## SHAW DESMOND

### HERE ON LARWILL FOUNDATION

"Dunsany, Yeats, and Shaw" Subject Of Lecture By Noted Irish Author; Asserts There Are Fairies

What perhaps was the most interesting and altogether entertaining lecture of the year was offered to the College community Monday evening, March twentieth, by Shaw Desmond the Irish author.

Mr. Desmond's subject was "Dunsany, Yeates, and Shaw," and inasmuch as he has recently returned from a sojourn in his native country, his comments on conditions there, were also received with especial welcome. He possesses a brilliant wit which gave his utterances a good deal of fire, and his talk was punctuated by characteristic Irish ego, and gentle jabs at England. He believes implicitly in the existence of fairies in the world about us, as so many Irishmen believe in the sprites and gods of the marshes, and he says in this connection that the chief joy of his life comes from the imagination. He feels that he has lived several times, and can remember clearly the significant events of his earlier existences.

In sketching Lord Dunsany, Yeates, and Shaw, Mr. Desmond said that Dunsany writes copiously about the fairies when he disbelieves utterly, whereas Yeates acknowledges them, but never writes about them. Bernard Shaw is greatly misunderstood. People think him to be a humorist, while really he never makes jokes, and is in dead earnest in everything he says,—the last statement offering ample field for argument, it was thought by some in the audience. Mr. Desmond thinks that Shaw's plays will be popular only for a few years, but that his prefaces will live on.

These three members of a trio are as differentiated from each other as the proverbial black from white, and are not strikingly Irish, yet no other country under the sun save Ireland could have produced them as they are. We find also that the Hibernians have no sense of humour, but great keenness of wit; the English have a broad sense of humour, and no wit; and that America leans to the former in these respects.

"It remains to America's sole credit," said Mr. Desmond, "to have discovered Bernard Shaw, as she has since done with Wells." The lecture would have been well worth while, if only to thus hear America receive credit for something besides the Jazz

## REVEILLE

### TO APPEAR VERY SHORTLY

Engraver And Printer Rushing Book; Many Innovations Feature This Year's Publication

Work on the 1923 Reveille is progressing nicely, and from all indications, the book will be on sale here by Hop week. Even now more than seventy-five pages are in process at the printer's plant, additional copy is sent down almost every day, and those in charge are confident that the book will be ready very shortly.

Mr. Bowman has been working on the Reveille since his selection as editor-in-chief, last June. Many typographical innovations will feature the book; leather covers are being prepared by the David J. Molloy Company, of Chicago, known to be the makers of the best leather covers on the market.

Other novelties will be the campus and divisional sections, which will be printed on cameo and dawn stock, respectively. The divisional section will contain, in addition to the usual pictures of the social units, small line cuts of intimate corners of the several parlors on the Hill. The divisions should welcome the chance to purchase these line cuts after the Reveille is through with them! they will make excellent bookplates for any division.

The Reveille is fortunate in having a splendid combination in its photographer, engraver, and printer. Mr. Tinkey has done really wonderful work for the staff. The Pontiac Engraving Company of Chicago, and the Champion Printing Company, of Columbus, are giving the book the right of way over all other work in process in their shops.

For these and many other reasons, the Reveille Board guarantees the best book in the history of the college; that's a mouthful, but the truth, and alumni are earnestly asked to get in on the sale. That the book will meet with a ready sale both with undergraduates and alumni is not doubted.

Band. The usual criticism of America by persons in Mr. Desmond's position has been only too strongly recalled and evidenced in Margot Asquith's present stay in the States.

To conclude his address, the speaker asked to hear questions. A charming hour and a half was thus well topped off, when an esteemed member of the audience asked Mr. Desmond if he had seen any fairies in America, to which the reply was that he had seen five hundred of them at Wellesley only the week before.

## SMOKER

### TENDERED WESTERVILLE FIVE

Otterbein Team Guests At Party Following Final Game Of Season; Well Attended

After our victory over Otterbein, a smoker was held in the East Wing Bull's Eye. It was a typical Kenyon smoker with plenty to eat and to smoke. The crowd, present at the smoker was far larger than any other similar affair held during the basket-ball season.

One of the features by way of entertainment, was the playing of the Kenyon Orchestra. This group of musicians played the latest dance hits with all the pep and dash of professionals. The college is very fortunate in having such talented men to play for their social events.

The speakers too are worthy of comment. Coach Smith, responding to the applause of the students, gave an interesting talk on the spirit that the team had shown throughout the entire season.

Dr. Allen of the faculty in his talk, spoke of the relations between Kenyon and Otterbein, and expressed the hope that the friendly spirit between the two colleges would continue in other sports.

