## GREAT STRIKE OF MACHINISTS IS ON.

### All the Shops in Cincinnati are Closed.

### President Compers of the American Federation of Labor Says Victory is Assured.

Cincinnati, May 21.—The Metal Trades association decided to close all shops affected by the strike indefinitely. This means the beginning of a bitter struggle here.

There is not perfect agreement between the leaders of the strike and the leading manufacturers concerning the causes of difference. The former claim that due notice of their demands has been given in an official manner. The latter say this has not been done, and one leading manufacturer asserted that no intimation whatever had been given him of any demand or grievance on the part of his men. The presence here of President Compers and two other members of the executive board of the American Federation of Labor shows a determination on the part of that powerful organization to give the machinists all the support within its power. On the other hand the action of the Metal Trades association evinces a purpose to resist the demands of the machinists to the uttermost.

President Samuel Compers of the American Federation of Labor said: "The results of the strike thus far are very gratifying to me and victory certainly awaits the strikers. A very great number of employers throughout the country have already acceded to the 9-hour day, although not quite as many as I had anticipated. Still the reports that have reached me are remarkable in their showing a unanimity of action between both union and nonunion men which presages ultimate victory."

Mr. Compers is in constant telegraphic communication with Washington headquarters. He expects to leave for Chicago Tuesday night.

#### Extent of the Strike.

Washington, May 21.—Approximately 50,000 machinists throughout the country struck for a 9-hour day, a scale of wages equal to the present 10-hour day scale, and other demands. This is the estimate of President O'Connell of the International Association of Machinists, based on telegraphic advices that have reached him from machinists' headquarters in various cities. Following is a statement of the number of men out at important points: Hartford, 1,000; Ansonia and Derby, Conn., 500; Hamilton, O., 1,000; Buffalo, 1,200; Scranton, Pa., 2,500; Cincinnati, completely tied up and 3,000 men out; Connersville, Ind., 200; Palestine, Tex., 200; York, Pa., 300; East Orange, N. J., 800; Oswego, N. Y., 300; Norfolk, Va., all shops out, 500 men.

#### In San Francisco.

San Francisco, May 21.—There are 6,500 union machinists and iron trade workmen affiliated with them on strike in this city. It is expected that 1,000 more men will join the strike as soon as they are ordered to do so by their respective national directors. Among the latter are the iron molders and the coremakers. The other crafts affected include almost every branch of the iron, shipbuilding and boiler-making trades. Of the 4,000 men employed at the Union Iron works, 3,700 went out. At the Risdon Iron works 600 men joined the strikers.

#### In Philadelphia.

Philadelphia, May 21.—Information received at local headquarters of the International Association of Machinists from all parts of this city and Camden, N. J., place the number of machinists on strike at about 1,400. There are about 5,000 machinists in the city. About 50 firms have signed the agreement, leaving 20 affected by the strike. When the 9-hour day movement began the membership of the local union was given as 2,500. The leaders say 1,500 others are ready to become members.

#### Defended His Wife.

Logansport, Ind., May 21.—Guy Davidson, a carpenter, was shot and fatally wounded by Charles Michaels at the latter's home, six miles north of the city. Michaels some time ago married Davidson's divorced wife and Davidson then made threats against her life. He went to Michaels' home armed with revolvers, with avowed intention of killing his former wife. Michaels had been warned and when Davidson entered the yard fired at him with a shotgun through the window, inflicting injuries from which he will die. Davidson was brought to the hospital and Michaels came to the city and surrendered to the police.

#### Turk's Apology Accepted.

Constantinople, May 21.—Ahmed Tewfik Pasha, Ottoman minister of foreign affairs, having renewed his assurances of Turkey's intention to apologize to the embassies for the recent violations of the foreign mail bags, the British, French and Austro-Hungarian ambassadors have acknowledged them in an identical note and the postal difficulty is now regarded as adjourned.

#### Englishman Outclassed.

London, May 21.—Jack O'Brien of Philadelphia defeated George Chrisp of New Castle, at New Castle, in 11 rounds. The Englishman was quite outclassed and never had a chance to win. The contest was for the heavy-weight championship and a purse of £225.

## ROCKEFELLER CAUSED ARREST FOR AN EMBEZZLEMENT.

Kansas City, May 21.—Frank Siegel, formerly president of the Siegel-Banders Live Stock company, was arrested on a charge of embezzling \$5,000. He was released on \$2,000 bail. The warrant for Siegel was sworn by Utey Wedge, receiver of the company.

