Society in the Diocese of New York. Rev. Pepper began his ministry in this diocese in 1924.

George I. Zollinger recently paid a visit to Arizona where he was the scorekeeper for the World Airlines Golf Tournament held at the Camelback Country Club.

'23

John P. Wolverton
2031 Temblehurst Dr.
South Euclid, Ohio 44121

Phillip T. Hummel, a charter member of the 40-year old, 4500 member American Institute of Interior Designers, has been awarded Life Membership in that organization. This honor recognizes his long service to the Institute, including a term on the National Board of Governors from 1967-1971. He remains active in business and the Institute. He has recently had two bouts with pneumonia and attributes his quick recoveries to his doctor, the wife of Howard C. Allen, (K'24), and his "hardihood from walking all those miles on the gravel of Middle Path."

Frederic C. Liepman is looking forward to his 50th class reunion next year.

'24

The Rev. Donald C. Ellwood
285 Ridge Road
Wethersfield, Conn. 06109

John C. Drake is the Director of Medical Affairs for Mercy Hospital in Mount Vernon, Ohio.

Donald C. Ellwood toured England, Scotland and Wales with the Anglican Heritage group this July. While in Oxford he visited several of the colleges and reports that "our church colleges in the United States yield in no way to style or perfection of architecture or beauty of campus."

The Rev. Canon Edward M. Wilson recently retired as Registrar and Historian of the Episcopal Diocese of Pittsburgh. The Diocese Convention honored him in a resolution expressing their "gratitude for his more than 45 years of devoted service to this Diocese in every aspect of its life."

'25

Theodore C. Diller
135 S. LaSalle
Chicago, Ill. 60603

Ed Hunting writes that after a recent trip to Russia and the Scandinavian countries he is "enjoying the freedom of the retired life."

'26

Richard B. Lyman
45 Eastern Promenade
Portland, Maine 04101

Charles Cramer has joined the faculty of the Division of Education at LaGrange College.

Calvin B. Furlong has resigned from Cuyahoga County Common Pleas Court and is now "as retired as a lawyer ever quite achieves."

Rudolph Kutler was honored recently at the celebration of the fiftieth anniversary of the Ohio State Stadium. He played for Ohio State on the day the stadium was dedicated.

Richard B. Lyman and Dan Braddock, accompanied by their wives, had a "joyous reunion" during alumni weekend this year. It was the first time that the two had met since their graduation.

R. Hardin McCoy has retired as an Insurance Executive. He writes that two of his sons have also become Insurance Executives, and the third is a doctor at the Mayo Clinic.

Dan Sanborn has been appointed Chairman of the Research, Development and Special Projects Committee of the Texas Tourist Development Board. He says he has also "been commissioned an Admiral — ahem! — in the Texas Navy."

'27

J. Thomas Grace
1500 Carew Tower
Cincinnati, Ohio 45202

Dave Braddock has retired as Vice President of the Harris Trust and Savings Bank.

Graham Walton is enjoying his retirement. His activities include travel, and a limited amount of consulting to maintain professional interest.

'28

D. Morgan Smith
3541 Northwest Parkway
Dallas, Texas 75225

D. Eugene Stamm retired from his position with the Allied Chemical Corporation after 37 years of service.

'29

Thomas H. Sheldon
2118 N.E. 58th St.
Fort Lauderdale, Fla. 33308

Bob Baxter, Ed Southworth and Joe Scherr enjoyed the alumni weekend this year and reports that "we all liked what we saw."

Mori Kawasaki of Tokoyo visited Kenyon during October.

'30

R. Wells Simmons
1630 Sheridan Rd.
Wilmette, Ill. 60091

Joseph C. Davis retired from the National Bureau of Standards in 1969, where he was a member of the Building Research Division. He is now active as a free-lance writer, with a column in the "Washington Post" on the enjoyment

JOB LINE

Rare Book Librarian at Eastern University (Kenyon '62) seeking new position in rare-books, English bibliography, humanities ref., or in publishing, editorial or promotional work. Professional experience as proof-reader, book-reviewer. M.L.S., five years experience; six graduate courses in English. Write: 388 Benefit St., Providence, R.I. 02903.

KENYON

and repairing of the home. He is presently writing a book on this subject.

Bill McCabe of Columbus visited Kenyon during October.

D. Bruce Mansfield, president of Ohio Edison Co. was the featured speaker at the kickoff dinner for the United Fund Campaign of Western Stark County.

'31 James A. Hughes
415 Washington Ave.
Wilmette, Ill. 60091

The Rev. Canon Donald G. L. Henning represented Kenyon at the inauguration of Dr. Paul Hardin as President of Southern Methodist University.

Donald Sattler has been appointed supervisor of Student Teachers at Findley High School, which operates as a student teacher center for Bowling Green State University.

'33 James Newcomer
Vice Chancellor for
Academic Affairs
Texas Christian University
Fort Worth, Texas 76129

Wharton F. Keppler has been recognized as a Certified Reliability Engineer.

Lester G. Wood was honored by the Cheektowaga Horticultural Society in the form of a plaque to be permanently mounted in the membership clubhouse.

'36 Robert P. Doepke
1228 Edwards Rd.
Cincinnati, Ohio 45208

Dr. Allen F. Murphy has joined the Bloomsburg State College faculty in Bloomsburg, Pa.

Joseph Pavlovich recently received strong commendation for his co-authored text entitled "Computer Programming in Basic."

Doug Stewart will leave March 1 for a 6-month Sabbatical leave in Europe, to study photographic education in Europe and exchange information with European photographic colleagues.

William P. Yoke was one of three recipients of a \$500 Duke University Alumni Award for Distinguished Undergraduate Teaching.

'54 Ronald A. Petti
78 Ski Hill Rd.
Box 379
Ogden Dunes
Portage, Indiana 46368

John F. Barton, diplomatic correspondent for UPI, has been elected secretary-treasurer of the 425 member State Department Correspondents Assoc. He has served as UPI manager in India and Pakistan for five years and a UPI editor in Japan for 2 years.

Ronald A. Petti has been elected the first President of "Lake Area United Way," a new organization uniting the united funds and community list of northwest Indiana.

'55 James A. Hughes, Jr.
300 N. State St.
Apt. 4212
Chicago, Ill. 60610

Dr. Philip Bentley has opened an office in Mansfield, Ohio for the practice of ophthalmology.

'56 Perry Pascarella
29701 Wolf Road
Bay Village, Ohio 44140

Philip R. Currier has been promoted to Vice President-Marketing for Hanes Hosiery, Inc., an operating unit of Hanes Corporation.

'57 J. Thomas Rouland
Executive Director
The Federal Bar Association
1815 H. Street, N.W.
Washington, D.C. 20006

Richard Arkless, M.D., is practicing Radiology at a Portland Oregon hospital.

Rev. Father **John Fleser** presently is the priest for St. Elijah's and St. John, the Baptist's Orthodox churches in Manitoba, Canada.