Coach Ditmer of Otterbein paid Kenyon a tribute in saying he hopes his son will grow up with the fighting spirit that is characteristic of Kenyon college.

The students sang the college songs in such a manner as to show the basket-ball team their appreciation of the victory.

Taking everything into consideration the smoker was a great success and proves that such affairs are of a great benefit to Kenyon men in giving them an enviable reputation among Ohio colleges as true sportsmen and entertainers.

A pleasant evening was enjoyed by the music lovers of Gambier when The Bethany College Glee Club staged its concert in Rosse Hall on the evening of February 28th. It was thru the effort of "Doug" Riblet ex-'23, who is now manager and leader of the Bethany club that the date was secured. One third of the proceeds of the occasion were turned over to Senior Class, under whose auspices the concert was held. Only a meager audience was present and needless to say the Senior Class debt was not liquidated to any appreciable extent.

## LETTERS

### AWARDED FOOTBALL MEN

Dr. Allen Makes Annual Presentation Of "K's" At March Assembly Session

Awarding of the football letters and numerals, by Dr. Allen, marked the business of the March Assembly. The men receiving "K's" were Captain Wiseman, Captain-elect Stock, Messers. Chew, Brown, Votaw, Olson, Lichtenberger, McIlwain, Barton, Carabelli, Maxwell, Stone, Warman, Small, Sommerville, Hohlfelder and Manager Brain. Numerals were presented to Stegeman, Sifling, Wilson, Madden, E. C. Crane, Alexander, Whipple, Hovorka, Burchenal, Benolken, Fullwood, Harris, Pearce, Plum, Richardson, Ryback and Wade.

Mr. Goodell, Secretary of the Executive Committee, reported on the recent meeting of the Committee. He announced that a game had been scheduled with De Pauw University, which will be the first football game played out of the state for many years. He also stated that the Board of Trustees is now in full power to engage a new coach. It was also suggested that an assistant coach be appointed.

Mr. Wasser moved that the Dormitory Committee investigate the prospects of purchasing screens for the Dormitories, which will help to eliminate the countless multitudes of insects that infest the different Divisions during the summer season.

Mr. Barton offered some "fatherly advice" to the Assembly in regard to the general attitude taken by the students toward Harcourt Place School. He suggested that the men confine their antics to the College Park.

Mr. Williams resigned as Honor Committeeman from South Hanna, and Mr. Fitzpatrick was nominated in his stead.

Mr. Stegeman urged the support of the men in College to abstain from using the middle path as a thoroughfare for automobiles. He also warned the Assembly to refrain from tearing various articles out of the books and magazines at the Library. In connection with this he stated that four books on Romanticism had been missing from the Library since last September and asked the men to search their respective Divisions for the same.

Mr. Ulrey nominated Mr. Thomas to fill the vacancy on the Dormitory Committee from Bexley. This nomination was ratified by the Assembly.

laundry service you'll find  
the matter easy.**SCABOOTCH & PINKEY****DR. PEIRCE****NARRATES EVENTS OF TOUR****Says France Is In Deplorable Condi-  
tion! England Declared To  
Be Even Worse Confused**At the regular February assembly,  
Pres. Pierce gave a very interesting  
talk on his experiences in Europe dur-  
ing the last four months.He sailed direct from New York to  
Italy where he visited the villa of Mr.  
Ellsworth near Florence. This villa  
was built in the 17th century and has  
been occupied by several of the nobil-  
ity, including Queen Victoria. The  
magnificent house contains some 50  
rooms, and is furnished throughout  
with an early Italian style of furniture  
of about the 15th or 16th century. Sur-  
rounding the house is a circular court  
and garden which is kept in perfect  
condition. Many paths and lanes wind  
in and out beneath the large shade  
trees. Nearly a million dollars has  
been spent on this villa and it will al-  
ways be a tribute to American taste  
for beauty.He spoke of the fact that Spain was  
a difficult country to get into because  
much smuggling has been carried on  
and one had to go through much  
tape in order to get a permit. He did  
not go into Spain but went from Italy  
back to France and England.Dr. Pierce said that conditions in  
France are deplorable and there is  
still much mourning for the dead. Very  
few young men are seen in the streets  
and in one small village no larger than  
Gambier, the memorial tablet contains  
the names of 520 men who paid the  
supreme sacrifice. The industrial situ-  
ation is on a fair standing but  
many months will elapse before it can  
be any thing like normal.England is even in a more unstable  
condition than France, and the em-  
ployment situation there is very per-  
plexing.Pres. Pierce had the honor of meet-  
ing and dining with Lord Kenyon,  
great-grandson of Lord Kenyon whose  
picture hangs in Norton Hall. He is  
considering coming to Kenyon in two  
years when we celebrate the one-hun-  
dredth anniversary of this college. A  
very cordial, delightful, charming type  
of Englishman is Lord Kenyon and he  
is very much interested in college ac-  
tivities, being Chancellor of the Uni-  
versity of Wales. Other distinguished  
guests were Robert Kenyon, Sir Fred  
Kenyon, and General and Mrs. Ken-  
yon. Sir Fred Kenyon may also visit  
the United States in two years. We  
are also very much interested to know  
that Christopher Kenyon, son of Gen-  
eral Kenyon, is contemplating enter-  
ing Kenyon College in the next year  
or two.Altogether Dr. and Mrs. Pierce spent  
forty-two days on the ocean, crossedthe English channel three times and  
had many experiences on the water.We appreciate our President's lec-  
ture very much and are indeed glad  
to have him back with us.Don Wattle, '17 is now attending  
the Western Theological Seminary.Carter Miller, '19 was on the hill