Frank Rockefeller, who owns a controlling interest in the stock of the company, last week filed a suit in the circuit court here which resulted in the appointment of a receiver. In his petition Mr. Rockefeller charges that the company suffered a loss of \$100,000 as the result of Siegel's alleged peculations and mismanagement of the company's affairs.

#### Cubans in a Quandary.

Havana, May 21.—The conservatives claim only a majority of four in the Cuban constitutional convention. When the convention met it was found that four of the conservatives were absent, and the disposition to push things, which had been agreed

upon as the program, changed to a movement to block the radicals from coming to a final vote. The radicals were also weakened by one absentee and a split within their ranks, which threatens the leadership of Juan Gualberto Gomez, who has posed as an uncompromising radical, opposing any intervention by the United States and publicly declaring that he would die of grief if the Platt amendment were accepted.

#### "Battle Ax" Gleason Dead.

New York, May 21.—Patrick J. Gleason, 70, former mayor of Long Island City, and popularly known as "Battle Ax" Gleason, died at his home here. Gleason came to this city when a boy, ran for the assembly on the Green ticket, being elected, as he claimed, but was counted out by 15 votes. Gleason's last candidacy for public office was for mayor of Greater New York, when he ran on the independent ticket in 1897.

## REMOVAL OF OTTERBEIN TO DAYTON.

### Very Probable That the Seat of the Historic College Will Be Changed.

Dayton, O., May 21.—The plan for moving for some time to move Otterbein (United Brethren) college from Westerville to Dayton was given new impetus by the announcement that Mrs. Phillip Cochran of Scottsdale, Pa., would renew her offer of \$25,000 for a memorial hall for her husband and son. Originally her gift was applicable to Westerville, but she favors this city as a superior location. Toward the needed \$150,000 nearly \$26,000 was secured under the plan of selling lots on the optional tract, and the general canvass has not yet begun.

#### Hillmon Case Again.

Washington, May 21.—The supreme court granted the petition of the Connecticut Life Insurance company for a writ of certiorari to the United States circuit court of appeals to bring the celebrated suit against the company Mrs. Sallie E. Hillmon into court for review. It involves the payment of an insurance policy of \$5,000 on the life of Mrs. Hillmon's husband, the payment of which the company has resisted a number of years on the ground that the man is not dead. The case has been in the supreme court two or three times.

#### Favor Arbitration.

Chicago, May 21.—At a meeting of the Chicago Machine Manufacturers' association the members adopted a resolution unanimously endorsing arbitration as the means to settle the present strike difficulties in machinery and allied metal trades. Over 75 per cent of the Union machinists employed throughout the city have already declared themselves in favor of such a plan.

#### Wants Her Divorce Rescinded.

London, May 20.—The Marchioness of Anglesey made a somewhat remarkable application to Sir Francis Jeune, president of the divorce division of the high court of justice, asking the court to rescind the divorce granted her Nov. 7. Justice Jeune characterized the whole case as most extraordinary and decided to hear the application May 23.

#### No Strike at Omaha.

Omaha, May 21.—There is no strike of machinists in this city, the employers having conceded the demands of the workmen for shorter hours and an advance in wages. The matter came up some time ago and part of the machinists struck. The matter was settled in favor of the strikers.

## MRS. M'KINLEY GAINING. TO GO BACK TO WASHINGTON.

San Francisco, May 21.—Mrs. McKinley steadily gains and the president is very much cheered over her improvement. While no definite date has been set for the president's departure, present arrangements are to go direct to Washington, and not to Canton, as had been unofficially stated.

During the remainder of his stay in this city the president will participate in as many public gatherings as the condition of Mrs. McKinley will warrant, but only in an impromptu and informal way. The president reviewed the schoolchildren of the city today and visited the Presidio.

C., a discharged member of the Fifth artillery, United States army, had his right hand blown off by the premature explosion of a cannon during the performance of Buffalo Bill's wild west show here. John Tate and Harry Singmaris of New York city were powder-burned. The accident occurred during the artillery drill and was caused by a spark of fire remaining in the gun during the interval of firing.

