Additional descriptive comments on figurative or decorative portion of the exterior:

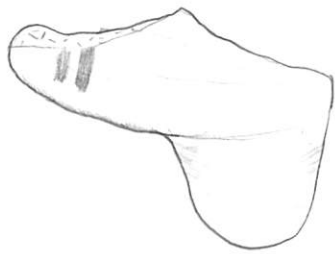

A small slab foot with the hem of a garment. Due to extreme erosion, it is not possible to say much more - there are two vertical lines along the hem that may have been excised or may have been molded. It may have been re-fired, as the inside of the paste is much brighter orange than the surface (see below for Munsell colors). When this was whole, it was most likely part of a hollow figurine.

The item is: not eroded - slightly - moderately - very - extremely eroded.

It: has does not have other damage. Describe:

Not drawn - drawn. Where? on back.