## PRACTISE

### STARTED BY BASEBALL MEN

Bright Are Prospects For Summer Sport; Benson Field Being Put In Shape For Season

Coach Smith has announced that, weather permitting, baseball practice will start within the next few days. Manager Fishack has already announced the Varsity schedule which has been arranged; some badly needed improvements on the infield will be undertaken shortly. In fact it seems that baseball has already gotten away to a flying start despite the fact that the opening game is still far in the future.

As for material, it would seem, at least at the first glance, that we will be able to place upon the diamond a first class team this year. The infield, especially, shows a wealth of material. With Kelly, Perrin, Schmick, Hohlfelder, Gage, Greaves, Messinger and perhaps others who have not yet had an opportunity to display their wares, the coach should encounter very little difficulty in forming a team worthy of Kenyon.

As was the case last year, the pitching staff is in reality the weakest of all. Russell is back with us once more and his presence on the mound will help us considerably, but it is evident that he cannot uphold the burden of hurling, alone. So unless at least one more pitcher can be developed, we may hear of some trouble from that direction, but on the whole prospects seem to point to a very successful season.

During the past months, numerous ailments have been in evidence on the Hill, both in the nature of sickness and accidents. "Scotty" Greaves and "Ski" Kegg were forced to leave college for a few weeks on account of injuries received while skiing on the hill back of Old Kenyon. "Dave" Thomas broke his hand during the basket-ball season and "San" Small has had continual trouble with his knee. "Steve" Broder crippled himself by spraining one of his versatile ankles and many have been the minor injuries sustained in the inter-mural basket-ball tourney. Besides these accidents, there has been a great deal of illness on the Hill recently. Influenza has attacked all of Bexley and is gradually making headway on the campus. While this epidemic is with us, we must try to prevent the spread of contagion, for Gambier is not the most enjoyable place in the world in which to be sick.

Before closing we wish to make a statement, at the request of a certain division in college, to the effect that the N. H. ailment i. e., impetigo, is entirely superficial. We sympathize with anyone who has to suffer the facial disfigurement accompanying this malady, for Harcourt's doors are ever closed to such "rash" subjects.

## PUFF AND POWDER TO TAKE EASTER ROAD TRIP

Many of the Ohio cities that were disappointed on the last trip of the Puff and Powder Club, meaning, of course, the cities that were not visited are to be allowed to witness Marrying Marilyn in all its glory, shortly after Easter.

Although no contracts are signed as yet, the trip will probably include most of the following cities: Massillon, Canton, Cleveland, Ashtabula, Youngstown, Lima, and Marion. With the exception of Cleveland, all these cities are virgin territory for the club.

Time was, not so far back, when the entire cast was wondering what clothes should be worn in France in the summer, but the rumor that gave rise to those plans seems to have died a natural death. We can only hope that the proposed spring tour will not turn out the same way.

For the benefit of those in Gambier and vicinity, who have been able to see only one or two performances, the play is to be presented at Rosse Hall the second night of Sophomore Hop, and again during Commencement week.

## A NEW ATHLETIC POLICY

### Coach Smith Elected Athletic Manager

A radical change in the athletic policy has been effected within the past few weeks. The following re-

marks which were addressed to the Executive Committee of the Assembly by President Peirce on March 23rd, should suffice to give a clear understanding of the new policy.

1. Mr. Arthur F. Smith has been elected by the Executive Committee of the Board of Trustees, as Athletic Director for the year 1922-23, and has accepted the appointment.