Donald A. Fischman, M.D., is now associate professor at the University of Chicago. In 1970 he accepted the additional position of associate dean for curriculum in the Division of the Biological Sciences and the Pritzker School of Medicine.

Dale C. Havre, M.D., has been appointed Senior Clinical Instructor in Ophthalmology at Case Western Reserve University School of Medicine and assistant surgeon at University Hospitals of Cleveland. He also has his own private practice in Willoughby, O.

'58 Robert S. Price
1034 W. Upsal St.
Philadelphia, Pa. 19119

Ronald F. Bennington has recently been appointed on the Plain Township Board of Trustees in Canton. He is also chairman of the Canton Chapter of the American Red Cross and an elder at Christ United Presbyterian Church.

The Rev. **Keith A. Brown** has been chosen as the new senior pastor of the First Presbyterian Church of Bethlehem, Pa.

Stanley G. Fullwood has been appointed secretary in the Government Affairs and Law Division of the Casualty-Property Department at The Travelers Insurance Companies in Hartford, Conn.

Paul F. Hill has been named to the post of head librarian at the Ohio Historical Center in Columbus, O.

Robert A. Holstein is currently a partner in a law firm of Fohrman, Lurie, Holstein, Sklar & Cottle in Chicago.

J. Eric May is directing project 400 which is an interesting presentation of North American exploration with emphasis on geography, in Mendenhall, Pa., just north of Wilmington, Del. May narrates this two hour walking tour. He said, "The public and particularly Kenyon alumni are welcome."

Appalachian Folkways Explored in Festival of Music, Art, and Crafts

Mike Seeger (above, with mandolin) leads a workshop session on folk music, punctuating his explanations with demonstrations of various instruments and joining other musicians, including students, in playing and singing well-known folk tunes. Jo Rice (at left) demonstrates her spinning wheel in the craft demonstration-exhibition of which she was a principal organizer. The Nicholas Family (at right), played and sang authentic folk music of the Appalachias in their Rosse Hall concert. General Custer Nicholas (center) accompanied by his two sons, sang and alternated on fiddle, banjo, guitar and dulcimer.

"Appalachian Folkways" were explored in a three-day festival which focused on the contributions the Appalachian region has made to American culture.

Highlighting the event were several bluegrass and folk musicians and groups including Larry Sparks and the Lonesome Ramblers, Varnon Campbell and the Hot Mud, The Nicholas Family, Sam Bowles, and Mike Seeger.

Considered one of the foremost scholars of folk music, Seeger led a Saturday workshop in Gund Commons prior to his evening concert in Rosse Hall. In the informal workshop he and the other musicians explained and demonstrated, and invited the amateurs to join in the

picking and singing.

Also present was Professor Richard Dorson, director of the Folklore Institute of the University of Indiana, who spoke on the origins of many of the customs and music of the mountain people.

The festival concluded with an exhibition and demonstration of various crafts techniques such as pottery, candlemaking, leathercraft, sewing, and weaving.

The program was the brainchild of Professor Robert Cantwell and Peter Rutkoff who organized the event and won the support of the College Lectureships Committee which sponsored the festival. The entire program was open to the public without charge.

Alumni Seminar Plans Set

Kenyon will host its second annual Alumni Seminar June 1-2 as part of Reunion Weekend activities.

The seminar, entitled "The Power of the Past," will focus on the influence of the past on the present and examine man's ability to use or transcend his history.

Conceived by the Alumni Council and planned with the help of the Kenyon faculty, the program was established last year to provide the alumni an experience in continuing education.

James C. Niederman '46 is again serving as chairman of the Seminar Committee with the Rev. Walter H. Taylor '60 as vice chairman.

The program has been structured around four major introductory lectures and a special showing of Ingmar Bergman's film, "Shame."

Reed Browning, associate professor of history, will open the seminar on Friday at 11 a.m. with a discussion on "History and Destiny." He will examine what man can learn from his most explosive efforts to repudiate the past — the great modern revolutions.

Stanley H. Anderson, assistant

professor of biology, will follow with a lecture entitled, "Tradition, The Product of Evolution," at 2 p.m. Anderson will attempt to prove that tradition is the result of the same evolutionary process that produced man.

Cyrus Banning, associate professor of philosophy, will speak to the question, "Is Man Free," in the next lecture. Banning will examine whether man can choose what he is going to do, or if his future is determined by his past.

Ingmar Bergman's "Shame," will be shown Friday evening at 8 p.m. with a lecture by Michael O'Brien '68, Assistant Professor of Art, scheduled the following morning at 11.

Both the film and the lecture will deal with the question of free will versus determinism. The lecture will consider these themes as they relate to Bergman's work and also their relation to an artist in creating any "work of art."

The Alumni will receive detailed information on the seminar later this month. Others interested in attending the seminar should contact: William H. Thomas, Director of Alumni Affairs, Kenyon College.

Women's Athletic Program Expanded By New Coach

Kenyon's Department of Athletics will field four varsity teams for women this year with a number of other sports teams operating on a club basis.

The women played a six-game schedule in field hockey this fall, compiling a 1-5-1 season record.

The department also has plans to organize teams in basketball, lacrosse and tennis, and to initiate its first comprehensive intramural and club sports program for women.

Miss Karen Burke, newly appointed assistant director of women's physical education and athletics, will coach the varsity sports teams and coordinate the intramural and club sports programs.

Miss Burke has an excellent background both as a player and coach. She earned her bachelor of science degree from East Stroudsburg State College and lettered three years in field hockey, lacrosse and swimming.

She played goalie for the United States Women's Lacrosse Team which toured Great Britain and Ireland in 1964 and Australia, New

Zealand and some of the Far East countries in 1969. The squad is the equivalent of the men's All America Lacrosse Team.

Last February Kenyon's Board of Trustees voted to drop the separate designation for the associated Co-ordinate College for Women, creating a single, coeducational college. The Trustees also appointed a committee to study the implications of coeducation, especially in the area of student life. The committee's report outlined several specific recommendations, including the need for increased opportunities for women in the athletic program.

Commenting on the new appointment, Director of Athletics Philip J. Morse said, "The goal of our athletic program is to provide athletics for all our students. Miss Burke will help us expand our women's program to provide the opportunities for athletic participation to all who desire it."

Miss Burke comes to Kenyon from New Jersey where she was a teacher and coach in the Edison Township School System.

Undefeated Lords Compile Best Football Record

The Kenyon College football team finished with a 7-0-1 season mark to record its first unbeaten season since 1950 and the best record in the college's history.

The Lords combined an explosive offense and an opportunistic defense to outscore their opponents 187-69. Kenyon had the best scoring defense in the Ohio Conference (OAC) and ranked 12th in the nation among college division teams.

Senior quarterback Dan Handel completed 99 of 183 passes (53%), good for 1,342 yards and 12 touchdowns. He finished third in the OAC in passing and total offense, and was chosen to play in the first annual All-Ohio Shrine Bowl at Ohio State Stadium in Columbus.