## JOHNSON IS NOT A CANDIDATE

### Mayor Tom of Spotless Town Says He is Very, Very Busy as Mayor.

Cleveland, May 21.—Mayor Johnson emphatically declares that he will not be a candidate for United States senator or for governor. "There is no office," he said, "within the gift of the people to tempt me to give up the position I now hold. I said during the campaign that if I was elected mayor I would be mayor. I meant it then and I mean it now. I have embarked on a big fight to bring about a just valuation of taxable property in Cleveland and a fair distribution of valuations. It will take me all of two years to accomplish what I have set out to do, if indeed I can do it in that time."

#### Cumberland Presbyterians.

West Point, Miss., May 20.—In Cumberland Presbyterian general assembly the Rev. F. H. Smith of Kansas proposed that the name of the church be changed to the American Presbyterian church. The motion was tabled without debate. A committee reported in favor of disciplining a divorced person who marries again unless an innocent party to infidelity, and to forbid ministers performing marriage ceremonies for divorced persons not thus innocent. The vote on the report was postponed.

#### German Farmers Discouraged.

Washington, May 21.—Consul General Maston at Berlin informs the state department that the official German crop report gives a discouraging outlook for German agriculturists. A long and severe winter and tardy spring is held to account for a very bad year in crops. In a number of districts from 50 to 90 per cent of the whole winter wheat area failed.

Keane went to the store and began to abuse her, when Jones interfered. Keane pulled a pistol and Jones also drew his and shot Keane in the heart, who fell dead at his wife's feet. Jones gave himself up. At the preliminary hearing Jones was bound over to court under \$3,000 bond. Jones is a prominent merchant and owns stores in 10 different cities. ## MYSTERIOUS WOMAN IN PHILLIPS CASE.

### Police Have Located "Dr." Stanley's Wife.

### Officials Convinced She Was Not Implicated In the Death of Father Phillips.

New York, May 21.—Interest in the tragic death of Father Phillips of Hazleton, which had by no means subsided, was made more acute by bringing to West Forty-seventh street police station a woman with auburn hair, who answered the description of "Dr. Stanley's wife." She was closeted with Captain Donahue over four hours, and he then took her to lunch, after which the two went back to the station. The police took extraordinary precautions to keep the identity of the woman a secret. They even went to the extent of denying that she had anything to do with the case of Father Phillips. Assistant District Attorney Garvan was sent for and talked with the mysterious woman an hour and a half. After the interview he said she is the woman Stanley introduced as his wife, and that she might be held as a witness in the case, but he would not say so positively. He also added: "I am satisfied this woman has nothing to do with the case. I shall not give her name because she comes of a very respectable family. I want to shield her because I believe in my heart she had nothing to do with the case whatever. I questioned her closely and am satisfied she does not know anything about it."

A resolution was adopted deprecating the action of the directors of the Pan-American exposition in

## SHE KILLED AYERS. WOMAN MAKES CONFESSION.

Washington, May 21.—The mystery attending the killing of James Seymour Ayres, a census office clerk, at the Kenmore hotel May 15, and which, because of the peculiar circumstances surrounding it, has aroused Washington more than any tragedy in several years, was solved by a voluntary confession from Mrs. Lulu I. Bonine, married, and a guest at the house.

Mrs. Bonine says she fired the shots which ended Ayres' life. Mrs. Bonine, whose husband is a salesman for a wholesale drug house in Chicago, explained her presence in Ayres' room at 2 o'clock in the morning by saying Ayres came to her room complaining of a chill and asking for medicine, and induced her to follow him to his room to talk over some matters of difference there had been between them. She said she dressed herself in a wrapper and went to his room. He preceded her and when she opened the door and walked in he quickly closed it and informed her he had enticed her to his room for his own purposes, and said if she did not submit to his wishes he would kill her. Ayres, she said, had a revolver in his hand, and in a struggle for its possession, which ensued immediately after she entered, it was discharged three times, each shot striking Ayres, the last shot proving fatal.

#### Tax on Beer Bottles and Corks.

Washington, May 20.—The United States supreme court decided that bottles and corks used in the manufacture of beer for export are subject to the imposition of a tariff tax. The decision was in the case of the Joseph Schlitz Brewing company vs. the United States. The claim originally was made for a drawback on duties paid on hops and barley as well as on bottles and corks used in the manufacture of bottled beer to be exported. The case turned on the question as to whether corks and bottles are ingredients of beer. Plainly they are not, said the court.

