The manufacturers refused to sign a scale, but gave a verbal assurance that the scale as presented by

the union, including the advance from \$3.20 to \$3.30 for the minimum day's wages, would be adhered to for the present. ## SCIENTIST ON THE CARPET WIFE ALSO IMPLICATED

Washington, July 28.—In a hearing at the department of agriculture, at which Secretary Wilson, Assistant Secretary Hayes, Professor B. T. Gallows, chief of the bureau of Plant Industry, George T. Moore of that bureau and two representatives of an agricultural publication were present, the last two named made charges that the wife of one of the scientists in the bureau of plant industry owned a block of stock in an eastern concern manufacturing culture for soil inoculation, while the scientist was preparing and revising bulletins regarding the enrichment of farms and portraying the culture as containing virulent forms of bacteria for making poor land rich. It was alleged that publications revised by the official tended to direct the farmers to a commercial concern supplying the material because of the exhaustion of the supply by the department.

The scientist involved in the allegation admitted that his wife owned the stock; that stock was to come to him in the event that he severed his connection with the department and became the bacteriologist of the concern, but that in the latter part of April he decided to stay with the department and the stock was no longer held in his family. It was also alleged that the culture had been supplied by the department to the concern mentioned in undue quantities, the employee mentioned being charged with shipping 17 pounds in a single day, himself prepaying expenses. It is said that he admitted this and other shipments. The charges are under investigation by the department. Assistant Secretary Hays is making an investigation into the whole question of the value of the culture.

The persons making the charges announce their intention of bringing the matter before the president and the department of justice.

## SITUATION IMPROVED IN FEVER DISTRICT

### It Is The Belief That The Worse Is Now Over

#### Report Shows Twenty-Six New Cases, Cases To Date Two Hundred And Six, Deaths Two And Deaths To Date Forty-Four

New Orleans La., July 28.—The number of new cases of yellow fever reported is 26, deaths 2, cases to date 206, deaths to date 44.

Enough success has already been achieved in the application of the methods applied, to justify the hope that for the first time in the history of the country what threatened to be a malignant epidemic of yellow fever will be stamped out before frost comes, and that New Orleans will be spared the horrors of the epidemics of 1853, 1867 and 1878, and a century ago in New York and Philadelphia.

With the cases last reported the aggregate since July 13 runs close to 200. These are included in 20 to 25 foci, each number one including the section around the French market, where the fever first appeared and where a large proportion of the cases and fatalities have occurred. This section runs from St. Ann to Baracks streets and from Chartres to the river, including about 40 city blocks.

Italians are notoriously prone to avoid physicians, and the fever got a foothold in the district before it became known to the authorities. No precautions were taken to avoid the mosquito, and the scourge spread with such rapidity that out of the cheap and crowded lodging houses the Italians who could get away fled in mortal terror, some going to friends in other sections of the city, some by rail to surrounding towns and some by luggers into settlements along the coast. The result is the appearance of cases of fever in various parts of the city, but principally below Canal street, in the neighborhood of the poorer classes. Six hundred corner groceries and saloons in New Orleans are owned by Italians, and many of these readily gave shelter to their fear-stricken comrades. Almost every instance of a new focus outside of the French market district is that of an Italian who escaped therefrom, or some one of a different nationality whose business was in that section.

There have been ten foci above Canal street traceable to the original, and one in Algiers. The Algiers case was of an American boy, proving fatal, whose employment was in the district.

## EXCITING RUNAWAY

A very exciting runaway occurred on Coshocton avenue Friday morning when one of the horses hitched to McNabb's grocery became frightened and ran away. ## SPECTACLE SWINDLER

**Gets In His Work On A Howard Woman**

**From Whom He Secured Five Dollars For A Pair Of Glasses Not Worth Fifty Cents**

The north bound passenger train on the C. A. & C. R. R. Thursday morning was boarded at Howard by Mrs. Claude Penhorwood, who had an engagement with a man who gave his name as Dr. Dunlap, and who professed to be an experienced oculist and optician, and to whom Mrs. Penhorwood had given five dollars the day before for a pair of steel-frame spectacles that were worth not to exceed fifty cents.

