VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular – square – rectangular – oval – tear-drop – other (describe):

very rough rectangle

The margin/edge was chipped to form the item: y – n

The margin/edge was deliberately ground to smooth it: y – n

The margin/edge is smoothed from use: y – n

There is other use wear visible: y – n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use:

The type-variety from which this was made is: (PN)

Comments: side 4 has the most use wear and is rounded especially on the exterior side. All of the other sides have about equal use wear: they are slightly smooth/rounded on the edges but are still angular and rough. → only light use wear on entire sherd. Sides 3 & 2 look intentionally shaped.