#### In Callahan's Favor.

Omaha, May 21.—Attorneys for James Callahan, the alleged kidnaper, moved for a judgment in the robbery and larceny cases pending against him in connection with the kidnaping of Young Cudahy. The pleading was for the discharge of Callahan on the ground that he had already been put in jeopardy for the offense alleged in each of the remaining cases. The court sustained the motion to discharge. This action finally disposed of all the cases against Callahan except that of false imprisonment and the new case of perjury. Callahan's bond was reduced from \$8,500 to \$3,000.

## HOBO

### Sent to Workhouse For Petit Larceny.

Stole Two Sausage Grinders, Was  
Sentenced to Workhouse and On  
Way in an Hour's Time.

Mayor Harter disposed of a case  
in very short order Tuesday  
morning, finding George Ford, a  
hobo, guilty of petit larceny and  
sentencing him to the Columbus  
workhouse for thirty days. The  
whole transaction occurred in  
about thirty minutes and within  
the next hour Ford was on his  
way to Columbus to serve the  
time.

Tuesday morning a hobo en-  
tered Henderson and Bennett's  
hardware store on South Main  
street and stole a sausage grinder.  
Mr. Henderson saw the man take  
the article and started after him.  
The fellow ran out and Mr. Hen-  
derson went to the nearest tele-  
phone to call the Marshal. While  
he was gone the fellow again en-  
tered the store and was in the act  
of placing the second sausage  
grinder under his coat just as Mr.  
Henderson returned. The tramp  
then ran out the door with Mr.  
Henderson after him. Jacob Du-  
binsky also joined in the chase  
and the two men caught the hobo  
before he had gone very far. They  
started up Main street with the  
man and were met by Marshal  
Dennis who was hastening to the  
scene.

The tramp was taken to the  
Mayor's office (where he gave his  
name as George Ford. Mr. Hen-  
derson swore out the warrant  
charging the man with petit lar-  
ceny. The two sausage grinders  
being valued at \$35, Ford en-  
tered a plea of guilty and asked  
for mercy. The Mayor fined him  
\$20 and costs and directed the  
marshal to take him to the Col-  
umbus workhouse at 11:20. He  
was taken to Columbus at the  
hour specified by the Mayor.

### A SUCCESSFUL CLOSING.

Our school in district No. 3,  
Howard township, Knox county,  
O., taught by Mr. C. M. Grubb of  
Howard, closed an eight months'  
term on Saturday, the 18th inst.  
A picnic was given by the parents  
and friends of the district and sur-  
rounding community, over 150 per-  
sons partaking of the feast. After  
refreshments and games, a lengthy  
and well-arranged program of  
orations, essays, recitations, etc.,  
was rendered, each of the 36 pu-  
pils taking some part.

This was not only the close of an  
eight-months' term, but the close  
of 7-years' (school years) contin-  
uous teaching in this district by  
Mr. Grubb, which not only speaks  
well of Mr. Grubb as an instruc-  
tor, but of the good sense of our  
directors in keeping a good thing  
when they get it. Mr. Grubb may  
well feel proud of his loving labors  
in this district, by the efficiency of  
his pupils and the moral tone of the  
exercises on Saturday, also by the  
evidence that his services have  
been appreciated, for by a unani-  
mous vote of the pupils and par-  
ents, taken separately, he was in-  
vited to teach the school another  
(the 8th) year.

Addresses and remarks of con-  
gratulation were made by the Rev.  
J. L. Snyder of Howard, Mr. M.  
M. Ryan and others, and after a  
very touching reply by Mr. Grubb,  
and a valedictory by Miss May  
Durbin, the friendly bonds formed  
by a 7-year term were possibly for-  
ever broken, and the assembly ad-  
journed. A PARENT.

## MABEL STRONG

is Coming Home While Her Lover  
Goes to Jail.

Chas. Wildrick's and Mabel  
Strong's New York careers came  
to an end, Friday, when Wildrick  
was started toward Blackwells  
island, in custody, and the girl's  
father left the metropolis with his  
daughter, bringing her home to  
Cleveland to die of consumption,  
says the Cleveland Press.

Saturday, a woman who answer-  
ed the bell at the Austin, 1624 Wil-  
son-av, and said she was Mrs.  
Strong, stated that Mabel had not  
arrived. She would not admit the  
truth of a dispatch telling of her  
husband and daughter having left  
New York.

