Measurements (of pieces; of parts such as feet, openings, projections, etc.)

N/A

Condition (eroded; uneroded; burnt—where? how much?; etc.): fairly uneroded.

exterior is burnt.

Use wear, marking: Curved edge is not particularly smooth - lots of little chips & such, curved edge feels a bit smoother to the touch than the straight edge.

Manufacturing marks or other info about how it was made: rule from the dippe part of a dippe base. Intern (part that goes up) is not well finished - little bits of clay & such stick up from it. Underside is unsmooth & has a sort of brown/orange slip.

Decoration:

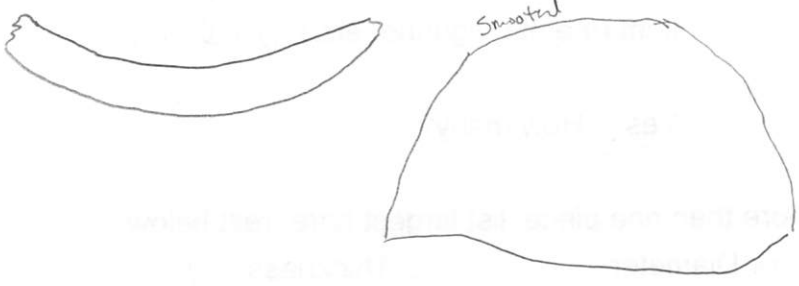

N/A

Other interesting, useful info: due to the fact that it was made from a dippe base, the curvature is nice & tight & is actually kind of pretty & symmetrical