2. Under the new arrangement

(a) The Athletic Director is responsible only to the College administration and the Board of Trustees, who provide his salary.

(b) The Athletic Director is a member in full standing of the College Faculty with a seat and a vote. Physical exercises and athletics are his department of which he has entire charge. He is responsible for the custodianship of the gymnasium and for the athletic equipment or property owned by the College and he directs all exercises required of college students.

(c) The Athletic Director is responsible for the general athletic policy of the College. Fundamental matters in connection with the training and conduct of the teams and the general athletic policy of the College are within his jurisdiction and must receive his approval.

(d) Outside these necessary obligations to the College the services of the Athletic Director are at the disposition of the Assembly for any reasonable purpose. Obviously, the closest possible co-operation must exist between the College and the Assembly in order to secure the best results. In this connection the following suggestions are made.

(1) The athletic Director might be given direct responsibility for the selection and the custody of athletic equipment purchased by the Assembly. In past years such equipment has been lost or scattered and the responsibility for custody and repair has not been direct.

(2) The relationship of the Athletic Director to additional instructors provided by the assembly should be clearly defined and arranged in advance. It would seem that the Assembly might expend nearly \$1,000 for extra instruction in football or other sports. In order that cordial co-operation be assured, a definite plan apportioning responsibility should be agreed upon in advance. An extra instructor in football for example, might be either,

(a) A simple assistant to the Athletic Director, or (b) A semi-independent coach responsible for the strategy, personnel, and success of the team.

In view of the action taken by the Board of Trustees, the Executive Committee of the Assembly met on the evening of March 28th, and as a committee of the whole passed the follow-

ing recommendations for the Assembly to act upon later:

(1) That an amount up to \$1000, be expended by the Assembly to procure a Football Coach who shall assume direct responsibility for the strategy, personnel and success of the team.

(2) That the Athletic Director co-operate with the Football Coach and act in an advisory capacity.

(3) That the Athletic Director have full charge of Assembly equipment.

(4) That the President of the Assembly be empowered to appoint a committee of five, two of whom shall be the Athletic Director and the Treasurer of the Assembly respectively, which shall have the power to select and hire the Football Coach.

(5) That the Assembly request Messrs. Vaughn, Zinn, and Marty to act as an alumni advisory committee to this Coach Committee.

The above recommendations have yet to be acted upon by the Assembly, however there is every reason to believe that they meet with the general consensus of opinion about the campus. If this is true and if a suitable Football Coach can be obtained for next season it would seem that Kenyon athletics have been given but one more boost to the goal of success.

## KENYON MAN GETS MOST GOALS; SMALL LEADS CON- FERENCE WITH TOTAL OF 67

There is a silver lining in at least one of the many dark clouds that have insisted upon overshadowing Kenyon's past basketball season. Although our quintet brought up the rear in the percentage tables of the Ohio Conference, a moral victory, at least, has been attained. Statistics compiled by a Conference committee and submitted to the Cincinnati Post for publication show that Small playing at right forward on the Kenyon team leads the Conference in the caging of field goals.

The following is an excerpt of the article printed in the Cincinnati Post of March 26:

"Small of Kenyon led all the other players in total field goals for the season. Playing on a weak team, he was able to score 67 times from the field. Heeter of Miami with 65, and Hess of Wooster, with 64, follow.

Daily wireless service is given by the department of physics of the University of Wisconsin for the benefit of farmers and amateur radio operators. It includes market reports, weather forecasts, special lectures, musical concerts, and reports of athletic events.

Two literary societies, organized in 1835 at Wake Forest College, North Carolina, are yet active. They have a joint sinking fund and are considering the erection of a literary society building.

"Not much like Spring," grumbled a frosh, as he carefully picked his way down the middle path with the division's mail the morning of the twenty-first. If you remember it had snowed the previous night, and many were the wise-cracks, puns and take-offs as faculty member or student picked himself up from the impromptu ice-rink. A few days later, the same yearling was heard rejoicing: "Kenyon, just like a Country Club!" Its a safer bet than last Fall's Ohio State-Illinois football game, that Spring is here and here to stay. What better signs do you want than these?

Gone are the baggy corduroys and in their place are the snappy knickers vari-colored golf socks, and white duck trou. No longer are the sloppy golashes seen, instead one sees rubber soled sport oxfords and the latest in golf shoes. Heavy coats, mackinaws, and lumber-men's shirts are being stored in moth-balls or the three-balls along with railroaded watches until the weather or the cash permits them to be recalled later.