"Dr. Dunlap" had called at her home in Howard and had interested her in spectacles, her vision needing correction. He was a smooth article and after picking out for her just the pair he said she needed, succeeded in getting her to give him \$5 for them. She was not satisfied with the glasses, and the swindler stated that as he was going to Danville on the morning train the next day, and she could get on the train at Howard and ride with him to Danville where he would exchange the glasses for a pair that suited her better.

The swindler kept the \$5 and left the village. Of course he did not go to Danville the next day, and the victim has in her possession a worthless pair of spectacles.

Mrs. Penhorwood described the man as being short and heavy set and wearing a stubby beard. He claimed to have an office in this city at the corner of Main and Front streets.

## MUCH EXCITED

**Are The People Of Plymouth Over Prospects Of Oil Boom**

The people of Plymouth are considerably excited over the prospects of an oil and gas boom in that township. The excitement is caused by the purchase of about 2700 a res of land in the near vicinity of the village, by men, who, it is reported, are representatives of the Standard Oil company. The information is given by a man who endeavored to purchase stock in the company, but was turned down. A number of years ago a well was drilled on what is known as the Noggle farm and after going several hundred feet the operations ceased. The farm was one of the first to be purchased and this leads many to believe that the indications for oil or gas were favorable at that time.—Mansfield Shield.

The resolution was unanimously adopted by a rising vote.

# GROUNDS

May Be Purchased By Directors Of Assembly

Question To Be Discussed At Annual Meeting

A Fine Lecture Given Thursday Evening

The Bird And Dog Entertainment This Evening Promises To Be Very Interesting To Younger Folks

The annual meeting of the board of trustees of the Ohio Baptist assembly will occur next Tuesday and at the meeting the important question of purchasing grounds for the assembly will come up. It is understood that Granville is very anxious to secure the site of the assembly.

Should the board of directors decide to purchase ground the meeting will continue to be held at Lake Hiawatha park for two or three years as the present lease on the grounds does not expire for two or three years.

## FINE LECTURE

One of the most interesting and instructing lectures that has ever been given on the Ohio Baptist program, was the lecture delivered by the Rev. Samuel Clarke Cadman of New York City, Thursday evening at Hiawatha park. Rev. Cadman took for his subject, The Puritan in Two Worlds.

The lecturer lead his hearers through the dark stages of history and showed them what the Puritans were doing and what they had to suffer during that dark period. The pure and Godly spirit of the Puritans was brought to light by Rev. Cadman and the clearly illustrated to his hearers the fact that the Romans, the strangest nation on earth at one time, perished because they knew not the knowledge of God.

## ASSEMBLY NOTES

The two remaining lectures by Dr. Colledge on Saturday evening and Nat M. Brigham on Tuesday evening will maintain the high standard already set.

The price of season tickets will be reduced Saturday morning to \$1.00 for full season tickets, and 75c for evening tickets. Call at Arnold's book store for tickets or buy at park gate.

There was no disappointment in Dr. Cadman's lecture. He fully met the high expectations of the audience. For breadth of grasp and depth of learning the lecture was nothing short of marvelous.

The singing of the Carman brothers adds immensely to the interest and value of the assembly work. It will pay you to be prompt at all sermons and get the inspiration of this beautiful song worship.

Saturday morning closes the work of Dr. Dargan. His studies of the Apostle Paul have led scores into the deeper truths of the writings of this

peerless man of God. Dr. Dargan has wrought himself into many lives while here and will be remembered in great love.

## VAN OVER

Nominated By Democrats For State Senator

And Made A Vigorous Speech Of Acceptance In Which He Defined His Position On Important Matters

The Democratic senatorial convention at Wooster Thursday afternoon was well attended, and while the proceedings were of a formal nature, yet considerable enthusiasm was manifested at several stages.

Senator Lewis B. Houck acted as chairman and Mr. J. S. Schuler of Holmes county was the secretary.

Under the system of rotation, it was Wayne county's turn for the nomination and the name of Francis M. Van Over was presented by John McSweeney, and seconded by the other counties, and the nomination was given the Wayne county man by acclamation.

A committee was appointed to escort the nominee before the convention, and upon his presentation he made a vigorous speech in which he exposed the railroad freight rates discrimination and proposed legislation for its correction. In measured terms he denounced Gov. Herrick for vetoing the appropriation for experiments in agricultural matters and for the spread of agricultural information. Several other vital subjects were discussed and the nominee made plain his position. His telling points were enthusiastically applauded.

