P90-29

31B/1 - South side of structure 114; trench is running through the center. 1x1m unit; First of 4 m North South lot taken to 0-20 cm BGS; measured from Southwest corner. Trench is running South to North.

Large amt. of pottery sherds. Large rock is located 60cm from SW corner; 45 from W wall of pit; and 40 cm from S wall of pit. Rock is 26cm x 23cm. Another rock (23cm x 16cm) is located 16cm from W wall and 49cm from S wall. Both seem to be lying flat. Second rock mentioned is 9cm from 1st Rock. They appear to form a line. Other rocks seem to be North of the two listed. Taking a new lot 10cm down

31B/2 - 31B/1 was extended another 10cm making lot 2 20cm-30cm BGS. 32cm North of South there is a line of three rocks; possibly a wall.

36cm South of the North wall there are 4 large rocks and 15 small rocks. Large amt. of pottery sherds; some obsidian; and 1 bone fragment. Extending a new unit further south of current one to try and locate the ending of mound.

31B/3 Lot is being taken 30cm BGS. In the North East corner is located a rock (30x30) which is flat on top. 18cm from the South are three rocks that go across the pit. Large amt. of pottery sherds.

#28

running through the center 1 x 1 m unit, first of the North side
it is from 10-20 cm BPS; measured from center to

center. There is running South to North.

There are a lot of better places for rock

located 100m from 2nd corner, 1/2 corner, 1/2 corner W wall of

1st corner, 1/2 corner, 1/2 corner W wall of 1st corner

2.5m x 2.5m. Another rock (2.5m x 1.5m) is

located 10m from W wall and 1/2 corner

2nd corner. Both seem to be lying flat. Some

rock material is from 1st corner. The

corner to form a line. Other rocks seem to be

North of the two listed. Taking a view from

down

318/5 - 318/1 is extended another 100m north

lot 2 20cm - 30cm BPS. 25cm North of 318/1

there is a line of three rocks: 2nd corner, 1st corner

30cm South of the North wall there are 1/2 corner

rocks and 1/2 small rocks. Large and

scattered along, some circular, and 1/2 corner

formation are now unit further south of center

one to find and locate the ending of road.

318/3 - 1st is lying there 30cm BPS. 1st

1st North East corner is located a rock (2x2)

which is flat on top. 10cm from the South

are three rocks that go across the gate. Large

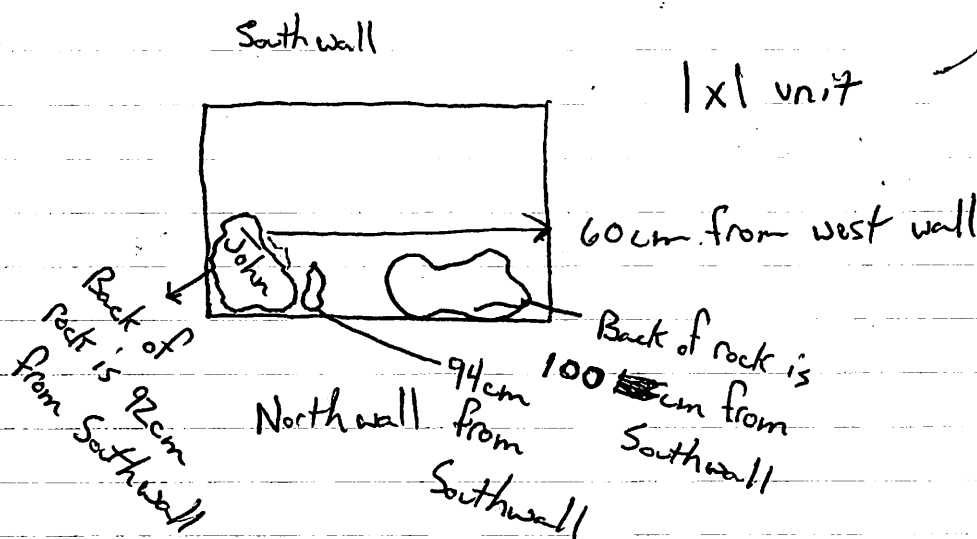

one to find and locate the ending of road.

31B/4 - Extension of Lot 3; Lot 4 is 30-40cm BGS
Depth being measured from Second units South
West corner. The Large rock found in the North East
measuring 38x30 was left in place; hence the lot has
a triangular

At 30cm there are two medium sized
stones lying in the Southwest corner. There is
also a grouping of rocks in the Southeast corner
at about 20cm. One nice mano frag and one
pottery sherd that is incised. Large amt of sherds

31B/5 - Taking out material west of John
Depth taken from 30-40cm BGS. Measured
from Northwest of Southern or original 1x1 unit
John starts at 66cm from west wall. Large amt
of little pebbles. Small amt of pottery sherds

 12-019

3/18/16 - Extension of Lot 27 to 30-40-00-000
 About 2000 sq ft of land was added to the north end of the lot. The land was previously owned by the State of Alaska and was part of the 30-40-00-000.

At 3:00 PM on 3/18/16, the following was observed:
 1. The land was mostly covered with grass and some shrubs.
 2. There were some small trees and bushes scattered throughout the area.
 3. The land appeared to be in good condition and was well maintained.

1/1/17

1/1/17

3/18/16 - Extension of Lot 27 to 30-40-00-000
 About 2000 sq ft of land was added to the north end of the lot. The land was previously owned by the State of Alaska and was part of the 30-40-00-000.

31B/17 - Moved back to unit 31B/15. Lot 17 is an extension of Lot 15, which was 0-20 BGS. Lot 17 runs 20-35 cm BGS. Moving from South end of unit in an attempt to find a wall Small and North of Pottery sherds.

31B/18 - 1x1m unit North of 31B/16. Lot is 0-30 cm BGS. Depth taken from NE corner of unit 31B/16. S wall of unit is 95 cm from front (south side) of Matthew. Acts is located in the N end of this unit. Acts runs to the S wall of unit 31B/19; Acts is 66 cm wide. The S side of Acts is 66 cm from N wall of unit. The S side of Acts is 30 cm from S wall of unit. S side of Acts is 120 cm from the south side of Matthew. Depth in front of Acts 40 cm BGS. Acts is 20 cm BGS. Depth behind Acts is 40 cm BGS.

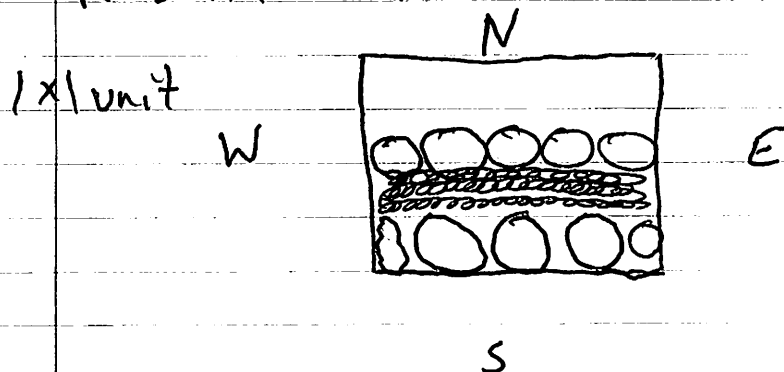

31B/19 - 1x1 unit north of 31B/18. The S wall is 188 cm from the front of Matthew; and 66 cm from S side of Acts. Measures come from NW stake of 31B/18. Three bags of pottery from Lot. 40 cm BGS

p90-31B-10

p90-29

31B/20 - 31B/20 is extension of 31B/16.
Clearing out tumble just behind Matthew
and up to S side of Acts. Measurements taken
from NE corner of 31B/15. Lot may contain
material from fill. 31B/20 is 28-40cm BGS.
Lot has same location as 31B/16; just below
it.

31B/21 - 1x1m unit north of 31B/19. 0-20cm BGS
Measurements coming from NE corner of unit 31B/19. S
wall is 180cm from S side of Acts. Large amt. of pottery
sherds. 1 metate frag. Wall Romans is located in
this unit. Romans is on or next to S wall of unit.
Depth in front of Romans 30cm BGS. Behind it is
40cm BGS. Romans is 10-15cm BGS. Romans S side
is 175cm from S side of Acts; Romans S side is 290cm
from S of Matthew. S wall of Romans is 105cm from
N wall. Romans is 90cm wide.

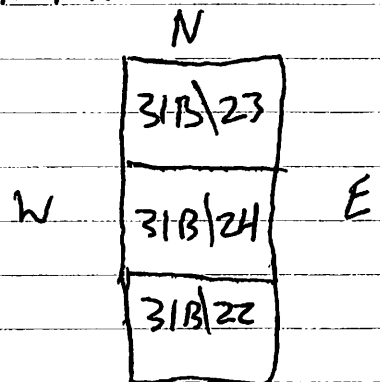

31B/22 - 1x1m unit N of 31B/21. South ~~side~~ ~~side~~
wall of unit is 290cm from South side of Acts.
Depth measurements come from NE corner of unit 31B/21
Pottery sherds: 1 metate with foot.

p90-31B-11
p90-29

31B/23 - 1x1 unit. S wall of unit is 90 cm from 31B/22's N wall. North wall of unit is 188 cm from N wall of 31B/22. S wall of unit is 2.90 m from S side of Romans; and 4.55 m from S side of Acts. 0-20 cm BGS. 1 nice mono frag. Measurements taken from NW stake of 31B/22. Primary context was found in SW corner in unit. The sherds were made into Lot 31B/25

31B/24 - 1x1 m unit in between 31B/23 and 31B/22. S wall of unit is 210 cm from S side of Romans. Measurements taken from NW stake of 31B/22. 0-5 BGS.

31B/25 - Lot is located in SW corner of 31B/23. The has a group of large sherds in primary context. The lot is 20cm-40cm BGS. Photo was taken of sherds. From SW corner of unit ~~the~~ is moving to the East wall the unit is 70cm long. From the S wall moving N the unit is 35cm wide. Primary context of sherds appeared at 25 cm BGS. Scale for the photo is set at 20cm. 4 bags of sherds 2nd, 3rd, 4th bags of pottery come underneath the sherds that were found in primary context.

1. $\frac{1}{2}$ of 100 = 50
 2. $\frac{1}{2}$ of 100 = 50

and I think we had a good time. I think
I would like to go to the "big" party.

P90-31I-1
P90-29.

31I/1 - Trench is located on the SW end of structure 115, 1x6m. First 1x1m unit is located just S of 31G; S of Amos; digging trench to follow Amos. 0-20cm BGS 50cm of earth in between 31I and 31G

31I/2 - 1x1m unit S of 31I/1; Small bag of pottery - 0-10cm BGS. S wall of unit is 210cm from N wall of 31I/1

31I/3 - 1x1m unit directly W of 31I/1. W wall of unit is 200cm from E wall of 31I/1 0-15cm BGS. SW corner Small bag pottery

31I/4 - 1x1m unit directly S of 31I/3 and directly West of 31I/2. W wall of unit is 140cm from E wall of 31I/2 S wall of unit 210cm from N wall of 31I/3

31I/5 - 1x2²⁵m unit; Same location as 31I/3 and 31I/4. Combining the two into one lot. 15-80cm BGS SW corner of lot is 2.25m from NW corner of lot. NW corner is 2m from NE corner of 31I/1; NE corner is 1.05m from NE corner. SW corner is 2m from SE corner of 31I/2; SE corner is 1.07m from SE corner 31I/5 SE corner stake of lot is 2.25m from NE corner stake of lot. Three bags of pottery.

P90-3II-2

P90-29

3II/6- Lot has same location as 3II/1 and 3II/2: Combining the two to make one lot. Exodus, Amos, and Job are all in unit.

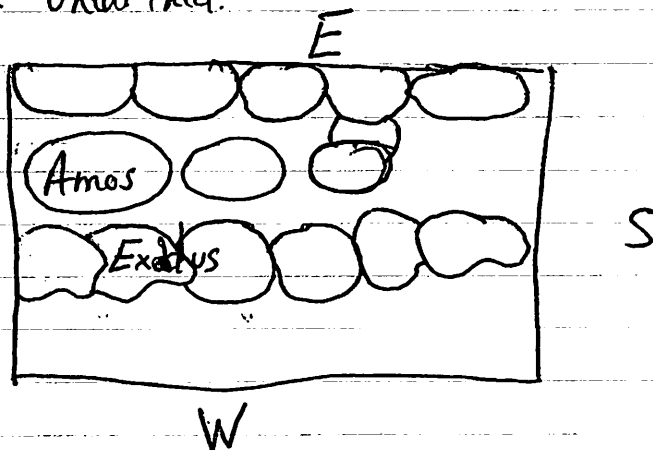

Exodus: Has a much thicker construction than the original section unearthed. W side Exodus is 105cm from W wall of 3II/5; Exodus is 55cm BGS; 35cm wide; Depth on W side is 80cm BGS; W side Exodus is 100cm from E wall of unit. Depth of E side is 50cm BGS.

Amos: Not well preserved; constructed of large cobbles, which is different from small cobbles consisting of the original section. W side Amos is 130cm from W wall 3II/5; E side is 155cm from W wall; 25cm wide; Amos is 50cm BGS; Depth on W side is 55cm BGS; W wall is 76cm from E wall of unit. Amos appears to end or turn up the hill. Turn happens 70cm from S wall of 3II/6.

Job- W side of Job is 195cm from W wall of 3II/5; E side runs into E side of 3II/6; Job is at GS; Depth of W side is 50cm BGS. Job has a much weaker construction; may be done to wear and tear (time); this section of Job is not as nice as original section unearthed.

P90-31I-3

31I/7 - SE corner is 3.85m from NE corner P90-29
31I/3*, SW corner of unit is 3.80m from NW
corner 31I/3. The unit is 1.50m long and
100cm wide. Following Exodus, 0-80cm BGS.
At 70 to 75 cm BGS there is a burial.

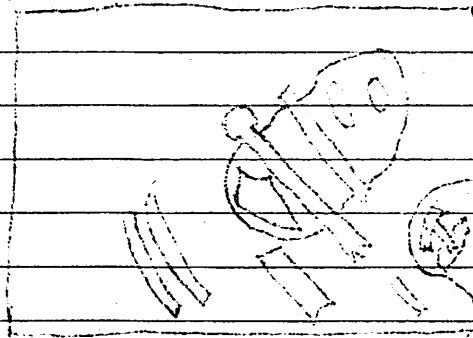

Burial #4 : The bones took up 4 bags.
There were also 2 bags of pottery and one
small bag of obsidian and bone. Scale
for photo set at 20cm. 32-ASA

31I/8- Same location as 31I/7, 80-85cm BGS.
Large amt of bone fragments; nice teeth. There
was piece of obsidian as well. The fragments
of bone were coming out much like pottery
sherds; random. The teeth are in small
bag, which is in big bag. Big bag of
bones; small bag of teeth; one small bag with
a piece of obsidian in it. Two small bags
inside the big bag, Depth SW corner.

31Q/48 - The SW + SE corners have same location
as the NW + NE corners of 31Q/46. The
NW corner of unit is 200cm E tape at
5.455 The NE is 300cm E tape at 5.45m.
One bag pottery; mono 0-35cm bgs.

31K/34 - Established a zero point starting on the W side of Doritos and running along the N wall of trench 31A. The NW corner of unit is 220cm S of tape at 7.55cm; SW corner is 390cm S of tape at 7.55m; SE corner is 425cm S of tape at 9.90m; NE corner is 280cm S of tape at 9.90m. 2 bags of pottery. Wall V of M is located in lot: located in the N end. Depth of S side of V of M is 30cm bags; V of M is 10cm bags. Depth 40cm bags.

31K/35 - NW and SW corners of unit have same location as the NE and SE corners of 31K/34. NE corner of unit is 300 cm S of tape at 10.70 m; SE corner is 430 cm S of tape at 10.70 m.

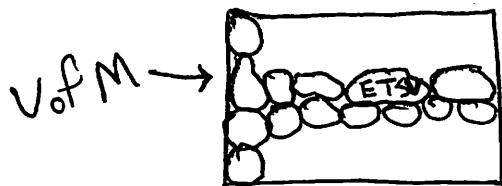

Wall VT is located in lot. S side is 25cm from S wall of unit; N side is 90cm from S wall of unit. VT is 8cm bags, depth in front is 38cm bags; Depth on N side is 25cm bags. VT runs into V of M; Baja regue; no pottery.

31K/36 - The SW + NW corners of unit have same location as the SE and NE corners of 31K/35. The NE corner of unit is 330 cm S of tape at 12.50m; SE is 420 cm S of tape at 12.50m.

Small bag pottery.

S side ETSU is 200cm from S side VT. N side ETSU is 240cm from S side VT; ETSU is 20cm hgs; depth on S side is 35cm hgs; N side is 30cm hgs. S side is 60cm from N wall of unit. ETSU appears to run into V of M.

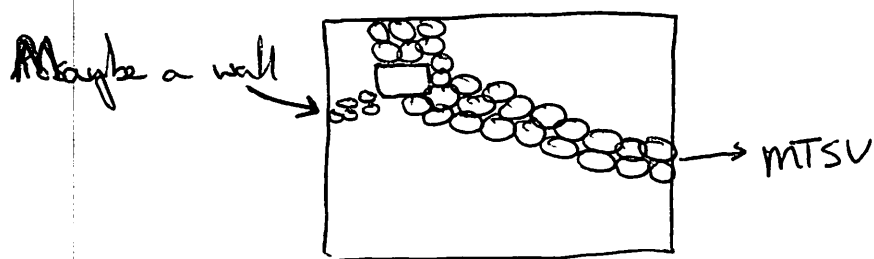

31K/37 - The SW + NW corners have same location as the SE + NE corners of 31K/36; The NE corner is 360cm S of tape at 13.90m; The SE corner is 440cm S of tape at 13.90m. 0-35cm hgs Small bag pottery. Still following wall V of M.

31K/38 - The NW and SW corners of unit have same location as the NE + SE corners of 31K/37. The NE corner is 330cm S of tape at 14.90m; The SE corner is 440 cm S of tape at 14.90m. Small bag pottery. Still following V of M. One piece of obsidian.

P90-31K-3

P90-29

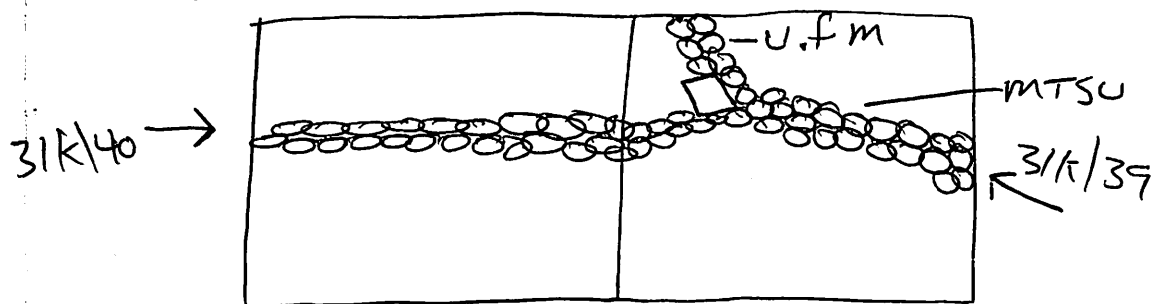

31K/39 - The SW and NW corners have same location as the SE and NE corners of 31K/40.38
 The SE corner of unit is 455 cm S of tape at 15.90 m; NE corner is 330 cm S of tape at 15.90 m. 0-25 cm bgs. Found the corner of U of M.

MTSU is 10 cm bgs, depth on the SE side is 30 cm bgs. The corner of MTSU and U of M is 50 cm from S wall of unit. Appears a wall running SE may have been added on.

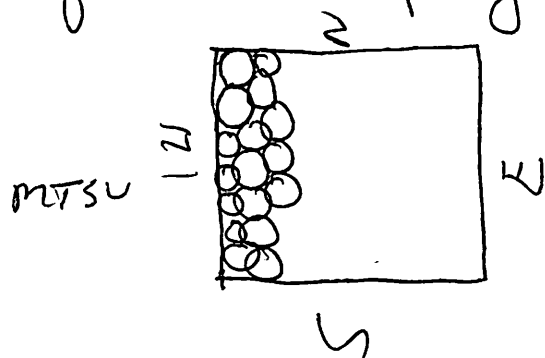

31K/40 - The NW + NE walls have same location as the SW + SE walls of 31K/39. The SE corner of unit is 555 cm S of tape at 15.90 m; SW corner is 14.90 cm S of tape at 15.90

No pottery. Still not sure if there is a wall

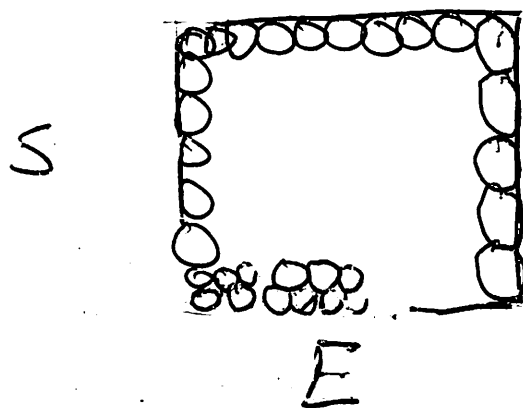

Although the drawing doesn't show it, the construction of possible wall is not very good, 0-30 cm bgs.

31K/41 - The SW and SE corners of unit have same location as the NW + NE corners of 31K/39. The NE corner is 225 cm S of tape at 15.90m; NW corner is 225 cm S of tape at 14.90m. Following MTSU. No pottery. 0-15cm lgs.

31K/42 - The SW + SE corners of lot have same location as the NW + NE corners 31K/41. The NE corner of lot is 120 cm S of tape at 15.90; The NW corner of lot is 120 cm S of tape at 14.90. Nice Metate frag; No pottery.