Sophomore fullback Joe Szmania gained 787 yards on 169 carries, good for a 4.6 average and fourth place among OAC rushing leaders. He also finished third in the conference in scoring with 8 touchdowns and 48 points.

Senior tight end Mike Duffy was right behind with 36 points on six touchdowns. Duffy also caught 35 passes and finished second in the OAC pass receiving race. Senior wingback Tom Samstag led the conference in punt returns with a 9.5 average on 13 returns.

Led by seniors Charlie Contrada, Jim Musbach, Pete Schneeberger and Matt Valencic, the Kenyon defense recovered 17 fumbles and intercepted 11 passes to set up numerous scoring opportunities. Junior defensive back Kent McDonald led the Lords in interceptions with three, including one he returned 51 yards.

The defense posted shutouts against Case-Western Reserve (42-0) and Centre College (34-0) in the season finale. High point of the season for the defense came with a last second goal line stand to preserve a 10-7 victory over Wilmington.

An improved kicking game also was a key factor in the Lord's season, according to Head Coach Phil Morse.

Freshman soccer style kicker Giovanni DiLalla booted game-winning field goals against Otterbein (17-14) and Wilmington (10-7) and added another against Wooster (16-9).

The Lords also posted victories over Ohio Conference foes Mount Union (21-12) and Oberlin (34-14).

Only a 13-13 tie with Washington & Jefferson marred an otherwise perfect slate. The Lords needed, and got, a 57-yard pass from Handel to Samstag as time ran out to gain the tie and preserve the undefeated season.

SPORTS

Soccer Has Even Season

Kenyon College placed three players on the All-Ohio Conference soccer team after compiling a 4-4-2 mark.

Senior fullback Mike Miller (Milwaukee, Wisc.) and junior forward Stu Peck (Shaker Heights, O.) made the second team, while sophomore forward Dave Newell (Shaker Heights, O.) made honorable mention.

Both Newell and Peck scored four goals this season, while Miller played outstanding defense. Peck was named the team's most valuable player by a vote of his teammates and coaches.

Senior co-captain Jim Hodge (Boca Raton, Fla.) also came in for his share of post-season honors. Hodge won Kenyon's Kearney Award for best expressing "the attitudes and ideals of sportsmanship in his performance on and off the field." He was also chosen to play in Ohio's third annual North-South All Star Soccer Game, which featured players from both university and college division teams in the state.

One-point losses to Denison (2-1) and Oberlin (1-0) cost the Lords a winning season.

Quarterback Dan Handel uncorks a short pass to tight end Mike Duffy (84) who seems wide open on the play. Others in the picture include Joe Szmania (34), George Letts (22), George Guzauskas (60) and Frank Snow (56).

The Lord booters, coached by Jim Zak, posted shutouts over Heidelberg (5-0) and Capital (6-0) among their four wins.

Field Hockey Needed 3 To Win

Three one point losses cost the Kenyon College field hockey team a winning season.

But with virtually the entire squad returning, Head Coach Karen Burke is optimistic about improving its 1-5-1 record next year.

Miss Burke will have back leading scorers Cindy Merritt, Ginny Buerrman and Robin Smith, who scored four, three and two goals respectively. Others who scored and will return include Kim Mayhew, Sue Palmquist, Liz Parker and Jane MacIntyre.

Leading players back from the defense that helped the team to its 7-0 victory over Bowling Green and the 2-2 tie with Lorain Community College are fullbacks Buffy Fisher and Mary Kay Karzas and goalie Meg Merkens.

Kenyon's one point losses were to Denison (1-0), Wooster (2-1) and Otterbein (2-1). The women also lost to Muskingum (4-2) and Oberlin (3-0).

Swimmers Go For National

The Kenyon College swimming team had some added incentive as it readied itself for the Ohio Conference championship meet March 1-3 at Oberlin College.

The Lords discovered they would tie the national record for consecutive conference championships held by Yale of the Ivy League if they could capture number 20 this year.

Previous information indicated the record was 21, but Yale athletic officials searched their records and found the mark to be 20, set from 1916-35 in the old Intercollegiate Swimming Association.

A spokesman at the National Collegiate Athletic Association (NCAA) office in Kansas City confirmed the record would be for all NCAA affiliated conferences.

Kenyon's chief obstacles were arch-rivals Denison and Oberlin. Denison has been runner-up to Kenyon the past few years, while Oberlin has greatly improved and went through their first eight dual meets this year undefeated.

The Lords pinned their hopes on eight returning All Americans, including junior Rich James, national champion and current record holder in the 200 yard backstroke.

The Lords began their current victory skein in 1954.

Class of '22 Photo Identified

Following the publication of the reunion photos in the July *Bulletin*, T. A. Eggert wrote to the editor expressing regret that the photo of the 50th Reunion Class was not identified. He has provided the identifications for the photo, which we reprint below and promise to identify all such group photos in the future.

The Class of '22 at its 50th Reunion — First row, Mrs. Niswender, Mrs. Eggert, Mrs. Jenkins, Mrs. Harvey. Second row, Dana Niswender, Rev. John Cummings, Rev. Benson Harvey. Back row, Thomas Eggert, Malcolm Adams, Foster Harris, Earle Jenkins. Not present for the picture but in Gambier for the reunion was Arthur Billow.

The Rev. **Jess E. Taylor** represented Kenyon College at the Inaugural Symposium & Service of The Very Rev. **Armen Diran Jorjorian, D.D.**, as President & Dean of Seabury-Western Theological Seminary.

'59 **Hugh S. Gage**
6604 Greyswood Rd.
Bethesda, Maryland

Kemp Fuller, Jr. has been appointed Executive Vice President of Delafield Childs, Inc. The firm, which was formed in 1971, specializes in investment research and corporate development. He is also a member of the New York Stock Exchange, Inc.

Joel F. Holmes, Jr., after 12 years with Equitable Life Insurance Society of the U.S. in administration management field, has joined Manufactures Life Insurance Company as a life underwriter. He will be working the state of New Jersey.

Ralph G. Kennedy III is presently manager of Consumer Products for Penn Central Transportation Co. in Philadelphia. He and his wife Kathy recently returned from a 10 day trip to Waihi Beach, Oahu, Hawaii.

Chauncey D. Leake is busy teaching at the University of California and is getting out a book on "What Are We Living For?"

L. R. Los, Lieutenant Commander, U.S. Navy, is the Operations Advisor to the Imperial Iranian Navy in Tehran, Iran. LCDR Los will remain in Iran for another year before returning with his family to the U.S.A.

'60 The Rev. **Richard S. Kerr**
2598 Williams
Denver, Colorado 80205

Daniel T. Cobb recently was named managing editor of the Star-News newspaper in Wilmington, North Carolina.

Robert B. Palmer, Librarian on leave from Barnard College, has been reassigned to the U.S. Foundation in Kathmandu, Nepal. As a Fulbright grantee, he will be teaching at the University and training library staff in the Kathmandu Valley.

William S. Reed has been named Director of the Office of Personnel Services at Princeton University.

