## The Internet Archive

*The Internet Archive*, (a non-profit organization) is building a digital library of Internet sites and other cultural artifacts in digital form. Like a paper library, we provide free access to researchers, historians, scholars, and the general public. They scan entire volumes that are now in the public domain and make them available online for free.

<http://www.archive.org/index.php>

Check out their holdings which include:

The three-volume Georgiana Goddard King, *The Way of St. James*

<http://www.archive.org/details/wayofsaintjames01kinguoft>

Julius Baum, *Romanesque Architecture in France* (1912)

<http://www.archive.org/details/romanesquearchit00baum>

William Worringer, *Form Problems of the Gothic* (1920)

<http://www.archive.org/details/formproblemsofth00worrufft>

and much, much more. (With thanks to Syl Nilsen for the tip.)

---

## Full Screen 360 Degree Virtual Panoramas

*Full Screen 360 degree Virtual Panoramas* is a weekly feature presented by [Hans Nyberg](#), a commercial photographer in Denmark. The site features immersive panoramic images also called **VR Photography**. An interactive VR panorama can not be seen in a book or on a printed image. You can only experience the feeling of being at the place and look around, on a computer. Used to document cultural heritage, VR Photography is an excellent media which can give you a full view of a church or an ancient temple.