31K/43 - The ~~NE~~ SE NE corner is 150 cm S of tape at 14.90 m; SE corner is 320 cm S of tape at 14.90 m. The NW corner is 120 cm S of tape at 12m; SW is 270 cm S of tape at 12m.

No pottery

Clearing out tumble in room

31K/44 - SW corner is 4.45 cm S of tape at 13.90m; SE is ~~5.50~~ cm S of tape at 14.90m; NW is 4.45 cm S of tape at 13.90m; NE is 4.50 cm S of tape at 14.90m. 0-20cm bgs. Small amt of pottery. Possible wall. P90-31K-5 P90-29

31K/45 - NW and ~~SW~~ corners have same location as the ~~SW~~ and ~~SE~~ corners of 31K/44. The NE corner of unit is 560 cm S of tape at 15.90m; SE is 660 cm S of tape at 15.90m. ~~NE corner is 5.60m~~ SW corner is 6.50m at 14.90m. Small bag pottery

31K/46 - Unit has same location as 31K/44. 20-35cm bgs. Small bag pottery sherds. Clearing off a surface.

~~31K/46~~

31K/47 - The NE+NW corners have same location as the SE+SW corners of 31K/44. SE corner of unit has same location as the SW corner of 31K/45. SW corner is 5.45 cm S of tape at 13.90m. Small bag pottery. 0-15cm bgs.

31K/48 - The NE corner is 650 cm S of tape at 15.90m; NW is 14.90 cm S of tape at 650m; SE is 750 cm S of tape at 15.90m; SW is 750 cm S of tape at 14.90m. 6- cm bgs.

P90-29

31K/49 - The NE + SE corners have same location as the NW + SW corners of 31K/48. The SW corner of unit is 740 cm S tape at 13.90 m. The NW corner of unit is 640 cm S tape at 13.90 m. No pottery. Still searching for basal wall. c. 15cm bags

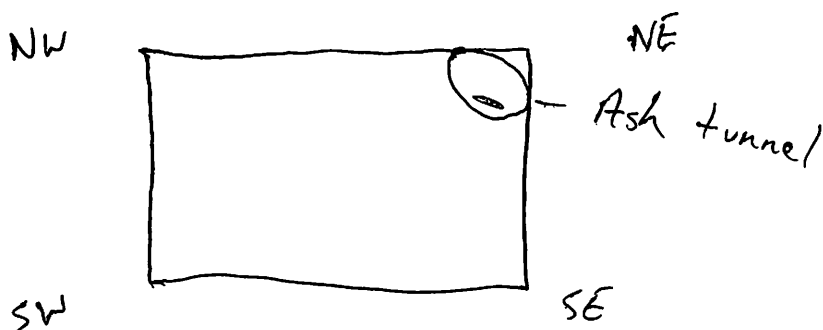

31K/50 - The NW and NE corners have same location as the SW and SE corners of 31K/49. The SW corner of the unit is 840 cm S of tape at 13.90 m, SE corner is 850 cm S of tape at 14.90 m. One bag pottery and one bag of bones: ~~small bag~~. ~~Still chasing the back side of T. lichen.~~

31K/51 - The SW corner is in the same location as the SE corner of 31K/50; NW has same location as NE corner of 31K/50. SE is 860 cm S tape at 15.90; NE is 760 cm S tape at 15.90 m. Small bag of pottery.

31K/52 - The NW + SW corners have same location as the NW + SW of corners of 31K/49; The NE + SE corners of unit have same location as the NE + SE corners of 31K/48. Unit is 1x2; Combining 31K/49 + 31K/48

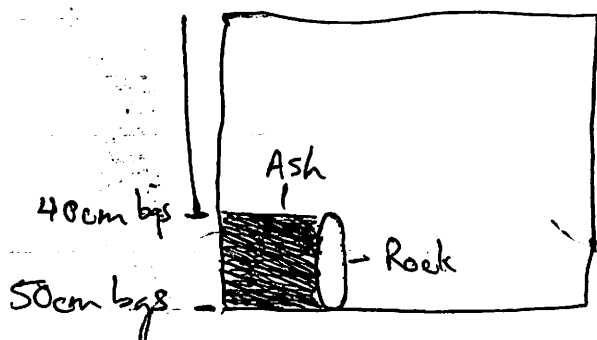

31K/53- The SE corner is 660 cm S tape at 15.90m; the NE corner is 560 cm S of tape at 15.90m; the NW corner is 540 cm S tape at 14.90m; the SW is 640 cm S tape at 14.90m.

25-55 cm bags. In the NE corner of the unit there is a deposit of ash. The mouth of the "tunnel" is 20cm wide and 25cm in height. The top of the hole is 40cm bags; bottom 65 cm bags. Tunnel extends 30 cm into ground. One bag of pottery; 2 bags of ash.

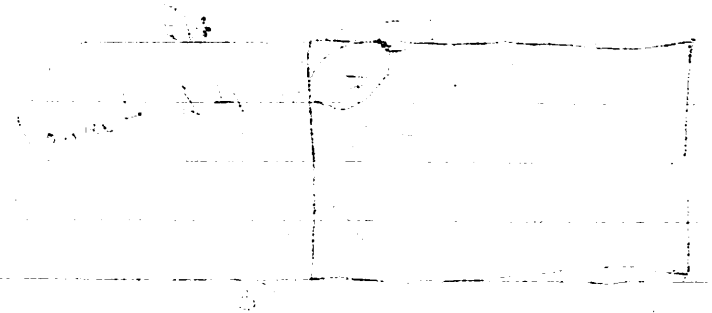

31K/54- The NW + SW corners of unit have same location as the NE + SE corners of 31K/53. The SE corner is 660 cm S of tape at 16.90; The NE is 560 cm S tape at 16.90m. One small bag of pottery; One nice mona. 0-50cm bags.

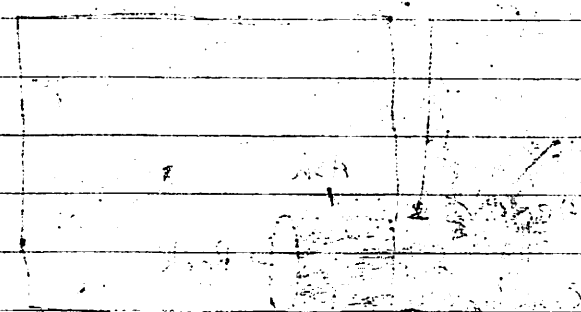

Profile N wall.

The first of the two is a small hole in the ground, about 1/2 inch deep, and 1/2 inch wide. It is located in the center of the field, and is surrounded by a low wall of earth. The second is a larger hole, about 1 inch deep, and 1 inch wide. It is located in the corner of the field, and is surrounded by a low wall of earth. Both holes are filled with water, and are used for irrigation.

The third of the two is a small hole in the ground, about 1/2 inch deep, and 1/2 inch wide. It is located in the center of the field, and is surrounded by a low wall of earth. The fourth is a larger hole, about 1 inch deep, and 1 inch wide. It is located in the corner of the field, and is surrounded by a low wall of earth. Both holes are filled with water, and are used for irrigation.

31K/55 - The SW + SE corners of unit have same location as the NW + NE corners of 31K/53

The NW corner of unit ~~has same location as the~~ is 455 cm S tape at 14.90m; NE corner is 4.60 cm S tape at 15.90m.

31K/56 - Moving W through tumble in an attempt to find a wall. NE corner is 560 cm S tape at 14.90m; SE is 610 cm S tape at 14.90m; NW is 510 cm S tape at 13.90m; SW is 610 cm S tape at 13.90m. One bag of pottery sherds.

31K/57 - The NW + NE corners have same location as the SW + SE corners of 31K/56. The SW corner is 710 cm S tape at 13.90m; SE is 710 cm S tape at 14.90m. One bag pottery.

31K/58 - The NE corner is 175 cm S tape 7.50m; SE corner is 275 cm S tape at 7.50m; The NW corner is 175 cm S tape at 6.80m; SW is 275 cm S tape at 6.80m. One bag pottery. Following V of M.

70cm

1 bag

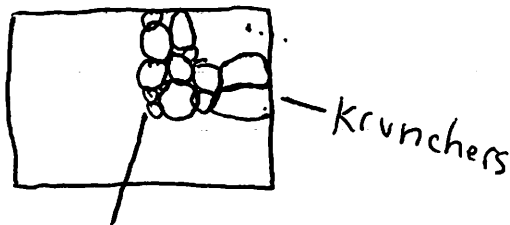

P90-31M-1

31M/58 - SW corner of unit is 115cm N of tape at 8.88m; NW is 260cm N of tape at 8.88m. SE corner is 115cm N of tape at 11m; NE corner is 230cm N of tape at 11m. Bag pottery and 7 pieces of obsidian.

P90-29

31M/59 - SW and NW corners of lot have same location as the SE and NE corners of 31M/58. SE corner is 50cm N of tape at 12.88; NE corner is 160cm N of tape at 12.88m. 0-55cm bgs. ^{Small bag} pottery.

31M/60 - The NE corner is 120 cm N of tape at 11.10m; SE is 80 cm N of tape 11.10 at \downarrow m; NW is 120 cm N tape at 10.50 m; SW is 80 cm N of tape at $\frac{10.50}{10.50}$ m. Clearing out tumble in attempt to get a better look at Krunchers. Found the corner of Krunchers. Metate foot.

Corner

Established a datum point on wall Tillich. The depth in relation of the mark on Tillich to the current location of the stake in the ground is 28cm bgs. Depth for 31M/60 is 45cm bgs. String from stake is on ground surface.

31M/61 - The SE corner of unit is 180cm N of tape at 11m; NE corner is 340cm N of tape at 11m; The SW corner is 220cm N of tape at 9.50m; NW corner is 360 cm N of tape at 9.50m. Depth taken to 35cm bgs.

31M/62 - The SE corner has same location as the SW corner of 31M/61. The NE corner is 430cm N of tape at 9.50m. SW corner is 230 cm N of tape at 8.90 m; NW is 447 cm N tape at 8.90 m. 10-45cm bgs.

31M/63 - The SW corner is 210 cm from tape at 11.20 m; NW corner is 330 cm N tape at 11.20m; The SE corner is 200 cm N tape at 12.88m; The NE corner is 330 cm N tape at 12.88 m. Depth taken to 45cm bgs. Small bag pottery.

31M/64 - The NE corner is 260 cm N of tape at 9.10m; The SE corner is 100 cm N of tape at 9.10m; NW is 260 cm N of tape at 8.10m; the SW is 100 cm N of tape at 8.10m. Trying to follow wall Tillich seem to have caught a section of Ruffles. It appears to connect into Tillich. Top of Ruffles is 54cm bgs; Depth on E side is 74cm bgs. Extends 55cm from W wall of unit. One bag of pottery sherds with small amt. of obsidian.

1. The first part of the report is a summary of the work done during the last year. It is a very good summary and gives a clear picture of the progress made. The second part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made.

2. The second part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made. The third part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made.

3. The third part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made. The fourth part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made.

4. The fourth part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made. The fifth part of the report is a detailed account of the work done during the last year. It is a very good account and gives a clear picture of the progress made.

31M/65- The NW corner of unit is 120 cm N of tape at 8.10m; The SW is on tape at 8.10m. The NE is 120 cm N of tape at 9.10m; ~~the~~ SE is on tape at 9.10. Trying to follow the wall discovered in 31M/65. Looks as if it does not connect with Ruffles; it turns 0-80cm lgs. One bag pottery. P90-31M/65
P90-29

31M/66- The SE + NE corners have same location as the NW + SW corners of 31M/65. The SW corner is 25 cm N of tape at 7m; The NW is 120 cm N of tape at 7m. Suncheros in lot; The E side is 40 cm from E wall of trench; top is 20cm lgs; Depth or E side is 75cm lgs. One bag of pottery. E side is 60cm from ~~top~~ of unit. There was a small amt of pottery; however the workers put it in 31M/65! My bed.

31M/67- The SE corner is 120 cm N tape at 7.90m; NE corner is 285 cm N of tape at 7.90m. SW corner is 20 cm N tape at 7.30m; NW is ~~285~~ 285 cm N tape at 7.30m. Following Suncheros; One bag pottery. 0-50cm lgs.

31M/68- SW corner is same location as NW corner 31M/67. SE corner is 275 cm N tape at 8.70m; NE is 375cm N tape at 8.70m; NW is 385cm N tape at 7.30. Small amt. pottery. 0-10cm lgs.

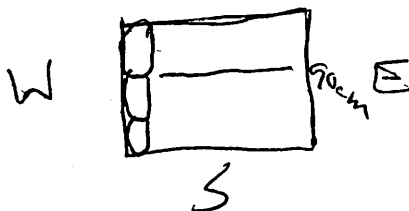

9.35

31M/69 - The SW corner is 300 cm N tape at ~~9.35~~ m, SE is 290 cm N tape at 10.55 m, NW is 430 cm S tape at 9.35 m, NE is 420 cm S tape at 10.55 m. 15-35 cm bgs. Mono, bag pottery, Weight. Clearing tumble.

31M/70 - The NE+SE corners of unit are 430 cm + 320 cm N of tape respectively at 9.35 m. The SW is 300 cm N tape at 8.15 m, NW is 440 cm N tape at 8.15 m. Clearing on top of a surface. Small amt pottery, human tooth and bone remains. 45 cm bgs.

31M/71 - The NW corner is 370 cm N of tape at 10.90 m, The SW is 280 cm N of tape at 10.90 m. The NE is 330 cm N of tape at 12.50 m, SE corner is 240 cm N of tape at 12.50 m. 55 cm bgs. Small bag pottery. Following the back side of Tillich.

31M/72 - The SE corner is 350 cm S tape at 12.85 m, NE is 490 cm S tape at 12.85 m, NW is 500 cm S tape at 11.35 m, SW is 350 cm S tape at 11.35 m. Wall Gillham is located in the lot. 10-40 cm bgs. One bag pottery. W side Gillham is 90 cm from W wall of unit. Depth on East side is 40 cm bgs, Top Gillham is 10 cm bgs.

31M/73 - The SE corner of unit is ³¹⁰~~430~~ cm S of tape at 9.30 m; The NE corner is ⁴³⁰~~530~~ cm S of tape at 9.30 m; SW is 375 cm S of tape at 7 m; NW is 460 cm S of tape at 7 m. P90-31M-5 P90-29

Still following the back side of Tillich. One bag of pottery and a small back of bones. 0-30cm bags.

31M/74 - The SE corner of unit is 430cm N of tape at 9.30m; NE corner of unit is 530cm N of tape at 9.30m. SW 455cm N of tape at 8.30m; The NW is 555cm N of tape at 8.30. 0-25cm bags.

Cleared down on to a surface. Were looking for the sister wall to Gilham's, however we were unable to find one. One bag pottery.

31M/75 - The SE + NE corners of unit have same location as the SW + NW corners of 31M/74. The SW corner of unit is 470cm N of tape at 7.30m; NW is 570cm N of tape at 7.30m. 0-20cm bags. Clearing off a surface.

31M/76 - The NE + SE corners of unit have same location as the NW + SW corners of 31M/75. The SW corner is ⁵⁰⁰ cm N of tape at 6.30 m; The NW corner is 600 cm N of tape at 6.30 m. One bag of pottery. 0-20cm bags. May have possible wall running along S end of lot.

31M/77 - The NE + SE corners of unit have same location as the NW + SW corners of 31M/76. The NW corner of tape is 620 cm N of tape at 5.30m; The SW corner is 520 cm N of tape at 5.30m. 0-20cm bgs. One small bag of pottery - Chasing out possible wall.

31M/78 - The ~~SW~~^{NW + NE} + SE corners of unit have same location as the SW + SE corners of unit 31M/77. The SW corner is 5.30 cm N tape at 4.20 m; SE corner is 400 cm N tape at 6.30 m. One small bag pottery - Trying figure out what in hell is going on in this area of structure.

31M/79 - The NW + SW corners have same location as the NE + SE corners of 31M/77. The SE corner of unit is 420cm N tape at 5.50m; NE is 520cm of tape at 5.50m.

31M/80 - The NE + SE corners of unit have same location as the NW + SW corners of 31M/77. The SW corner is 520cm N tape at 4.30m; NW corner is 620cm N tape at 4.30. 0-20cm bgs small bag of pottery.

Operation for 37A - Axial trench running P90-29
over structure 1A-1B. Placed in the middle of the
structure. Trying to gain an understanding of
the buildings dimensions running W to E and
also ~~and~~ an understanding of its construction:
cut stone; cobble etc. S side of Trench
is located at 30° . Taken from W end facing
E

37A/01 - 1x1m unit: first 1x1m unit of a 14
m trench. Moving W to E 0-40cm bgs; depth
comes from NE corner of the unit. Small amt of
pottery shards.

37A/02 - 1x1m unit directly E of 37A/01. The
NW and SW corners of unit have same location as
the NE and SE corners of unit 37A/01. The NE
and SE corners of unit are 200cm from original
W wall of trench. Small amt of pottery with
some bafa requ. 0-40cm bgs; depth NE
corner; level with 37A/01.

37A/03 - Unit is directly E of 37A/02.
The NW + SW corners of unit have same location
as the NE + SE corners of 37A/02. The
NE + SE corners of unit are 300cm from the
W wall of the trench. 0-35 cm bgs.
Small bag pottery

1. The first part of the report - A.P.E. - is a summary of the work done in the last year. It is a very good summary and it is very well written. It is a very good summary and it is very well written. It is a very good summary and it is very well written.

2. The second part of the report - A.P.E. - is a summary of the work done in the last year. It is a very good summary and it is very well written. It is a very good summary and it is very well written. It is a very good summary and it is very well written.

3. The third part of the report - A.P.E. - is a summary of the work done in the last year. It is a very good summary and it is very well written. It is a very good summary and it is very well written. It is a very good summary and it is very well written.

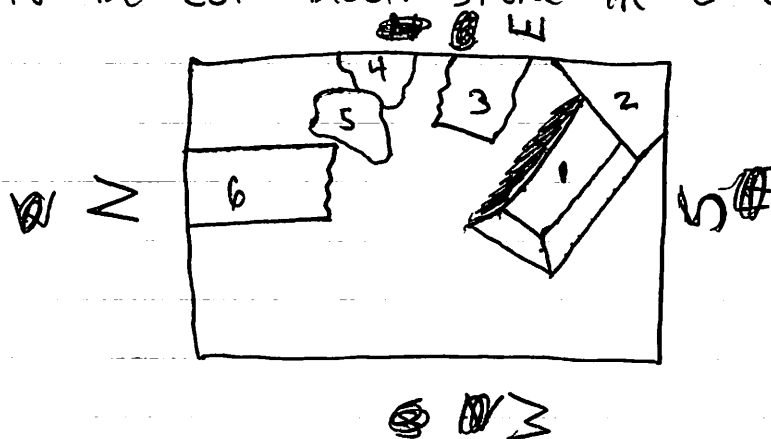

4. The fourth part of the report - A.P.E. - is a summary of the work done in the last year. It is a very good summary and it is very well written. It is a very good summary and it is very well written. It is a very good summary and it is very well written.

37A/04- Unit is directly E of 37A/03. The NW and SW corners of unit have same location as the NE and SE corners of 37A/03. The NE + SE corners of unit are 400cm from W wall of trench.

Starting to hit tumble. 0-40cm bgs; depth from NE corner; unit is level with 37A/03. Small amt of pottery sherds. Move up another unit then jump back to clear tumble.

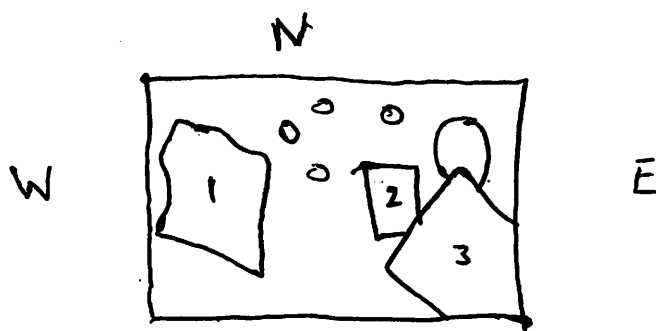

37A/05- Unit is directly E of 37A/04. The NW and SW corners have same location as the NE + SE corners of 37A/04. The NE + SE corners of unit are 500cm from W wall of unit. Small bag of pottery with some bafareque. 0-60cm bgs; depth from NE corner.

There is an interesting collection of what appears to be cut block stone in E corner of the unit.

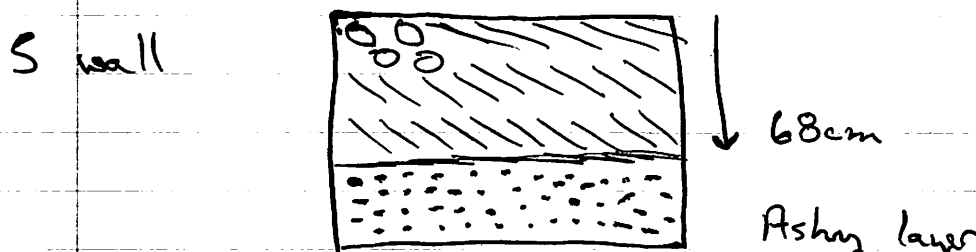

Block 1 is 30cm long and 15cm wide; block 2 is 23cm long and extends 16cm from the SE corner of unit; block 3 is 18cm wide and extends 25cm from the E wall of unit; block 4 is 12cm wide + extends 15cm from E wall; block 5 is 14x18; and block 6 extends 30cm from N wall + is 22cm wide.

37A/06 - Unit is directly E of 37A/05.
 The SW and NW corners have same location as the SE + NE corners of 37A/05. The NE + SE corners of unit are 600cm from W wall of trench. Small bag of pottery sherds.
 Large amt of some more cut stone.

