Width:

Chamber Diameter: 1.8cm  
1.9cm

vent hole diam - 0.6cm

Handle width:

Handle thickness:

Ave thick of walls between  
chambers - 0.8cm

Chamber depth 4.5cm 4.2cm  
3.9cm  
4.6cm

## Verbal Description:

This is a fragment of a multichamber candelero with 2 complete chambers and evidence of at least 5 other chambers. The chambers are round with uneven but well curved walls and rounded bottoms. The exterior wall + base are roughly smoothed. The two complete chambers on the exterior wall have small round vent holes in the wall toward the bottom of the wall. The exterior wall undulates slightly w/ the chambers.

↳ one seems to extend into a slightly more interior chamber.

The chambers are burnt near the bottom w/ lessening fireclouding as you proceed up the chamber wall.
