Should also be drawn once clean.

NOTE: This candelero is <sup>almost</sup> complete and has not been washed so the dirt can be analyzed. So it has not been processed or given a cat # which should eventually be done.

Verbal Description:

This is part of a candelero with at least 3 chambers, one is complete. The exterior is incised with linear designs and some sort of unclear modeling. The "carrier" is rounded + has a small pierced vent hole in it. There is also a small fairly flat slab foot. Chambers are roughly ind. Can't tell rest till cleaned.

Draw when clean  
Seems relatively fancy + unique.