The snow-ball, always accompanied with a warning "Look-out!" has likewise given way to the whistling golf ball and the challenge of "Fore!" The robins are back and the grass is green. Nuf sed! A few are even reported to be attending classes regularly, but this infamous rumor has been spiked. The monitor has the softest job of all; he says chapel is being attended by about the same size crowds that go over to Mt. Vernon for the Salvation Army Revivals.

Indoor sports are bridge, novel reading, and showers. Only a few exponents of this latter have been found. Just now if you haven't read the Beautiful And The Damned or Cytheria, you're about as popular as a course in higher wrathematics. The snap-shot fiends are on the job and its a safe guess that they didn't even miss the smile on "Barker" Newhall's face, when he announced that not a member of the Puff & Powder Club flunked out at Mid-year.

So as we say, the signs are indisputable, and Kenyon has once more entered upon the country club period which will be with us, praise be, until the close of school in June.

## HOW STUPID!

Daughter—How do you like my new party gown, father?

Father—Why, daughter! You surely aren't going out with half of your back exposed?

Daughter (looking in mirror)—Oh, father! How stupid of me. I have this dress on backwards.—Chicago Phoenix.

## LIFE IN GAMBIER

Pre—What can we do tonight?

Med—Let's go around to the cemetery and dig up a couple of girls.—Flamingo.

EAST DIVISION WINS INTER  
MURAL TOURNAMENT

For the third time in four years East Division won the Inter-Divisional basketball championship of the college. At the end of the round-robin tournament they were tied with Middle Kenyon for first place, each team having won 6 and lost 1 game. In the play-off East Division won by the close score of 20 to 19.

This game was one of the most exciting ever played on the Rosse Hall floor. Middle Kenyon jumped into an early lead and at the end of the first quarter was leading 7-4. Just before the end of the half, East Division staged a rally and tied the score. In the third quarter it looked like a run-away for Middle Kenyon when they rang up 5 points, while East Division was unable to score, but the latter staged a great come-back and with two of their regulars out of the game through fouls, kept Middle Kenyon from getting a field basket while they amassed enough points to win.

## SCORES

## IT IS TO LAUGH

A cursory glance is the look mother gives father when she has company for dinner and father asks her where she borrowed the table napkins. Likewise, a cursory glance is the look quasi-enlightened college men are casting towards the seat of the Kentucky State legislature. This sudden focusing of attention has been occasioned by the recent action of the Blue Grass capitol, which defeated, by one vote, a measure to prohibit the teaching of the theory of evolution in any educational institution of Kentucky. Theatrically speaking, these southern statesmen are now "bringing down the house"—but they're bringing it down brick by brick! And scientists all over the world are classifying them, and cataloging them under the species of boneheads of the first water.

Men hate to admit that compulsory education in this country is a failure; but the fact remains that we are such a nation of boobs that we are willing to pay a circus reformer \$5,000 a week for spitting on his hands and telling us to go to a warmer locality. And on top of that, we are such a nation of boobs that we let pious planters kid us into believing that Doctor found the baby under a lilac bush.

Surely, there has been no more strenuous test applied to Christianity than that Darwin and his followers disclosed. And it is entirely evident that the theory of evolution has not weakened, but if anything, has strengthened, the Christian church. Theologians have testified to that!

Darwinism is not a "theory of evolution!" It is a fact, and science deals first with facts, no matter how far removed they may be from any facts or theories of Christianity! But soon, your "agnostic" student of paleontology, of verbrate or invertebrate comparative anatomy, of microscopic anatomy, begins to see evidences of the Divine element in all that has taken place before his time. Your physicists and chemists early realize that there is something more to their field than formulae, and test-tubes—and breakage deposits. This realization comes after a period of observation the student must make for himself; and it is in this way that many that could be reached in no other way, are drawn to Christianity.

Nothing can appeal to college men of 1922 more than science, with its "damning Darwinism;" nothing is more suited than science to awake in men this self-acquired realization of the constant presence of God. And college men, and college professors, in every institution in the country, are springing to the defense of Darwin's disclosures.

## SOPH HOP

TO BE STAGED MAY 12-13

Committee Making Elaborate Plans  
For Big Dance Of The Year;  
Record Crowd Anticipated

As most of us know, the Sophomore Hop is by far the most popular dance of the year. This season it will be put on by the Class of '24, and it is the most earnest desire of that class to make it the best ever. This will be the first attempt of the present Sophomores to undertake a dance; that is why that class wants to make it the very best. Everyone can rest assured that this Hop will be one gala affair, one that will be remembered by all those attending as a "real" party. It will be hard to compete with the success of last year's May Hop, but '24 is going to do it; in fact it intends to make it even better.

