Twenty-Two Ships Sent To Bottom Or Captured

Mussian Government Determined To Prosecute The War Markley was caught in these failures, To The Bitter End---Speculation Rife Concerning Rojestvensky's Fate

Washington, May 31. - The official apanese report on the latest details of the great naval battle in the Koean straits is made in a cablegram received by the Japanese legation here from the foreign office at Tokyo, conveying Admiral Togo's latest disbatches. The report says that Adniral Rojestvensky and another admiral and staff officers were taken prisoners on the sinking of Rojestvensky's flagship, the Kniaz Souvaroff, Saturday night. The total number of Yessels lost to the Russians, according to Admiral Togo, now reaches 22, and adds that, although the full particulars are not yet in, none of the Japanese ships were seriously injured, and the loss to the first division of the Japanese fleet was over 400. The report says that the armored cruiser Dmitri Donskoi is aground on Urleung sland; that the battleships Oslobia, already admitted by the Russian ad-hiralty, and the Navarin, were sunk; that the battleship Sissoi Veliky went to the bottom Sunday morning; that the coast defense ship Admiral Oushakoff was sunk after a vigorous purbuit, her crew being rescued, and lives other details as to vessels sunk or disabled. The Japanese Admiral Misu was slightly wounded.

Count Cassini's Statement. Count Cassini, the Russian ambasador, strongly discourages any hope of an early peace. He says: "Perhaps after Liaoyang there was a possibility of peace. I will not say there was not an idea of peace at that time in certain quarters, but now, after this crushing defeat? Never. The Japanese talk of indemnity. Russia can better use this money in the building of another fleet. Certainly this is not the time when Russia can afford to take up the question of peace."

It is this apparent determination of Russia to continue in the face of disastrous defeats on land and sea which discourages the Washington government at this time from taking any Positive steps toward offering assistance to the belligerents in coming to an understanding. It is believed here, however, that when Russia through her own agents has learned the full extent of her losses, she may be approached regarding peace with some hope that overtures will be welcomed. It is such an opportunity for which this government is watching.

ancy news of the outcome of the naval battle, which it is realized will be the signal for the opening of a land combat. Everything indicates that the Japanese are ready to strike a blow, and are only waiting in case the issue at sea is decided unfavorably to them. Following their former tactics, the Japanese are massing heavy artillery in their center in order to liberate a main striking force for action on the flanks. A brisk southwest wind is rapidly drying the roads, but the barometer is very low. Alarmed at General Mistchenko's raid, the Japanese are hastily fortifying Sinmintin.

Peace Remote. London, May 31.—In Russian official circles here it is considered far too early to discuss the question of peace. The Russian government must first learn the effect of the defeat on the whole Russian people, and even then it might have an entirely different effect in Russia. The leaders of the Russian colony in London are eagerly awaiting official news from St. Petersburg, scarcely any information having yet reached the English papers from the Russian capital. The officials of the Japanese legation still contend that the first signs of willingness for

peace must come from Russia. Cruiser Gromoboi Blown Up?

London, May 31.—The Tokyo correspondent of the Daily Express reports that the cruiser Gromoboi of the Vladivostok squadron, with nearly 800 men on board, issued from Vladivostok in the hape of joining the remnant of Rojestversky's fleet, and that it struck a Japanese mine and sunk Skrydloff was en board the Gromoboi.

Rojestvensky at Vladivostok. London, May 31. - The St. Petersburg correspondent of the Standard asserts that Madame Rojestvensky, wife of the commander of the Russian fleet, has received a telegram from Vladivostok signed by her husband, saying that he had arrived there on board the cruiser Almaz and that he was severely wounded in the neck, back and abdomen.

Togo's Latest:

Tokyo, May 31.—Admiral Togo has wired Admiral Yamagato, minister of the navy, as follows: "The main force of the Russian second and third fleets is nearly annihilated. Please feel as-

STRIKE IS EXTENDED IN CITY OF CHICAGO

Chicago, May 31.-Indications now point to an extension of the Chicago teamsters' strike. In addition to the dirt and rock. with all hands. The correspondent lumber teamsters, who are now out, says it is believed that Vice Admiral there will in all probability be a strike of all the men employed by 35 sask and door factories, as those concerns have announced that they will commence making deliveries to boycotted houses. Application has been made by them to the offices of the Employers' Teaming company for 225 drivers, and they will be sent into the lumber district. It is expected the extension of the strike will cause more rioting in that part of the city. The police declare, however, that they are abundantly able to handle the situation. A break in the ranks of the Team Owners' association has occurred. The members of this organization have throughout the strike acted more in favor of the teamsters than they have as allies of the employers' association, and have for the greater part refused to make deliveries to boycotted houses. The Weaver Coal company, one of the largest concerns in the city, has announced it will make deliveries to all boycotted houses. The firm employs 50 drivers and it is expected that they will all walk out.

There were several rumors of peace negotiations, but none of them amounted to anything. The executive council of the teamsters is reported to be divided on the question of submitting the question of calling off the strike to referendum vote of all the hood of Teamsters throughout the country. President Shea and two members of the council are opposed. to the plan; five members of the council are said to be in favor of the referendum vote.