Justice Hinsdale sentenced Wild-  
rick to six months in the peniten-  
tiary for defrauding the Hotel Ger-  
ard by giving a worthless draft  
on "E. T. Sterling," a mythical  
broker, to settle a large bill which  
himself and Mabel Strong had in-  
curred as "Gordon Sterling and  
wife." The girl, at a previous hear-  
ing, created a sensation by being  
carried from a cab to the court  
room as Wildrick's invalid wife.

Mabel Strong and her sister, ex-  
tremely pretty girls, were fashion  
plates of the East-end, several  
years ago, having inherited enough  
money to satisfy their expensive  
tastes. Later they ran away from  
home. Wildrick is the son of the  
late Brigadier General Wildrick, U.  
S. A., and Justice Hinsdale told  
him the fact that he was a member  
of an old and distinguished family  
should have deterred him from  
living the kind of a life he has re-  
cently lived.

outside the handsome carvings are

off the casket from view.

Our citizens should be proud of  
the enterprise displayed by Mr.

# MACHINISTS

## At the Cooper Works Walked Out

## At Ten O'clock This Morning.

## Conferences of Monday Were Fruitless.

## The Men Were Orderly and After a

Short Meeting in the Trades' Council Hall Went Immediately to Their Homes—Shops May Close.

The machinists employed at the C. & G. Cooper works, 76 in number, members of Knox lodge No. 84, I. A. M., struck this morning at ten o'clock. A number of apprentices and helpers were also compelled to lay off by the strike. The strike is a result of the failure of the machinists and the firm to agree over the demands of the machinists for a nine-hour day at 10 hours pay.

The strike in this city is but a part of the big strike of the machinists all over the country, which was due to take place Monday, unless their requests were complied with.

The committee of machinists and the Cooper works officials were in conference for three hours Monday afternoon, but could come to no agreement. The company submitted a proposition, and the committee carried it to a meeting of machinists which was held in the trades' council hall in the evening. The proposition was discussed at some length, and was finally unanimously voted down.

Tuesday morning the committee reported to the Cooper officials that the proposition had been rejected, and the firm replied that they had nothing further to offer. According to their orders from the supreme lodge, the machinists then walked out and marched in a body to trades' council hall, where a short secret meeting was held.

It was decided to have the rooms of the council kept open during the strike, where the men may congregate. Magazines will be provided, together with other means of entertainment, for the benefit of the striking machinists. There was no disorder whatever, and the men went about their affairs in a manner that showed they intend to preserve their demands in a gentlemanly manner.

Mr. G. W. Nein, president of the local lodge, and chairman of the conference committee of the machinists, made a short statement to the Banner, in which he stated that the demands of the machinists in this city were similar to those made by the machinists all over the country, and were those authorized by the supreme lodge. The demands are simply a nine-hour day with ten hours' pay, which is equivalent to an increase of 12 1/2 per cent. in wages. He said that the machinists believed in the justice of their demands, and would try by every honorable and peaceful method to win their point.

Mr. Nein explained fully the meaning of the nine hour day and ten hour pay demand, in comparison with the increase of 12 1/2 per cent. in wages. He said that the demands of the machinists do not contemplate both, but that the granting of the nine hour day with ten hours pay would mean the same as a 12 1/2 per cent. increase. He declined politely to state the nature of the proposition made the machinists by the Cooper officials, saying it was agreed between the committee and officials to regard it as confidential.

President Fairchild, of the Cooper works, stated in substance the facts as given by Mr. Nein, that the conference had failed to settle the matter, and that the strike had resulted in consequence. When asked whether the plant would be compelled to shut down, he replied that it probably would if the strike lasts any great length

of time. He also declined to discuss the details of the conference or predict any manner in which the strike may be settled.

The effect of the strike is already apparent on the business of the city, and will become more so if it becomes necessary to shut down other departments of the big shops. It was hinted this afternoon that the metal manufacturer's union and the supreme lodge of the machinists may come to a settlement of the differences all over the United States as soon as the extent of the strike fully develops, in a few days.

As soon as the meeting in trades' council hall was concluded this morning, the men all went to their homes. They do not discuss the matter at all except in their meeting.