Never is the natural beauty of the "Hill" so obvious as in the spring. The trees by that time will have taken on their leaves, and a walk down the good ol' Middle Path under the continuous arch of green foliage will not be equalled anywhere. And say, fellows, the moon will be out in all its glory, and will lend a very romantic touch to the dance. To you new men who have not been so fortunate as to attend one of these May Hops, the beauty of this dance season here at Kenyon cannot be appreciated. The older men have already experienced its revivifying influence, and each one who does not intend to be there can be regarded as depriving "at least one of his sweethearts" of the most enjoyable week-end of her young life.

The most essential part of the dance is the music. The committee has been in touch with some of the very best orchestras in this part of the country including the "Mason-Dixon Seven" and the "Wolverines" of Detroit, but so far has made no definite arrangements with anyone of them. However, whatever orchestra is finally decided upon, it is assured that there will be a "peppy" set of music makers here to furnish the necessary punch for such an affair. The decorations will be of a different design than heretofore, and will be more or less of a novelty on the "Hill," something to encourage the congeniality of the crowd and the orchestra. To help make the week-end more of a success, there will be a baseball game with Ashland College and a Track Meet on the Friday afternoon of the dance, and a Tennis match and probably a Tea Dance on the following afternoon. In addition to these forms of entertainment, the Puff and Powder Club will present their elaborate production, "Marrying Marilyn," on the Saturday evening just before the Informal dance. All these attractions surely will make the week-end a most enjoyable one.

Now, fellows, lets all get together,

and back this May Hop. The class of '24 will do the real work on the field, but they cannot make it a big victory unless the rest of the College, every man and every alumnus, come in a body and root for it. So men of Kenyon, old men and freshmen, let's give a grand old Hika, and show that we can support a dance with the same characteristic Kenyon spirit that we have while supporting a team on the field. Let's turn over two leaves on the calendar, and put a good, big, red circle around the 12th and 13th of May, so that we can be sure not to forget those coming "grand an' glorious" days. And furthermore, why not get the jump on all the "Als," and ask your girl early to avoid the rush.

The Sophomore class wishes to give you a good dance just as much as you want them to put on one that will make possible the customary good times experienced at every other Kenyon dance. And so, fellows, your hearty support and cooperation in making the May Hop of 1922 a big success will be greatly appreciated by the class of '24. Let's all come.

VARSITY WINS LAST  
GAME OF SEASON

On the last basketball trip of the season, Kenyon stopped off at Delaware long enough to bow before the strong Wesleyan outfit, 45-22. Friegau, their center was the main difficulty, while Small played the stellar role for Kenyon, scoring 16 of our 22 points.

<b>Kenyon 22</b>	<b>O. Wesleyan 45</b>
Schmich .....	L. F. Reid, Johnson
Small .....	R. F. Boyer, Thompson
Wiseman .....	C. Friegau
Gorsuch, Votaw L. G. Hubabrd, Eldridge	

Hohlfelder .....
 R. G. Young, Staten |

Still on the downward path, the Purple and White journeyed down to Athens and dropped another game to Ohio U. 48-16. The game was slow and listless one throughout.

<b>Kenyon 16</b>	<b>Ohio U. 48</b>
Schmich, Thomas L. F. Cowden, Wilson	
Small .....	R. F. Herron, Cowder
Wiseman .....	C. O'Daffer
Gorsuch, Votaw L. G. Earich	
Hohlfelder, Votaw R. G. Burkett, Lettler.	

Otterbein paid us a visit for the final game of the season, March 9. The local boys, with a long string of defeats behind them went into the game, determined to win, and the result shows the effects of their efforts, for Kenyon came out on the long end of a 33-22 score. Incidentally this is Kenyon's first basketball victory in more than two seasons.

EDUCATIONAL

The Peoples Hospital of Akron, Ohio offers to young women desirous of becoming qualified nurses, a three-year course of general training. During the period of training, pupil nurses will receive full maintenance, room, board and laundry in addition to salary. Applicants must be between eighteen and thirty-five years of age and have completed one year of high school education. For further information, apply or write Miss Edith Jefferies, Directress of Nurses.

## SPRING FOOTBALL IS WELL UNDER HEADWAY

With the coming of the warm days, interest in Spring athletics is aroused. Not all of the interest is being devoted to baseball and track this year as in former years but spring football is receiving its share.

This practice is mostly for freshmen and others who were ineligible last Fall and its purpose is to train these men in the fundamentals of the game so that they will be ready next year to start right in, at a more advanced stage of the game.

