The spectacular feature of the day was the parade, which passed through the main streets of the town and past the boyhood home of General Sheridan. Hon. H. A. Axline of Columbus was grand marshal. Four companies of state militia, veterans of the Grand Army and civic societies composed

DEAD IN A HOTEL

Are Found a Man and Woman, Indicating Murder and Suicide.

New York, Nov. 2.—A man and woman whose identity the police are endeavoring to establish were found dead in a hotel in Lexington avenue. The room was full of gas and all the crevices of the doors and windows were stuffed with paper. From the fact that the woman's jaw was broken and her body was covered with red and white marks, the police are disposed to believe that she was killed by the man, who afterward committed suicide by turning on the gas. The couple registered at the hotel as "Mr. and Mrs. Johnson." The sounds of a struggle were heard in the room, but no attention was paid to this. Some hours later the odor of gas was noticed and the door of the room was forced, when the bodies were discovered.

The court did reduce the bail, however, by \$12,700, leaving the total at \$88,300. Daugherty appeared in court for the first time since his incarceration. The reduction of bail did not release Daugherty, as his attorney announced that he was unable to give it. He was returned immediately to prison.

Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctor to operate on his wife, for female trouble, "instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by G. R. Baker & Son Mt. Vernon, & F. F. Hosack Fredericktown, drug-gist, price 50c.

SUSPECT IN A CASE TAKEN TO A HOSPITAL

Boston, Nov. 2.—Morris Nathan, the young man who for several days has been the central figure in the investigation of the death of Susan A. Geary, the dress suit case victim, arrived here from Pittsburg, but he was so weak that the police decided to take him to the city hospital. The officers had planned to have Nathan arraigned in the municipal court on a charge of procuring an illegal operation. The young man was on the verge of collapse throughout the journey from Pittsburg, and when he finally reached police headquarters what little nervous energy remained left him completely. A physician was called and administered vigorous treatment. His counsel, Jesse M. Gove and Henry Siskind, stated that no attempt would be made to procure bail until after Nathan had been arraigned.

Inspector W. J. McGarr of the Boston bureau of criminal investigation is expected here from Pittsburg. It was said that Rita Marie and Eleanor Barron, the two chorus girls who accompanied Nathan and Miss Geary to the subway station in Boston on the night of Sept. 9, admitted after long cross-examination that they overheard Nathan advise Miss Geary on that occasion to go to a Mrs. Dr. Bishop on Tremont street for treatment. Inspector McGarr while at Pittsburg sent a telegram to the Boston authorities immediately after the examination.

He is also charged with issuing worthless checks about the time of the murder, and a reward of \$1,000 recently was offered for his arrest on the charge of grand larceny. JEWS ARE THE VICTIMS OF MANY ANGRY MOBS

Stores Looted And Torch Applied To Jewish Property

Cossacks Charge Into The Crowds And Hundreds Are Killed Or Wounded In Conflicts In The Provinces-- Reign Of Terror Begun

St. Petersburg, Nov. 2.—Nominally for the purpose of perfecting their organization and gathering funds, the strike committee decided to call off the St. Petersburg industrial strike at noon Friday next, but to resume it at an opportune moment. The St. Petersburg railroad men have resolved to continue their strike, declaring they have assurances that the soldiers of the railroad battalion will desert if a little persuasion in the shape of train wrecking is employed. No newspapers appear. The printers have determined to work only for the journals which refused to submit themselves to censorship regulations. The publishers' arbitration committee has met this determination by resolving to disregard hereafter all circulars issued by the censors and to print what they please.

The most serious rioting of the day occurred at Odessa, where hundreds of persons are reported to have been killed or wounded and where rioting is momentarily expected to flare out in a repetition of the slaughter of last July, and at Kazan, where a three-days' reign of terror was ended only by the retirement of all Cossacks to their barracks.

A deplorable feature of the news from the interior is that anti-Jewish uprisings have occurred in many places, especially in south Russia, where the population vented its hatred of the Jews by sacking their stores and clubbing the members of the race, in some cases resorting to the torch. The attacks on the crowds are reported to be in many cases the work of Cossacks, who many times were apparently let loose on the people without warrant or authority. In the capital city, General Treppoff prevented the resumption of revolutionary demonstrations by having the crowds dispersed whenever and wherever they gathered. Kazan place and the Nevsky prospect were several times cleared by Cossacks and police and the crowds were driven from the vicinity of the university.