Mr. Van Over has been engaged in the business of stock buying and shipping for twenty years and is personally acquainted with a majority of the farmers of Wayne county with whom he has always honorably dealt, and with whom his sympathies largely lie.

The convention endorsed the platform adopted by the Democratic state convention.

Upon roll call the following senatorial committee was appointed:

Holmes—L. G. Barton, N. Stillwell both of Millersburg.

Knox—Lewis B. Houck, Mt. Vernon; John Cunningham, Gambier.

Morrow—T. B. Mateer, Mt. Gilead; H. C. Long, Cardington.

Wayne—Adam Fogle, Orrville; Daniel Beals, West Lebanon.

The committee organized by electing T. B. Mateer chairman and Adam Fogle secretary.

# MOST POPULAR

Of All Summer Drinks Is Chocolate Soda

According To Statements Of Best Informed

Leads All Others In Favor Of The Public

Orange Flower, Carnation Flip, Mollie Taylor And Swizzle Some Of The New Drinks In New York

Chocolate soda is the correct passport these days.

Would you win her favors? Just say chocolate soda and she will do the rest. It's astonishing how the popularity of this particular beverage holds out. From the small boy who calls for "Chawklet," to the fluffy young women who promptly says, "Choc'lat, please," they all have a leaning that way, according to a pretty girl who presides over one of the most popular fizz counters.

"Of course, chocolate soda is most popular with girls," said she. The men take it sometimes, but they are pretty apt to order phosphates. Then they like mint rickeys, too. It's on account of the name, I suppose. Lollypops and glaces and cherry dandies are about equally popular with both.

"Pineapple and strawberry and vanilla are seldom ordered now except by the jays. Old people, though are pretty fond of vanilla."

The rush to the soda fountains begins early. From 9 in the morning till 10 at night the fascinating fiz-z-z and squosh-sh-sh is heard on nearly every street corner.

It's a good thing to hear, no matter what the doctors say, as the W. C. T. U. certainly will agree, for it is doubtful if there is any one thing more potent in their cause than the soda fountain.

Soda water drinking has become popular within a comparatively short period. One need not be so very old to remember the time when the soda fountains were cheap, shabby looking affairs, with two or three flavor spigots and a single siphon. They were small and were made out of cheap streaked marble or a dirty, red tinted granite, and the flavors used were poor chemical imitations of fruit juices. Soda fountains were at first found in the stands of fruit vendors and later they were taken up by the druggists. Then came the improvements and the use of fine marble in the construction of the fountains. Instead of the two or three flavor spigots fountains were built with from 10 to 20 spigots and with two or three siphons on each fountain. They were made attractive with artistic decorations and carving, and in many cases the soda water fountains cost thousands of dollars.

With the improvement in the character of the fountains the proprietors of soft-drink emporiums began to fit them up in an attractive style. Neat and handsome marbled counters were installed, tables were placed in the refectories and provision was made for the patrons to sit down while indulging in their favorite thirst quencher surrounded by all the comforts of home. The attractive bid for patronage had its desired effect, and the improvement in the variety and quality of the refreshment served has made the soda fountain refectories most popular resorts in the estimation of both old and young.

When soda water first became known it was just plain soda, no ice cream about it, just the charged water, with a little druggy flavoring. And that was considered good enough by itself.

Then some one conceived the brilliant idea of adding cream to the drink—not ice cream, mind you, but just plain sweet cream. It hasn't been used much for the last ten years, but it made a delightful drink, much better for a real thirst-quencher as some still think than the ice cream soda.

In those days it was necessary to say when you ordered your drink

whether you wanted it "plain" or "with cream."

But it was a decidedly propitious day for the soda fountain man when some ingenious caterer to the thirsts of mankind introduced the combination of ice cream and soda water. Before the advent of the fountain ice cream served "straight" had been a delectable refreshment. And when soda water first became known it was considered as good enough by itself. But when the two refreshments were combined into one drink it marked the beginning of a prosperous epoch in the soda fountain business, and the popularity of the soda water emporiums took a great bound forward. Then a little later the fruit juices, which succeeded the chemical imitations, were in turn supplanted by the crushed fruit flavors, and with these things to work on as a basis the "mixers" at the temperance bars have evolved many and varied concoctions that appeal delightfully to the palates of the multitudes.

