Additional descriptive comments on figurative or decorative portion of the exterior:

Fragment is of the objects left side w/ the arm + part of headdress preserved. The small bit of headdress is only 1 excised vertical decorative line. The arm is essentially complete w/ bent elbow + wrist band w/ some type of decoration. Probably fingers at the end of the hand at some point, but whatever was once there has since been chipped away. The item is: not eroded - slightly - (moderately) - very - extremely eroded. Chipped away. No other.

It has - (does not) have other damage. Describe:

decorative portion is preserved.

(Not drawn) - drawn. Where?