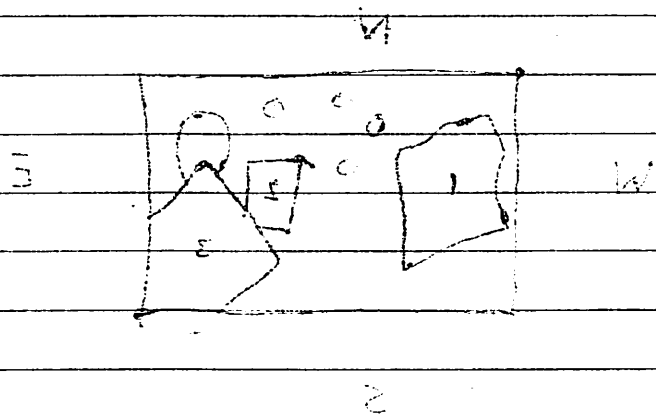

Block 1 is 40cm wide and 45cm in length; block 2 is 25cm in length and 17cm wide; block 3 is 38cm long running W to East and it extends 25cm from the S wall of unit.

37A/07 - Unit has same location as 37A/05;
 Extension down. 60-80cm bgs; depth NE corner.
 Small amt of pottery sherds

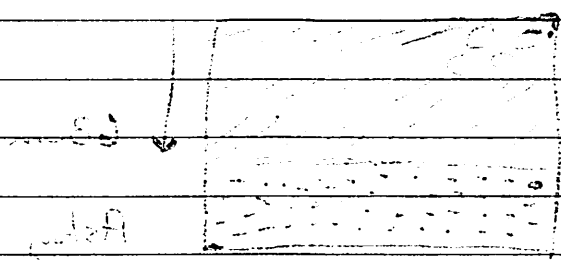

Only seen in S wall profile. Go figure!

3/24/05 - that the same location is 324/05.
 Exterior shows for some light the
 small area of light.

Block 1 is shown with only 324/05. Block 2 is shown with 324/05 and 324/06. Block 3 is shown with 324/05 and 324/07. Block 4 is shown with 324/05 and 324/08.

3/24/05 - that the same location is 324/05.
 Exterior shows for some light the
 small area of light.

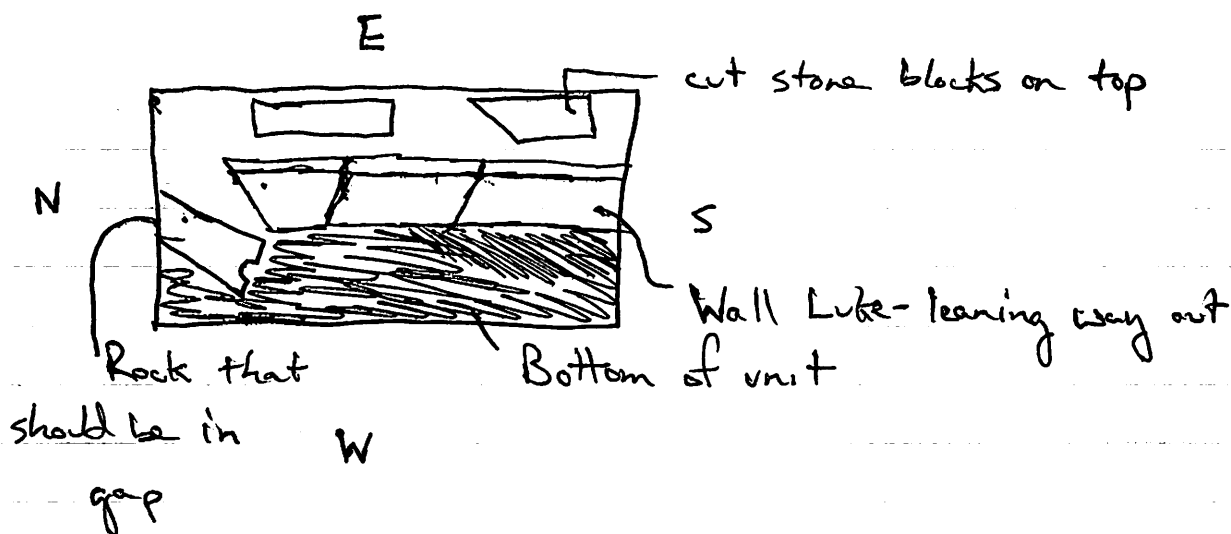

3/24/05 - that the same location is 324/05.
 Exterior shows for some light the
 small area of light.

37A/08 - Unit has same location as 37A/06.

Extension down 50-85 cm bgs, depth NE corner. Small pottery + obsidian
Found the base/ wall of the structure.

The wall is constructed of stones standing upright with another layer of cut block^{cut} stones forming the terrace. The upright stones of Luke are leaning out quite a bit.

The wall Luke is made up of 3 cut black stones. The bottom edge of Luke is 45cm above the bottom surface of unit. All three blocks are roughly 9 cm wide. The wall extends 89cm from S wall of unit. The stone which would have filled the gap on the N ends appears to have fallen out of place. Top of Luke is 50cm bgs. Depth on the W side is 45cm bgs. W side of Luke is 5.16m from W wall of trench.

One small bag of pottery sherds with some obsidian

* 37A/09 - Unit is directly E of 37A/08. The NW + SW corners of unit have same location as SE + NE corners of 37A/08. The NE + SE corners are 700cm E of the W wall of trench. Possible steps in unit.

[illegible]

37A/09 - Continued - Not sure what is going on unit, so I'm moving up another unit to try and clear things up. Unit looks like it might have a set of steps. One small bag of pottery & bajareque. Depth in NE corner 28 cm; because possible steps are being left in.

37A/10 - Unit is directly E of 37A/09. NW + SW corners of unit have same location as the NE + SE corners of 37A/09. The NE + SE corners of unit are 800 cm from W wall of trench. Step Mark is located in unit. Depth on the W side of Mark is 50 cm bgs; top of Mark is 30 cm bgs. The W side of Mark is 7.50 m from W wall of trench. The wall is leaning down somewhat. Depth in NE corner of unit is 20 cm bgs. W side Mark is 53 cm from E wall of unit.

West Mark is 2.55 m from W side Luke.

Small amt of pottery with some bajareque.

37A/11 - Unit has same location as 37A/09. Cleaning up to see steps better. Oops! No it doesn't! The NW and SW corners are 575 cm E of W wall of trench; The NE and SE corners of unit are 200 cm from W wall trench. Clearing up around 4 steps.

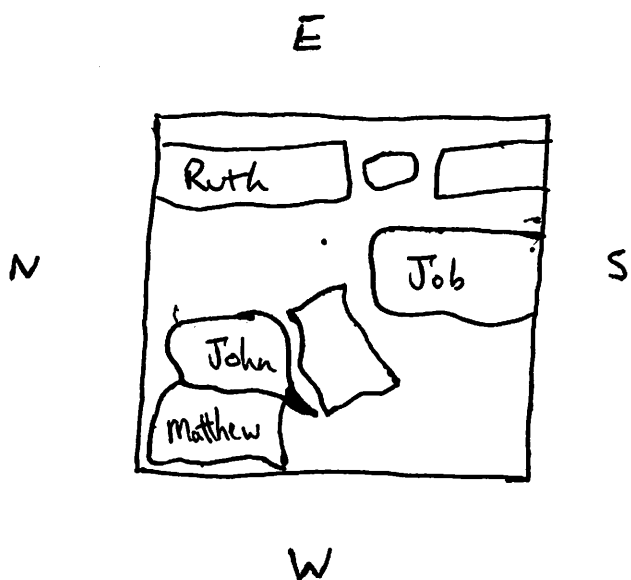

below datum;

37A/11 Continued - There is total of four steps in unit. The first is Matthew; Established a datum point on the S wall of trench next to wall Luke. The string is 62cm AGS. The datum is 5.18m from W wall of trench. Luke is 105cm below datum; Matthew is 92cm below datum; It is a cut stone block that is 43cm ~~wide~~ long and 10cm thick. The E side of Matthew is underneath John. W side Matthew is 42cm from W side of Luke, is 5.60m from W wall of trench. The N side of Matthew is 11cm from N wall of trench; S side of Matthew is 50 cm from S wall of unit.

John sits on top of Matthew; top is 74cm below datum. It is broken into two fragments. The first is 37cm long and 29cm wide; the second is 18cm long and 26cm wide; both fragments are about 11cm thick. The N side John is 26cm from N wall unit; S side is 23cm from S wall unit. W side John is 58cm from W side Luke; W side is 5.84m from W wall of trench. E side is 6.13m from W wall of trench. W side John is 22cm from W side of Matthew.

Job - Is a rounded stone instead of a cut block. Job is 48cm below datum. N side is 60 cm from N wall unit; Job extends 44 cm from S wall unit. W side Job is 86cm from W of trench. W side is 35cm from W side John. E side is 6.40m from W wall of trench + W side is 6.16m.

Ruth is next step or actually it is a wall. Top layer consist of cut stone blocks; depth on W side is 71cm below datum. The W side is 6.55m from W wall of trench. W side is 118cm from W side of Luke. Ruth is a very deep wall with good construction. Ruth is 10cm below datum

Birds eye view.

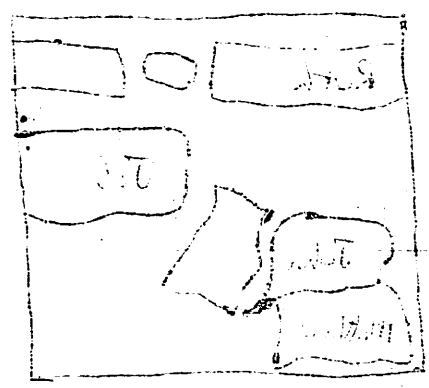

No pottery.

X 37A/12 - Unit is directly E of 37A/10. The NW + SW corners have same location as NE + SE corners of 37A/10. The NE and SE are 900 cm from W wall of trench. Small amt of ~~obs~~ pottery with some bajareque. 0-60cm bgs; depth NE corner of unit. Looking for another feature. Nearing summit.

37A/13 - Directly E of 37A/12. NW + SW corners have same location as NE + SE corners of 37A/12. The NE + SE corners of unit are 1,000 cm from W wall of trench. 0-40cm bgs depth NE corner of unit. No pottery!

How is it that plants can grow in soil
that is not very fertile? Is there
something about the soil that helps
them? Is it the water? Or is it the
minerals? Or is it the air? Or is it
the light? Or is it the temperature?

But the soil is not

37A/14. Same location as 37A/13; Extension down. 40-60 cm bys; NW corner. Step Exodus is in lot. Top of Exodus is 50cm bys; depth of W side is 60cm bys; depth in NE corner of unit is 50cm bys. If Exodus is a wall, its in really bad shape. Most of stones are leaning way down, however there is a good number of the smaller underneath the large ones. W side is 1.65m from W side Mark; 2.75m from W side Ruth; and 4.27 m from W side of. The tape was not made level (it was simply run over the features) the measurements may be a little off. Ed said it was OK.

E

Measurements in notes.

W.

Small amt of pottery with some byzantine.

37A/15 - E of 37A/14; the NW and SW corners of unit have same location as the NE and SE corners of 37A/14. The NE and SE corners of unit are 11m from W wall of French. 0-20cm bys; depth NE. No pottery! May have found another wall, or some steps. Should know from next lot.

37A|16 - Unit has same location as 37A|15. Clearing out tumble on some steps. OK, here the scoop: the steps are starting to run back into the last lot, so I'm going to close this lot. There are now 3 great looking steps in this lot, the third is running into the previous ^{lot}. I may end up taking out wall Exodus; appears it isn't one after all. Hence, the next ^{few} lots will be used to get all this stuff cleaned up, and I will then use one lot to name all the steps at once. Small amt of pottery with some bajeaque. Depth NE 20cm bgs; Depth NW 0-50cm bgs. Cause of the steps.

* 37A|17 - Unit has same location 37A|15. Removing Exodus. After removing Exodus there are now three cut block stone steps! The first is in 37A|15 + 37A|17; the last two are in 37A|16. Small amt of pottery. Depth NE corner is 20-50cm bgs.

37A|18 - The NW + SW corners of unit are 9.70m from W wall of trench. The NE and SE corners of unit are 11m from W wall of trench. The unit contains three steps: Acts, Romans, and Song of Songs. W side Acts is 9.75m from W wall of trench; W side Romans is 10.20m from W wall of trench; W side Song of Songs is 10.65m from W wall of trench. W side Acts is 4.41m from W side Luke; W side Romans is 4.81m from W side Luke; W side Song of Songs is 5.25m from W side Luke.

$\frac{d}{dt} \left(\frac{\pi}{HSE} \right) = \frac{\pi}{HSE}$

[illegible]

37A/18: Continued - Set up datum on the S wall of trench. Located on the W side of Romans', stake is 4.81m from W side of Luke. The string on the stake is 26cm AGS. Depth on W side Acts is 122cm below datum; Top of Acts is 81cm below datum; Depth on W side Romans is 80cm ~~top~~ below datum; Top of Romans is 50cm below datum; depth on W side of Song of Songs is 50cm below datum; top of Song of Song is ~~17~~ 17cm below datum. The datum located along wall Luke is 174cm below the datum located along Romans. depth for first datum below second taken from location of string above ground surface. Acts extends 48cm E before step Roman begins; Romans extends 32cm before step Song of Songs begins.

I have no idea how to draw these dr.

Top of Romans.

Front of Romans

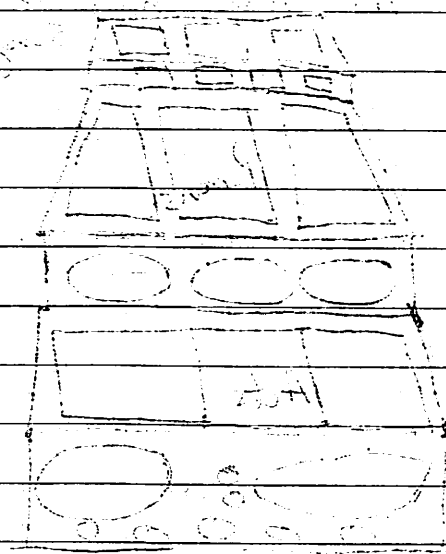

Top of Acts

Front of Acts

37A/19 - E of 37A/18; The NW + SW corners have same location as the NE + SE corners of 37A/18; NE + SE corners of unit are 12m from W wall of trench. 0-20cm hgs; depth NE corner. Step Proverbs is located in lot.

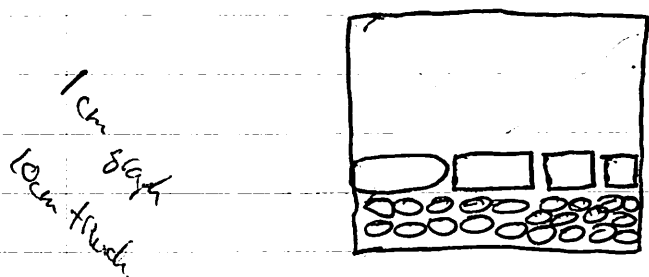

452-418

تعارف - ۵

[illegible]

1. The first part of the paper is a review of the literature on the topic of the effect of the environment on the development of the child. The second part is a description of the methods used in the study. The third part is a description of the results of the study. The fourth part is a discussion of the results of the study. The fifth part is a conclusion.

37A/19: Continued - Depth on W side
 Proverbs is 16cm below datum along Romans.
 Top of Proverbs is 20cm above Song of Songs;
 W side Proverbs is 5.82m from W wall of
 Luke; W side is 11 m from W wall of
 trench.

Frontal view of Proverbs.

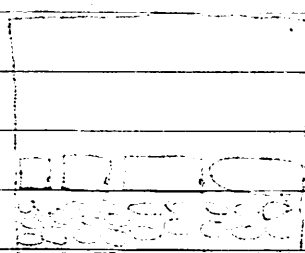

37A/20 - E of 37A/19; NW and SW corners of unit have
 same location as the NE + SE corners of 37C/19.
 NW + SW corners of unit are 13m from W wall of
 trench. 0-20cm bgs; depth NE corner. Small amt of
 pottery with some biface.

37A/21 - E of 37A/20 - NW and SW corners of unit have
 same location as the NE and NW corners of 37A/20.
 NE and SE corners of unit are 14m from W wall of
 unit. No pottery 0-20cm bgs; depth NE corner

* 37A/22 - Same location as 37A/21; extension down.
 20-25cm bgs; depth NE corner. Moving E at
 the level of Proverbs. No pottery.

37A/23 - Same location as 37A/21; extension down 20-25cm
 bgs. Looks like there could be part of a feature in
 in the S end of the unit; however won't know until
 we go lateral. On the summit.

37A/31- Same location as 37A/30; extension down 40-50 cm lgs; depth NE. Making unit level with plaster floor. Plaster floor is continuing W. Has the make as the floor described and drawn in 37A/28. Small bag pottery. P90-29

37A/32- W of 37A/31; The NE and SE corners of unit have same location as the NW and SW corners of 37A/31. The NW and SW corners are ~~500cm from the~~ 25m from W end of the Trench and 9m from 37A/25. 0-20cm lgs; depth NE corner. No pottery.

37A/33- Same location as 37A/32; extension down 20-40cm lgs; depth NE corner. Small bag of pottery. Large rocks in unit, however, it is only tumble. Moving down another 20cm.

37A/34- Same location as 37A/33; extension down 40-60 cm lgs; depth NE corner. The plaster floor is there. It is deeper underground because we're starting to move up the hill structure. One bag of pottery with some bone.

+ 37A/35- Unit is E of 37A/34; The NE + SE corners have the same location as the NW + SW corners of 37A/34. The SW + NW corners are 24m from W of the trench 0-20cm lgs. No pottery. Three large rocks in W end of unit. Might be a well.

37A/36 Same location as 37A/35 extension down 20-40cm bgs. We have a wall and what looks like a possible step. I'm going to wait and see what comes out in the next before I name any. If steps come up all wait and name them all at same time.

* 37A/37. Unit is W of 37A/36. The NE + SE corners have same location as the NW + SW corners of 37A/36. The NW and SW corners of unit are 23m from W wall of the trench. 0-20cm bgs. Small bag of pottery. Could have another step. I'm going clear some before I decide what to do about the possible steps.

37A/38. W of 37A/37. NE + SE corners of unit have the same location as the NW + SW corners of 37A/37. The NW and SW corners are 22m from W wall of the trench. 0-20cm bgs. Small bag of pottery.

37A/39. Same location as 37A/38 extension down; 20-40cm bgs. Clearing off tumble. Going moving back a few units now and start taking some tumble. See we can't find the base / wall.

37A/40. The SW + NW corners of unit are 23m from W wall of the ^{trench} ~~tape~~. NE + SE corners are 24m from W wall of the trench. 20-40cm bgs. depth NE corner. One small bag of pottery.

37A/41 - Unit W of 37A/38, the NE + SE corners of the unit have the same location as the NW and SW corners of 37A/38. The NW and SW corners of unit are 21m from W wall of the trench. 0-20cm bgs. Small bag of pottery. Large amt of tumble.

37A/42 - W of 37A/41, NE + SE corners have same location as NW + SW corners of 37A/41. NE + SE corners are 20m from W wall of the trench. 0-20cm bgs. Small bag of pottery with some bone. Large amt of tumble.

37A/43 - W of 37A/42, NE + SE corners are 20m from W wall of the trench; NW + SW corners are 19m from W wall of the trench. 0-20cm bgs; depth NE. Small bag of pottery. Almost connected with the ~~W~~ end of the other trench.

37A/44 - W of 37A/43, NE + SE corners are 19m from W wall of the trench; NW and SW corners are 18m from W wall of the trench. 0-20cm bgs. No pottery.

37A/45 - W of 37A/44, NE + SE corners of the unit are 18m from W wall of the trench; SW + NW corners are 17m from W wall of the trench. 0-20cm bgs; depth NE corner. Small bag of pottery.

37A/46- Unit is W of 37A/45. NE and SE corners of the unit are 17m from W wall of the trench; NW and SW corners are 16m from W wall of the trench. 0-20cm bgs; depth NE corner. Small bag of pottery.

* 37A/47- NE + SE corners are 22m from W wall of the trench; SW + NW corners are 21m from W wall of the trench. 20-25cm bgs; depth NE corner. No pottery.

37A/48- Same location 37A/47; extension down 25 - 80 cm bgs; depth NE corner. Small amt of pottery with some bajaque. A line of stones is in the unit. Going to hold of on naming it.

37A/49; The NE and SE corners of the unit are 19m from W wall of the trench; the NW and SW corners are 18m from W wall of the trench. 20-40 cm bgs; depth NE corner. Small bag of pottery.

37A/50 - The NE + SE corners are 18m from W wall of the trench; the NW and SW corners are 17m from W wall of the trench; extension down 20-40cm bgs; depth NE corner. Small bag of pottery.

37A/51 - Same location as 37A/50; extension down 40-60 cm bgs; depth NE corner. No pottery. Going to keep moving W.

37A/52 - NE + SE corners are 17m from W wall of the trench; SW + NW are 16m from W wall of the trench. 20-40 cm bgs; depth NE corner. Small bag of pottery.

37A/53 - Same location extension down 40-80 cm bgs; depth NE corner. No pottery. Going to move just a little bit more to the W then stop.

* 37A/54 - NE + SE corners are 16m from W wall of the trench. NW + SW are 15.50m from W wall of the trench 0-40 cm bgs; depth NE corner. Not much going on. No pottery.

37A/55 - Same location extension down 40-60 cm bgs; depth NE corner. No pottery. Taking unit down another 20cm.

37A/56 - Same location and extension down 60-80 cm bgs; depth NE corner of the unit. Small amt of pottery.