Count Witte is doing his utmost to meet the chief objections against the new regime. In addition to the promised amnesty for political prisoners, liberty of the press has been granted, Count Witte offering to a deputation of editors who called on him to demand the abolition of the censorship regulation the amusing explanation that in the hurry of writing the manifesto the words "liberty of the press" were inadvertently omitted, and that

the omission had not been noticed until the complaint was made.

Against the demand for the removal of General Treppoff, Count Witte, however, is inflexible. He informed a delegation from the strike committee which called on him to demand the release of their imprisoned comrades and the removal of General Treppoff, that it would be madness for him to dismiss the only man capable of maintaining order in the city at the present juncture.

IN POLAND.

Bloody Encounters Occur Between Mobs and Troops.

Warsaw, Nov. 2.—Twenty persons were killed and nearly 100 wounded in the encounters between the mobs and the troops. A large crowd gathered before the town hall and demanded the release of political prisoners. The chief of police liberated 300 who had been arrested during the last few days, but refused to release 12 who were arrested by order of the central government. The crowd then commenced to smash the doors and windows of the town hall, whereupon the chief of police telephoned the barracks for assistance, and a force of Hussars and Cossacks with a battery of artillery galloped to the scene. The Hussars charged the mobs, killing 10 persons and wounding 73. Later there was an encounter between infantry and a mob in the bank square, when the troops fired on the crowd, killing four and wounding 30.

Grave Situation In Finland.

Helsingfors, Nov. 2.—From public buildings fly the red flag and the Finnish national ensign. The police department is in the hands of the national guard, part of which has been armed by the Russian authorities. Thousands of reinforcements are reported to be marching from Thushy camp, 15 miles away. Up to the present all is quiet and order prevails, but a conflict is not improbable. The city is crowded with outsiders, and numerous meetings are being held for the further discussion of the situation. The senate, believing that tranquility can not be maintained until the full legal order of things is established, resolved that the emperor should be requested to summon the diet, to repeal the dictatorship and to grant other reforms. The movement for freedom is spreading throughout Finland. The general strike continues.

CASHIER LEFT A NOTE BEFORE HE SUICIDED

Pittsburg, Nov. 2.—A few hours before he killed himself, T. Lee Clark, cashier of the Enterprise National bank of Allegheny, wrote the following note to his wife: "In ten hours or less I will be in the other world. You have been a dear, good wife to me. Andrews has worked my ruin. Dear wife, keep all the insurance for yourself and babies. How hard it is to leave you all! I have made a desperate effort to keep things going until I would get the road financed, but it has been too slow. The examiner is here and I am ruined. I have been shamefully robbed. The bank will get everything but the life insurance. Your husband, Lee."

Lee Clark, the deceased cashier, was treasurer of the Santa Fe Central railroad, of which W. H. Andrews was president. This road is in New Mexico, and is about 117 miles long, running from Santa Fe to Torrance, with a branch now projected to Albuquerque. The road connects at Santa Fe with the Denver and Rio Grande, at Kennedy with the Atchison, Topeka

and Santa Fe and at Torrance with the El Paso and Northeastern system.

Whaling Vessels Locked In Ice.

San Francisco, Nov. 2.—Eleven whaling vessels, comprising almost the entire fleet which sailed from this city, have been caught in the Arctic ocean. They will not be able to get out until next July or August, and in the meantime their crews of 440 men must face the hardships of a winter in the north. This startling news is conveyed in a telegram to Lewis Anderson and Ford & Company of this city. The telegram comes from Captain H. H. Bodfish of the steamer William Baylies, and states that only this vessel and the schooner Monterey were able to escape.

Dan Patch's Mile.

Memphis, Tenn., Nov. 2.—Dan Patch attempted to beat Star Pointer's racing record of 1:59 1/4 without a windmill at the local track. The black pacer, accompanied by two runners, negotiated the mile in two minutes flat.