Russell E. Van Hooser has been elected president of the National Association of Insurance Commissioners. He previously served as vice president and chairman of the executive committee of NAIC.

Robert J. Wallner has been appointed to the staff and faculty of the Department of Nuclear Medicine of Hahnemann Medical College and Hospital in Philadelphia, Pa.

'61 **Norman R. Hane**
741 35th Street
Des Moines, Iowa 50312

Joseph D. Babb, M.D., has been named assistant professor of medicine in the Division of Cardiology at the Milton S. Hershey Medical Center of The Pennsylvania State University.

John C. Clark is presently employed by Turning Machine Division, Cleveland, as a Field Engineer (sales) for machine tools.

J. Thomas Hall is presently employed by the office of Occupational Safety and Health Statistics of the Bureau of Labor Statistics in Washington, D.C. as an economist. He has a 15 month old baby.

Dan Holland, assistant professor of history and political science at The Defiance College, received his Ph.D. degree in International Relations from The American University, Washington, D.C.

Robert J. Knott, Jr., was married on Dec. 2 to Miss Caroline Small Campbell. He is currently a trust officer with the Bank of New York.

LCDR R. T. Riker has been reassigned to the staff of Carrier Division Two, which will be homeported in Athens, Greece.

Ned Van Riper and his wife Barbara are pleased to announce the birth of their son, Edward John, on Oct. 10, 1972, in The Hague, the Netherlands.

'62 **Peter H. Glaubitz**
2927 Griest
Cincinnati, Ohio 45208

Dr. Merrill H. Bronstein, chief surgical resident, will serve as president of Temple Hospital's Interns and Residents Association in Philadelphia, Pa.

Stewart D. Brown has been appointed product sales manager in the Urethane Chemicals Group of the Designed Products Department of Dow Chemical Co., Midland, Mich.

Patrick R. Edwards has been elected by the board of directors of Allied Stores, as assistant secretary. He continues as assistant to the President of Allied.

David W. Hutzelman, wife Becky and daughter Laura Beth have returned to their home in Houston, Texas, after a two year assignment in NYC. Hutzelman is a Vice President with Analytical Computer Services, Inc.

U.S. Air Force Captain **Jonathan S. Katz** has assumed command of the 1908th Communications Squadron at England AFB, La. Captain Katz's unit is a part of the Air Force Communications Service which provides global communications in air traffic control for the USAF.

John R. Knepper is head soccer coach at Shady Side Academy. He reports "The team went undefeated 11-0-3, first time since 1957. Am contemplating an early retirement!"

Edward Kropa is the Registrar of Iowa Wesleyan College, Mt. Pleasant, Iowa. Prior to that time he was director of Financial Aid, a title he retains.

Rev. **Donald H. Langlois** resigned as vicar of the Church of the Redeemer. He announced he will begin studies for a masters degree in Library Science at Queen's College in Flushing, N.Y.

James J. McLain reports that he and his family have moved from Pittsburgh to New Orleans where he has accepted a position as assistant professor of Economics and Finance at Louisiana State University.

John Oliver III was married Oct. 21 in NYC to Ms. Judith Jane Johnson. He is director of land operations of the Western Pennsylvania Conservancy.

Howard Polish presently holds a Fellowship in Hematology at the University of Miami in Florida.

Mason C. Rose has been elected vice president of Irving Trust Company,

NYC. He is a contact and lending officer in the bank's Park Avenue branch office.

Richard A. Rubin was director of operations for the National Voter Registration Drive in the McGovern for President campaign.

William P. Russell announces the birth of his third daughter, Ellen Pauline, born August 9, 1972.

Tom Shroyer, for the past three years, has been an Assistant Professor of English Education at the University of Minnesota. He has just purchased a fishing and hunting resort in Ontario, Canada and plans to make it his permanent home as of April, 1973.

U.S. Air Force Major **Geoffrey W. White, M.D.**, has arrived for duty at Clark AB, Philippines where he is assigned at the USAF hospital.

'63 **Calvin S. Frost**
433 N. Drexel Ave.
Columbus, Ohio 43209

Air Force Captain **Lester D. Alford** has returned from Germany and is stationed for duty at Nellis AFB in Nevada.

Captain **Alan W. Beck** has been selected for a year of Education with Industry sponsored by the Air Force Institute of Technology. He will study at a major aerospace corporation and then be assigned duties in procurement.

Nevin S. Camp has been appointed as manager of sales training at The Firestone Tire and Rubber Company in Akron, Ohio.

John L. Laughlin has been appointed director of planning and analysis for the Wasau Paper Mills Co. of Brokaw, Wisconsin.

Neal Mayer proudly announces the birth of their third child, Rebecca Ann, on July 31, 1972.

Patrick A. McGraw has become a partner in the law firm of Fuller, Henry, Hodge and Snyder. He has been with the firm a number of years and he was admitted to the Ohio bar in 1966.

Patrick K. Robbins is presently with a French Glass Company specializing in high quality industrial glass. He says, "We are living in an old house on the western outskirts of Paris where in the evenings we enjoy the good wine in a continual effort to beat back the inroads made by Hodgson's Cokes" (referring to Hutch Hodgson '61, who is with Coca Cola.)

Robert H. Scott and wife Sandy announce the birth of their first child, Paige.

David R. Shevitz has recently become a partner in the Chicago law firm of Pope, Ballard, Shepard & Fowle. He has been associated with the firm since his graduation from law school.

Thomas M. Taylor has been promoted from director of marketing to vice-president of the Meadville Bank Division in Meadville, Pa. He will continue to supervise the bank's marketing activities.

Wells W. Wagner announces his engagement to Miss Mary Nye Churchill of Wisconsin. A March wedding is planned.

'64 **John J. Camper**
1214 S. 7th St.
Apt. B
Springfield, Ill. 62704

Army Captain **Stephen S. Davis** recently completed a 23-week army medical department officer career course at the U.S. Army Medical Field Service School, at Ft. Sam Houston, Texas.

Stephen B. Goldenberg was elected to the Brookline Democratic Town Committee, and in addition, was appointed to the Brookline Rent Control Board. He is also a partner in the law firm of Israel & Goldenberg in Boston, Mass.

Lt. John B. Hattendorf has been assigned to the staff of the Naval War College in Newport, R.I. where he is studying naval history.

Edward T. Ordman has been awarded a Fulbright Fellowship for mathematical research in Australia during 1973. He will be at the University of New South Wales, Sydney, accompanied by his wife, the former Hinda Pressman of Louisville, Ky.

Dr. Edward L. Piepho has been promoted from instructor to assistant professor of English at Sweet Briar College.

John C. Scott has been traveling for Maryland National Bank (Baltimore) in Canada and Latin America as an officer in the International Division.

Captain **William A. Shira, III**, returned to the United States from 2 years in Ankara, Turkey. He is presently stationed at Wright-Patterson Air Force Base as a legal officer.

The Rev. **William Stickle** has resigned as rector of Our Saviour Episcopal Church to return from the active ministry to New Hampshire, where he will make his permanent home.