# ROMANTIC

## Marriage of Miss Mame Yeager,

## Of This City to John G. Davis.

## They Met in Columbus During Holidays.

## He Was a Student at Ohio Wesleyan.

Mrs. Davis is a Granddaughter of Mr. Thomas Trick and a Cousin of Miss Della Boyle of This City.

(Coshocton Age).

A little episode with a touch of romance has just come to light after careful concealment for five months on account of the tender years of the parties involved.

James G. Davis, the only son of David Davis, the well known coal operator, of Conesville, has been a student at the Ohio Wesleyan University for two years, and during that period he met, wooed and won a dainty little lady, Miss Mame Yeager, of Mt. Vernon. Mr. Davis and Miss Yeager each visited with relatives in Columbus during the holidays and were quietly married. Carefully was the secret guarded until a few days ago when mislaid mail revealed the circumstances.

Mrs. Davis has resided with her sister in Columbus since the wedding while Mr. Davis attended to his school duties as usual. Mr. Davis and his bride will soon take up their residence at Conesville where he will act as assistant manager of his father's coal interests.

The announcement of the marriage of Miss Yeager will be a pleasant little surprise to her friends in this city. She is a popular young lady here where she has made her home since the death of her parents. She attended Mrs. R. C. Curtis' private school on Mansfield avenue, and lived with her grandfather, Mr. Thomas Trick. Her brother, Gail, makes his home with Mr. Harry Boyle, of Curtis street.

# A RAILROAD ROMANCE.

Vaughan Kester's New Book Will Be Issued in June.

Messrs. Harper & Brothers have secured for the July issue of their American Contemporary Novels series a first book by a new writer of unusual and striking importance. The Manager of the B. & A., by Vaughan Kester, is said to be a remarkable performance for a first work of fiction by a young writer. It is also refreshing to learn that this novel is more concerned with the romance of business than with the pale sentimentality that takes the place of genuine passion in so much of the fiction of today.

Mr. Kester contributed a short story called, The Mills of the Little Tin Gods, to the Cosmopolitan about three years ago, which attracted marked attention at the time, and evoked comment from more than one eminent critic. There was an indication in that story that Mr. Kester "sensed," so to speak, the atmosphere of business life as few have done it, and there was the promise that if he developed this peculiar sensibility he would achieve something in a field which today presents, in our country at least, one of the most fruitful for the young novelist.

The Manager of the B. & A. is said to be a further evidence of Mr. Kester's power in the right direction. The scene of the story is laid in a little town in the lumber region of Michigan, and the hero is the manager of a small branch railroad which is on the verge of bankruptcy when he takes charge of it. The plot of the story is original, and situation follows situation in rapid succession in the trying experiences which the manager of the B. & A. has to undergo in his efforts to build up the road, and incidentally to triumph in his wooing.—Literary notes, Cosmopolitan magazine.

## A CARD.

Lake Hiawatha park will open May 30, and I take this method of informing the patrons as to the policy of the auditorium theatre for the ensuing season. The attractions will be along the lines recently adopted by all first-class amusement resorts in New York. In place of a continuous season of vaudeville, our season will consist of opera, minstrel and stock companies. All of recognized ability. The following well known attractions have been secured: The Tommy Shearer Stock company, Burnham's Stock company, Herald Square Opera company, Rolinson Comic Opera company, Harry Ward's and Barlow Bro's Minstrels. The opera and stock companies will produce all the latest metropolitan successes, giving changes of performances from two to three times per week, and using all their own special scenery, electrical and calcium effects, of which each company carries a car-load. Owing to the smallness of the Woodward theatre stage it has been an utter impossibility to give a large scenic attraction a successful production. At the Auditorium theatre the stage is large enough to produce any large attraction, and it will be your good fortune for the first time in the history of Mt. Vernon to witness a production given entirely in the same manner as at any of the Columbus theatres.

Later in the season the Rolinson Comic Opera company with 40 people and 20 in the chorus will produce some of the latest and best comic operas. Notwithstanding the heavy expense incurred in securing this class of attractions the prevailing prices will be but 10 and 20 cents. Realizing that success can only be assured with your hearty co-operation, I respectfully invite your patronage for the coming season.

JNO. D. TORREY, Manager.

# REVISION

## Of the Creed by the Presbyterian

## General Assembly is Attracting

## Considerable Attention Among Church

## Members of That Faith in This City.

There is a Pratty General Sentiment That There Should be a Change—Minority Favor a Revision.