The fact that the coach and captain are putting all their efforts in to making this spring practice helpful is shown by the fact that a light scrimmage was held the first day out.

This work has been impeded somewhat by the inter-division basketball games that have kept a number of men busy who would otherwise have been out for football. Now that the basketball schedule is over there should be two teams out every day for the rest of the Spring. Baseball and track will interfere to some degree but it will be necessary for the men to pick the sport for which they are best adapted.

## BUSY SEASON AHEAD OF TENNIS TEAMS

The Tennis management has been busy these last few weeks arranging an imposing schedule for the 1922 Varsity, the prospects looking very bright for a successful season. Several courts will be available at an early date for the beginning of practice, and Coach Lockert expects to whip a typical Kenyon team into shape.

Matches have been secured with Otterbein, Wooster and Denison, both here and away. Dates are still pending with Wittenberg, Oberlin, Ohio Wesleyan and Case.

### THE SHEIK

He sped his steed o'er shifting sands,  
Or, in the evening sang "Pale Hands  
Beside the Shalimar."  
A villain dark, but handsome, too,  
How wildly did his loved one woo,  
Our sweet Rudolph?

He seized the maiden by the arm,  
"Oh stop, I fear she'll come to harm,"  
The ladies cry in glee.  
How passionate his wild embrace;  
The girls adore the burning face  
Of coy Rudolph.

Oh, would I were an actor bold,  
A girl like Agnes Ayre to hold,  
To love, to kiss—enough.  
To act the scenes the censors stopped  
I'd play the part until I dropped  
Like dear Rudolph.

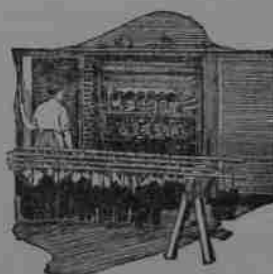

—Punch Bowl.

## SPRING

I was walking  
Down Middle Path last week  
And I suddenly  
Saw stars,  
And angels with harps;  
And when I came to  
I felt the back  
Of my head and found  
A golf ball there.  
Then I saw "Bugs" stealthily ap-  
proaching from the rear;  
And then I knew.  
Sprig had Cub!  
And I sat up and saw a  
Brown Derby with  
Ella Baker under it,  
And Pete Reeves in  
Knickers was there  
Also. And I heard  
No thump of golashes.  
And so I knew  
Spring was here  
And I arose  
And dusted my trousers  
Carefully and was preparing  
To continue my  
March down Middle Path.  
When again the heavens  
Became bright  
And it felt as if an  
Elephant had  
stepped on my  
Stomach. And I reached  
Down and found  
Another golf  
Ball buried deep  
And then I  
Was d—n sure.  
Sprig had Cub!

## OTTERBEIN FIRST ON TRACK MEET PROGRAM

Prospects for a track team are much better than expected. A meeting was held and over fifteen men turned out. The question arises as to the extent of their ability and as for that we hope to have more to tell the next issue of the Collegian. Kenyon has never gone into track with much spirit, but this year several meets have been arranged, and we hope to be able to do our share on the track. Maxwell is still with us, and everyone knows his ability to master the hurdles. He is captain of this year's team. There is one home meet with Otterbein, on May 12. We hope that Kenyon will be able to win this dual, for it will be the first meet held at Gambier for several years. If the Sophomore Hop is held on that week, it will also help toward amusement. We are counting on Purdy to carry away the honors in the mile and two mile. Stegman, McIlwain, and Madden should be able to put the shot, and Jim has already begun practise in throwing the discus. Brewer runs a mean 100, and has good possibilities of becoming a ten second man. Goodell and Gage are going to be out for the hurdles. The track schedule is not fully completed, but Manager Wasser is doing his best to schedule some good meets.

## What Is Water Japan?

JAPAN—not the country but a metal-coating varnish—and your morning bottle of milk. Totally unlike, yet associated!

Ordinary japan consists of a tough, rubbery, tar-like "base" and a highly inflammable "solvent." The solvent dilutes the base so that the metal may be coated with it easily. The presence of the solvent involves considerable fire risk, especially in the baking oven.

Milk is a watery fluid containing suspended particles of butter fat, so small that one needs the ultra-microscope to detect them. An insoluble substance held permanently in suspension in a liquid in this manner is in "colloidal suspension."

The principle of colloidal suspension as demonstrated in milk was applied by the Research Laboratories of the General Electric Company to develop Water Japan. In this compound the particles of japan base are colloiddally suspended in water. The fire risk vanishes.

So the analysis of milk has pointed the way to a safe japan. Again Nature serves industry.