A Lawyer Needed, Not A Copyist

Too much stress cannot be laid on the importance of electing an experienced lawyer to the office of probate judge. This point is practically admitted by the Mt. Vernon Republican when it speaks of Howard Gates having studied law.

How much, if any, has Howard Gates studied law? How well versed is he in the fundamental principles of the law, and is he capable of logically analyzing the many intricate legal problems that are now-days presented to the probate court for judicial determination? In order to be qualified to fill the office of probate judge, something more is called for than a smattering knowledge obtained by a precarious reading at odd times. It requires a constant application as a student for several years before a man can be admitted to the bar, and then his work of qualification for the office of probate judge has only begun. He must have the experience which the practice gives.

Under the above circumstances, which must be admitted, will any person pretend to claim that Howard Gates, who has been simply a deputy clerk in the probate judge's office and whose duties have been only those of a copyist, possesses the proper qualifications for the office?

As against all this is the recognized and admitted qualifications of Pat Berry—long and general experience in probate court procedure, growing out of an extensive practice in that court, and his training as a lawyer which enables his mind to grasp legal propositions, no matter how knotty, and logically analyze them and reach a proper conclusion.

If it were only a copyist that was needed for probate judge, then Howard Gates would do.

The needs of the office, especially in view of the new and important duties recently imposed on the office by the legislature, are for a keen, able lawyer of wide experience. And Pat Berry fully meets this requirement.

HE WILL BE ON DECK

It is a queer argument put up by the Mt. Vernon Republican that because O. C. Chase is a workingman that he should not be elected mayor, on the expressed theory of that paper that he would be engaged at his business and might not always be accessible to the chief of police. It is true that Mr. Chase is a workingman—he never has been a chair-warmer.

If he is elected mayor of Mt. Vernon next Tuesday, he will be on hand to discharge the duties of the office, and it might be remarked in passing, that he would make a first class executive for Mt. Vernon, as everybody will concede.

Don't worry about O. C. Chase neglecting the duties of the office—he is not that kind of a man.

Mt. Vernon, O., Thursday, Nov. 2, 1905.

Of course you know that "unbleached flour doesn't necessarily mean that the flour is good." There are weak unbleached flours that are dear at any price, but they're unbleached. There's where the bleached flour fraud gets in its best work, it makes possible a very good looking flour from very inferior wheat, cheap to produce and sells at a good price. Buy it if you want to, it looks like satisfaction—when you buy it. When we say "unbleached" about "Mt. Vernon Blend Flour" we mean something good. Our labels go on no other kind of mill products.

The One Great Issue

Next Tuesday the people will have the opportunity of registering their views, by the ballot, on the question of the domination of George B. Cox and all that goes with it. That is the one great question at issue.

You cannot separate Bossism and Grafting.

The system of Bossism has for its very existence the system of Grafting.

If there is not Grafting there can be no Bossism.

Bossism is not based on honesty. Such a thing as an honest Boss is unknown.

With a Boss and his henchmen in control, they have the full opportunity of covering up their Grafting.

In every state and city in which the people have arisen and run out the Bosses, it has been followed by the most startling revelations of the Grafting that had been going on.

It simply demonstrated that the Bosses, as long as they were in power, were able to hide their Grafting from the public eye.

If Ohio is to be purged of Bossism and Grafting, the people must do the job on an election day—it can never be done in a party primary or convention.

There never has been such an opportunity as is afforded on Tuesday of next week, of making a cleaning out of Coxism, Bossism and Grafting in Ohio.

It is up to the voters of Ohio to do a good job of house cleaning.

Coxism, Bossism and Grafting, the evils with which the state is afflicted, must go!

MARION VAN OVER.
Democratic Candidate For State Senator In This District

The Democratic candidate for State Senator of this district is Francis Marion Van Over, of Wooster, who was unanimously nominated for that office at the convention held in Wooster, last July by the four counties of the District, composed of Wayne, Holmes, Knox and Morrow.