A summer girl who is visiting down East writes home about the new soda water drinks which she has been enthusiastically sampling. Among them are such alluring names as these: Orange Flower, Alaska Snowball, Walnut Sundae, Siberian Freeze, Sunset, Floating Island, Ping Pong, May Bird, Chocolate Bouquet, Don't Care, Fourth of July Fizz, Foxy Grandpa, Hokie-Pokie Glace, Alfonso and Gaston, Bob's Dream, Life Preserver, Morning Dew, Peach Mix, Frou-Frou, Ollie Moore, Mollie Taylor, Champagne Cobbler, Almond Rickey, Claret Glace, Milk Punch, Carnation Flip and Swizzle.

She has tried them all many times and is still doing well.

## DEATH

Of Robert Cassil Occurs In Howard Thursday

The Deceased Was The Only Brother Of Col. Alexander Cassil Of This City

Robert Cassil, one of the most prosperous farmers of Howard, and the only brother of Col. Alexander Cassil of this city, died at four o'clock Thursday afternoon at his home after an illness of about four weeks. The cause of his death was the result of the infirmities of old age.

The deceased was born in Washington county, Pa., June 13, 1818, and came with his father and family to Knox county in March 1834, and settled in Howard township and continued to reside there up until the time of his death. Mr. Cassil was united in marriage in the year 1844, to Miss Sarah Tracey, daughter of the late Col. Tracey. Her death occurred a number of years ago. To this union four children were born two surviving their father, John A. Cassil of Howard and Mrs. Lyman Baker of Monroe township. He is also survived by one brother, Col. Alexander Cassil of Mt. Vernon.

Mr. Cassil was a member of the Christian church, uniting with that denomination in the year 1850. The funeral will occur Saturday afternoon at two o'clock from his late residence, the Rev. Snyder officiating. The interment will be made in the Jelloway cemetery.

## SHERMAN BRIGADE

Will Not Be Held At Hiawatha Park, But At Ashland

The reunion of the Sherman Brigade this year will be held in Ashland for the second time. The reunion will be Tuesday, Wednesday and Thursday, Aug. 29, 30 and 31. It was to have been held in Hiawatha Park in Mt. Vernon but as that park is not used as such this year and Mt. Vernon has no other place that suits the old veterans they decided to come to Ashland again.

Last year the reunion was held on the old fair grounds west of town but this year it will be in the court house park. The Press will be glad to welcome the members of the Brigade back to Ashland and wishes them as good a time as they had last year.—Ashland Press.

# INSURANCE

On Baggage Will Be Sold By The B. & O.

To Protect Passengers From Any Loss

Which They Might Sustain On A Trip

Railroad Company Makes A Contract With The New York Security Co. To Carry The Insurance

[Columbus Dispatch.]

It was announced in Columbus Thursday that the Baltimore and Ohio railroad had entered into a contract with the Baggage Security company, of New York, and will in the near future sell insurance tickets on baggage at all of the ticket offices and stations on the system.

By the arrangement made with Security company baggage may be insured at the time the train ticket is purchased and the passenger protected against loss from any cause from the time he starts on his trip until his return.

The security company assumes liability while the baggage is in transit at stations, in store rooms or hotels and will pay for damage or loss from any cause during the life of the policy. Baggage may be insured for from one to six months, the rates ranging from 25 cents to \$2 per \$100 according to the length of time for which the policy calls. The maximum amount for which the policy calls. The maximum amount for which a piece of baggage can be insured is \$2500.

At the annual convention of the General Baggage Agents' association held at Cleveland this summer baggage insurance was discussed but no definite action taken.

The best feature of the insurance is the protection it gives the passenger while the baggage is being hauled from station to station or is in any place where there is no means of recovering for damage or loss from the responsible parties. Of course the railroad is responsible for the baggage while it is on its train or while bearing checks is lost at the stations of the system, but its responsibility ceases when the baggage leaves the property of the company. Thus a passenger who insures his baggage will be protected from loss or damage not only while the baggage is in transit and at stations but for the entire time that he is on his trip, if his policy calls for that length of time.