* 37A/57 - Set up a zero point running W to E along the S wall of trench. NW + SW corners are on tape at 12.50m + 100cm S of tape at 12.50m respectively, NE is on tape at 13.50m + SE 100cm S of tape at 13.50m. 0-20 cm bgs; depth NE corner. Small bag pottery + bajareque.

37B/05 - Continued:

Found a large head! It was located in the NE corner of unit. It was ~~face down~~ ^{on its side} so I took it out mistaking it for a rock; however, it did leave an impression in the ground. Running N to S the impression is 40cm long; W to E the impression is 35cm wide. The face is badly eroded, however, the ears are still in good shape. The figure also seems to be wearing head bands.

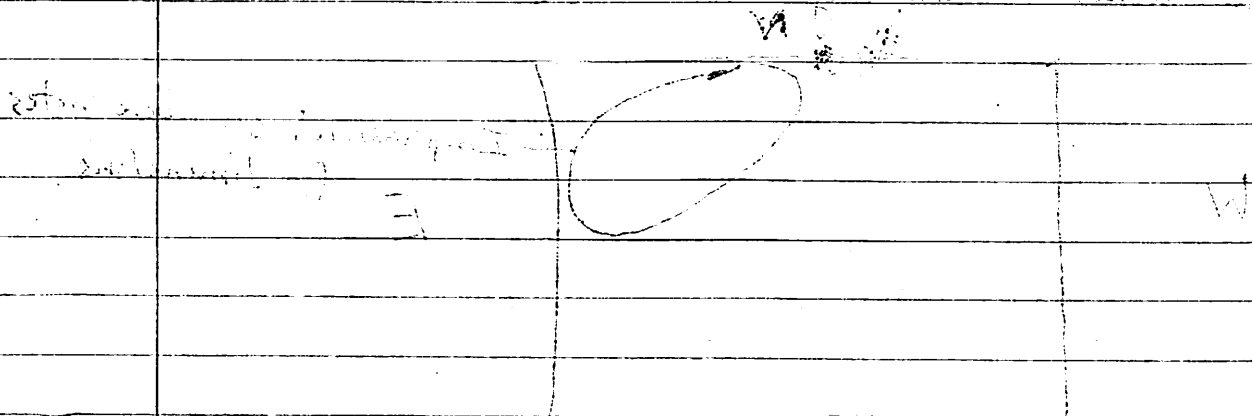

Bottom the impression is 50cm deep. The front of the face itself is roughly 37cm long and 25 cm wide. The right and left sides are roughly 33cm wide each. Large bag of pottery sherds with obsidian and spondylia shell.

37B/06 - Unit has same location 37B/05 + 37B/04. Extension down 40 - 60 cm deep; depth from NE corner; unit is level with 37B/01. Small bag of pottery with bone and spondylia shell.

[illegible]

$\Delta H =$ measured ΔH is not ΔH calculated from ΔH_f°
 \rightarrow ΔH measured ΔH_{exp} is not ΔH_{cal} calculated from ΔH_f°
 $\Delta H_f^\circ \neq \Delta H_{\text{exp}}$ and ΔH_{cal} is not ΔH_{exp}
 because ΔH_{cal} is not ΔH_{exp} and ΔH_{cal} is not ΔH_{exp}
 ΔH_{cal} is not ΔH_{exp} and ΔH_{cal} is not ΔH_{exp}
 defined ΔH_{cal} is not ΔH_{exp} and ΔH_{cal} is not ΔH_{exp}

I had a good night's sleep and
 the 25th was just as good. I had
 been in bed for 3 days and was
 still feeling pretty bad.

37B/07- Unit has same location as 37B/01 + 37B/02. P90-29
Extension down 60-90cm bgs; depth NE corner of
unit. East 10cm of extension there was no pottery.
Small bag of pottery with shell.

37B/08- Unit has same location as 37B/04. Extension
down of 37B/06, which also has same location as 37B/04 +
37B/05. 60-~~85~~ cm bgs; depth NE corner. Small bag
of pottery with some shell. Unit is level with
37B/07.

37B/09- Unit is directly E of 37B/04. The SW + NW
corners of unit have same location as SE + SWE corners
of 37B/04. The SE + NE corners are 300 cm from
W wall of trench. Two bags of pottery and a small
bag of spondylus shell. 0-20cm bgs; depth NE corner.
It looks like there may be some more of the
stone carved figure coming up.

37B/10- Unit has same location as 37B/09;
Extension down 20-~~50~~ cm bgs; depth NE corner.
There is collection shaped stones in the unit; one
of which appears to be part of the statue.

37B/12- Unit has same location as 37B/10 + 37B/11. Extension down 60-80cm bgs; depth NE corner; unit is level with 37B/08. Small bag of pottery, obsidian and some obsidian and spondylus shell.

X 37B/13- Unit is directly E of 37B/09. NW + SW corners of unit have same location as the NE + SE corners of 37B/09. The NE and SE corners of unit are 400 cm from W wall of trench. 0-20cm bgs; depth from NE corner. Bag pottery and some spondylus shell. Tops of more stones appearing.

37B/14- Unit has same location 37B/13. Extension 20-40cm bgs; NE corner. Large bag of pottery with spondylus shell. Coming down on some tumble

37B/15- Unit has same location as 37B/14 + 37B/13. Extension down 37B/14. 40-60cm bgs. There is possible wall in unit; however it starts right at 60cm, so all have to wait until next unit to find out for sure. Large bag of pottery with some spondylus shell.

37B/16- Unit has same location as 37B/15, digging in front of possible wall. Found wall T. Mlich. The W side of T. Mlich is 3.60m from W wall of trench. Top of T. Mlich is 45cm bgs; depth on W side is 110cm bgs, 60-110cm bgs. The wall has a cut stone on the N end end as well as a cut stone underneath.

Write the following and then put a 5 on the end

[illegible][illegible]

37B/19: Directly E of 37B/18. The NW and SW corners of P90-29 unit have same location as NE and SE corners of 37B/18. The NE and SE corners are 700 cm from W wall of trench. 0-20 cm; depth NE corner. Cut stone blocks seem to ^{have} disappeared. 2 bags pottery; spondylus shell + obsidian.

37B/20 - Same location as 37B/19. Extension down 20-30 cm bgs. Still no stones. One bag of pottery with obsidian and no spondylus shell.

37B/21 - The NW and SW corners are 3.90 cm from W wall of trench; The NE and SE are 4.40 cm from W wall of trench. Clearing tumble off top of T. Illich. 20-35 cm bgs; depth NE corner. Small amt of pottery.

37B/22 - Unit is E of 37B/19 and 37B/20. NW and SW corners have same location as NE and SE corners of 37B/19. The NE and SE corners of unit are 800 cm from W wall of unit. 0-20 cm bgs; depth NE corner of unit. Large amt of pottery with obsidian + baroque.

37B/23 - Same location 37B/22; Extension down 20-45 cm bgs; depth NE corner. 3 bags of pottery with obsidian.

* 37B/24 - E of 37B/22. NW + SW corners have same location as 37B/22. NE + SE corners are 900 cm from W wall of unit. 0-20 cm; depth NE corner. 2 bags pottery; spondylus + obsidian.

37B/25 - Unit has same location as 37B/22. Clearing off possible primary. Photo for scale set at 20cm. C90-C-12: L and C90-C-13: a. A5A 32 60/5.6-B AP. 45-50cm bgs; NE corner. Oop! I messed! I forgot to draw the primary before I took it out. Sorry!

37B/26 - Same location as 37B/24; extension down 20-40cm bgs; depth NE corner. Small bag of pottery. St. nothing going on. Large amt. of pottery with some baroque and obsidian. there is also some spondylus shell present.

37B/27 - Same location as 37B/26; extension 40-60cm bgs. By far the most pottery we have had for a 20cm lot. 6 bags of sherds with some obsidian and baroque.

37B/28 - E of 37B/27; NW + SW corners have same location as NE and SE corners of 37B/26; NE + SE corners of unit are 10m from W wall of trench. 0-20cm bgs; depth NE corner. 2 bags of pottery.

37B/29 - Same location as 37B/28; extension down 20-40cm bgs; depth NE corner. One bag of pottery.

* 37B/30 - Same location as 37B/28; extension down 40-60cm bgs; depth NE corner. Oh boy! Did we find something big.

* 37B/31- Same location as 37B/30. Lot contains a censer in primary context. Lot extends 40-50cm by depth NE corner.

Scale for photo set at 20cm: C90-C-13: b, c. ASA 32; 60; 5.6-8 AP.

The context was drawn in on graph paper by Maine number is P90-10-1. The deposit totally covers the lot.

Of course, this drawing looks nothing like the one on graph paper. The fragment has a really nice face on one of the fragments. There is also wood in the lot.

37B/32- The NW and SW corners of unit are 560 cm from W wall of the trench; The NE and SE are 710 cm from W wall of the trench. ~~80cm~~ by depth NE corner. Digging down on the E side of the platform in trench. 20-40cm by depth NE corner. 4 bags of pottery with a small one of spondylus and obsidian. Looks like there is another primary coming up.

37B/33 - Same location as 37B/32.

There is an interesting primary in unit. There is section of a molded censer, a whole bowl, and a large pottery fragments. There is also an interesting kind of rock in the unit. Unit also contains tumble.

The N side of bowl is 20cm from the S wall of unit. The E of bowl is 31cm from W edge of censer frag. It is 27cm from large sherd, and the S W side is 70cm from E wall of unit.

~~S side of large sherd is 27cm from~~
The bowl is 20cm wide in any direction measured that is rim diameter. The inside of the bowl is 12cm in diameter. The inside of the bowl or the base is roughly 10cm from the rim.

S side of the of the large sherd is 27cm from N wall of unit; W side is 40cm from E side of unit. Running W to E the sherd is 13cm wide; N to S it is 17cm long. Both the bowl and sherd seem to have been painted red at one time.
W side Censer fragment is 17cm from E wall unit. It is roughly 22cm in length. Appears to be molded.

Pro-37B-11

37B/33: Continued. - Photo taken; scale set at 20cm ASA 32 60/8-11 AP. F, G. 42590.
The lot has been drawn in on graph paper
Lot is 40-60 cm by 50 cm depth NE corner.

37B/34- Same location as 37B/31. Used this lot to take out all the wood and some more pottery. Extension down of 37B/31 from 50-65 cm by 50 cm. 2 big bags of pottery. There was quite a bit of wood.

★ 37B/35 - ~~E of 37B/3~~ Same location as 37B/34; extension down 65-75 cm by 50 cm depth NE corner. Small bag of spondylus shell and obsidian. 2 large bags of pottery.

37B/36- The NW and SW corners are 7m from W wall of the unit; the NE and SE are 8m from wall of the unit. ~~20cm~~ by 50 cm. Three large bags of pottery with biquartz and obsidian. 60-70 cm by 50 cm depth NE corner.

37B/37- Unit is E of 37B/36; NW + SW corners have same location as NE and SE corners of 37B/36. The NE + SE corners of unit are 9m from W wall the trench. Extension 65-85 cm by 50 cm depth NE. ~~Three~~ large bags of pottery with some obsidian.

37B/44- Same location as 37B/43, extension 95-115 cm bag, depth NE corner. One large bag of pottery. Still looking for the bottom of the deposit.

37B/45- W of 37B/44; The NE + SE corners have same location as NW and SW corners of 37B/44, NW and SW corners of the unit are 6m from W wall of the trench. 65-90 cm bag, depth NE corner. 6 large bags of pottery with obsidian and spondylus shell.

37B/46- Same location as 37B/45, extension down 90-100 cm bag, depth NE corner. Going keep moving down until we run out of pottery. Bag pottery

37B/47- Same location as 37B/46, extension down 100-120cm bag, depth NE corner. Small amt of pottery. Some pretty strange stuff. Might be nearing the bottom of the deposit.

37B/48- Same location as 37B/47, extension down 120-140 cm bag, depth NE corner. No pottery! Going more E now at ~~the~~ the level in unit 37B/48.

37B/49- E of 37B/48; NW + SW corners have the same location as NE + SE corners of 37B/48; The NE + SE of unit are 8 m from W wall of the trench. Extension down of 37B/48 115-135 cm bag, depth NE corner. Small bag of pottery.

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atomic nucleus.

2. In the second part of the paper we shall consider the question of the structure of the atomic nucleus in the case of the so-called "magic numbers" of protons and neutrons.

3. The third part of the paper is devoted to a discussion of the question of the structure of the atomic nucleus in the case of the so-called "non-magic numbers" of protons and neutrons.

4. In the fourth part of the paper we shall consider the question of the structure of the atomic nucleus in the case of the so-called "supermagic numbers" of protons and neutrons.

5. The fifth part of the paper is devoted to a discussion of the question of the structure of the atomic nucleus in the case of the so-called "submagic numbers" of protons and neutrons.

6. In the sixth part of the paper we shall consider the question of the structure of the atomic nucleus in the case of the so-called "hypermagic numbers" of protons and neutrons.

37B/50 - Unit is E of 37B/49; NW + SW corners of unit have same location as the NE + SE corners of 37B/49. NE + SE corners of unit are 8m from W wall of trench. Extension down 135-160 cm bgs; depth NE corner. No pottery.

37B/51; Unit is E of 37B/50; NE + SE corners are 10m from W wall of the ~~DE~~ trench. NW + SW corners are 9m from W wall of the trench. extension down 140-180cm bgs; depth NE corner. One bag of pottery.

37B/52 - Same location as 37B/51; extension down 170-190 cm bgs; depth NE corner. No pottery! Soil has also changed to a light colored brown that is gritty.

352
* 37B/53 - This lot is being used to clean up the W side of Tillich. We're going to eat away at Tillich and see if anything better shows up. NW + SW corners are 350cm from W ~~side of~~ wall of the trench. NE + SE are 450cm from W wall of the trench. 35-90 cm bgs, depth NE corner. At about 410cm the workers found 6 cups. Located around 70cm bgs. I was doing some notes at another pit and the next thing I know they have pulled out six cups. Thought they knew not to do that. Sorry. 2 bags pottery.

37B/54 - The NW+SW corners are 410 from W wall P90-29 of the trench; the NE+SE corners are 450 cm from W wall of the trench. 35-70 cm bags. Small bag of pottery.

37B/55 - Set up a zero point running along the N side of the trench. Point starts in the NW corner of the trench.

The SW+SE corners are 50 cm N of tape at 3.50 m + 4.50 m respectively; The NE and NW are 150 cm N of tape at 4.50 + 3.50 respectively. Two bags of pottery. There is quite a bit of worked stone in the unit. 0-20 cm bags; depth NE corner.

37B/56 - Same location as 37B/55; extension down 20-40 cm bags; depth, NE corner. Large bag of pottery with some obsidian. Not quite ~~able~~ able to figure out what's going on; Platform isn't coming up. Moving a unit
E

37B/57 - The SW+NW corners have same location as the SE+NE corners of 37B/57. SE corner of tape is 50 cm N of it at 5.50 m; NE corner is 150 cm N at 5.50 m. Large bags of pottery. 0-20 cm bags.

37B/58 - ~~Same location as 37B/57~~
~~extension~~ Unit is E of 37B/57. The SW corner is 50cm N of tape at 5.50m; NW has same location on tape but is 150cm N. The SE is 50cm N at 6.50; the NE is 150cm N at 6.50m. 0-20cm bgs; depth NE corner. One large bag of pottery with some spondylus shell.

37B/59 - The SW ~~is~~ corner is 50cm N of tape at 2.50m; NW is 150cm N at 2.50. The SE is 50cm N at 3.50m; the NE is 150cm at 3.50m. 0-20cm bgs; depth NE corner. 0-20cm bgs; depth NE corner. Bag of pottery with some spondylus shell.

37B/60 - Same location extension down 20-40cm bgs; depth NE corner. 2 bags of pottery with some bone, jade, and spondylus. Looks as if we may have a possible wall in the E end of the unit.

37B/61 - Same location as 37B/60; extension down 40-60cm bgs; One bag of pottery and some spondylus. Looks like could have a wall

37B/62 - The SW and SE corners are 150cm N of the tape at 2.50m + 3.50m respectively. The ~~NE + SE~~ NN + NE are 250cm N of tape at 2.50 and 3.50m respectively. 0-20cm bgs; depth NE corner. One large bag of pottery.

37B/65 - Confined: 50cm bgs.

The back of the object is faced with clay. There two tiny holes on top as well. The inside is hollow. Looks to have a possible foot.

One large bag of pottery with some spondylus shell. A second bag with a bird head and the artifact described above.

37B/66 - N of 37B/65; Same location as 37B/62. Extension down 60-80cm bgs; depth from the NE corner of the unit. One bag of pottery with some spondylus shell. The base of wall Tillich is only about 45-50cm bgs;

37B/67 - N of 37B/66; The SW + NW corners are 250cm N of tape + 350cm N tape at 2.50m respectively. The NE + SE are 350cm N of tape at 3.50m + 250cm at 3.50m respectively, 0-20cm bgs; depth NE corner. Trying to follow Tillich N. One bag of pottery.

37B/68- Same location as 37B/67,
extension down 20-40cm bgs; depth from the
NE corner. Still trying to follow Tillich.
One large bag of pottery with some
obsidian + spondylus.

P90-37B-19

P90-29

37B/69- Same location as 37B/68; extension
40-60cm bgs; depth NE corner. One bag of pottery
~~pottery. This is one of the largest bags we~~
~~have had yet for this whole structure.~~

37B/70- Same location as 37B/69- Extension
down 60-80cm bgs; depth NE corner of unit.
Two small bags of pottery. Going to start
following Tillich E; try and see if we can't find
the corner.

37B/71- The SW and NW corners are 150cm +
250cm N of tape at 3.50m respectively; the ~~NE~~ SE
and NE corners are 150cm + 250cm N of tape
at 3.50m respectively. 0-20cm bgs; depth NE
corner. Two bags of pottery.

37B/72- ~~Same location as 37B/71; extension~~
~~down 20-40cm bgs; depth NE corner.~~

The SW + NW corners are 250cm + 350cm N of
tape at 3.50m; the SE + NE are 250cm + 350cm
N of tape at 4.50m respectively. 0-20cm bgs;
depth NE corner. Two bags of pottery.

490-29

37B/73- Same location as 37B/72, extension.
down 20-40cm bgs, depth from the NE corner.

Two bags of pottery. Going to take it
down another 20 to clear out some tumble.

37B/74- Same location as 37B/73, extension down
40-60cm bgs, depth NE corner. Two bags of
pottery. Two large cobbles are starting
to develop in the unit. Both are much
lower than ~~the~~ the top of Tillich.

37B/75- Same location as 37B/74, extension
down 60-80cm bgs, depth NE corner.
Guess what we found, that's right yet
another spondylus shell. This one is in the SW
corner of the unit. It also sits on a floor,
which appears to be some kind of plaster.
The shell is located next to what looks like the
slumping corner of Tillich and the two large
cobbles ~~are~~ discussed before.

Possible corner
of Tillich

There is also a drawing done on graph paper, which
has the depths of the shell in relation to
the rocks.

10/10/57

37B/97 - Same location as 37B/76; extension down 53-79 cm bgs; depth NE corner. Small bag of pottery. Unit is level with the depth that the spondylus shell was found at.

37B/78 - Same location extension down 79-103 cm bgs; depth from datum. Small bag of pottery. Fillich seems to turn but then runs into Calvin at a funny angle. There is no clear definition between the 2 walls. They just kind of merge.

37B/79 - The SW + NW corners are 350cm N of tape + 450cm N of tape at 3.50m respectively; the SE and NE are 350 + 450cm N of tape respectively at 4.50m. 0-20cm bgs; depth NE. Trying to follow Calvin

37B/80 - Same location extension down 20-40cm bgs; depth NE corner of the unit. Large bag of pottery with some obsidian. Two small cobbles developing in the unit.

37B/81 - Same location as 37B/80; extension down 40-60cm bgs; depth NE corner. Two bags of pottery. Still trying to chase Calvin N in attempt to discover its relationship with structure 17.

37B/82- Same location as 37B/81,
extension down ~~60~~ - 75 cm bgs, depth NE corner.
One bag of pottery. Couldn't pick up Calvin,
going to move W and see what comes up.

37B/83- The SE + NE corners are 350cm
and 450cm N of respectively at 3.50m; the
SW + NW are 350cm + 450cm N of tape respectively
at 2.50m. 0-20cm bgs, depth NE corner. Two
bags of pottery. Looks like ~~Calvin~~ Calvin
is heading W. Go figure.

37B/84- Same location as 37B/83; extension
20-40cm bgs, depth NE corner. One bag of
pottery. Large amt. of rocks in the unit.
Not really sure ~~are~~ what is going on

37B/85- Unit has same location as 37B/84;
is not an extension. There's some kind of
worked stone artifact, which has slight
traces of red paint on it, in the unit.
It is located next to Calvin.

37B/85 ↘

• Set up a datum for depth
measurements at 5.50m on
tape. String is 14cm Above
Ground surface. The corner of
Tillich is 50cm below datum (that is
the top of corner); the bottom of Tillich's
corner is 83cm below datum; the top of Calvin is
66cm below datum; bottom is 95cm below datum.
The highest point on the worked stone artifact is
58cm below datum

100-119

37B/85; Continued - lowest part of the worked stone artifact is ~~is~~ 70cm below the datum. The S side of worked stone artifact is 145cm from corner of Tillich. W side is 170cm from corner of Tillich. The worked stone is 6cm from the large cobble drawn in sketch. No pottery; no extension down.

37B/86:

37C

P90-37C-1

P90-29

Operation for 37C. Trench is moving over structure 19, through the center. Moving W to E. Trying to gain a better understanding of the buildings construction. Also interested in its W to E dimensions. 37C south side trench located at 82°. Taken from W end facing E

37C/01- First 1x1m unit. 0-40cm bgs; depth from the NE corner of unit. Small amt of pottery sherds and one piece of obsidian, bafa regue

37C/02- 1x1m unit directly E of 37C/01. The SW and NW corners of the unit have same location as the SE and NE corners of 37C/01. The NE corner of unit is 200 cm from the original W trench wall; SE 200 cm from the original W trench wall. One bag pottery with some bafa regue and small amt. of bone. 0-55cm bgs; depth NE corner. Unit is level with 37C/01.