John Waterston is working as a management training consultant with Coverdale Training Ltd. in London. "We design and run courses to enable managers, government officials, teachers, etc. to improve their skill in working with others." On the side, he is a film reviewer and participant in a live satirical weekend review on BBC Radio, Oxford.

'65 **William S. Hamilton**
2051 Courtland Ave.
Norwood, Ohio 45212

William G. Cirincione was named supervisor of employment at W. R. Grace & Co. He will have the responsibility for the recruitment of middle management and for the college relations program.

KENYON

William S. Hamilton has been named Executive Director of the Charter Committee of Cincinnati and Hamilton County.

Walter W. Heller, Hon. '65, professor of economics at the University of Minnesota, is president-elect of the American Economics Association.

James McGill has accepted a position with NCR Computer Division in marketing as Account Manager for Medical-Education and Governmental accounts in Washington, D.C. He has two children (one of each) and one wife.

James L. Miller is currently teaching German and history at Alice Lloyd College.

William H. Webster is finishing his M.F.A. in Cinema at the University of Southern California. He was director of photography for the multi-media stage performance of The Who's rock opera, "Tommy," which ran for 12 weeks at the Aquarius Theater in Hollywood.

Henry B. Wessel, M.D. completed residency training in Pediatrics at Children's Hospital of Pittsburgh in June 1972 and is now on active duty with the USAF Medical Corps at Lockbourne AFB, Columbus, O.

'66 John C. Rohrer
533 Crofton Ave.
Oakland, Calif. 94610

Dr. Peter S. Carlson has recently made a major scientific breakthrough in the field of genetic plant reproduction by successfully fusing genetic cells from two different species into new cells containing an entirely new set of genetic characteristics.

Bob Cook married **Betty Macon** of Akron, O. in Eugene, Ore. this past April. They are living in Hawaii where Bob is Chief of Radar Evaluation and Siting for the Pacific Air Forces. He is still a captain in the Air Force.

Eugene S. Kleiner is between jobs now, after teaching off and on for 6 years. He reports, "am beginning to eye business in hopes of finding a job where I can make a half-decent living; however, I shall always love teaching."

Dr. James C. Kropa and his wife Jean announce the birth of a daughter, Katrina Irene, on June 22, 1972. Jim is coordinator of the Mathematics Department of Judson College in Alabama.

David A. McKellar presently is assistant vice president of the Security Title Insurance Co. in Los Angeles, Calif.

Michael K. Herbert has been named Associate Editor of Century Publishing Company which continues its growth and expansion in the specialty sports magazine field.

Peter Hewitt graduate in June, 1972 from Boston University Law School and joined the firm of Cummings and Lockwood in their Stamford office.

Kenneth R. Klug has become a tax consultant with Whitehill Consulting Services of New York City.

Robert A. Legg has been promoted to District Sales Manager for Anheuser Busch, Inc. based in Wichita. He reports, "Have met Dr. Robert Purves, '39, so at least there's one person here who's heard of the Lords!"

Gene E. Little was married Aug. 5, 1972 to Sally Smith in Shaker Heights, O. He holds a position of manager of sales planning for the Timken Co. of Canton, Ohio.

Fred McGavran graduated from Harvard Law School last June and was admitted to the Ohio bar in November. He is associated with the Cincinnati firm of Kyte, Conlan, Wuslin and Vogeler.

Richard Passoth is working for the United Presbyterian Church in the USA around the Appalachian region of Southern Ohio. He coordinates a health education and medical screening program in low-income-rural communities.

William P. Rice has been appointed assistant vice-president of Endowments Management and Research Corp. in June of '72 (EMR manages half of Kenyon's endowment fund).

John C. Rohrer, following a 5 month sales training and experience program in Chicago, has returned to The Clorox Company's main office in Oakland, Calif. He has been promoted to assistant Brand Manager and is now working with new products developed for the Household Products Division.

Ed Telling is attorney at law with Williams, McCarthy, Kinley, Rudy, and Picha in Rockford, Ill.

Peter A. White accepted a position with the law firm of Hogan and Hartson in Washington, D.C.

Dr. and Mrs. Z. Nicholas Zakov proudly announce the birth of their first born, Nicholas George on Sept. 28 at Minot, N.D. The Zakov's will be moving to Cleveland in July '73 where Nick will start ophthalmology residency at the Cleveland Clinic.

'67 Lee P. Van Voris
3107 Newton St.
Apt. 64
Torrance, Calif. 90505

Ted Arnold is currently teaching Chemistry and Earth Science at Cleveland Heights High School.

Rick Correll is working as a Porsche mechanic in Reno. He is also in the midst of restoring several old buildings, a house and a miner's boarding house on the Comstock Lode in Virginia City, Nevada.

David Fey is an instructor pilot in the 18th Military Airlift Squadron at McGuire AFB, N.J. He participated in "Deepfreeze 73," airlift to Antarctica from Christchurch, New Zealand.

Larry Gall, after a 3 year interruption (Army Intelligence, Okinawa) has returned to Harvard and is working on his Ph.D.

Douglas V. Johnson has been elected editor of the "Denver Law Journal." The journal is the law review of the University of Denver College of Law where he is in his second year.

R. L. Reynolds has accepted a position with the Washington, D.C. law firm of Steptoe and Johnson.

Lewis D. Rich has been named manager of the Montgomery Ward combined catalogue store and auto service center in Oneida, New York.

Joel E. Rothermel is serving two years active duty in the Navy Medical Corps, having completed his residency in orthopedic surgery at Columbia-Presbyterian Medical Center in NYC. He writes "Best regards to all old friends in Gambier."

Alan W. Ryan is presently employed by Metropolitan Life Insurance Co. in an actuarial training program. While he was in Germany, Kevin James, a second son, was born.

Dr. Bill S. Schnall announces his engagement to Miss Jan Gross with a spring wedding planned. He has completed his first year of residency in Pediatrics at the University of Washington.

Michael E. Smith joined First Piedmont Mortgage Co. as a mortgage loan officer. He was formerly with Wright-Patterson Air Force Base in Dayton as a special services officer.

Joseph E. Simon is in his third year of medical school at Case-Western Reserve University in Cleveland.

Barry Utsumi is presently in law school at the University of Calif. at Davis.

Lee P. Van Voris married Ann R. Toomey of Syracuse, N.Y. August 12, 1972. He is a resident in internal medicine at Los Angeles Harbor General Hospital in Torrance, Calif.

'68 Howard B. Edelstein
925 Superior Bldg.
Cleveland, Ohio 44114

Andy Bowman is a Marketing Representative with IBM in Flint, Mich. He and his wife Mary announce the birth of a new son, Andrew.

John Carman is now a staff writer for The Minneapolis Star.

Howard B. Edelstein has been elected to the Board of Directors of the Cleveland Association of Life Underwriters. He is a special Agent with the Northwestern Mutual Life Insurance Co. of Milwaukee.

Mark S. Geston is presently practicing law in Boise, Idaho. He has also recently had published his third novel, "The Day Star."

