VERBAL DESCRIPTION:

Mano with one end missing. The finished end is 4.70 x 4.30 cm, and is oval, as is the general cross-section. All finished surfaces are ground, but 2 areas are more heavily ground than the rest. One area takes in one broad side and overlaps onto the smaller sides. The other is on the edge between the opposite broad side and ~~the~~ a small side; it is quite flat and somewhat glossy. The broken end has had its sharp edges clipped off and the end is also lightly ground, as if to save a broken tool for future use. The holes in the ~~matrix~~ vesicular basalt are mostly small, with a sprinkling of medium.
