## It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the

power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system rundown. To restore this vitality take Dr. Miles' Nervine which will strengthen and build up the nerves. You cannot be the nerves. You cannot be healthy without strong nerves.

"For eighteen years Dr. Miles' Nervine and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out-could not sleep; had no appetite; indigestion very bad, and had such awful dizzy spells. Then I began using Dr. Miles' Nervine, and at once I began to improve, and soon found myself in perfect health.

### HUNDREDS FALL IN MOSCOW CITY

Fighting Continues Between the Revolutionists and Troops.

### LATTER STORM BARRICADES

Large Numbers of Innocent Persons Accidentally Killed or Wounded In the Street Engagements - Government Confident the Army Will Remain Loyal-Situation In Russia.

St. Petersburg, Dec. 25.-With Moscow's baptism of blood, the revolutionaries made good their threat to transform the strike into armed rebellion, and the next 48 hours should determine whether they can marshal sufficient strength to plunge the country into an actual state of civil war and seriously threaten the immediate downfall of the government.

The government professes confidence that the whole attempt will fail owing to the woeful insufficiency of arms in possession of the proletariat and by reason of the loyalty of the merce and labor. In the 10 months army as a whole; but its calculations might again be rudely upset. A few arsenals might be seized and furnish arms or the open support of a few regiments might start a landslide in the army. Certainly the shrewdest of the revolutionary leaders fully appreciate that the issue must be decided by the attitude of the army, which is yet to cast the die. Instructions have gone forth that risings must occur everywhere in order to test the troops, and if a foothold can be secured it is the intention of the revolutionaries to set up a provisional government and proclaim a republic.

Thus far, reports from Moscow do not clear up the vital point /as to whether any of the troops there actually refused to obey commands, although there are persistent rumors that they did. Revolutionary leaders here claim to have confirmation of a report that a grenadier brigade and some Cossacks mutinied, and are now locked up in their barracks. While the military succeeded everywhere in driving the insurgents from their barricades in Moscow Saturday night, the defeat evidently was not a decisive one, as barricades were again thrown up in dozens of places Sunday and fighting was renewed.

Orders have been issued for an uprising here, but the government's measures seemingly render this impossible. No meetings, public or private, are allowed, which makes an assembly of more than five persons in a private lodging illegal. The prisons and fails are filled with leaders of the revolutionaries and agitators. Two eaches of arms have been seized and an entire organization, consisting of 300 "crujina," as the student militia is called, has been completed.

If the plans of the revolutionaries to produce an uprising in St. Petersburg fail, an attempt certainly will be taken into custody, charged with om-

private houses where they suspected revolutionaries had taken refuge. In nearly every district large numbers of innocent persons were accidentally killed or wounded. It is reported that fighting is proceeding in the outskirts of the city and that there are heavy losses on both sides. During the day bombs were thrown in the streets. Troops hold the railway stations, but the plundering of freight cars continues. Three hundred of these cars have been entirely stripped on the Kazan railway siding alone.

The first shots Saturday were fired by the revolutionaries on the troops outside Fidlers' school, which was surrounded. The revolutionaries were given one hour in which to surrender. Fifty-five minutes had passed and the commander of the troops was about to give the order to fire when a volley came from the house. Several soldiers were killed or wounded. The troops immediately replied.

Soon a white handkerchief was waved from a window. The troops entered, but were greeted with rifle fire, and they retired and again bombarded interruption came.