Baggage insurance is a new idea and the Baltimore and Ohio is among the first to permit its sale at the

## SCROFULA FROM PARENT TO CHILD

The laws of heredity are invariable and the diseased blood of parents is handed down to children in the form of Scrofula. Being thus deeply rooted nothing can reach the disease but a constitutional remedy. The very foundation of the blood is diseased, and until it is purified and made strong, those who are born with a scrofulous tendency cannot have the blessing of robust health.

Cleveland, O., 132 Brownell St. I inherited Scrofula from my ancestry, and this means, of course, weak, impure blood and a run-down debilitated condition of the system. Treatment of physicians did not do me anything like the good S. S. S. did last winter when I took it. It promotes appetite and digestion, gives strength and energy, builds up the general health in every way, and in addition to being an excellent blood purifier it adds to its success as a remedy for Scrofula. It did more for me than anything I have used, and with pleasure I recommend it. S. S. S. completely cured me of this disgusting disease. MRS. LOUISE COHEN,

S. S. S., the king of blood purifiers, is the medicine that is required, because it cleanses the quality of the blood by cleaning it of all poisons and impurities, building it up and strengthening the entire system. When S. S. S. has restored the blood to a healthy condition and forced out the scrofulous deposits, there is a sure return to health. No remedy has ever been found to equal this great vegetable preparation for the cure of all diseases arising from a diseased or impure blood supply. If you have Scrofula or a tendency that way write us about your case and we will send you a book describing the disease and give, without charge, any medical advice you may need.

## Nervous Women

Their Sufferings Are Usually Due To Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women are nervous?

How often do we hear the expression, "I am so nervous, it seems as if I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman.

Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Showell, of 108 Flatbush Avenue, Brooklyn, N. Y., writes: "I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, backache, headache, loss of appetite. I could not sleep and would walk the floor almost every night."

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me."

"I am a well woman, my nervousness is all gone, and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

### TRAINS COLLIDE

Accident on English Electric Road Results in Many Deaths.

Liverpool, July 28.—An electric express train on the Lancashire and Yorkshire railroad, bound from Liverpool to Southport, collided with an empty stationary train at the Hall Road station, causing the death of 23 persons and the injury of many. The first car of the express, which was crowded, was smashed to pieces, and only six of its occupants escaped. The road was recently given an electric equipment.

### CUT TO THE QUICK.

The list of the Bennington dead now numbers 62, there having been two more deaths.

A movement is on foot among the English residents of the Friendly Islands to force King George to abdicate.

Harry Newhouse, married, aged 35, an employe of the McGarity works, was killed near Louisville, O., by an electric car.

Mattie and Grace Wigner, sisters, aged 15 and 16, were drowned while attempting to ford a creek near Lacygne, Kan.

At Cleveland Judge Taylor of the United States court sustained the ruling of United States commissioners, ordering the deportation of six Chinamen.

Emperor William denies the report that he sought the consent of the czar of Russia to place a prince of the house of Hohenzollern upon the throne of Norway.

James G. Jones, a private of the regular army under arrest for desertion, is to be examined by a board of lunacy. He has been writing love letters to Miss Alice Roosevelt.

Investigating Bennington Disaster.

Washington, July 28.—Rear Admiral Goodrich, commander-in-chief of the Pacific station, arrived at San Diego and already has entered upon an investigation of the Bennington disaster, according to a report which the admiral made by telegraph to the navy department. He announced as the first step that he had appointed a board consisting of Lieutenant Commanders Bartlett and Halstead and Lieutenant Moody of the Chicago to collate and arrange all evidence obtained concerning the explosion on the Bennington. This is preliminary to the convening of a court of inquiry which the admiral will appoint to inquire into all circumstances pertaining to the disaster.