His age is 47 years. He was born in Congress township, a son of David Van Over, and grandson of William Van Over an early pioneer who came from Pennsylvania to Wayne county in 1810. In boyhood he attended the common schools, then the Wooster High school, and for four terms was a student at the Burbank Academy under Prof. David Talbot. He was reared on the homestead farm, and learned the carpenter trade under instructions of his father, who was an extensive contractor and builder, and has the reputation of having put up as many houses and barns as any builder in Wayne county.

After having finished his trade and acquired a reasonable education he worked for two years as a carpenter and iron bridge builder on railroads, doing well as an industrious and expert mechanic of intelligence. He then married Miss Melinda Somers, daughter of Abraham Somers, of Canaan township in 1882, after which he settled down to farming for several years, rearing six children, three sons and three daughters. While engaged in farming he went into the hay and potato business as a wholesale buyer and shipper, which pursuit he has followed with success for the past eighteen years to the present time.

AGAINST UNION.

Damage Suit Instituted Because of a Sympathetic Strike.

Chicago, Nov. 2.—The sympathetic strike is attacked in a suit for damages for \$50,000 filed in the circuit court against the International Association of Bridge and Structural Iron Workers and Frank M. Richter, general president. The Oscar Daniels Iron Works company is the plaintiff. The action grows out of the strike of iron workers that began against the American Bridge company several months ago. The Daniels firm has contracts for the erection of iron work for buildings in a number of cities in the middle west, and declares that since the strike was ordered it has been impossible to secure nonunion mechanics to take up the work.

Mr. Van Over removed to Wooster five years ago, continuing prosperously in the same business. He has large storage barns in Wooster and in Cedar Valley, shipping his stock to points east and south, in which he has proved himself to be a business man of superiority in commercial affairs, and has often been dubbed, "The Hay King of Northern Ohio," because of his immense shipments.

He was chairman of the Board of Education of Congress township for two years, and was elected member of Wooster city council from the third ward and declined a renomination to that office. His family are members of the Reformed and Methodist churches, which he also attends. He is a member of the I. O. O. F. and a Past Grand in that order. He is a stockholder in the Citizens' National Bank of Wooster and a stockholder in the Millersburg, Wooster & Orrville Telephone company.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves. "For eighteen years Dr. Miles' Nerve and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out—could not sleep, had no appetite, indigestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nerve, and at once I began to improve, and soon found myself in perfect health."

ATTEMPT

Made To Chloroform Family Of Mr. Thos. Canning

Room Completely Filled With Deadly Drug

And Empty Bottle Found On A Porch

Mrs Canning Nearly Overcome By The Fumes Of The Chloroform-- There Is No Clue To The Guilty Parties

What was perhaps a deliberate attempt to chloroform the occupants of a house occurred Tuesday evening at the home of Mr. Thomas Canning on West Chestnut street. The matter was kept a secret all day Wednesday in hopes that the guilty party might be discovered, but by Wednesday the police were unable to obtain any information on the affair and the story became public. It appears that about eight o'clock Tuesday evening Mrs. Canning thought she heard someone on the roof of a porch above the room in which she was seated. Several times she heard the noise and at last came to the conclusion that someone was trying to get into the house.

Finally Mrs. Canning decided to investigate, but upon reaching the upstairs room she was almost overcome by the odor of chloroform. Hurrying down stairs she was about to telephone for her husband when Mr. Canning came upon the porch. He was informed of the story and at once made an investigation. Mr. Canning was also almost overcome by the strong odor of chloroform, but was unable to find any one in the room or about the premises.

A further investigation was made Wednesday morning and an empty bottle was found on the roof of the porch. The bottle had contained chloroform as it was so labeled. The bottle is now in possession of Mr. Canning and a further investigation of the matter will be made.

The room in which the odor of chloroform was detected contained a window and this window was open, but was protected by a screen. The screen was not taken out, but it was plain that the chloroform had been thrown through the screen.

The affair will be taken up by the police and will be fully investigated.

KENYON IN TRAINING

For The Contest With O. S. U. Saturday Afternoon

Gambier, Nov. 2.—Kenyon's practice Wednesday was changed from a dull and listless afternoon's work to a most exciting one by the sudden discovery of an Ohio State spy on the side lines.