37C/03- Unit directly E of 37C/02. The NW + SW corners of unit have same location as the NE + SE corners of 37C/02. The NE + SE corners of unit are 300cm from W wall of trench. One bag pottery, some obsidian 0-60cm bgs; depth from NE corner. Unit is level with 37C/02

37C/04- Unit is directly E of 37C/03; The NW and SW corners of unit have same location as the NE and SE corners of 37C/03. The NE + SE corners of unit are 400cm from W wall of trench. Small bag of pottery with some obsidian. 0-70cm bgs; depth NE corner, unit is level with 37C/03.

37C/05- The unit is directly E of 37C/04. The NW and SW corners of unit have same location as the NE and SE corners of 37C/04. The NE and SE corners of unit are 500cm from W wall of trench. Small amt of pottery. Hit a large amt of tumble. 0-55cm bgs; depth NE corner. Moving back to clear tumble

37C/06- The ~~the~~ NW and SW corners of unit are 300 cm from W wall of trench. The NE and SE are 400cm from W wall of trench. 70cm - 100 cm bgs. Small bag of pottery sherds with some bajareque and obsidian. Moving E in search of basal wall of structure.

37C/07- Unit has same location as 37C/05. Extension down 55-130 cm bgs. Small bag of pottery sherds. Still searching for basal wall of structure.

37C/08- Unit is directly E of 37C/07; The NW and SW corners have same location as the NE + SE corners of 37C/07; The NE and SE corners of unit are 600cm from W wall of trench.

37C/08 - Continued: Small bag of pottery with some bajareque. Still looking for the basal wall of structure.

P90-37C-3

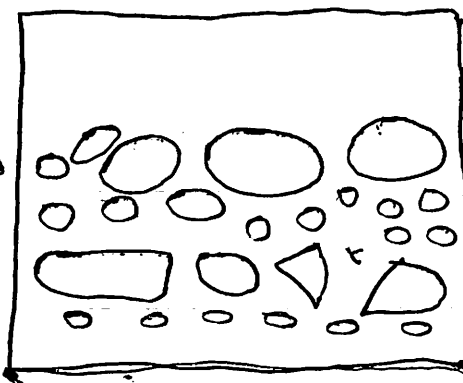

P90-29

X 37C/09 - Same location as 37C/08. Extension down 40-140 cm bgs; depth NE corner. There is a bajareque floor which leads up to a wall. Depth on the W side of the floor is 135cm bgs; top of the floor is 125cm bgs; the west side of the floor is 4.92m from W wall of trench. It extends E for 98cm where it runs into wall Adam.

The west of Adam is 5.86m from the W wall of trench. Top of Adam is 105cm bgs; NE corner. Adam extends 34cm from E wall of unit. Depth on W side is 140cm bgs; NE end of unit. Adam has better construction than I expected it to have. Seems to be in pretty good shape.

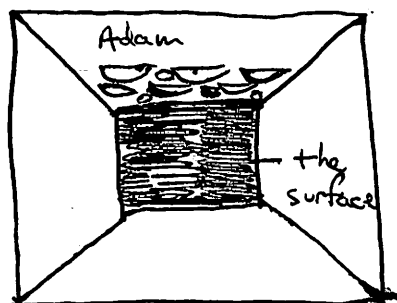

E wall of unit →

P90-37C-6

P90-29

37C/20 - Unit has same location as 37C/19; extension down 20-40cm bgs; depth NE corner of unit. Small bag of pottery. Still not much going on.

37C/21 - Same location; making unit level with 37C/18. 40-50cm bgs; NE corner. Small bag of pottery with some bajareque. Still nothing going on.

37C/22 - Unit has same location 37C/18; extension down 40-50cm bgs; depth NE corner. Ed came and said the day for me. Yes, believe it or not, we were eating fill. Can you believe it? Go figure. NE corner is 60cm bgs. Small bag of pottery with some bajareque.

37C/23 - Same location 37C/21; extension down 50-70 cm bgs; depth NE corner. Small bag with bajareque.

37C/24 - E of 37C/23; NW and SW corners have same location as the NE and SE corners of 37C/23. NE and SE corners of unit are 12 m from W wall of trench. Small pottery with some bajareque. 0-20cm bgs; depth NE corner.

37C/25 - Same location as 37C/24; extension down 20-40cm bgs; depth NE corner. Small bag of pottery with some bajareque. Still not much going on.

37C/26 - Same location as 37C/25; extension down 40 P90-29
to 60cm bgs; depth NE corner of unit. Small of
pottery.

37C/27 - Same location as 37C/25; extension down
60-80cm bgs; depth NE corner. Small bag of
pottery with some bajareque. There is a
bajareque floor in unit.

37C/28 - E of 37C/27; NW and SW corners have
same location as NE + SE corners of 37C/27. NE
and SE corners of unit are 13m from U well
of the trench. 0-20cm bgs; depth NE corner.

* 37C/29 - Same location extension down 20-40cm bgs;
depth NE corner. No pottery. Something funny
is going on in the summit area. We are having
to dig really deep before we even hit rocks.
In this 20-40cm section there wasn't a single
rock.

37C/30 - Same location as 37C/29; extension down
40-60cm bgs; depth NE corner of unit. Small
bag of pottery with some bajareque. Still no
rocks. Going to take down level with the bajareque
floor from unit 37C/27. Small bag of pottery

37C/31- Same location as 37C/30; extension down 60-90cm bys; depth NE corner of unit. Small bag of pottery. Came down bajanque floor again, however it is slightly different. There are very small stones in the floor which weren't in the two previous units containing bajanque. Go figure!

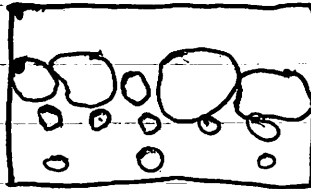

37C/32- E of 37C/28; NW and SW corners have same location as the NE and SE corners of 37C/28; The NE and SE corners of unit are 14m from the W wall of the trench. 0-40cm bys; depth from NE corner of unit. Small bag of pottery. Looks like we may have some kind of wall. John the Baptist; top is at ground surface. W side is 13m from W wall trench; E side is 13.45m from trench wall. Depth W side 100cm; depth E 45cm bys. The wall is just one layer of stones; there are no packing stones at wall.

37C/33- E of 37C/28; NW and SW corners of unit have same location as NE or SE corners of 37C/28. The NW and SW corners of unit are 15m from W wall of the trench. 0-40cm bys; depth NE corner. Small bag of pottery.

37C/34- E of 37C/33; NW and SW corners have same location as NE and SE corners of 37C/33. NE + SE corners of unit are 16m from W wall of the trench. Small bag of pottery with some bajanque. Quite alot of rubble now. Mostly regular rocks with 2 cut stone blocks.

37C/35- Same location 37C/34, extension down ~~P9021~~
 Small bag of pottery with some bajareque. P9024
 Possible wall Wall Cn is located in the E end
 of the unit Top is 15cm bgs, depth W side 45cm bgs W side
 is 15.40m from W wall trench. The wall is in pretty
 bad shape.

E Frontal
 view

37C/36- Jumping on the way to E side
 of structure. Going to move W up structure.
 The E wall 37C/26 is 27m from W wall
 of the trench and 11m from, 0-20cm
 bgs, depth NE corner. No pottery.

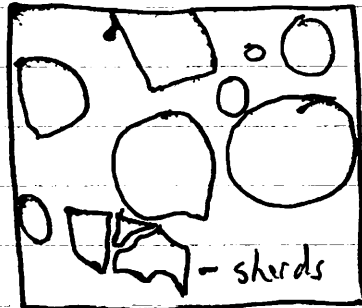

37C/37- Same location as 37C/36, extension down 20-40cm
 bgs, depth NE corner. One bag of pottery. Still
 not much going on. One rock in unit located
 in SE corner of unit.

37C/38- Same location extension down 40-~~40~~⁴³cm
 bgs, depth NE corner. Just underneath the bottom
 of unit 37C/37 is a floor. It is made up of
 small little stones with a light brown clay soil.
 Looks much like plaster floor from 37A, only not
 as bright. ~~Small bag~~ 1

37C/39- W of 37C/36; The NE + SE corners have
 same location as the NW + SW corners of 37C/36
 The NW + SW corners of unit are 25m from
 W wall of unit. No pottery, 0-20cm bgs.

37B

37C/40. Same location as 37C/29; extension down 20-40cm bgs; depth NE corner. The SW corner of the unit there is a little collection pottery sherds next to some tumble. Small amt of pottery

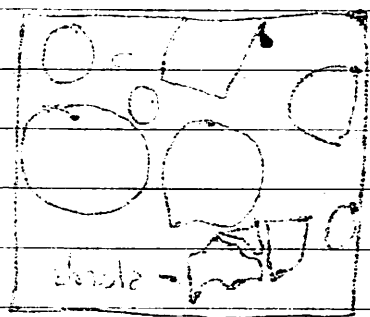

The sherds appear to be of La Champa kind. Ed says I need to give them a separate lot number, so all this info on the sherds belongs in 37C/41, which will be the next lot. 37C/40 had no other pottery. It ~~appears~~ does have some tumble. Does have one piece bafanque

37C/41 - Lot contains the three sherds on a surface. Surface is the same kind as the one previously discussed. Other info pertaining to sherds is in lot 37C/40. Context is 16cm long and 11cm wide. Farthest Northern point is 8cm from south of the unit.

37C/42 - W of 37C/41; The NE + SE corners of unit have same location as the NW and SW corners of 37C/41. The NE + SE corners of unit are 24 m from W wall the Hender. Come down on a lot of tumble. 0-40cm bgs. Going to take out the Tumble Pottery

37C/43. Same location as 37C/42, extension down, clearing P90-29 out tumble. Looks we could have a possible step in the unit, however, I'm not sure, so I'm going to cut W at the level of step to see what happens. Small bag of pottery

37C/44- W of 37C/43, The NW + SW corners of the unit are 23 m from W wall of the trench. The NE + SE corners have same location as the NW + SW corners of 37C/43. One bag of pottery, with some beforeage. 0-40cm bgs

37C/45. W of 37C/44; NE + SE corners have same location as SW + NW corners of 37C/44. NE + SE corners of unit are 22m from W wall of the trench. 0-20cm bgs, depth NE corner. Small bag of pottery

37C/46- Same location as 37C/45; extension down 20-40cm bgs; depth NE corner of lot. Small bag of pottery. Looks like we may have uncovered the base of wall of the structure. Going more back a few units and start taking out tumble to get to it.

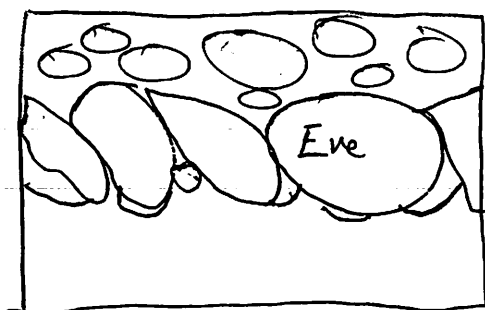

37C/47- The NE + SE corners of unit are 200 cm from E wall of trench; NW + SW corners are 300 cm from E wall of the trench. Taking out some tumble. Small bag of pottery

8-25-09

[illegible][illegible][illegible][illegible][illegible]

37C/48 - Unit has same location as 37C/44; clearing out tumble. Extension down 60-70cm bgs; depth NE corner. Wall Eve is located in the unit. The E side of Eve is 23.45m from W wall of the trench. The top layer of the stones is slopping really badly. Eve is 30cm bgs; depth on the E side is 80cm bgs.

Frontal
view

37C/49 - Same location as 37C/45; extension down; clearing off some tumble. No pottery 40-50cm bgs. Moving back at the level of Eve.

* 37C/50 - W of 37C/49; NE + SE corners are 22m from wall of the trench; NW + SW corners are 21m from W wall of the trench 0-30cm bgs; depth NE corner of the unit. Small bag of pottery. I'm clearing all the way up the structure until it meets the other end 37E.

37C/51- Unit is W of 37C/50; NW and SW corners are 20m from W wall of the trench. The NE + SE corners of the unit ^{have the} ~~same~~ location as the NW + SW corners of 37C/50. ^{same} 0-20cm bgs; depth NE corner. Small bag of pottery. Going to clear off the top of some tumble and the W again.

37C/52- Same location as 37C/51; slight extension down. Just clearing of some tumble. Small bag of pottery. 20-25cm bgs; depth NE corner.

37C/53- Unit W of 37C/52; NE + SE corners are 20m from W wall of the trench; NW and SW corners are 19m from W of the trench. 0-20cm; depth NE. Small bag of pottery and some bag, a requé.

37C/54- Unit W of 37C/53; The NE + SE corners are 19m from W wall of the trench; NW and SW are 18m from W wall of the trench. 0-20cm bgs; depth NE corner. Small bag of pottery.

37C/55- W of 37C/54; NE + SE corners are 18m from W wall of the trench; SW + NW corners are 17m from W wall of ~~the~~ trench. 0-20cm bgs. Small bag of pottery.

~~37C~~

p90-37C-15
p90-29

* 37C/56 - W of 37C/55; NE + SE corners are 17m W wall of the trench and the NW and SW corners are 16m from W wall of the trench. 0-20cm bgs. Sn No. pottery.

37C/57 - Same location as 37C/56; extension 20-40cm bgs; depth NE corner. Trying to clean up the E side of Cash. Small bag of pottery with some bijouque.

37C/58 - The NW + SW corners are 20m from W wall of the trench. The NE + SE corners are 21m from W wall of the trench. 20-30 cm bgs; depth NE corner.

37C/59 - NE + SE corners are 20 m from W wall of the trench; NW + SW corners are 19m from W wall of the trench. 20-40cm bgs; depth NE corner. Small bag of pottery.

* 37C/60 - W of 37C/59; NE + SE corners of the unit are 19m from W wall of the trench; NW and SW corners of the unit are 18m from W wall of the trench. 20-40cm bgs; depth NE corner.

37C/61 - W of 37C/60; NE + SE corners are 18m from W wall of the trench; NW + SW corners are 17m from W wall of the trench; extension down 20-45cm bgs; depth NE corner. One bag of pottery with some bijouque.

Lab notes: DTE is without seed - 23 DTE
getting old now at High School CS-02
DTE found young ones others old about
about 11 ft size & at no climbing

06/11 We found small pool of water.
 of the forest. Temperature about 10-12°C.
 of the forest. Temperature about 10-12°C.
 06/11 We found small pool of water.

37C/67 - The NE and SE corners are 17m from W wall of the trench; the NW and SW corners are 16m from W wall of the trench. Extension down 40-70 cm bgs; depth NE corner. No pottery. P90-3K-17 P90-29

37C/68 - Same location extension down 70-90 cm bgs; depth NE corner. Very small amt. of pottery. Not much else going on.

37C/69 - Same location extension down 90-100 cm bgs; depth NE corner. No pottery. Looks like we may 2 to 3 walls in the profile of the trench.

37C/70 - Digging down in between John the Baptist and Cain; digging on the E side of John and the W side of Cain. Unit is roughly a 1x2. Extension down 40-60cm bgs; depth NE corner. Small bag of pottery. Trying to see if there is any other construction on the summit.

37C/71 - Same location as 37C/70; extension down 60-80cm bgs; depth NE corner. One small bag of pottery. Not much else is going on.

37C/72 - Same location as 37C/71; extension down 80cm-100cm bgs; depth NE corner. Small bag of pottery. Soil is changing into a light brown ash.

* 37C/73 - Same location as 37C/72; yet another P90-29 extension down 100-120cm bgs; depth NE corner. One small bag of pottery. 120cm down and we haven't seen one rock! Not even a small one.

37C/74 - Same location as 37C/73; extension down 120-140cm bgs; depth NE corner. One bag of pottery; however, this with out a doubt one of the largest bags of pottery we have had for this structure.

37C/75 - Same location as 37C/74; extension down 120-160cm bgs; depth NE corner. Small bag of pottery with a small piece of bone. Getting deep.

* 37C/76 - Same location as 37C/75; extension down 160-180cm bgs; depth NE corner. Small bag of pottery. Pulling out some of the pottery Ed said was from Early Late Classic. Go figure.

37C/77 - Same location as 37C/76; extension down 180cm - 200cm bgs; depth NE corner. Small bag of pottery.

37C/78 - Same location as 37C/77; extension down 200-220cm bgs; depth NE corner of unit. Small bag of pottery with some Early Late Classic sherds.

P90-37C-A

P90-29

37C/79 - Same location as 37C/78, extension down 220-240cm bgs, depth NE corner of the unit. No pottery. May have finally hit the bottom.

37C/80 - Same location as 37C/79, extension down 240-260cm bgs, depth NE corner. Small bag of pottery. Taking unit down one more 20cm lot and then pulling out.

37C/81 - Same location as 37C/80, extension down 260-280cm bgs, depth NE corner of unit. Small bag of pottery.

Operation for 37D - 37D is the sister trench to 37B. It runs E to W towards 37B. It is 11m long and in a straight line with 37B. Trying to discover the relationship between structures 16 and 17. Also interested in pottery content. S side trench located at 75° ; taken from W end facing E

37D/01 - First 1x1m unit in operation. 0-20cm bgs, depth NE corner of unit. One bag of pottery with some bajareque. Just getting started.

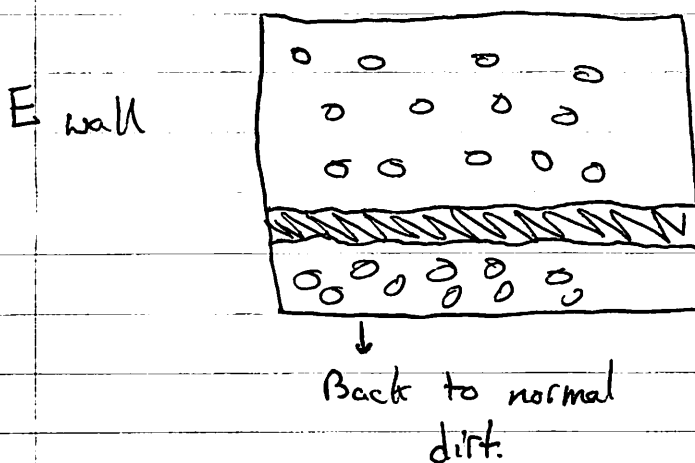

37D/02 - Same location as 37D/01; extension 20-40cm bgs, depth NE corner of unit. 20-40cm bgs. One bag of pottery. Looks like I'm going to have to move back a meter to get at some rocks

37D/03 - E of 37D/02; the NW + SW corners of unit have same location as NE + SE corners of 37D/02. The NE + SE corners of unit are 100cm E of the E wall of 37D/01. Small bag of pottery.

37D/04 - Same location extension down 20-40cm bgs, One large bag of pottery with some bone and obsidian. Going down another 20 and then moving E.

* 37D/05 - Same location 37D/04, extension down, 40-60cm bgs, depth NE corner of unit. One large bag of pottery. Want to keep moving down until we hit sterile. There are a few rocks in unit, but nothing out of the ordinary.

37D/06 - Same location as 37D/05, extension down 60-80cm bgs, depth from NE corner of unit. One large bag of pottery with some obsidian. Looks like the workers may have eaten through some kind of surface.

Normal dirt with rocks

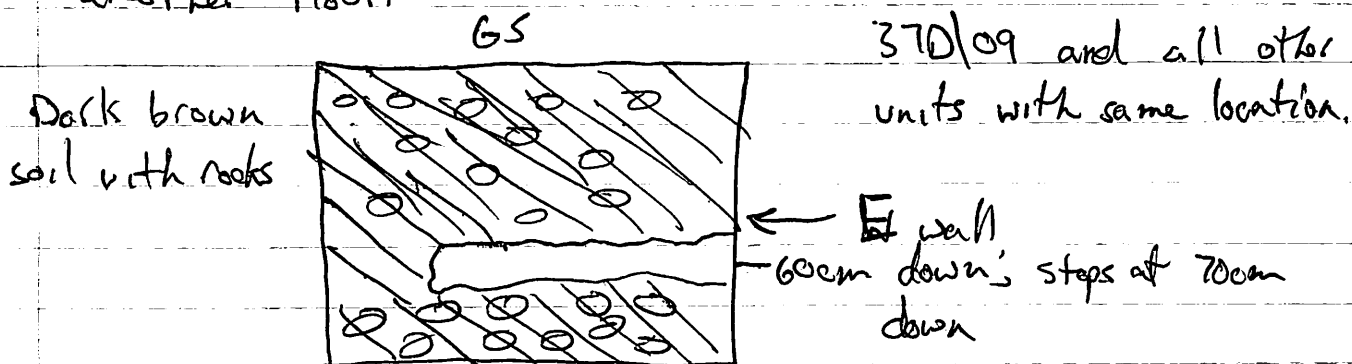

65cm down is a layer of hard white substance, extends to 70cm bgs. It is very brittle.

The workers claim it only extended about 5cm from E wall.

37D/07 - Same location as 37D/01, extension down 40-60cm bgs, depth from NW corner large bag of pottery. The soil has a lot of little tiny rocks in it.

37D/08 - Same location as 37D/07; extension 60-80cm by 5' depth NW corner. One large bag with pottery and some bajareque. Not quite level with 37D/06.

37D/09 - Same location as ~~37D/08~~ 37D/08; extension down; making unit level with 37D/06. 80-90cm by 5' depth NE corner. May be coming down on a bajareque floor. One big bag of pottery. Looks like the floor we came down on may of earlier construction. The W profile of unit contained another floor.