**How to Dose a Dog.**  
A dose of castor oil is as disagreeable as the alling dog as to the alling human being. He kicks against it, add does right, when he is grabbed by the back of the neck, and with his jaws yanked apart with a towel awaits the nasty dose. This is poured down his neck on the outside. It is usually followed by a few more doses, all of which go the same way, which is the wrong way. The jaws are in a vise, the dog is in torture, and he is ready to condemn his very best friend for thus treating him shabbily. If they only were sensible enough to know how any dog, from the meanest cur to the bluest blooded canine on earth, was in the habit of taking his oil, it would be different, but they are all at sea on the subject, and poor doggie is about dead when a friend utters:  
"Hump! All chumps on dogs, I see. Pour the stuff over the poor fellow's paws."  
Lo, and behold! The wise few who thought they knew all about dogs and dog things learned something to their credit when they saw how carefully Towser licked his paws, cleaned them, and thus took his oil without fuss and in the proper way.—Outing.

### Low Rate Excursion To Atlantic City, N. J. And Other Seaside Resorts Via The Baltimore & Ohio Railroad

In order to give its patrons an opportunity to visit the seashore at a nominal cost, the Baltimore & Ohio Railroad company will sell low-rate excursion tickets to Atlantic City, Cape May and Sea Isle City, N. J., and Ocean City, Md., on Thursday, August 10, 1905.

Atlantic City, N. J., the most popular of the hundred or more resorts along the Atlantic Coast, is pronounced the finest watering place in the world. This great American Seashore Resort has kept pace with the times and prospers. The hotels have grown in number and size. Prosperity and popularity are with it.

The surf bathing which has made Atlantic City famous is one of the wonders of the world. The sight during bathing hours defies description; men, women and children in bathing costumes of varied hues form a picture to be seen only at Atlantic City.

Aside from the seaside features, Atlantic City has amusements of every kind. Great iron piers extend hundreds of feet into the ocean. Each pier has its summer theater and band stands, and for a nominal price one can enjoy the comfortable chairs of the pier and listen to the music of the bands throughout the entire day, if he so wills it.

The proximity of Atlantic City to all the big central and western cities, by reason of the excellent through train service of the Baltimore & Ohio Railroad, makes it the resort of the masses.

Tickets will be available on all regular trains, and will be good for return twelve days, including date of sale, thus giving ample time for an enjoyable outing. Stop-over within limit of ticket will be allowed at Philadelphia, Pa., Baltimore and Washington, D. C., on return trip.

For further information call on or address nearest Baltimore & Ohio ticket agent, or B. N. Austin, General Passenger Agent, Chicago, Ill.

### Wonderful Scenic Trip Across Rocky Mountains to Oregon Exposition

In certain respects the excursions to the Lewis and Clark Centennial Exposition, Portland, Oregon, via C. A. & C. railway beginning May 23d and continuing through the summer, offer advantages never before presented to Exposition visitors. The trip to the Oregon Exposition, in addition to the attractiveness of the extensive exhibits, includes the journey through the scenic wonderland of the Rocky Mountains and the Cascade Range, and what American has not looked forward from the days of the geography class in school to the time when those great sights should be seen in reality? The time was never so favorable as now. The trip may be made less expensively than ever. For only a slight difference in fare tourists may extend their trip to San Francisco and Los Angeles. The return trip may be made over a different route, enabling travelers to view much more of the West. For full particulars, fares, dates of special excursions to Portland on account of Conventions, through time and passenger service apply to ticket agents of C., A. & C. Ry.

### CONSIDER THIS OUTING

To Famous Seashore Resorts, In Planning Your Vacation

By far the most attractive trip for health and pleasure the coming vacation season is that offered by the Seashore excursion Thursday, August 17th, over the C., A. & C. to Atlantic City, Cape May and seven other famous summer havens on the Atlantic Coast.

The fast through trains over the C., A. & C. take passengers in a few hours out of the heat and humidity of summer to the cool breezes of old ocean. The mid-August excursion occurs in the season for rest when it is just most convenient to leave business. Excursionists have the added pleasure of seeing Atlantic City when it is in full tide of the fashionable season. The greatest representative gatherings ever known at any resort are seen at Atlantic City. As many as 50,000 people at one time promenade the famous boardwalk. The fashionable bathing hours present an unparalleled scene—fully 100,000 bathers in the sea and on the beach.

The healthful effect of the seashore trip is due to the salt and pine air. So beneficial has this proved that physicians send their patients there to get the benefit of breathing the pure ocean air. Special low fares will be in effect for this Seashore excursion. Full information will be freely given by local ticket agents of the C., A. & C.
