3-D Medieval Art & Architectural History
3-D Medieval Art & Architectural History

Art & Architectural History by its very nature is three dimensional, but most of the time, when not teaching in situ, we make do with two-dimensional images. As lovely as they can be, they do not *quite* approximate the three-dimensional experience. Using new technology, though, it is possible to present something akin to the real thing.

**Videos:** A number of videos can now be accessed that reconstruct medieval churches now and in the past. Notre Dame, Paris, in particular has been the subject of a number of these studies.

**Computer modeling** has also been used to explore the structures of many cathedrals such as:
- **Nidaros Cathedral**
  [http://www.youtube.com/watch?v=bm4HCVUekve](http://www.youtube.com/watch?v=bm4HCVUekve)
- **Bamberg Cathedral**
  [http://www.youtube.com/watch?v=bYM30bqmnnA](http://www.youtube.com/watch?v=bYM30bqmnnA)
- **Cologne Cathedral**
  [http://www.youtube.com/watch?v=VhZ1c1jHVSU](http://www.youtube.com/watch?v=VhZ1c1jHVSU)
- **Santiago de Compostela**
  [http://www.youtube.com/watch?v=SmVJSmLA7BU](http://www.youtube.com/watch?v=SmVJSmLA7BU)
- **Model of Parish Church**

**3-D Printing** And, lately, with the advent of relatively inexpensive 3-D printers, you can now (with the right equipment) print up your own three-dimensional model of a cathedral:
- Video of Cathedral being printed