Coach Gregory was advised of the discovery while in the midst of a discussion of a new formation and immediately stopped operations and demanded that the field be cleared.

Later developments made it clear that Coach Sweetland is leaving no stone unturned to make as good a showing as possible in Saturday's contest. This spy, however, proved to be only a former Ohio State student who was up here on business and not to try and find out anything about Kenyon's plays. In the thing about Kenyon's plays, Bridgman, who was playing a good game at full in Lee's place, was seriously injured. Notwithstanding the patched-up condition of the team, Kenyon will be on hand to play State hard when the whistle is blown Saturday afternoon.

CRUSHED

Was Mrs Motz When Tree Fell On The Buggy

Her Son, Clifford, Perhaps Fatally Injured

Details Of Distressing Accident At Danville

The Motz Family Has Met With Series Of Misfortunes During The Past Several Years

Danville, O., Nov. 2.—(Special) —Further details in regard to the death of Mrs. Adam Motz, which occurred near here yesterday afternoon, reveal the fact that her son, Clifford Motz, was also seriously injured and it was thought that he would not live through the night. This morning he was slightly improved and may recover.

Mrs. Motz was killed instantly as her head was mashed almost to a pulp. William Ross and William Davis were the men engaged in felling trees on the Jacob Rose farm and both men screamed to Mrs. Motz and her son that they were in danger, but they did not hear the warning cry and drove directly in front of the falling trees. The buggy was crushed like an egg-shell and the heaving portion of the tree struck Mrs. Motz in the head. Clifford was struck in the head and shoulders by one of the large branches. It is feared that his skull is fractured.

After the accident the body of Mrs. Motz was removed to her home and her injured son was also taken home where three physicians were called to attend his injuries.

Mrs. Motz was 52 years of age and is survived by her husband and five children, two having died some years ago.

The funeral will occur Friday morning at 10 o'clock from the chapel north of this place Rev. Andrews of Butler officiating, and interment will be made in the cemetery there.

The Motz family has been pursued by a strange fate. A twelve-year-old son was accidentally shot and killed eight years ago. A short time later the mother was shot in the knee. Following this accident, she fell out of a peach tree and had three ribs and a collar bone broken. Two years ago Clifford was injured in a runaway accident and badly crippled. Fourteen years ago a daughter was killed by swallowing the broken glass tube of a nursing bottle.

COMMUNICATION FROM CRAFT & TAUGHER

Offer To Refund Money If Hyomei Does Not Cure Catarrh.

To the Editor of the Banner:

We have been asked recently if the advertisements printed in your columns regarding Hyomei were true, where we offer to refund the money if this treatment does not cure catarrh. We wish you would please print this letter in as conspicuous a place as possible in your paper, saying that we absolutely agree to refund the money to any purchaser of a Hyomei outfit if it does not cure catarrh.

This outfit consists of an inhaler of a convenient size to be carried in the vest pocket so that the user can breathe Hyomei four or five times daily. With this is included a medicine dropper and a bottle of Hyomei. The outfit sells for \$1.00 and is a most economical treatment, for the inhaler lasts a lifetime and there is enough Hyomei for several weeks' use, while extra bottles can be obtained for 50 cents.

We trust this letter will settle any doubts that may have arisen as to our willingness to refund the money for a Hyomei outfit, in case the purchaser is not perfectly satisfied.

Respectfully yours,
CRAFT & TAUGHER.

INQUEST

Is Begun By Coroner In The Pierson Case

Six Witnesses Testify Thursday Morning

Rope Found Under Culvert In Gambier

It Is Quite Likely That The Inquest Will Consume Several Days-- Developments In Case

The coroner's inquest in regard to the death of Stewart Lathrop Pierson, who met death at Gambier Saturday evening, was commenced Thursday morning and from all indications will last several days. The finding of the coroner will perhaps not be given out before the middle of next week.

On Wednesday Coroner W. W. Scarbrough visited Gambier and brought to this city the clothing worn by young Pierson on the night of the fatality. The clothing is now in the hands of Prosecuting Attorney L. C. Stillwell. The coroner also gathered together considerable information which, at the present time, he refuses to give out.