John Greller and his wife Jane are the proud parents of a 8 lb. 13 oz. boy born in Haines, Alaska in April of '72.

Geoff Hackman is on an American Institute of Indian Studies Fellowship in New Delhi. His study of Hindi is an integral part of his doctoral program in South Asian Linguistics at the University of Illinois.

Stephen Honig has received his M.D. degree from the University of Tennessee Medical Unit. He plans to intern at St. Vincent's Hospital in New York City.

Jeff Jones announces he was married Sept. 15 to Felicia Romand from Vermont. Jeff Kelly, Jeff Enck, Denzil Hollingsworth, Bill Northway and Bob Weaver, all from Kenyon, attended the wedding.

Chuck Kenrick received his J.D. degree from Duquesne University School of Law. He will begin work with the law firm of Dickie, McCamey, Chilcote in Pittsburgh after taking the Pa. bar exam. While he was Article Editor of the Duquesne Law Review, he helped publish an article by Prof. Harry Clor entitled "Science, Eros and the Law: A Critique of the Obscenity Commission Report." Clor is with Kenyon's Political Science Department.

Charles D. Maurer is now a captain in the US Air Force and serving on the faculty of the Wilford Hall Medical Center, San Antonio, Texas, a medical training facility for the Air Force. He has received his Ph.D. in Clinical Psychology from Kent State University.

William M. Northway received his D.D.S. at the University of Michigan and is presently studying for his M.S. in Orthodontics at the University of Montreal.

Jack Saum has been promoted to manager of International Harvester's Alexandria, truck branch in Alexandria, Va.

Mark E. Sullivan is serving at Fort Bragg as a JAG officer for the 18th Airborne Corps.

Clifford M. Terry received his M.D. from the University of Southern Calif. and is doing his internship at Los Angeles County-USC Medical Center.

David B. Wallace is presently serving as a navigator aboard the guided missile frigate USS Leahy (DLG-16) homeported in Norfolk, Va.

'69 Edward E. Shook, Jr.
443 N. 26th St.
Louisville, Ky. 40217

Kenneth R. Abraham graduated from the Dickinson School of Law last June.

Joseph Bainton will finish Rutgers Law in June, 1973. He has accepted an associateship with the firm of Burke & Burke in New York City.

Malcome L. Burdine was admitted to practice before the bar of the Supreme Judicial Court of the Commonwealth of Mass. in Dec., 1972; and will be admitted to the Federal Bar for the District of Mass. in Jan. 1973.

Thomas Caceci has been promoted to staff sergeant in the U.S. Air Force. He is an aerial motion picture photographer at Andrews AFB, Md. and serves with a unit of the Military Airlift Command which provides global airlift for U.S. military forces.

Thomas R. Callihan has been selected for membership in Alpha Omega Alpha, National Medical Honor Society at George Washington University, Washington D.C. He was one of 6 students in his senior class receiving this honor.

Robert Gladstone graduated from Duke Law School.

Barry Goode has graduated from Harvard Law School and is working for Senator Adlai Stevenson III (D-Ill.) as a Legislative Assistant in Washington, D.C.

David Houghtlin is presently working as a mortgage loan officer for Ohio Savings Association in Cleveland.

Stephan Landsman received his J.D. degree from Harvard in June, 1972.

Charles Lantz was married to Jacqueline C. Lekisch of NYC on Dec. 28, 1972. He is a trial lawyer with the criminal division of the Legal Aid Society of the City of New York.

Peter C. Lathrop moved to Denver, Colorado and is now assistant director of Advertising and Public Relations for Samsonite Corporation.

Robert Nevin is starting classes at Columbia University Graduate School of Business after 2½ years active duty aboard the USS LAWRENCE, initially as Gunnery Officer and Combat Information Center Officer.

Bruce Robinson won the VW "Name the Bug" contest. The award included a VW Super Beetle and a 3 week expense paid trip through Europe.

Gregory D. Seeley has been awarded his J.D. degree from the Washington College of Law of the American University, Washington, D.C. He is residing in Columbus with his wife and 10 month old son, Matthew Kenyon.

Edward E. Shook, Jr. is presently the 4th grade Team Leader at Roosevelt Elementary School. This inner-city Louisville school is participating in a federally-funded innovative and experimental team teaching project.

Jeff Spence is in his first year with Seattle Legal Services. He is with the program as a VISTA attorney.

Tom Ulrich is still at Loring AFB in Northern Maine, as a personnel officer.

Larry Witner is currently attending Akron University Law School. While Larry was stationed at Ft. Sam Houston, he lived near Keith Bell ('70) and Jeff Zoller ('69).

Alexander G. Yearly is in his last year with the Air Force and is still stationed at Cape Cod, North Truro AFB.

First Lieutenant **Jeffrey W. Zoller** has been graduated at Sheppard AFB, Texas, from the U.S. Air Force management analysis officer course conducted by the Air Training Command. He is being assigned now to Randolph AFB, Texas, for duty with the 12th Flying Wing.

'70 Edward R. Pope III
819 East 95th St.
Cleveland, Ohio 44108

Eric Allemano is beginning his third year as a Peace Corps English teacher in Agadez, Niger.

Peter B. Brightman is a registered representative trainee with Hornblower and Weeks, Hemphill, Noyes in Boston.

Edward A. Cuda is currently serving with the U.S. Army at Fort Hood, Tex.

Donald Dunsmore wed Karen Lindblad in the fall of '72. **Alan Michels, Jr.** '70 and **Michael S. Hill** '70, served as ushers. Donald is employed by Garrett Byrnes and Son as a medical-surgical supply salesman.

Scott Fisher, having finished his two years of alternative service, is remaining ten miles below the Arctic Circle with the Yukon River, the Northern Lights and the seventy people in the village of Beaver, Alaska.

First Lt. **Peter A. Fluchere** is on temporary duty at Mildenhall RAF Station, England, with his unit from Dyess AFB, Texas. Lt. Fluchere is a navigator with the 773rd Tactical Airlift Squadron.

Jeffrey D. Gold has been promoted from captain to the rank of major. He has been assigned to do an army residency in ophthalmology at Brook Army Hospital in San Antonio, Texas.

Jerry Gurkoff married Gloria Jean Solenberger of New Cumberland, Pa. on July 2, 1972 after a one week delay due to the flood and active duty call-up in the National Guard. He is presently in his second year at Philadelphia College of Osteopathic Medicine.

Paul Halpern is now working as a teaching assistant in the Ohio University Film Program and completing an experimental narrative film, tentatively titled "Vaudeville Voices," as his MFA thesis.

Jim Lieberman is in his 3rd year of medical school at Case Western Reserve School of Medicine.

Peter B. Loughman was recently elected as Executive Editor of the Northwestern University Law Review. He will be a senior this fall.

David Moore was married to Susan Rebecca Stuckey Dec. 16, 1972 in Detroit, Mich.

E. Roger Novak, Jr. married on June 25, 1972 the former Kathleen Conwell Schwab. **Thomas Clark Swiss** '70 was one of the ushers. Novak is employed as a methods analyst with the Equitable Trust Co.

