federal grand jury investigating the business affairs of the beef packing industries learned all the details of the manner in which officials of the Etna Trading company kept their books. This company, it is said, was the means by which the packers supposed to form the beef trust transacted their secret business. National Bank Examiner Stareck, who for nearly two months has been studying over the books found in the six trunks taken from the First National bank safety vaults, completed his task and was before the inquisitors. Race Train Wrecked.

New York, May 16 .- Nearly a score of persons were injured in the wreck of a special race train on the Long Island railroad bound from Brooklyn to Belmont Park racetrack. At Woodhaven Junction, where the Rockaway branch leaves the main line, the locomotive ran into a half-open switch and was overturned, and the three forward cars, filled with passengers, left the rails and crashed together. All the passengers injured were in these cars. James Demitt, fireman of the train, was probably fatally hurt. Six other passengers were seriously enough injured to necessitate their being removed to a hospital, but they are expected to recover.

Eleven Large Sailing Yachts In a Race For Emperor's Cup.

New York, May 16 .- With the incentive of a valuable cup and three other prizes offered by the German emperor, 11 large sailing yachts of various rigs and representing three nations are fully prepared for the start of a race across the Atlantic. Eight of the contestants are vessels owned in this country, two are from stability and rig of the present type of pleasure craft as well as the seamanship of the modern yachtsmen. A representative of Emperor William, assisted by a committee of American yachtsmen, will start the fleet this afternoon at Sandy Hook lightship, 10 miles outside of this harbor. The finish will be at the Lizard, on the English coast, more than 3,000 miles away, when a German war vessel will

Chief Engineer Wallace, for instance, showed that two ships in addition to those running between New York and Colon and owned by the Panama Railroad company, were absolutely necessary to carry the food supplies and material needed for the work. No American ships could be bought at any reasonable price, and when it came to building such ships it was found, according to Secretary Taft's estimate, that while he can buy two 2,600-ton ships in Europe for \$750,000, it would cost \$1,400,000 to build such ships here. And in addition, while the European ships could be had at once, it would take at least 18 months to secure American boats. As to material needed for canal construction, the committee decided that by reserving to itself the right to purchase in the world's markets, it would at least oblige American manufacturers to give them the benefit of their foreign prices if they wish to sell goods to the committee. Secretary Taft explained that he felt obliged to indorse this decision.

OPEN SWITCH

Wrecks a Big Four Passenger Train. Two Men Killed.

Lafayette, Ind., May 16.-Two men were killed and six severely injured in the wreck of Big Four fast passenger train No. 11, which crashed into an open switch at Otterbein, 15 miles west of this city, while runing at the rate of 40 miles an hour. The mail and baggage cars were completely wrecked and four passenger coaches were thrown from their trucks and dashed 100 feet ahead of the engine, which buckled. Almost every passenger was either cut by flying glass or bruised. Several narrowly escaped a circus giant years ago, his height death. The dead: Herbert G. In Favor of Leper Homes.

Washington, May 16 .- Leprosy was the subject discussed at the first session of the third annual conference of state and territorial health authorities with the officials of the United States public health and marine hospital service. About 20 delegates were present. All the state boards of health represented were found to be unanimously in favor of national leper homes. The delegates expressed belief that no danger would be incurred in any part of the country by the location of such an institution, and that the segregation of the lepers thus effected would reduce the danger from the disease to a minimum in this country.

Ohio Rising. Evansville, Ind., May 16 .- The Ohio river continues to rise rapidly. The forecaster at Cairo, Ill., says the danger line of 35 feet will be passed some time Wednesday. This will overflow the lowlands and many thousands of acres of wheat will be damaged. The Wabash river is also on a rampage.

Standard Oil Dividend. New York, May 16 .- The Standard Oil company of New Jersey declared a dividend for the quarter of \$9 a share, payable June 15. The previous dividend declared by the company in March was \$15 a share, and at this time last year a dividend of \$8 a thare was declared.

The lumbermen's association passed a resolution calling on the teamsters to define their position as to the duty of "scaring" Young. what might be expected when the lumber firms of the city called upon them to make deliveries. The association declared that it was in favor of making deliveries irrespective of the strike, and announced that drivers who refused to deliver goods as ordered would be discharged. The lumber concerns represented at the meeting employ 1,200 teamsters, and a strike of these would mean great embarrassment to building operations in the city.

What the employers take as a sign fire can't cross. Sometimes a cough of the end of the strike was a telegram sent by President Shea of the teamsters' union to President Gom, having the steamship lines land them pers. President Shea also telegraphed the members of the exbody will meet in Chicago Wednesday or Thursday. These officials have the final word in calling or putting an end to a strike of the teamsters' organization. They are the same men who were called to Chicago last year to put an end to the strike of the teamsters at the stockyards, and it is believed by the employers that they have now been summoned for a similar purpose.

"Et don't make no difference, Mr. Mayor, how rich and ign'rant a man is ef he only hes sense 'nough ter keep on workin' after gittin' rich. But ef he tries ter quit work an' enj'y himself by lookin' at things with his eyes an' thinkin' with his no 'count brain an' stuffin' his one stomach like et war a hogshead he air a fool. I've got my wind agin, and I'm goin' back ter the gulch."

"But, my good man, you are old. Your place is filled by some other man. Perhaps you cannot get it back."

"Pardner," said Scroggins, "there ain't no question 'bout my gittin' that place. Mr. Mayor, I owns the line. When I picks up them ribbons thar won't be no agent to say, 'Put 'em down, Scroggins.'

The Enemies of Success.