Prosecuting Attorney Stillwell was advised by phone Wednesday afternoon that some articles of a suspicious nature had been found near Gambier in a culvert. Constable R. B. McCune was sent to Gambier and on Wednesday night returned with the articles.

The articles consisted of two lengths of rope, a wad of absorbent cotton and two linen towels. These articles were found by a party of Gambier residents in a culvert which crosses a road leading into Gambier from the wagon bridge across the Kokosing.

Upon reaching this city Constable McCune visited the prosecuting attorney's office and turned the articles over to the coroner and prosecutor.

The coroner's inquest in the case was begun Thursday morning in the grand jury room in the court house. The inquest was conducted by Coroner W. W. Scarbrough and Prosecuting Attorney L. C. Stillwell. The testimony as given was taken by the court stenographer. During the morning six witnesses were examined.

The six witnesses examined were: Mr. C. F. Colville of this city, who boarded the special train in this city, bearing the remains of the student to his home in Cincinnati, Dr. Workman of Gambier, who viewed the boy's body and who ordered the undertaker to prepare the remains for burial, Undertaker Wright, who prepared and shipped the body to Cincinnati and Mr. South of Gambier, who was present and viewed the remains of young Pierson while being prepared for burial. Gus Brokowski, the fireman on the train, and E. B. Gorsich of Gambier.

The examination of Dr. Workman was exceedingly lengthy and went into minute detail. The doctor was asked if he discovered any marks on the dead boy's wrists and ankles and the reply was, "Yes." The doctor stated that he was of the opinion at that time, that the marks were caused by the railroad ties. Coroner Scarbrough then asked the question, if he notice that the mark encircled the wrists and ankles and the reply was in the affirmative. Dr. Workman also admitted that he ordered the body prepared for burial and signed the certificate for it to be shipped to Cincinnati.

Undertaker Wright's testimony in regard to the conditions of the body was about the same as that of Dr. Workman. The story told by the undertaker related the circumstances connected with the shipment of the body to the boy's home.

There have been a number of students called to testify at the inquest on Friday and Monday morning. Prosecuting Attorney Stillwell stated Thursday morning that young Pierson's father and Detective Crim and Kuffers of Cincinnati would be called to testify during the early part of the week.

Rebates Held Necessary.
Washington, Nov. 2. — Admitting that rebates are given to shippers in the California fruit service by practically all private car lines, J. S. Leads, general manager of the Santa Fe refrigerator dispatch, enlivened the inquiry being conducted here by the Interstate commission to show the relations between railroads and companies engaged in the business of refrigerating freight in transit. Mr. Leads said these rebates were necessary to his company because all his competitors were granting them. He asserted that he could not break up the practice without precipitating a rate war.

Romance of a Song.
"Till I sang My Harp on a Willow Tree" has attached to it a bit of royal romance. It was written by a young nobleman who became deeply enamored of Queen Victoria a year or so before she ascended the English throne, which event destroyed his hopes of winning her hand. The words first appeared in an English magazine and were set to music by Wellington Guernsey.

DON'T GET RUSTY.

Keep Your Moral, Mental and Physical Machinery Working.

The machine that lies idle is far more liable to injury than the machine that runs.

Air and dampness do more damage than wear and tear. Let the machine remain inactive awhile, and the coating formed by the corrosion soon covers the bright metal and the parts become stiff and cranky.

A man neglects the working parts of his body. Normally these parts should be exercised. He indulges his members in idleness. Whatever vitality and working force they may have had when in continued use, neglect causes the machinery to run stiffly. It is the rust.

A man may neglect to exercise his working brain forces. He may have ever so quick a mind, but if he does not use his mental machinery the rust of idleness is soon over it.

A man may neglect to use the moral forces that are in him. There is a weakening somewhere. The machine lets down. And soon the parts are rusted.

When the primary or the conventional or the ballot box, working parts of government, are neglected the rust collects. The machinery works poorly. It may break down.

Keep your body working without friction by systematic exercise.

Keep your mind bright by using it.

Keep your soul clean by working it.

And so for society nine-tenths of its evils are caused by the idleness of its necessary working parts. — Chicago Journal.