Surface is a hard brittle substance with flying rocks in it.

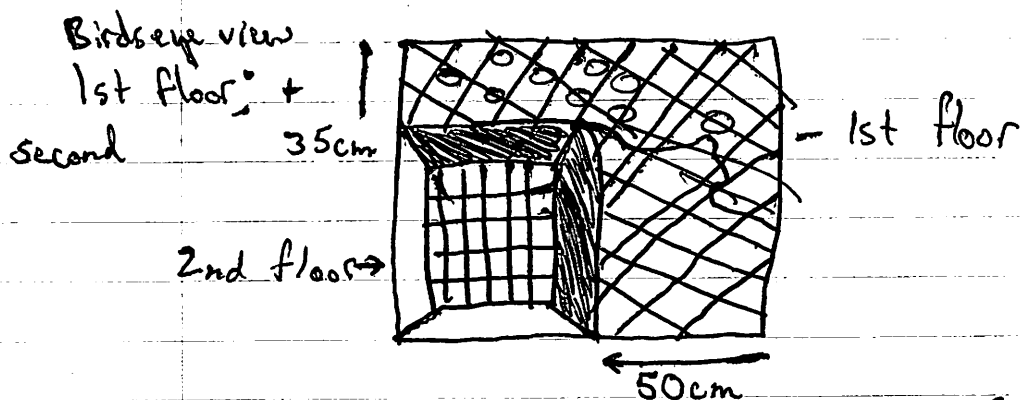

37D/10 - E of 37D/01; NE and SE corners of unit have the same location as NW and SW corners of 37D/01. The NW & SW corners are 300cm from the W wall of unit 37D/03, which is now the original trench wall. One small bag of pottery. Unit or most western. has some bright orange-red spots in clayey soil. 0-20cm by 5'

P90-37D-4

37D/11- Same location as 37D/10; extension down P90-29
20-40 cm bgs; depth NE corner. Large bag of
pottery with some bajareque. Came down on some
tumble thats about it.

37D/12- Same location as 37D/10; extension down
40-60 cm bgs; depth NE corner. One large bag of
pottery. Getting some of the little tiny rocks again.
Not much else is going on.

37D/13- Same location as 37D/12; extension down 60-85 cm
bgs; depth NE corner. The unit has two different
floors. The first floor is located at 60cm bgs.
It is made of small stones and has a whitish-
grayish color to it. The soil is also very brittle.
The floor did not cover the entire unit.

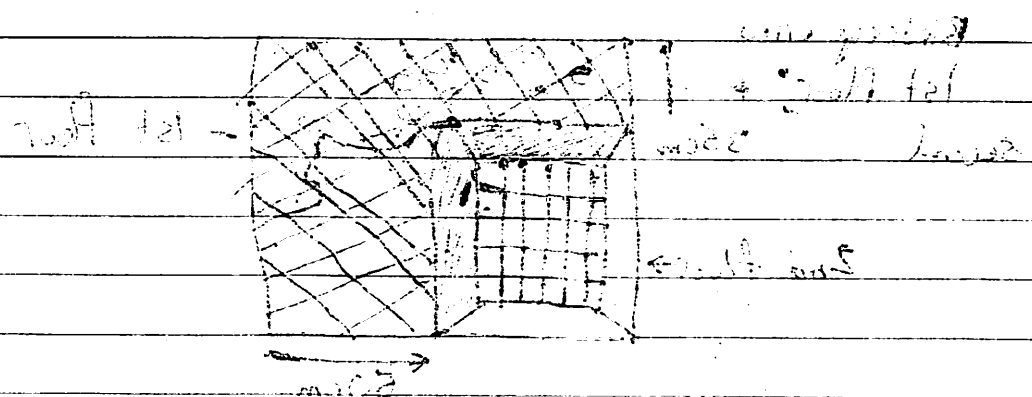

The floor is a basic bajareque floor; much the
like the one found in the previous unit. The
second floor is 85cm bgs; it has a orangish-brownish
color to it and is some what like clay. Its kind
of hard to describe them further cause it rained
like hell last night.

1-015 09

2004 2003 2002 2001 2000 1999 1998 1997 1996 1995 1994 1993 1992 1991 1990 1989 1988 1987 1986 1985 1984 1983 1982 1981 1980 1979 1978 1977 1976 1975 1974 1973 1972 1971 1970 1969 1968 1967 1966 1965 1964 1963 1962 1961 1960 1959 1958 1957 1956 1955 1954 1953 1952 1951 1950 1949 1948 1947 1946 1945 1944 1943 1942 1941 1940 1939 1938 1937 1936 1935 1934 1933 1932 1931 1930 1929 1928 1927 1926 1925 1924 1923 1922 1921 1920 1919 1918 1917 1916 1915 1914 1913 1912 1911 1910 1909 1908 1907 1906 1905 1904 1903 1902 1901 1900 1899 1898 1897 1896 1895 1894 1893 1892 1891 1890 1889 1888 1887 1886 1885 1884 1883 1882 1881 1880 1879 1878 1877 1876 1875 1874 1873 1872 1871 1870 1869 1868 1867 1866 1865 1864 1863 1862 1861 1860 1859 1858 1857 1856 1855 1854 1853 1852 1851 1850 1849 1848 1847 1846 1845 1844 1843 1842 1841 1840 1839 1838 1837 1836 1835 1834 1833 1832 1831 1830 1829 1828 1827 1826 1825 1824 1823 1822 1821 1820 1819 1818 1817 1816 1815 1814 1813 1812 1811 1810 1809 1808 1807 1806 1805 1804 1803 1802 1801 1800 1799 1798 1797 1796 1795 1794 1793 1792 1791 1790 1789 1788 1787 1786 1785 1784 1783 1782 1781 1780 1779 1778 1777 1776 1775 1774 1773 1772 1771 1770 1769 1768 1767 1766 1765 1764 1763 1762 1761 1760 1759 1758 1757 1756 1755 1754 1753 1752 1751 1750 1749 1748 1747 1746 1745 1744 1743 1742 1741 1740 1739 1738 1737 1736 1735 1734 1733 1732 1731 1730 1729 1728 1727 1726 1725 1724 1723 1722 1721 1720 1719 1718 1717 1716 1715 1714 1713 1712 1711 1710 1709 1708 1707 1706 1705 1704 1703 1702 1701 1700 1699 1698 1697 1696 1695 1694 1693 1692 1691 1690 1689 1688 1687 1686 1685 1684 1683 1682 1681 1680 1679 1678 1677 1676 1675 1674 1673 1672 1671 1670 1669 1668 1667 1666 1665 1664 1663 1662 1661 1660 1659 1658 1657 1656 1655 1654 1653 1652 1651 1650 1649 1648 1647 1646 1645 1644 1643 1642 1641 1640 1639 1638 1637 1636 1635 1634 1633 1632 1631 1630 1629 1628 1627 1626 1625 1624 1623 1622 1621 1620 1619 1618 1617 1616 1615 1614 1613 1612 1611 1610 1609 1608 1607 1606 1605 1604 1603 1602 1601 1600 1599 1598 1597 1596 1595 1594 1593 1592 1591 1590 1589 1588 1587 1586 1585 1584 1583 1582 1581 1580 1579 1578 1577 1576 1575 1574 1573 1572 1571 1570 1569 1568 1567 1566 1565 1564 1563 1562 1561 1560 1559 1558 1557 1556 1555 1554 1553 1552 1551 1550 1549 1548 1547 1546 1545 1544 1543 1542 1541 1540 1539 1538 1537 1536 1535 1534 1533 1532 1531 1530 1529 1528 1527 1526 1525 1524 1523 1522 1521 1520 1519 1518 1517 1516 1515 1514 1513 1512 1511 1510 1509 1508 1507 1506 1505 1504 1503 1502 1501 1500 1499 1498 1497 1496 1495 1494 1493 1492 1491 1490 1489 1488 1487 1486 1485 1484 1483 1482 1481 1480 1479 1478 1477 1476 1475 1474 1473 1472 1471 1470 1469 1468 1467 1466 1465 1464 1463 1462 1461 1460 1459 1458 1457 1456 1455 1454 1453 1452 1451 1450 1449 1448 1447 1446 1445 1444 1443 1442 1441 1440 1439 1438 1437 1436 1435 1434 1433 1432 1431 1430 1429 1428 1427 1426 1425 1424 1423 1422 1421 1420 1419 1418 1417 1416 1415 1414 1413 1412 1411 1410 1409 1408 1407 1406 1405 1404 1403 1402 1401 1400 1399 1398 1397 1396 1395 1394 1393 1392 1391 1390 1389 1388 1387 1386 1385 1384 1383 1382 1381 1380 1379 1378 1377 1376 1375 1374 1373 1372 1371 1370 1369 1368 1367 1366 1365 1364 1363 1362 1361 1360 1359 1358 1357 1356 1355 1354 1353 1352 1351 1350 1349 1348 1347 1346 1345 1344 1343 1342 1341 1340 1339 1338 1337 1336 1335 1334 1333 1332 1331 1330 1329 1328 1327 1326 1325 1324 1323 1322 1321 1320 1319 1318 1317 1316 1315 1314 1313 1312 1311 1310 1309 1308 1307 1306 1305 1304 1303 1302 1301 1300 1299 1298 1297 1296 1295 1294 1293 1292 1291 1290 1289 1288 1287 1286 1285 1284 1283 1282 1281 1280 1279 1278 1277 1276 1275 1274 1273 1272 1271 1270 1269 1268 1267 1266 1265 1264 1263 1262 1261 1260 1259 1258 1257 1256 1255 1254 1253 1252 1251 1250 1249 1248 1247 1246 1245 1244 1243 1242 1241 1240 1239 1238 1237 1236 1235 1234 1233 1232 1231 1230 1229 1228 1227 1226 1225 1224 1223 1222 1221 1220 1219 1218 1217 1216 1215 1214 1213 1212 1211 1210 1209 1208 1207 1206 1205 1204 1203 1202 1201 1200 1199 1198 1197 1196 1195 1194 1193 1192 1191 1190 1189 1188 1187 1186

not found - effort completed and info
 I got from the San Diego post office
 says that you still are in the hospital
 and that you are doing well.

1. The first part of the paper is a review of the literature on the topic of the paper. The second part is a description of the methodology used in the study. The third part is a presentation of the results of the study. The fourth part is a discussion of the results and their implications. The fifth part is a conclusion.

It does not appear to be a
 of the same kind as the
 found in the same place
 but it is a new one
 found in the same place
 and it is a new one

37D/14- Unit is W of 37D/13; the NE and SE corners have the same location as the NW + SW corners of 37D/13. The NE + SE corners of the unit are 400 cm from E wall of the unit. 0-20 cm bgs. One large pottery with balareque and obsidian.

37D/15- Same location as 37D/14; extension down 20-40 cm bgs. One bag of pottery with some balareque. There is one cut stone block in unit and that's about it.

37D/16- Same location as 37D/15; extension down 40-60 cm bgs. Small bag of pottery. Did come down on some cut stone tumbk.

37D/17- Same location as 37D/16; ~~ext~~ extension down 60-70 cm bgs. Came down ~~at~~ on the upper floor again. This one (the floor) seems to cover the whole unit, unlike the previous one. Bag of pottery with balareque.

* 37D/18- W of 37D/17- The NE + SE corners have same location as the NW and SW corners of 37D/17. The NW + SW corners of unit are 5 m from E wall of the trench. 0-20 cm bgs; depth NE One small bag of pottery and some balareque.

37D/19 - Same location as 37D/18; extension down 20-40cm bgs; depth NE. One large bag of pottery. Moving down to the floor discussed in previous units (the top one)

37D/20 - Same location as 37D/19; extension down 40-60cm bgs. One bag of pottery with some bajocque. Looks like the E end of the platform may be coming up in the W end of the unit

37D/21 - Same location as 37D/20; extension 60-85 cm bgs; depth NE corner. One bag of pottery. There is wall in the W end of unit, however, 20m going to wait until we have uncovered the rest before naming it.

37D/22 - W of 37D/21. The NE + SE corners of the unit have the same location as the NW and SW corners of 37D/21. The NW + SW corners of the unit are 6.00m from E wall of trench. 0-20cm bgs; depth NE corner. No pottery!

37D/23 - Same location as 37D/22; extension down 20-40cm bgs; depth NE corner. 2 bags of pottery. A cut stone surface much like the one in 37B is located at 40cm. The E end of the platform is 4.70m from E wall of the trench. The top of Gillham is 40cm bgs; depth on the E side is 80cm

37D/23 - Continued:

← Birds eye view of surface

Frontal view
of platform
Edge

Going to keep moving W at level of the platform.

37D/24 - Unit is W of 37D/23 - NE + SE corners of unit have same location as the NW + SW corners of 37D/23. The NE + SE corners of the unit are 7m from E wall of the trench. 0-20cm bgs, depth NE corner. Small bag of pottery with some obsidian.

37D/25 - Same location as 37D/24 - extension down 20-40cm bgs depth NE corner. Large bag of pottery with some bijanque. Not much else going on.

37D/26 - Same location as 37D/24, making unit level with the platform. 40-55 cm bgs depth NE corner. Large bag of pottery: some interesting feet. Looks like Gilham is like Tillich in that it is only about three stones wide and then it stops.

37D/27 - W of 37D/26: NE + SE corners are 7m from E wall, NW + SW are 6m from E wall of trench 0-20cm bgs depth NE corner. Small bag of pottery.

P90-37D-9

P90-29

37D/35. The NE & SE corners are 9m from E wall of the trench; NW & SW corners are 10m from E wall of the trench. 0-20cm bgs; depth NE corner. No pottery

37D/36- Same location extension down 20-45cm bgs; depth NE corner. Three bags of pottery. Nothing else out of the ordinary

37D/37- Same location as 37D/36; extension down 45-75 cm bgs; depth NE corner. There is a small little primary in the unit at 75cm bgs.

The circular shard appears to be a very shallow cup; which is 11cm wide and a tiny hole in it, which is 2cm wide. There is a large shard fragment next to the cup that has tiny circles running along it.

The S side of the cup is 39cm from the S wall of the unit. The W side of the cup is 51cm from W wall of the unit.

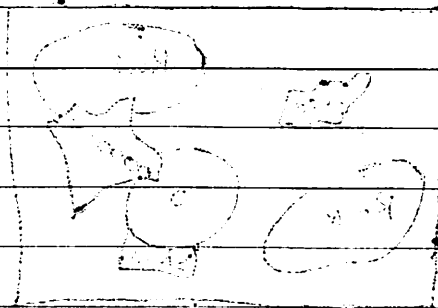

The shard to the right of the cup is 13cm long and 12cm wide.

13-04-21

23/03/21. The weather was very good. I went to the park with my family. We had a picnic under a big tree. The children played for hours. It was a very pleasant surprise.

24/03/21. The weather was very good. I went to the park with my family. We had a picnic under a big tree. The children played for hours. It was a very pleasant surprise.

27/03/21. The weather was very good. I went to the park with my family. We had a picnic under a big tree. The children played for hours. It was a very pleasant surprise.

37D/38 - Same location as 37D/37;
slight extension down - 75-80 cm bgs; depth
NE corner. Small bag of pottery.

P90-29

37D/39 - The NE+SE corners are 10m from E wall
of the trench; the NW+SW are 11m from E
wall of the trench. 0-20cm bgs; depth NE
corner. One large bag of pottery.

37D/40 - Same location as 37D/39; extension down
20-40cm; depth NE corner. One bag of pottery.
Same old same old.

37D/41 - Same location as 37D/39; extension
down 40-60cm bgs; depth NE corner. 2 bags
of pottery. Some big sherds.

37D/42 - Same location as 37D/41; extension down
60-80cm bgs; depth NE corner. Two bags of
pottery. Some cool stuff is coming out!

37D/43 - Same location; slight extension down
80-90cm bgs; depth NE corner. One bag of
pottery. No going to move back to W side
of Gillham and dig down. Much like
with Tillich in 37B.

37D/61- Same location as 37D/60; extension down 100-120cm bgs; depth NE corner of unit. One bag of pottery. Unit ended on another bajareque floor. 6 figure.

37D/62- Same location as 37D/61; extension down 120-150cm bgs; depth NE corner. The slight remains of a bajareque floor can be seen at 150cm bgs. One large bag of pottery with some bajareque.

37D/63- The NE + SE corners are 10m from the E wall of the trench; the NW + SW corners are 11m from E wall of the trench. Extension down ~~80-100~~ 80-100cm bgs; depth NE corner of the unit.

At 120cm there is huge rim located on some kind of surface.

Rim is ~~120~~ 38cm wide
drawing

See graph paper

Scale for photo set at 20cm; i, j 60/5.6-8 AP

ASA 32. From the E. Farthest N point of bowl is 42 cm from S wall of unit; Farthest S point is 6 cm from S wall of unit; E point is 42 cm; and W point is 5 cm. Rim appears to have a light brown patina on it. There is also a rock located in the rim. As shown in sketch and graph paper drawing, the rim is surrounded by three rocks. Set up a datum at 9m; string located at ground surface. Gillham is 72 cm below datum & The top of the rim is 105 cm below datum. Underneath one of rim pieces is very brittle red rock. Drawing is labeled ~~37D~~ P90-37D-1, P90-29.

37D/64- Same location as 37D/63; extension down 100-120 cm bgs; depth NE corner. One bag of pottery. The unit ends right on top of a bayareque floor. It isn't in really good shape.

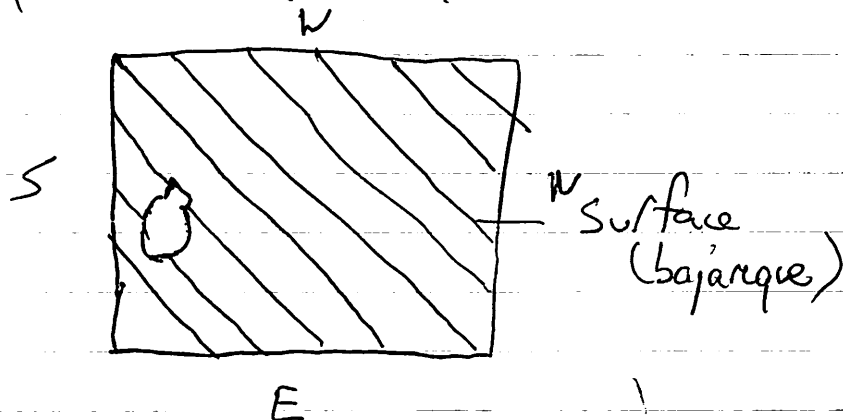

37D/65- Same location as 37D/64; extension down 120-140 cm bgs; depth NE corner of unit. One bag of pottery. Unit came down on yet another bayareque floor.

37D/66- Same location extension down 140-160 cm bgs; depth NE corner of the unit. There is one ~~half of~~ 1/2 of a spondylus shell, which is sitting on a surface.

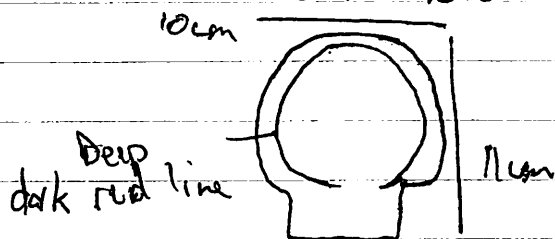

P90-37D-18

P90-29

37D/66- Continued:

The S side of the shell is located next to the S wall of the unit. N side is 11cm from S wall of the unit. W side is 46cm from W wall of unit; E side is 57cm from W wall of unit. Shell is 165cm lgs. It is sitting face up; the inside is up. There is a deep dark red line which runs on the outside of the shell. The shell is 10cm wide and 11cm in length.

37D/67- Same location as 37D/62; Went to move down to sterile. extension down 80-100cm lgs; depth NE corner One large bag of pottery

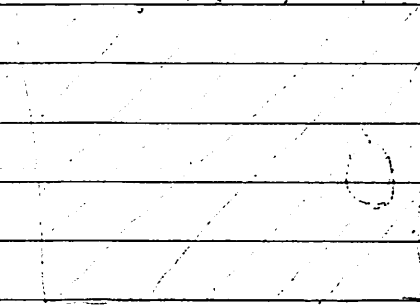

37D/68- Same location as 37D/67; extension down 100-120cm lgs; depth NE corner. No pottery; Seem to have hit the natural red soil that goes with no pottery.

Operation for 37F - Sister operation to 37E.
 Trying to find basal wall Luke on the S
 end of structure. Once we have found
 we will head S and follow it. Trench is 4m
 long. Interested in changes in basal wall construction.
 S side of 37F located at 80°; taken from W end facing E

37F/01 - 1x1m unit of operation 37F: very first
 unit. Small bag of pottery with some bajareque.
 Not much else going on. 0-20cm lgs, depth NE corner.

37F/02 - Same location as 37F/01; extension down,
 20-40cm lgs, depth NE corner. Two small bags
 of pottery and some bajareque. Taking it down
 another down before moving forward.

37F/03 - Same location; extension down, 40-60cm lgs, depth
 NE corner. Small bag of pottery. Going to
 start moving E now, in search of Luke.

37F/04 - The Unit is E of 37F/01; NW and SW
 corners have same location as the NE and SE corners
 of 37F/01. The NE + SE corners of unit are 200cm
 from W of trench. Small bag of pottery. 0-20cm lgs.

* 37F/05 - Same location extension down, 20-40cm
 lgs, depth NE corner. Small bag of pottery. Going
 to go down another 20 to make unit level with
 37F/03. As a whole we aren't pulling
 much pottery out.

37F/06 - Same location as 37F/05, extension 40-60cm bgs, depth from NE corner of unit. Small bag of pottery. Coming up on Luke, I hope

37/07 - E of 37F/04. The NW and SW corners have same location as the NE and SE corners of 37/04. The NE and SE corners are 300cm from W wall of the trench. Unit contains some cut block stones in tumble. Small ~~bag~~ bag of pottery with some bone.