Bright, cheerful hopeful thoughts and a strong belief in one's own ability to accomplish the thing undertaken are friends that will insure success. The ambitious person should learn as early in life as possible to pick out the friends and enemies of success, and in many cases it will be found that the greatest enemy resides within himself. Morbid thoughts, for example, are infinitely greater hindrances to success than opposition from outside, and no health, no beauty, no harmony, no real success can exist in the atmosphere of abnormal melancholy or morbid ideas. Overcome the enemies to success within yourself and you will have done much toward reaching the goal of your ambition.-London Answers.

Preservation of Ment.

Meat is commonly preserved by steeping it in brine. This method, however, has the undesirable effect of extracting from the meat much soluble nutritious matter besides rendering the ment harder and less digestible. Another way of preserving it is in airtight cases. The cases are packed with meat and filled up with gravy and are then hermetically sealed except at one point. They are then exposed to heat above that of boiling water for several hours, thus destroying all the existing germs and driving out all the air contained in them. The open part is then soldered over. If by any accident the tin is not hermetically sealed the meat will speil .- American Queen.

Kneeling Horses.

In ancient times, before the invention of stirrups and luxurious saddles, horses were taught to kneel to permit their riders to mount. A beautiful Greek vase in one of the museums in St. Petersburg shows a war horse of many centuries ago kneeling low before an amazon. The riders in those days mounted from the "off" side in contradiction to the modern usage. Plutarch tells how in the first century of this era certain effeminate Roman riders found even the horse block of too little assistance and had their horses trained to kneel to them.

Thinking and Doing.

Comm

I have been a great deal happier since I have given up thinking about what is easy and pleasant and being discontented because I could not have my own way. Our life is determined for us, and it makes the mind very free when we give up wishing and only think of bearing what is laid upon us and doing what is given us to do .-George Eliot.

A Witty Diagnosis.

The object of the duel is said to be the healing of wounded honor. To try to cure a wound of the spirit, or, rather, the temper, by a scratch on the skin savors of homeopathy, but may perhaps be justified by the surgical principle of relieving tension by incision. British Medical Journal.

Homemaking.

Men do not make their homes unhappy because they have genius, but bezause they have not enough genius. A mind and sentiments of a higher order would render them capable of seeing and feeling all the beauty of domestic ties.-Wordsworth.

Unimportant Man.

Many a man goes away from home for a week and imagines that he is missed by the whole community, and when he comes home he finds that there isn't a person in town that knew he had been away.

So work the honeybees, creatures that by a rule in nature teach the act of order to a peopled kingdom.-Shake-

The Old Time Parlor.

The days of the parlor are fast going. There was once a time when every family, no matter how poor, had its parlor. And generally the parlor was a most useless place, but it was the pride of the housewife. The Observant Citizen remembers some time ago when the lady of the house insisted that he should see "her parlor." Her husband smiled good naturedly, and they both led the way to a big front room which was locked. The door was unlocked, and the parlor got its first fresh air in months. The little family had expended much money on the parlor. Everything was new but the stuffed birds under glass cases. The design of the carpet was wonderful in that it consist- a coat. ed of bright red roses. One felt like stepping into a bed of flames. A horseshoe sofa, very erect, was the principal article of furniture, while at the windows were the stiffest lace curtains you ever saw. The room had a musty smell due to long confined air. It was "luxury imprisoned" on a small scale and the finest example of the old time useless parlor.-Manchester Union.

Addresses In Persian. The addresses in Persian upon let-

ters which go through the postoffice at Calcutta are often quaint and puzzling. An Indian paper recently translated one as follows: "If the Almighty Batteries-Young and Needham; Har- pleases-Let this envelope, having arrived at the city of Calcutta, in the neighborhood of Calootolah, at the Rt. The Postmark.

Great Britain, it is said, can, without fear of contradiction, claim the honor of having originated the postmark. The first one, which was used in London as long ago as 1660, was a very simple affair, consisting of a small circle divided into two parts. In the top portion were two letters indicating the month, while in the lower half the day of the month was shown. No endeavor was made to denote the year, and it is only by the dates of the letters on which the mark is impressed that it is possible to fix the date of its use.

Single and Double.

"This," said the man who was showing the stranger around the city, as he pointed to a broad stretch of beach, "belongs to old Bigspud. It's all made land. That's his house back there on the left."

"Is that on made land, too?" asked the stranger. "No. That's on married land. He

got it with his wife."-Chicago Tribune.

Sick Headache

When your head aches, there is a storm in the nervous system, centering in the brain.

This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting. This is sick headache, and

is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc. Allay this stormy, irritated,

aching condition by taking Dr. Miles' Anti-Pain Pills. They stop the pain by soothing, strengthening and relieving the tension upon the nerves -not by paralyzing them, as

do most headache remedies. Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs. chloral, cocaine or similar drugs.

"Sick headache is hereditary in my family. My father suffered a great deal, and for many years I have had spells that were so severe that I was unable to attend to my business affairs for a day or so at a time. During a very severe attack of headache, I took Dr. Miles' Anti-Pain Pills and they relieved me almost immediately. Since then I take them when I feel the spell coming on and it stops it at once."

England's Round Tree.

The heart of England is a sturdy churn every day. We appreciate ery call of duty. But the real heart of England-its exact geographical center-is altogether another The Sundary Co-Operative Creamery Co. proposition. So far from being occupied by patriotic sentiment, a tree exactly fills the space. It is called Round Tree and is both a picturesque and distinguished growth. Cold stone might mark the spot, but this living monument which greens as the snow melts is much more fitting. This ancient oak typifies the national strength, and the associations attached to it thickly as leaves in midsummer make it a thing of affection and veneration.