Larry S. Stuart was married July 22, 1972 to Miss Lois McDonald in Boston, Mass. He graduated from Harvard Business School last June with a masters in Business Administration.

Douglas S. Tidd received his B.A. in English Literature from Thunderbird Graduate School in Glendale, Arizona.

Peter Van Voris is presently teaching Biology, Anatomy and Physiology at Trocaire College, South Buffalo, N.Y. He is also finishing his M.A. thesis work in radiation ecology at State University College.

Walter Villecco married Audrey Beaumont Earle on Sept. 30, 1972 in Mountain Lakes, N.J.

Michael S. Walker will be studying art and art history in various parts of Europe and Asia for two to eight years.

'71 Norman E. Schmidt
10113 Wisner Road
Willoughby, Ohio 44094

Tim Baker spent the summer with **Dave Carter** assembling swimming pools in New York State. After a brief stop in Toledo, they are back in New York seeking their fortunes.

Kevin Conry is serving with the Marines aboard the U.S.S. JUNEAU.

Clark Dougan is completing his European tour courtesy of his Watson Fellowship.

Glenn Fritz has completed his first year at Ohio State University's College of Dentistry.

Hal Griffith has started his first year of graduate work in history at the University of Michigan in Ann Arbor.

Peter Holme III attended Denver University Law School (disliked it intensely and quit), then worked as a diving coach. He has been accepted by Brooks Institute School of Photography which he will enter in March of 1973.

Robert Mayer has started his second year of the MBA program at the University of Chicago majoring in the behavioral sciences.

Dennis O'Conner has joined the English Department at Williams Middle School in Longmeadow, Mass.

James C. Price has accepted a teaching position at the Albany Academy in Albany, N.Y. He's teaching 8th and 9th grade English, Speech and Drama. In addition to his teaching duties, he will coach the freshman soccer team and will be an assistant baseball coach.

2nd Lt. **Daniel G. Ralston** is assigned to the Communication Center at the Marine Air Station, Cherry Pt., North Carolina.

Alan Rappaport has begun his first year of study at the school of law of Case Western Reserve University.

Robert Roesky has recently graduated from OCS. He is now an Ensign in the U.S.N.R. and has been assigned to the aircraft carrier Independence docked at Portsmouth, Va.

Lawrence Schiff is presently in his second year of Medical School in NYC.

Norm Schmidt is studying for a masters degree in Inner-City teaching at John Carroll University and is teaching science at Addison Jr. High in Cleveland.

James Schneider is now a Lt. in the Air Force. He's stationed at Andrews AFB in Washington, D.C., giving weather information to the planes of the president and other V.I.P.'s.

Jonathan Tom received his master's degree in economics at Miami Univ. in August, 1972. Currently, he is studying for a Ph.D. in economics at the University of Maryland, College Park.

Peter Treleaven is now a 1st Lt. in the Marines with the Ground Defense Force of a Marine Air Base in N.E. Thailand.

Gordon D. Weith recently was commissioned an Army Second Lieutenant upon graduating from the Infantry Officer Candidate School, Ft. Benning, Ga. He was married Oct. 1972 to Ms. Diane Morgan who attended Kenyon in 1969-71. Attending the wedding were **Mike Balaban**, '70 and **John Eppling**, '71.

Terry Zimmerman is in his first year of Law study at Case Western Reserve in Cleveland.

Gary Zito is in his second year of medical school at S.U.N.Y. Upstate Medical Center in Syracuse, N.Y. He obtained a Fellowship in Rehabilitation Medicine at N.Y.U. for the summer of 1972.

'72 Merritt Greene
6701 Riverroad
Waterville, Ohio 43566

Jeffrey B. Ellis was married to **Nancy Peek** '72 on June 24, 1972 in Monroe, Mich. Members of the wedding party included **Diane Markham** '72, **Libby Arnold** '73, **Dr. Lee Van Voris** '67, **Preston Zoller** '71, and **Pete Wright** '72. Jeff is employed as a brokerage consultant for Connecticut General.

Jeffrey N. Feldman announces his engagement to **Sari Silvern** of Yonkers, N.Y. An August wedding is planned. He is presently a student at Hahnemann Medical College.

Mark Lewis is now a substitute teacher at his high school alma mater, Middletown (Ohio) H.S., after working for three months as a local co-ordinator for the McGovern campaign and briefly as a carpenter.

Thomas Moore is currently doing post graduate work at the University of Pittsburgh in Business Administration.

Howard Morgan, Jr. is working for Banc Ohio Corp. of Columbus with hopes of law school next fall.

Richard A. Rothermel announces his engagement to **Donna Mollica** of NYC. He is now attending Catholic University Law School in Washington, D.C. Miss Mollica attended Kenyon for two years.

Ronald Schenendorf was married last October to **Barbara Perr** of Rockville Centre, N.Y. He attends Albert Einstein College of Medicine.

Bill Wallace is attending CWRU Medical School in Cleveland. He traveled through the U.S. and Canada last summer.

DEATHS

Dr. Frank E. Bailey, former dean and acting president, and professor of history, emeritus, died December 25, 1972, after a brief illness.

Dr. Bailey came to Gambier in 1947 as dean of men and professor of history, became acting president in 1956 on the death of President Gordon K. Chalmers, and resumed his duties as dean from 1957 to 1963. Following a year's leave of absence he returned to teach in the department of history until his retirement in 1968.

He was awarded an honorary degree at the Commencement of 1968, and the citation on that occasion read in part, "We honor you for bringing the College from the depths of its severest tragedy — the Old Kenyon fire. We are grateful that you shouldered the responsibilities of the presidency of the College during an interim year. But we commend you also for your affection for students during your service as dean, and for the inspiration of your teaching. We admire your forthrightness, your concern for excellence, and that spunky spirit which carried you through difficult periods. The community rejoices that you will continue to be counselor and friend to town and gown."

On his farm less than a mile east of Gambier he spent much of his time raising Pembroke Welsh Corgis, but continued his interest in the college and in the affairs of the Village of Gambier. He is survived by his wife Carolyn, a son, a daughter, a sister, and six grandchildren.

Dr. John Harrison, assistant professor of English from 1907 to 1916, on November 18, 1972 in Louisville, Ky. He was 95. Dr. Harrison went from Kenyon to Butler University where he taught from 1916 until his retirement in 1947. He is survived by a daughter and three sons.

The Rev. Milton S. Kanaga, Bexley '11, on October 3, 1972 in Ormond Beach, Fla. During 46 years in the ministry he was rector at parishes at Coshocton, Willoughby, Cleveland, Pittsburgh, Flint, and Detroit. He also served as the Archdeacon to the Bishop of Pittsburgh and Vicar General to bishops of Erie, Pa., and San Joaquin, Cal. He retired in 1955 but continued to serve as chaplain at a medical center, and than as associate Priest of St. James Church in Ormond Beach. He is survived by a daughter, two brothers, eleven grandchildren and 2 great grandchildren.