The Presbyterian general assembly at Philadelphia is wrestling with the question of a revision of the creed. A special from that city gives the following:

The votes show that 63 Presbyteries favor some revision of the confession of faith and 68 Presbyteries favor some form of a supplemental statement of the doctrine most surely believed among us.

After the patient consideration given to this important subject, thus recorded, and after a protracted but harmonious discussion of the subject in all its bearings, and in its possible issues, it was determined to submit to the general assembly to convene in Philadelphia, May 16, 1901, the following findings and recommendations, viz:

1. That the returns indicate that the church desires some change in its credal statement.

2. That the returns indicate that no change is desired which would in any way impair the integrity of the system of doctrine contained in the confession of faith.

3. These returns indicate that it is the mind of the church that the confession shall be interpreted throughout in harmony with the teaching of Scripture that God is not willing that any one should perish, nor is the decree of God, but the wickedness of their own hearts which shuts some men out from the salvation freely and lovingly offered in Christ Jesus to all sinners.

4. These returns indicate that a plurality of the presbyteries desire that changes should be made by some new statement of present doctrines.

5. The returns also indicate a desire on the part of many presbyteries for some revision of the present confession, especially in chapter III, section X, section 3, chapter XVI, section 7, chapter XXII, section 3, chapter XXV, section 6, with additional statements concerning the love of God for all men, missions and the Holy Spirit.

A. In view of these facts we recommend that a committee be provided for by the form of government, chapter XXIII, section 3, be appointed by this assembly.

B. We recommend that this committee be instructed to prepare a brief summary of the reformed faith bearing the same relation to the confession which the shorter catechism bears to the larger catechism, and formed on the general model of the consensus creed prepared for the assembly of 1892, or the "articles of faith" of the Presbyterian church of England, both of which documents are appended to the committee's report and submitted to the assembly to be referred to the committee that may be appointed.

This summary is not to be substituted for the confession, and is not to affect the terms of subscription, but "to vindicate and clear the doctrines of the church from all false aspersions and misconceptions," to give a better understanding of what is most surely believed among us, and is in no sense to impair but rather to manifest and maintain the integrity of the reformed faith.

C. We further recommend that this committee be instructed to prepare amendments of chapter III, section X, section 3, chapter XVI, section 7, chapter XXII,

section 3, and chapter XXV, section 6, of our confession of faith, either by modifications of the text or by the declaratory statement, so as more clearly to express the mind of the church with additional statements concerning the love of God for all men, missions and the Holy Spirit. It being understood that the revision shall in no way impair the integrity of the system of doctrine set forth in our confession and taught in the holy scripture.

## BLURRING...

There are some cases of defective vision in which the only symptom is occasional blurring. There is no pain, no fatigue, no headache. The sight seems to be perfectly good, but every now and then everything gets dim and hazy. It is necessary to close or rub the eyes a moment before objects are clear again. This symptom is always an indication that glasses are needed. The eyes have more than they can do. The muscles simply give up the effort and rest. They refuse to do the work without occasional pauses. When they take this rest the eyes are out of focus and objects are indistinct. There is nothing so injurious as forcing the eyes in this way. Nature is calling for help every time the blur appears. If you will answer this call at once you will very likely only require glasses in reading or sewing. If you let it go too long, you will have to wear them constantly. Let us test your eyes in time.

General MacArthur Released a Large Number of Filipinos.

**DUPLICITY OF A 'NATIVE OFFICIAL'**

Attempt Will Be Made by General Trias to Induce Bellarmino, Filipino Leader in Albay Province, to Surrender.

Manilla, May 21.—General MacArthur celebrated the surrenders of the Filipino Generals Mascardo and Lacuna by releasing 1,000 Filipino prisoners. General Moxica, the native chief on the island of Leyte, surrendered with 20 men, the remnant of his command.

The president of the island of Lubang, which lies northwest of the island of Mindoro, has been arrested and brought to Cavite, charged with being an accomplice of the Filipinos. General Trias has started on his visit to the native leader, Bellarmino, who is operating in the province of Albay, in Southern Luzon. Trias will try to induce Bellarmino to surrender.