~~37F/07~~

37F/08 - Same location as 37F/07, extension down 20-40cm bgs, depth NE corner. Small bag of pottery with some bajareque. Getting into some cut stone block tumble.

37F/09 - Same location ~~extension~~ as 37F/08, extension down 40-60cm bgs. Not sure if I'm deep enough. Move a unit ^{East} and dig another 20cm down. Still some cut stone tumble. I think I'm not deep enough because we're in line with Luke ~~not~~ now.

37F/10 - Same location as 37F/04, extension down 60-80cm bgs, depth NE corner. One large bag of pottery with some bajareque. Moving E again.

37F/11- Same location 37F/09; extension down 60-90 cm bgs; depth NE corner. Still have not found Luke. Moving up another meter to see what happens.

37F/12- Unit is E of 37F/07; NW + SW corners of unit have same location as NE and SE corners of 37F/12. NE + SE corners are 400cm from W wall of trench. 0-20cm bgs; depth NE. Looks like we could be coming up on a cobble wall instead of cut stone block. Small bag of pottery.

37F/13- Same location extension down 20-40cm bgs. Small bag of pottery with some bag of ore. May be coming down on the base, if it's is, it has a much different construction than Luke. It is cobbles and not cut stone blocks. Go figure.

* 37F/14- Same location extension down 40-60cm bgs. Small bag of pottery; large amt of rocks. May have a wall and a step. Going to E some more before I name everything that needs to be named.

37F/15- E of 37F/12; the NW + SW corners of unit have same location as the NE + SE corners of 37F/12. NE + SE corners are 500 m from W wall of the trench. 0-20cm bgs. ~~the~~

100% of the total area of the
 field is covered by the
 vegetation.

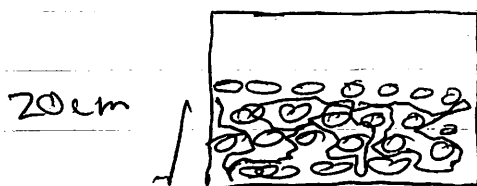

376|07- Same location as 376|01; extension 60-80 cm bgs; depth NE corner. One large bag of pottery.

376|08- Unit has same location as 376|04; extension down 60-80 cm bgs; depth NE corner. There is a really nice plaster at 80 cm down. It is really white and has small stones in it. One bag pottery.

376|09- Located in part of 376|01. The NW + NE corners have same location as NW + NE corners of 376|01; the SW + SE are 70 cm from N wall of trench. There is a clear line of where the floor stops, so we're digging in front to get an idea of its ~~roots~~ construction. 80-100 cm bgs; depth NE corner. Picked up the Base 1 wall of the small structure to the N of M. It extends 30 cm from the N wall of the unit. There is a 40 cm gap in between the base wall + the plaster floor. Floor turned out to be about 20 cm thick with a shit load of small tiny rocks in it.

376/109 - Continued: Profile of floor

376/10 - The NE + NW corners are 200cm from the N wall of the trench; the SE & SW corners are 300cm from the N wall of the trench. 0-20cm bgs depth NE corner. Moving S in search of the base wall. No pottery.

376/11 - Same location as 376/10; extension down 20-40cm bgs depth NE corner. Small bag of pottery.

376/12 - Same location as 376/11; extension down 40-60cm bgs depth NE corner. One small bag of pottery. Quite abit of tumble developing in the S end of the unit.

376/13 - Same location as 376/12; extension down 60-80cm bgs depth NE corner. No pottery. Came down on the plaster floor again. There is some cut stone blocks in the S end of the unit.

FINAL NOTES FOR 37E

Basel wall Luke

3550

The W side of Luke is 270 cm from the W wall of the trench. The E side of Luke is 300 cm from the W wall of the trench.

Rock 1 is 30cm wide and 42cm long. It is also 20cm thick.

Rock 2 is 22cm wide; 21cm long, and 15 cm thick.

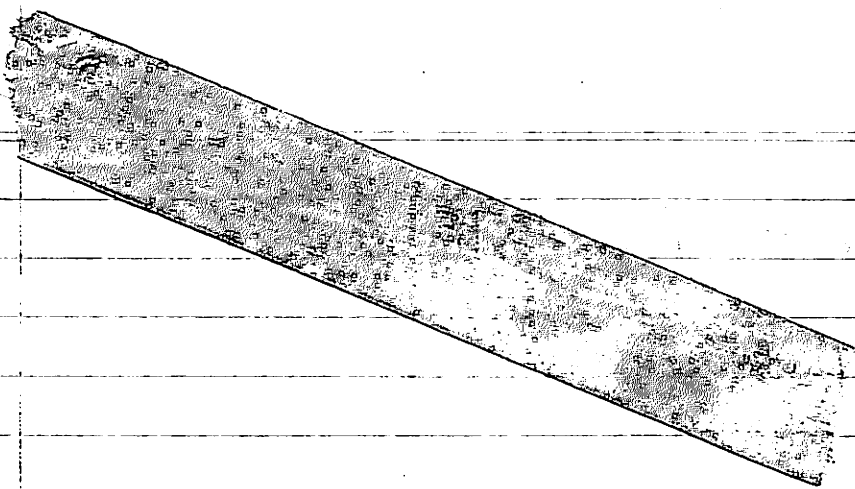

Rock 3 is an impression; it is ^{cm} ~~cm~~ ^{Can't be measured} wide, 32 cm long, and 24 cm thick.

Width on the rocks is running W to East, length runs S to N, thickness is up and down.

Set up datum in SW corner of trench that is 38cm ABS.

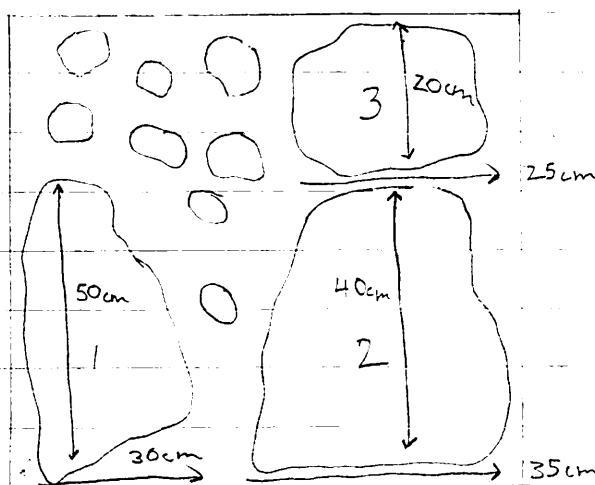

Top of Luke is ¹¹⁵~~145~~ cm below datum; base is 145 ~~130~~ cm below datum; Depth on the W side is 155cm; depth on E side is 118cm ~~base~~ below datum.

In this instance Luke has very simple construction. It is made up of large cobbles and that's it. There are no packing stones.

or anything else for that matter. The wall is simply three stones, two of which are very large and the third being slightly smaller.
Compass:

Floor Jude leading up to Ruth;

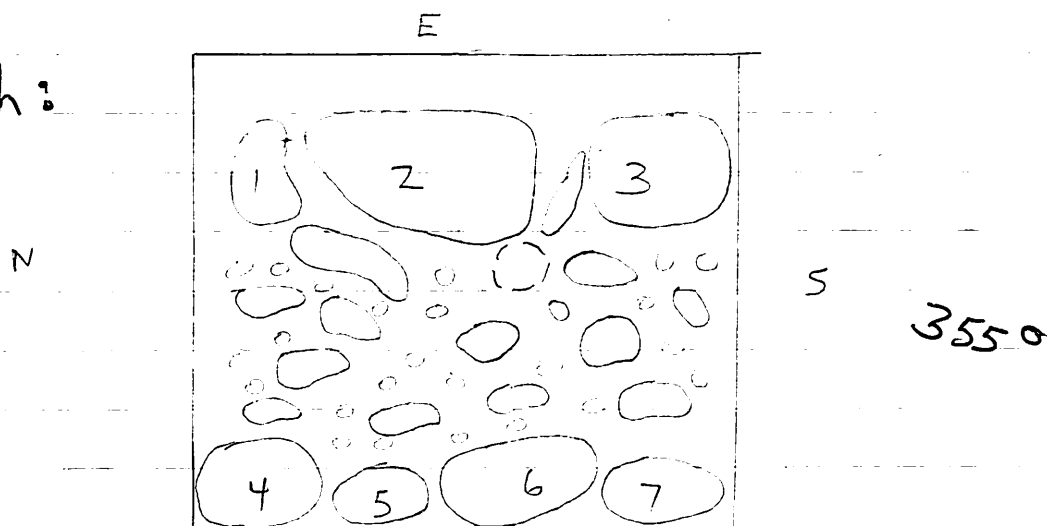

3560

W end of the floor is 385 cm from W wall of the trench. The smaller rocks in the floor are all roughly 10cm long and 8cm wide. Measurements for the three flat rocks in drawing. Depth in front of the floor is 105cm below datum. The floor is 96cm below datum.

The floor is constructed of three flat rocks that are each roughly 10cm thick. Rock 2 is really the only one I can get a thickness on. The rest of the floor is made of tiny rocks which look to be randomly placed. It does appear that the floor is suppose to sit in the earth; the rocks and the dirt are all level. Floor leads up to Ruth.

Compass:

Wall Ruth:

The W side of Ruth is 485cm from W wall of the trench. The wall was constructed by placing small tiny stones on top of a layer of medium sized cobbles, which were then topped off by some more medium sized cobbles.

Rock one is 20cm high and 14cm ~~wide~~ ^{thick} running N to S. Rock 2 is 30cm ~~wide~~ ^{thick} and 52cm long running N to S. Rock 3 is 24cm long running N to S and 18cm ~~wide~~ ^{thick}. The width can't be given because not all the wall was uncovered. Just the W face.

Rock 4 is 20cm high + 20cm thick; rock 5 is 18cm wide and 18cm thick. The 6th rock is 20cm wide and 10cm thick, rock 7 is 10 x 10 cm.

Depth on the W side of Ruth is 72cm below datum; top of Ruth is 6cm below datum

11-17

11-17

11-17

Final Thoughts for 37F: The basal wall Luke is different than 37A, which is cut stone. Floor is just a surface which leads up to Ruth. Ruth appears to be a very large retaining wall for the structure. It has the same construction throughout the other trenches: 37A, 37E.

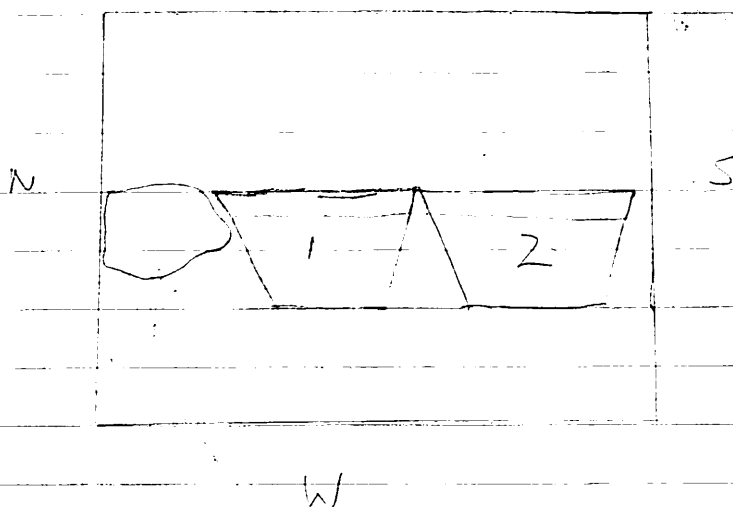

FINAL NOTES FOR 37A:

350°

Basal wall Luke: Profile

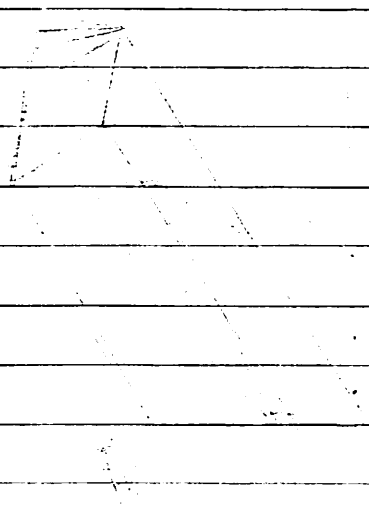

Luke is constructed of stone cut blocks.

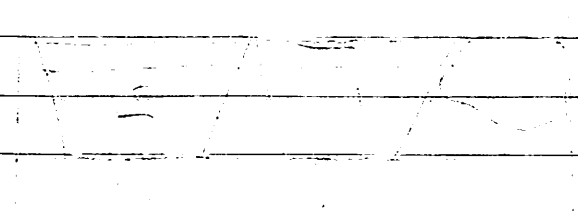

Final Through for 375: 10/1/11
 Final Through for 375: 10/1/11
 Final Through for 375: 10/1/11
 Final Through for 375: 10/1/11

 Final Through for 375: 10/1/11

375

Final Through for 375: 10/1/11

Final Through for 375: 10/1/11

Rock one is 42cm wide running N to S; 8cm thick; and 40cm long. Rock 2 is 46cm wide running N to S; 7cm thick; and 40cm long.

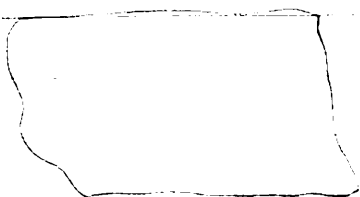

W side of Luke is 5.25m from W wall of the trench. It should be noted, as shown by profile drawing, that Luke is leaning badly.

Datum established in SW corner of unit; 97cm AGS. Top of Luke is 62cm bgs; Depth on the W side is 120cm below datum.

Compass

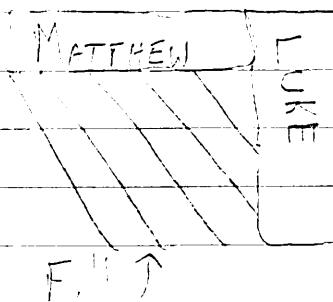

352°

Matthew:

CS

Matthew is the surface stone which was at the level of Luke and lead back to John. W side Matthew is 5.55m from W wall of the trench. The W side Matthew is 40cm from W side of Luke. It appears that when Luke stood upright it would have faced the W side of Matthew. Matthew would then be part of a small terrace which would have lead up to step John.

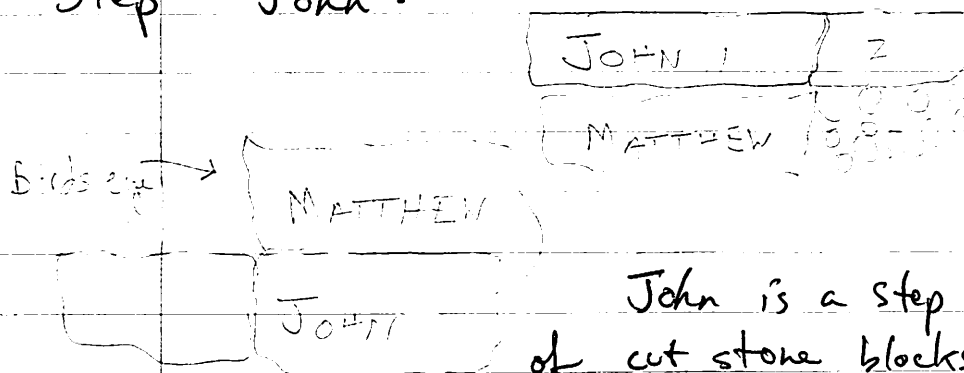

What the two features may have looked like in time of use.

Matthew is 44cm long running N to S; 15 cm thick and roughly 30cm wide running W to E. The fill that was used for Luke and Matthew was dirt and small stones. N side of Matthew is 10cm from N wall of the trench; the S side is 54cm from N wall of trench. Not all of Matthew can be seen because part of John rest of the E side of it. Top of Matthew is 55cm below datum

Compass

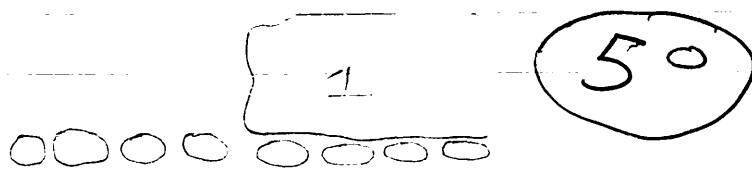

358°

Step John:

John is a step which is constructed of cut stone blocks placed on top of small tiling stones. The W side of John is 580cm from W wall of the trench. Rock 1 is 38cm long running N to S; 33cm wide running W to E and 11cm thick. Rock 2 is 20cm wide running N to S and 20cm running E to W; and 11cm thick. W side of Luke is 56cm from W side of Luke and 23cm from W side of Matthew. N side of John is 26cm from N wall of the trench. John may have been roughly 25cm high when in use. I say that merely because that is its height right now. Top of John is 44cm bgs (Datum); base is 72cm below datum

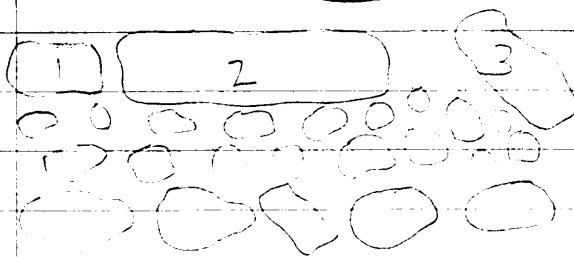

Step Job:

Job is another step. Job looks to have been constructed by placing large rounded stones on top of a one layer line of chinking stones. As shown from the drawing the N end of Job is missing. W side of Job is 6.15m from W wall of the trench. Rock 1 is at least 46cm long running N to S and 28cm wide running W to E. Rock 1 is also 20cm thick. N end of Rock 1 is 60cm from N wall of the trench. The small stones average about 15x10cm. W side Job is 36cm from W side of John. Top of Job is 26cm below datum; base of step is 55cm below datum. Compass

Wall Ruth:

345°

Ruth seems to have been constructed by first putting down a layer of medium sized cobbles, which were then covered by a section of small tiny stones, which were then topped

off by a layer of cut stone blocks. Block one is 15cm wide running N to S + 10cm wide running E to W. Block is also 10cm thick. Rock 2 is 52cm long running N to S and 30cm running E to W. Also 14cm thick. Rock 3 is 25cm long running N to S; at least 45cm long running E to W, and 16cm thick. The tiny stones average roughly 10x8cm. The bottom layer of cobbles are roughly 20x10cm.

Figure 1 is a line graph illustrating the relationship between the percentage of total effort and the percentage of total catch for various fish species. The x-axis represents the 'Percentage of total effort' (0 to 100), and the y-axis represents the 'Percentage of total catch' (0 to 100). The legend identifies the following species: Blue (Bluefish), Green (Atlantic croaker), Red (Atlantic menhaden), Yellow (Atlantic silverside), Purple (Atlantic tomcod), Orange (Atlantic herring), and Grey (Atlantic blue whiting). Bluefish shows a high catch for low effort, while Atlantic croaker and Atlantic menhaden show high catch for high effort.

Top of Ruth is (Moving datum: at 5m mark, which is on Job the depth is 26cm bgs (datum). Moved datum to Mark depth at 5m mark of Job is 196cm below datum. Now, back to the top of Ruth, which is 148cm below datum. Base of Ruth is 211cm below datum.

Mark: Is a step up to a terrace

340°

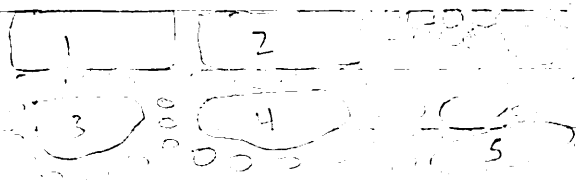

Mark is step which leads up or steps up to a terrace. Mark was

constructed by placing medium sized cobbles on top of smaller cobbles. Rock one is 30cm wide running N to S and 20cm wide running E to W. Also 12cm thick. #2 is an impression which is 25cm wide running N to S and 20cm wide E to W. Rock three is at least 20cm wide running N to S; 38cm running E to W and is 15cm thick. The smaller stones ~~were~~ underneath average 10x10cm. W side Mark is 7.55m from W wall of the trench + 110cm from W side of Ruth. Top of Mark is 18cm below datum; base is 142cm below datum. Compass

Step Acts:

3520

Acts is the first in a series of steps which lead up the summit. The top layer of the

step is made of cut stone blocks. The base or fill of the step is made of medium sized cobbles surrounded by small tiny little stones. As a whole the step has a very nice construction to it. Rock One is 25cm wide running N to S; 40cm long running E to W; and 9cm thick.

Rock 2 is 30cm wide running N to S, 48cm long running E to W and 10cm thick. Rock 3, which is part of the facing, is 35cm long running N to S and 15cm thick. Rock 4 is 36cm long running N to S and 18cm thick; Rock 5 is 20cm long N to S and 13cm thick. Small tiny stones average 5x5cm W side Acts is 9.70m from W wall of the trench. Top is 36cm below datum, base is 78cm below. Nice construction as a whole. Compass

Step Romans

3550

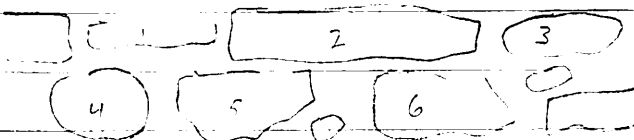

Romans is second step in a series of 4. It was constructed by placing cut stone

blocks on top of large rounded cobbles. Contains very few small stones. Rock one is 34cm long running N to S, 35cm running E to W, and 9cm thick. Rock 2 is 30cm wide running N to S, 34cm running E to W, and 10cm thick. Three is 32cm wide running N to S, 34cm running E to W, and 14cm thick. Rock 4 is 24cm long running N to S and 11cm thick, 5 is 32cm long N to S and 12cm thick, 6 is 20cm long N to S & 11cm thick. W side Romans is 10.15m from W wall of the trench and 36cm from W side Acts. Top is 4cm below datum & base is 34cm below datum. Compass. Looks like Acts runs under Romans which could mean it was added on at later date,

3550

Step Song of Songs:

The third step in a series of 4.