Fred G. Clark '13, on Jan. 7, 1973 at his home in New York City. He was the founder of the American Economic Foundation, an organization promoting political conservatism through lectures, pamphlets and books. A native of Cleveland, he joined the Fred G. Clark Company, a petroleum company headed by his father, served in World War I, and returned to the company becoming its president in 1924 and serving until 1932 when he established an insurance company in New York. He had organized in the 1920's a group called the "Young Crusaders" which fought for the repeal of the Prohibition Amendment, and later turned its attention to crime, radicalism, and economics. He directed the "Voice of the Crusaders" radio program until 1937 and established his foundation in 1939. As co-author with Richard Stanton Rimanoczy, he wrote the books *How We Live; Money; How To Be Popular, Though Conservative; How To Think About Economics; and Where The Money Comes From*. He alone wrote *Magnificent Delusion*, described as a defense of the free enterprise system. He is survived by his wife, Diana.

Andre B. Cook '15, on May 20, 1972. His wife, Georgia, survives.

Author S. King '16, on November 17, 1972.

Dr. Paul R. Maxwell '21, a South Yarmouth, Mass., Physician, on Oct. 16,

1972. A native of Mansfield, Ohio, he had practiced medicine in Harlingen, Texas, Mansfield, and in Pennsylvania before moving to Cape Cod in 1969. Survivors include his wife, Margaret, four sons, a daughter, and seven grandchildren.

James W. Wade '22 of Atlanta, Ga., in November, 1972.

Russell E. Fishack '23, at his home in Rossford, Ohio, October 16, 1972. He had retired in 1970 after 32 years as a manufacturer's representative for the Cleveland Builders Company. Surviving are his wife, Jean, two daughters, a stepson, and a brother.

James Harrington Boyd, Jr. '24 and H'54, of Delray Beach, Fla., on January 28, 1973. Dr. Boyd had been a consulting engineer in New York City.

Kenneth J. Burkholder '25, of Cleveland Heights, Ohio, on August 11, 1972.

Richard North Gage '25, Boiling Springs, Pa., stage director, on November 16, 1972. He had directed the Allenberg Players in Pa. for 24 years and this season would have completed his 50th year in show business, following which he had announced plans to retire. A graduate of the Yale University Drama School, he had directed theater groups in Milford, Conn., Charleston, W. Va., and Youngstown, Ohio. During his career he directed such stars as Joseph Cotton, Shelley Berman, and Roy K. Scheider.

Alexander L. Taggart, Jr. '26, Indianapolis baking company executive, December 13, 1972. He was an active director of the Colonial Baking Co. which he started in 1933, and which is now part of Campbell-Taggart Associated Bakeries, a nation-wide corporation with headquarters in Dallas, Texas. Survivors include his widow, Elizabeth, three sons, a daughter, and four sisters.

The Rev. David C. Wright, Jr. '26, December 23, 1971.

Dan Driskell '31, Industrial engineer for McDonnell Douglas Aeronautics, on October 12, 1972 in Orange, Calif. Survivors include his wife, Shirley, and three sons.

Dr. William L. Mahaffey '31, a longtime Fredericktown, Ohio, physician, in San Ramon, Calif., where he was a staff physician at the Pacific State Hospital.

Frank W. North '32, on October 31, 1972.

George E. Frazer, H'42, noted Chicago attorney and an Emeritus Trustee of Kenyon, on November 6, 1972. He served actively on the Board of Trustees from 1937 until he was voted emeritus status in 1960. In 1917 he devised the Illinois State financial system, and was general counsel to the governor and legislature for the reorganization of the State of Ohio in 1921. He was senior partner of Frazer and Torbet, accountants in New York City and Chicago, and was chairman of Transitsads, Inc., from 1940 until 1954.

Orin Donald Krone '42, of Spencerville, Ohio, on August 23, 1972. A graduate of the U.S. Naval Academy, he was vice president of Krone and Company in Spencerville, a wholesale lumber brokerage firm. He is survived by his wife, Anna Katherine, a daughter, and three sons.

Frank E. Bradenbaugh '44, of Ligonier, Pa., on June 23, 1972.

Jon Vincent Urnes '55, of San Carlos, Calif., on December 29, 1972.

Biology Project Involves Students In Genetic Research

Professor Alfred Wohlpart of Kenyon's Biology Department and two honor students are engaged in a unique research project which may prove that the genetic makeup of plants can be changed by transplanting genes from other plants.

Operating under a \$6,300 Cottrell College Science grant, the project will determine if recipient cells can "take up exogenous foreign genetic material and whether the donor material can be expressed," according to Wohlpart.

Juniors David Utlak of Parma, Ohio, and Richard Smith of East Liverpool, Ohio, are assisting Wohlpart as part of their honors work in Biology.

Wohlpart said if the project is successful, plant breeders may utilize the procedures developed here "to obtain new varieties of existing species that have higher yields and are more resistant to disease and insects than the parent plants."

The trio will use red, white and yellow beets, and tobacco plants in the project. They will "feed" radioactively-labeled RNA and DNA molecules from red beet cells into cells of the other three plants.

The project will take two to three years to complete "because of the time required to learn the highly complicated techniques used to make the transfers," Wohlpart said.

Cells from the red beet leaves must be exposed to radioactively-labeled molecules. These are incorporated by the plants into their own genetic material, which is then extracted by grinding the leaves in a cold room with the temperature set between zero and five degrees.

The genetic material of the red beet is purified so only the radioactive molecules which have been incorporated by individual cells into their genetic material remain. The red beet DNA, which produces the red pigment, is then introduced to the cells of the white and yellow beets and the tobacco plants.

By measuring the radioactive material in the cells, Wohlpart will be able to determine if the cells have "taken up the donor genetic material."

Then if the recipient cells begin to produce the red pigment, the research team will know that the donor genetic material can express itself when taken up within another plant, Wohlpart explained.

"Very little research has been done along the lines of genetic engineering in plant breeding," Wohlpart explained.

The professor noted a German research team used "a crude system" to introduce DNA from the red petunia to the white and had the donor genetic

A Kenyon research team examines the growth of tobacco plant tissues that will be used in experiments for a unique genetic study. From left are Richard Smith '74 of East Liverpool, Ohio, Dr. Alfred Wohlpart, and David Utlak '74 of Parma, Ohio. They are engaged in a unique research project which may prove that the genetic makeup of plants can be changed by transplanting genes from other plants.

material expressed. He added the Kenyon team is utilizing procedures that are "more refined."

Both Smith and Utlak will be directly involved in all phases of the project.

They will feed the radioactively-labeled molecules to the plants and isolate the plant cells from the plant tissues. They also will isolate and purify the red beet DNA and measure the radioactivity of all DNA samples.

All the research work will be completed at laboratories in Kenyon's Biology Building. The students have direct access to all the delicate scientific measuring equipment utilized in the project.

Wohlpart said he and the two students will work part time on the project during the school year, but plan a full time schedule this summer.