**Hospital For Consumptives.**

Washington, May 21.—The latest reports concerning the hospital for consumptives, which was instituted under the direction of Surgeon General Sternberg of the army at Fort Bayard, N. M., about a year ago, show that there are 149 patients undergoing treatment there. This is the only establishment of its kind in the country devoted to military and ex-military patients. A number of patients so closely approached complete recovery that they were discharged and sent back to their duties, and a majority have shown marked improvement. While the hospital is for the use of the army, discharged soldiers are kept on the rolls of the institution and may continue to take the treatment as long as they desire. Of the 149 patients mentioned 64 are soldiers who have been discharged from army.

**American Soldiers Attacked.**

Manilla, May 21.—It is unofficially reported that a body of Filipinos under Angeles attacked a detachment of American troops, supposed to be of the Twenty-seventh regiment, near Pasaco, in South Camarines province, killing two soldiers and one native scout and taking one soldier prisoner. The Filipinos are still in possession of the mining town of Paracole, North Camarines. The nearest troops are at Indan, 30 miles away.

**A Name Twice Made Famous, Now a Shining Mark for Imitators.**

The name "Chase," twice made famous, is a shining mark for the unscrupulous to pounce upon and appropriate in order to foist upon the public their worthless preparations. These birds of prey, by using the name Chase, expect the public to be fooled into believing they are the medicines of Dr. A. W. Chase, who first became noted as the author of the world famous Dr. Chase's Recipe Book and family physician, and whose fame is now doubly increased by the wonderful success of his Nerve Pills, with Nerve, Brain and Blood troubles. They play upon the name Chase, but dare not use the initials "A. W."

They imitate, but dare not counterfeit the portrait and signature of Dr. A. W. Chase, which identifies the Nerve Pills now recognized as infallible for building up pale, weak, thin-blooded, nerve exhausted sufferers.

Who are nerve-tired and brain-weary.  
Who are easily exhausted.  
Who are wakeful—cannot sleep.  
Who have nervous headache.  
They remove the cause of blood impurities, securing refreshing sleep and impart strength.  
They build up people who find their strength and vigor waning.  
They settle irritated nerves, replace languor and lassitude with energy and animation. Cure Nervous Dyspepsia.

**CAUTION.**—The protection to the public in securing the genuine and original Dr. A. W. Chase preparation is in seeing the portrait and signature of A. W. Chase, M. D., is on each box. These and these only are the genuine. Do not be satisfied with anything bearing the name "Chase" without the initials A. W. 50 cts. of Druggists or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

**The School Girl**

School days are danger days for American girls. Often physical collapse follows, and it takes years to recover the lost vitality. Sometimes it is never recovered.

Perhaps she is not over-careful about keeping her feet dry; through carelessness in this respect the monthly sickness is usually rendered very severe.

Then begin ailments which should be removed at once, or they will produce constant suffering. Headache, faintness, slight vertigo, pains in the back and loins, irregularity, loss of sleep and appetite, a tendency to avoid the society of others are symptoms all indicating that woman's arch-enemy is at hand.

This need not be so if mothers would have a thought for the physical condition of their daughters, and see to it that they have proper assistance.

Lydia E. Pinkham's Vegetable Compound has helped many a young girl over this critical period. With it they have gone through their trials with courage and safety. With its proper use the young girl is safe from the peculiar dangers of school years and prepared for hearty womanhood.

**Mrs. Camp writes about her Daughter's Health.**

"DEAR MRS. PINKHAM—I write to tell you about my daughter. She is nineteen years old and is flowing all the time, and has been for about three months. The doctor does her very little good, if any. I thought I would have her try Lydia E. Pinkham's Vegetable Compound, but I want your advice before she begins its use. I have become very much alarmed about her, as she is getting weak. I am so anxious for her to get well."—MRS. MATILDA A. CAMP, Manchester Mill, Macon, Ga.

**Here is Her Second Letter.**

"DEAR MRS. PINKHAM—It gives me great pleasure to tell you of the benefit my daughter has received from Lydia E. Pinkham's Vegetable Compound. She was in a very low state; the doctor did her no good. After beginning the use of your medicine she began to mend, and is now able to be at her work. I feel very thankful to you, and expect always to keep your Vegetable Compound in my house. It is the best medicine I ever knew. You have my permission to publish this letter, if you wish. It may be the means of doing others good."—MRS. MATILDA A. CAMP, Manchester Mill, Macon, Ga.