Officers And Men Witnessed The Sinking Of Several Russian Vessels---Mikado's Torpedo Flotilla In Thick Of The Fray

St. Petersburg, May 31.-A dispatch from Vladivostok says:

Two ships of Vice Admiral Rojestvensky's fleet, the cruiser Almaz and leaving the deck officers and many of the torpedo-boat destroyer Grozny, lie the crew struggling in the waves. One at anchorhere in the harbor of Golden of the Russian torpedo boats, either Horn, they having separated from the the destroyer Buiny or the Bravi, ran fleet in the early stage of the battle, in and picked up a number of the which began in the Korea strait Sunday, and headed in obedience to orders with full speed to Vladivostok. Officers of the Almaz and Grozny say that both fleets had already sustained terrible losses when the Almaz and and one of her smokestacks is pierced Grozny broke through the hostile line. Of the Japanese two battleships had though engaged for several hours in gone down before their eyes, and two cruisers, their sterns high out of the large Japanese destroyer, shows no water, seemed ready to plunge foremost to the bottom of the strait. The Russian squadron, they say, was even in a sadder plight. Rojestvensky's flagship, the Kniaz Souvaroff, and her sister ship, the Borodino, and the cruisers Osliabia and Orel, were utterly destroyed, and when the fog closed down and hid the scene of bat tle from sight northward of the speed ing ships, a third great Russian battleship, the Alexander III, seemed in sore distress, but limping northward, putting up a valiant fight against swarms of torpedo boats and still con-tinuing her attacks on the cruisers of the island empire. Torpedo boats were also clinging round the other ships of the fleet like angered wasps separate flotillas darting in again and again to launch their weapons.

According to the officers of the Al maz the fleet under Rojestvensky met the Japanese in the straits of Korea, near Tsu island, and the opposing fleets immediately closed in. Being lightly armored, the Almaz, as had been ordered by Admiral Rojestvensky before the battle, separated itself tunity and headed for Vladivostok soon after the commencement of the action, but not too soon to observe that the losses on both sides in the Titanic combat were great.

Early in the battle an officer of the Almaz, while watching Rojestvensky's flagship, the battleship Kniaz Souvar off, for a signal, saw the flagship shudder from stem to stern as if under a blow from a gigantic hammer and hesitate in her course, while the waves rose high from her armored sides. Then she commenced to list and sink. The officers believe that the debut of the submarine boat as an effective agent in naval warfare, or perhaps a large mine, caused the disaster to the Kniaz Souvaroff. The the head back and chest.

damage, however, was so extensive that the flagship soon went down, swimmers, one of whom was recognized through a glass as Admiral Rojestvensky.

The Almaz bears scars of the battle Her mizzenmast is shot away and by a cannon shot. But the Grozny, a running fight at short range with a signs of the fray. After her commander, Captain Andriffski, had been wounded and an officer and three men had been killed, the Grozny succeeded in sinking her opponent with a luckily placed shot and reached Vladivostok without further adventure.

Russian Version.

St. Petersburg, May 31. - The dispatch received by the emperor from Vladivostok containing details of the battle in the straits of Korea announced heavy losses, according to which the squadron commanded by Rear Admiral Nebogatoff was attacked by a swarm of torpedo boats and all the ships were either sunk or captured. The main squadron, commanded by Admiral Rojestvensky, was attacked by Admiral Togo, and lost two ships. The others broke through Rojestvensky, it is reported, then sent his fast light cruisers ahead, the heavier fighting ships remaining behind. They were attacked by Vice Admiral Kamimura.

New York, May 31, - In a stirring ject of patriotism. The governor said address delivered at the unveiling of | that England was sadly lacking in eda big statue of General H. W. Slocum in Brooklyn, President Roosevelt paid a splendid tribute to the men who composed the northern armies, but did not forget those of the southern hosts. Most notable in his speech was an expression of his hope that as the nation increased in strength there would come a corresponding increase in its sense of responsibility which should prevent its people from either injuring or insulting other people; his declaration that the surest way for a nation to invite disaster is to be opulent, aggressive and unarmed. He urged the upbuilding of the navy. A first-class navy he held the surest and cheapest guarantee of peace.

vices Passes Away At His Home Monday

Death brought to a close the career of Isaac C. Errett, clerk of the board of public service, Monday afternoon at 3:20 o'clock. The direct cause of the death was anaemia, brought on from the grip, from which Mr. Errett suffered during the winter months.

Mr. Errett was born in Pittsburg, with his parents to Ohio in the fall of 1855, and settled on a farm in eastern Knox county, near Monroe Mills. The family moved to Mt. Vernon in the year 1862. increased by the Eight-Hour Decision. Taft's Statement.

Washington, May 31. - In view of the announced decision of the isthmian canal commission to enforce the eight-hour law on the canal work after June 1. Secretary Taft stated the grounds on which Attorney General Moody had reached his decision on that important matter. It was to the effect that as the work of canal construction, regardless of place, was being done by government labor, the eight-hour law must apply. It is said that the contract providing for the employment of coolie labor was held up pending this decision, and will not be signed until Engineer Wallace has succeeded in reaching some agreement with the employers of the coolie labor to adjust the scale of labor prices to the eight-hour decision. It is stated that the operation of this law will largely increase the expenses of canal building, and Secretary Taft has called upon Engineer Wallace for a close estimate of the additional expense for the information of congress. Acne, Tetter Eczema Salt Rheum Ierrors Psoriasis Nettle Rash

An itching, burning skin disease during the hot, sultry summer weather, is a positive terror and a veritable demon of discomfort. The intolerable itching and stinging are tantalizing almost beyond endurance, and the unsightly eruption and rough, red skin keep one thoroughly uncomfortable and miserable night and day. Eczema, Tetter, and diseases of this type are caused by acid poisons in the blood, which the heat of summer seems to warm into life and renewed activity. These fiery acids keep the blood in a riotous and sour condition, and the skin unhealthy and feverish—they inflame the pores and retard perspira tion, when the whole body feels like an over-heated furnace, and the escaping poison burns THE ITCHING WAS TERRIBLE.