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atomic nucleus. It is shown that the nucleus is a system of protons and neutrons, which are bound together by strong interactions. The properties of the nucleus, such as its mass, size, and stability, are determined by the balance of these interactions.

2. In the second part, the author considers the specific properties of the nucleus, such as its spin, parity, and magnetic moment. It is shown that these properties are determined by the internal structure of the nucleus and the interactions between its constituents.

3. The third part of the paper is devoted to a discussion of the experimental methods used to study the structure of the atomic nucleus. It is shown that a variety of techniques, such as scattering experiments and spectroscopy, can be used to determine the properties of the nucleus.

4. In the fourth part, the author discusses the applications of the theory of the structure of the atomic nucleus. It is shown that this theory has a wide range of applications, from the study of the properties of matter to the development of new technologies.

5. Finally, the author discusses the future prospects of the theory of the structure of the atomic nucleus. It is shown that there are many interesting problems that remain to be solved, and that the development of this theory will continue to be an active area of research.

1973

6. The author concludes the paper by summarizing the main results of the theory of the structure of the atomic nucleus. It is shown that this theory provides a comprehensive description of the properties of the nucleus, and that it has a wide range of applications.

Song of Songs has much the same construction as Romans. The step is made of a layer of cut stone blocks placed on top of medium sized rocks. In this case some of stones used for facing appear to be rocked. Rock 1 is

26cm wide running N to S; 36cm running E to W; and 8cm thick; Rock 2 is 42cm wide running N to S;

43cm running E to W; Rock 3 is 22cm wide running N to S; 41cm E to W + 8cm thick. Rock 4 is

20cm N to S + 18cm thick. Rock 5 is 28cm wide N to S and 15cm thick; Rock 6 is 25cm long N to S + 27.5cm thick.

Romans appears to run underneath Song of Songs. W side of Songs is 10.60m from N wall of the trench and 36cm from W side Romans. Moving datum. Spot on Romans is level with datum. Moved datum to 13.50m Datum 183cm above spot on Romans. Top of Songs is 155cm below; ~~the~~ datum; base is 180cm below datum.

Step Proverbs:

3500

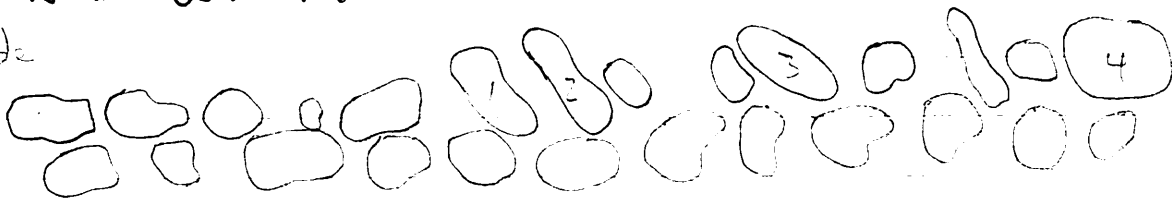

Proverbs is last of the 4 step series. Proverb's construction is different from the other three. It really only looks like a line of stones with ~~rocks~~ ^{rocks + S} on top. Rock 1 is 20cm wide running N to S and 30cm E to W; Rock two is 21cm N to S and 32cm E to W; Rock 3 is 24cm N to S and 24 E to W; Rock 4 is 26cm N to S and 17cm thick; Rock 5 is 30cm N to S and 30cm E to W. Rock 1 is 9cm thick; rock 2 is 12cm thick; Rock 3 is 8cm thick; Rock 5 is 11cm thick. W side Proverbs 11.05m from W wall of the trench. and 43cm from W side Songs. The last well constructed of the 4, or at least the worst preserved. Depth on top is 132; ~~and~~ on W side it is 152

Wall Corinthians

The W side

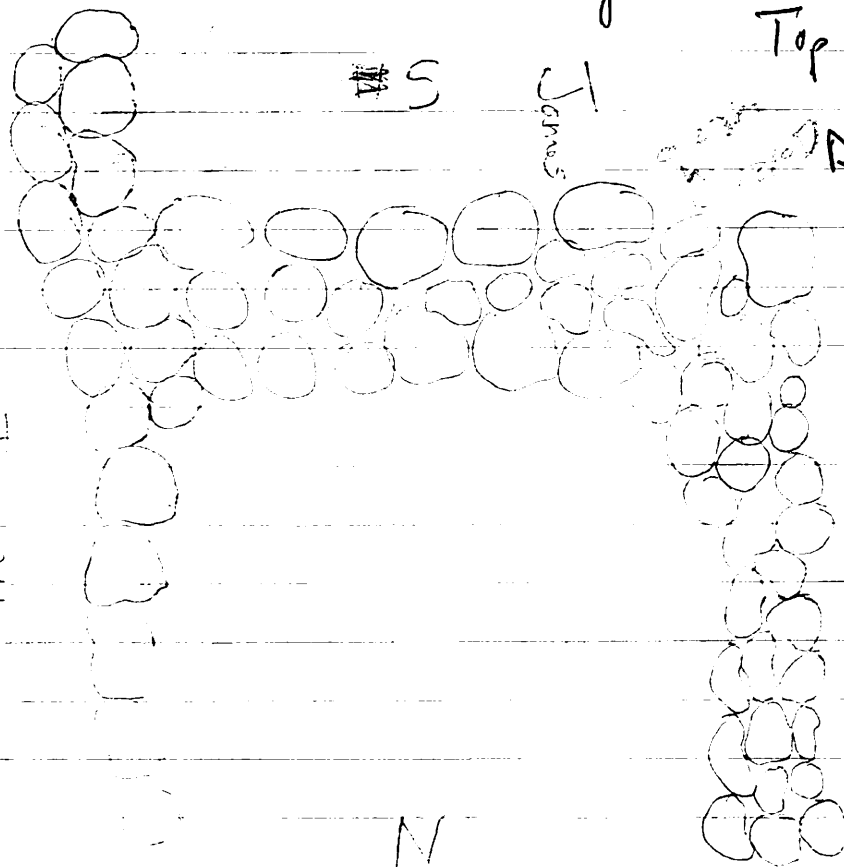

Corinthians is in such bad shape it is hard to say how it was constructed. The larger cobbles in the wall are mostly on the top layer with smaller stones used underneath. Rock one is 45cm long running E to W and 24cm running N to S; rock 2 is 48cm long running E to W, and 20cm N to S; Rock 3 is 27cm long running E to W, 35cm N to S. Rock 4 is 30cm by 30cm. The wall looks to have slumped down quite a bit.

The N end is 95cm wide. Located at 355°
Corinthians is 340cm long. It runs into Jones

Top of Corinthians is
87cm below datum
Depth the W side is
110cm below
datum.

Depth on the E
side is 122cm.

Handwritten notes at the top of the page, possibly a title or introductory text.

Main body of handwritten text, consisting of several lines of cursive script.

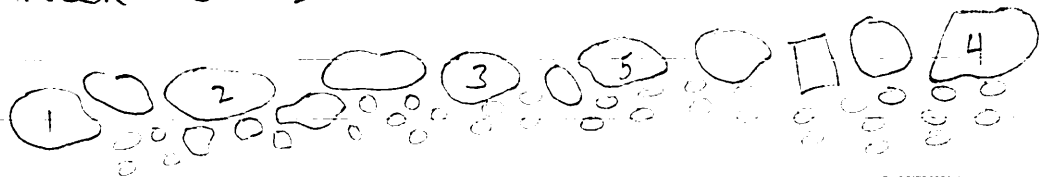

Lower section of handwritten text, including a large, stylized signature or flourish at the bottom.

The S end of Corithians runs into James.
Wall James.

Wall James

255°

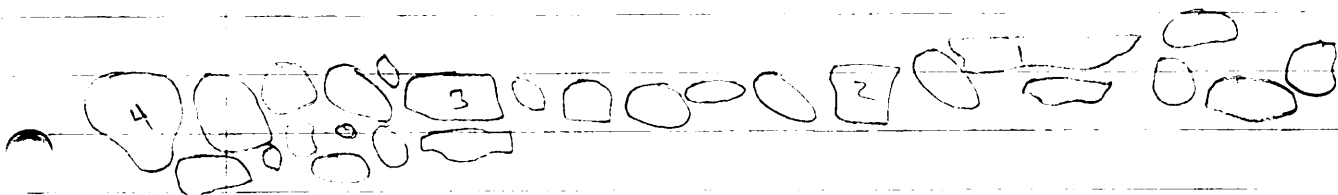

The
S side
S

Rock one is 30cm x 30cm; Rock two is 34cm running N to S; 38cm E to W and 10cm thick; Rock 3 is 40cm long running N to S; 23cm E to W; Rock 4 is 38cm running E to W; 22cm N to S and 16cm thick. The tiny rocks average 5x5cm. James is in much better shape than Corinthians. It is clear that there are two distinct sections of James; one of large cobbles, another of small tiny rocks. This distinction doesn't really show in Corinthians. Top of James is 74cm below datum; the S side is 96cm below datum; the N side is 128cm below datum. James is roughly 3m long and 70cm wide. It is hard to say how long James + Corinthians are because they seem to have the same SW corner, which might indicate they were built at the same time. It is clear that James was built after Isaiah.

Wall Isiah!

3450
↓

Rock one is 50cm long running N to S, 28cm E to W, and 10cm thick.

1. What is the main purpose of the document?
 2. What are the key findings of the study?
 3. What are the implications of the findings?
 4. What are the limitations of the study?
 5. What are the conclusions of the study?

1. $\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$
 2. $\frac{1}{2} \times \frac{1}{3} = \frac{1}{6}$

$\Delta T = 30^\circ \text{C}$
 $T = 30^\circ \text{C}$

1. Another factor that I did not mention is that
 the amount of time I spent on each assignment was
 not consistent. I sometimes spent more time on one
 assignment than on another, which affected my overall
 performance.

1. $\lim_{x \rightarrow 0} \frac{1}{x} = \infty$
 2. $\lim_{x \rightarrow 0} \frac{1}{x^2} = \infty$
 3. $\lim_{x \rightarrow 0} \frac{1}{x^3} = \infty$
 4. $\lim_{x \rightarrow 0} \frac{1}{x^4} = \infty$
 5. $\lim_{x \rightarrow 0} \frac{1}{x^5} = \infty$
 6. $\lim_{x \rightarrow 0} \frac{1}{x^6} = \infty$
 7. $\lim_{x \rightarrow 0} \frac{1}{x^7} = \infty$
 8. $\lim_{x \rightarrow 0} \frac{1}{x^8} = \infty$
 9. $\lim_{x \rightarrow 0} \frac{1}{x^9} = \infty$
 10. $\lim_{x \rightarrow 0} \frac{1}{x^{10}} = \infty$

1. The first part of the text discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail.

1. The \mathbb{Z} -module \mathbb{Z} is free. $\{1\}$ is a basis.
 2. The \mathbb{Z} -module \mathbb{Z}^n is free. $\{e_1, \dots, e_n\}$ is a basis.
 3. The \mathbb{Z} -module $\mathbb{Z}/n\mathbb{Z}$ is not free.

$\frac{1}{x^2} = x^{-2}$

ONE

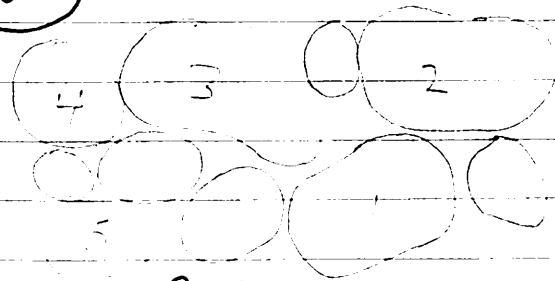

1. $\frac{1}{2} \times \frac{1}{3} = \frac{1}{6}$
 2. $\frac{1}{4} \times \frac{1}{5} = \frac{1}{20}$
 3. $\frac{1}{6} \times \frac{1}{7} = \frac{1}{42}$
 4. $\frac{1}{8} \times \frac{1}{9} = \frac{1}{72}$
 5. $\frac{1}{10} \times \frac{1}{11} = \frac{1}{110}$
 6. $\frac{1}{12} \times \frac{1}{13} = \frac{1}{156}$
 7. $\frac{1}{14} \times \frac{1}{15} = \frac{1}{210}$
 8. $\frac{1}{16} \times \frac{1}{17} = \frac{1}{272}$
 9. $\frac{1}{18} \times \frac{1}{19} = \frac{1}{342}$
 10. $\frac{1}{20} \times \frac{1}{21} = \frac{1}{420}$

Rock 2 is 25cm long running N to S; 22cm E to W; and 6cm thick. Rock 3 is 38cm long running N to S; 32cm running E to W and 15cm thick. Rock 4 is 26cm wide running N to S; 36cm E to W; 23cm thick. James runs into Isiah, and Isiah also continues on. Isiah is also at a lower level than James. All this would indicate that Isiah was constructed before James & Corinthisans. Isiah looks like it may have been a large Terrace before it was built over. Top of Isiah is 172cm below datum. Depth on the E side is 144cm. The construction of Isiah is much like Corinthisans. Hard to say. There is a definite line, but there aren't many small chinking stones. Page 11 shows the association all three wells have with each other.

Lamentations:

3450

Bird's eye

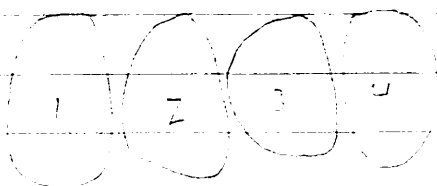

Rock 1 is 30cm x 30cm; Rock 2 is 30cm x 35cm; Rock 3 is 34cm x 20cm; Rock 4 is 22cm x 22cm; Rock 5 is 25cm x 20cm. Top of Lamentations is 178cm below datum. Wall is 55cm wide. W side is ^{15.90m} from W wall of the trench. Lamentation sits in line with Isiah, however it is way below it. Lamentations would seem to indicate that summit had a different before the construction of Isiah. As a whole it looks as if there were at least

353
346
Three different phases of construction for the summit. The first stage would be Lamentations, which was then covered by Isich, which was possibly a large terrace. James and Corinthians were then packed at a later date.

Wall Exodus:

3550

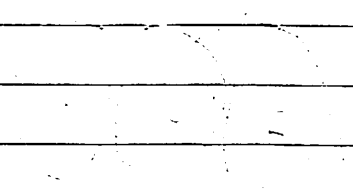

Rock one is 15cm long running E to W and 10cm N to S, Rock 2 is 40cm long running E to W and 24cm N to S, Rock 3 is 32cm long and 22cm wide N to S, Rock 4 is 36cm long running E to W and 23cm N to S. Wall was constructed by placing ⁴ three flat stones into the earth. There is no other kind of rocks underneath Exodus. Wall is simply 4 rocks placed in a line. Like Lamentations the wall seems to be of earlier construction than most. It was underneath a terrace which leads up to the summit. W side is 20.96m from W wall of the tape. Tape 182 above point on Lamentations, moved to Exodus, 20cm above point on Lamentations. Exodus is 140cm below datum.

Amos:

350°

Rock 1 is 34cm long running E to W and 22cm wide running N to S; rock 2 is 40cm E to W and 26 N to S; Rock 3 is 30cm E to W and 15 N to S; Rock 4 is 30cm E to W and 20cm N to S. Wall was constructed by placing 4 large cobbles in line with some small stones packed in between them. Wall is in pretty rough shape. W side is 22.10m from W wall of the trench 245cm below datum.

Wall

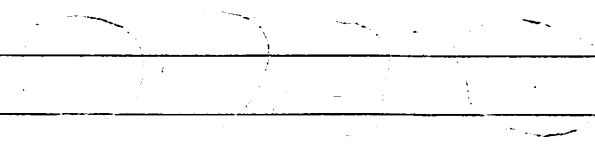

W
4
5

Base 1 wall on E side of the structure.

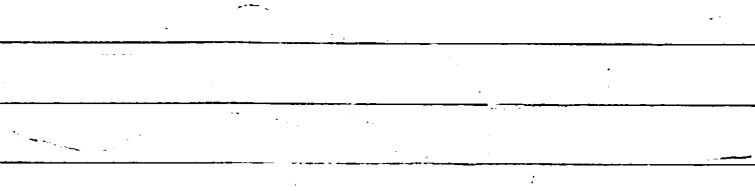

Rock one is 60cm long running E to W and 30cm wide N to S. Also 16cm thick. Rock two is 58cm long E to W and 30cm N to S. 15cm thick. Appears to have been made by placing cut stone blocks on a leveled piece of earth. No other stones are visible except the ones shown in the drawing.

W side of wall is 24m from W wall of the trench.

like moved to Point on Exodus 2cm below compared to 245. Top of is 125cm below datum

Handwritten text, likely a letter or a journal entry, written in cursive. The text is mostly illegible due to fading and bleed-through from the reverse side of the page.

Handwritten text, likely a letter or a journal entry, written in cursive. The text is mostly illegible due to fading and bleed-through from the reverse side of the page.

Summary: The W side of the structure starts at ⁰ with a basal wall made of cut stone block, which is called Luke. Luke has a nice little cut stone terrace (Matthew) which leads to step John. John has a second step behind it named Job. Job leads to a nice retaining wall called Ruth, which in turn leads to the first large terrace called Mark. Mark, in turn, leads to the 4 cut stone steps. The summit, which has already been discussed in detail, has many (at least 3) different stages of development. See notes for more info. The E side of structure is characterized by a series of terraces. The first moving E to W being Amos and the second being located right behind Exodus.

Final Notes 376:

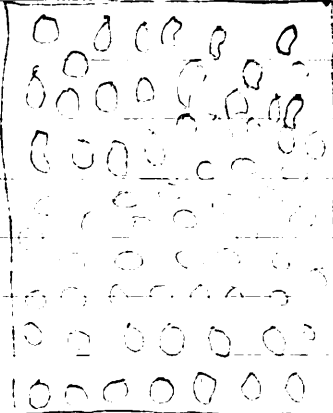

Wall Part II

Basel wall of structure to the N of IA-17.

Wall is constructed of two medium sized cobbles and ^{one} large cobble.

The large one is 42cm long running N to E; 22cm wide running N to S and 15cm thick. Top is 80cm bottom is 95cm. The S side of wall is 32cm from N wall of trench. The wall is located right out of a plaster floor that leads up to 17. Side of wall is 40cm from N end of ~~the~~ plaster floor.

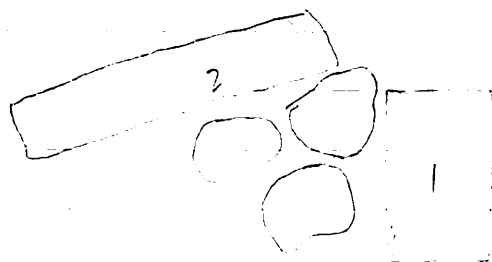

Kings: Plaster Floor: ~~Exter~~

11cm thick and 75cm by at N end. Floor looks to pre-date the ~~wall~~ basal wall because it was underneath it. Very nice floor that is in good condition.

The floor is first seen at 80cm S of N wall of trench. The material is mostly made up of ~~the~~ hard very brittle soil with many small stones located through out the surface. The entire thing is white. The floor is

260°

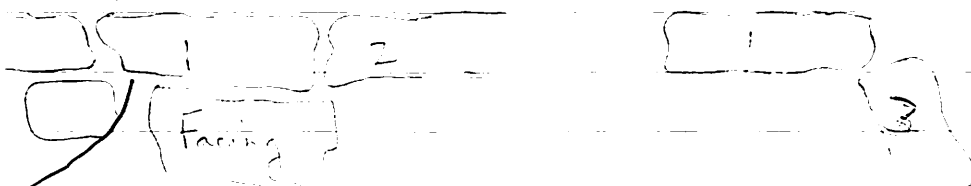

Basel wall: Esther

Wall is made of cut stone blocks which have cobbles for fill. Stone 1 is 13cm running N to S and 24cm long

Top of 1 is 50cm hys, bottom 78cm hys. The N side of one is 325cm from N wall of the trench. Stone two is 46cm long running N to S and 32cm wide, rock is also 10cm thick. Top of rock is 30cm hys, bottom is 40cm hys. The N end of the stone is 3.50m from N wall of the trench. Top of rock 2 is 54cm above plaster floor. Top of rock 1 is 36cm above plaster floor. Able to follow the floor because basal wall is in such bad shape only half of it is there.

Wall → Paul I

Rock one 38cm long running E to W and 26cm N to S. 11cm thick. Rock 2 is 30cm wide N to S and protrudes 28cm from W wall of the trench. Rock 1 with Rock 3 is the same as the first rock 1 given. Rock 3 is 26cm x 36cm. N side Rock 2 is 4.15m from W wall of the trench. Rock one's N side is 4.40m from N wall of the trench.

It is a common mistake to think that the only way to avoid the problems of the first two methods is to use a very small number of samples. However, this is not true. The number of samples must be large enough to ensure that the sample mean is a good estimate of the population mean. In other words, the sample size must be large enough to ensure that the sample mean is approximately normally distributed. This is why the Central Limit Theorem is so important. It tells us that if the sample size is large enough, the sample mean will be approximately normally distributed, regardless of the distribution of the population. This allows us to use the normal distribution to approximate the distribution of the sample mean, which is what we need to calculate the confidence interval.