Connected with the common things around us are many principles which may be applied to the uses of industry with revolutionary results. As Hamlet said, "There are more things in Heaven and earth, Horatio, than are dreamt of in your philosophy."

## OUCH!

## SCHOLASTIC STANDARDS JOLTED

## Middle Hanna Cops Cup For Excellence In Work; Drop In College Average Sudden

There will always be honor attached to the holding of the beautiful loving-cup brought to the Hill by President Pierce, but there is an added distinction in holding it for the first time and being the first division to have its name engraved there-on. It so happens that Middle Hanna is the first division to hold the cup, the averages of the respective groups being as follows:

Division	No. of Men	Ave.
Middle Hanna	19	2.80
South Hanna	22	2.83
West Division	85	2.95
East Division	27	2.99
North Hanna	20	3.05
West Wing	21	3.14
East Wing	20	3.24

This is not a very imposing array of figures and, not wishing to detract from Middle Hanna, it does not signify a great deal when it is said that they hold the highest average in the College. These averages do not mean that all the Phi Beta Kappa men are banded together under the standard of Sigma Pi, nor yet do they mean that Alpha Delta Phi has a bunch of "dumb bells" as the constituents of its local chapter. But it does mean that the Middle Hanna men turned out consistently better work than the others.

If we were taking statistics for the purpose of deriving the cause of the results obtained, we would find these figures listed of little or no value. These grades and these averages were affected not only by the work done but also by the work not done. All the men who left college or dropped courses for other reasons before they had finished the semester were marked "fives" in all the subjects dropped, thus lowering the standing of their respective divisions as well as the college as a whole.

But excuse the poor display of registered scholastic standing by any means we may, or cover it up so that it is not known, and the fact will still remain that the men as a whole are not doing the work that they should. It is true courses are being made stiffer this year but the men should realize this and buckle down to make a better showing. The average of the entire college is 2.97 which, although better than some of the divisions, is far too low. The Freshman Class constitute a large percentage of the 214 men and their grades played a no small part in the average grade. Of course this gives an excellent opportunity to "razz the Frosh" until they raise the standings. But the upperclassmen and Sophomores must realize the fact and feel the truth that unless they raise

their grades, Kenyon's high scholastic standard will crumble and fall.

It may be of interest to notice also that the Fraternity divisions all together consisting of 129 men had an average of 3.02, which is .07 lower than the non-fraternity men. This data does not mean a great deal, however. But it just shows that every division should work a little harder and strive to raise Old Kenyon's scholastic standing.

## "SELLING YOURSELF"

Mr. J. J. Munsell, who was chairman of the Stadium Committee that raised over \$500,000.00 in Columbus alone for that magnificent structure now being built at the Ohio State University, was for several years manager of the department at the National Cash Register Company, Dayton, Ohio, known at that time as the Employment, Promotion, and Discharge Department.

Mr. Munsell was personally responsible for the promotion of Mr. J. H. Barringer, Vice-President and General Manager of the National Cash Register Company, from a humble clerical position to the position in the executive offices that proved a stepping stone to his present high position.

The numerous requests Mr. Munsell receives for advice and suggestions about the proper way to sell yourself, or to make application for a job and what to do when once you get it, led him to put the fund of information he has into booklet form. Any young man or woman expecting to, at some time, enter the business world should read this booklet. The earlier in life you read it the better, it is information of value to anyone regardless of age.

The following is an extract from a letter written by President W. O. Thompson of the Ohio State University:

"One reads the pages with the feeling that here is a man in sympathy with young men speaking plainly and truthfully to them about matters vital to their success and happiness in making their careers. The tone of the book is wholesome through out. (Cut this out as a reminder to order 'Selling Yourself'.")

Enclose either a \$1.00 bill or money order with your mailing address, and send same to J. J. Munsell, 11 East Rich Street, Columbus, Ohio. (Adv.)

## KENNETH ADAMS, '12

## ADDRESSES SCIENTISTS

Kenneth Adams of the class of 1912 was in Gambier for a short stay after serving several years in United States Coast Survey, and on March 15th gave a very interesting talk to the Club on the work done by our Coast Survey Service. He told of the work that this department was doing and the importance of it. Its main work is to

make the sea safe to travel on and to make charts for the mariner's use. His field for the past few years has been around the Philippine Islands where there is still much of this work to be done. The talk was very interesting and we wish to thank Mr. Adams for his trouble.

At the regular meeting of the Science Club on March first two new members were taken in, H. R. Stegeman and H. Jacobsen.

The University of Chicago announces only 600 courses for its summer session. Seems as tho a student ought to find something he'd like to take in that list.
