### VERBAL DESCRIPTION:

Hollow figure, Skull <sup>or monkey</sup> with a feathered headdress & punctated sphinx earflaps. The headdress includes a raised band set off from the forehead by a thin groove with another groove a band at an upper register of rectangular feathers defined by vertical grooves arranged about the head in a radial pattern. The face includes a pronounced brow with a central bulge. The eyes (punctated sphinx) are set in a recessed orbital found by bulges on either side there are also raised margins along the upper portion of the pupil. The nose is 2 small, pointed depressions. The mouth wraps around the head & has a jutting lower lip & teeth found by

grooves, the ears are oval shaped w/ squared off pointed  
Sphum earflaps. The underside of the chin is smooth &  
has wavy marks. There is an inferior shifted eye  
& a hole in the rear surface of the head.  
The broken edge is very smooth (wear, & original  
cut mark?) No paint or slip. This may be  
a monkey face
