REPEAT FOR MORE THAN ONE LEG:

VERBAL DESCRIPTION: This is a: whole – partial metate. It is a finished item – an unfinished item – can't tell.

It is: a working surface only – a working surface with 1–2–3–4 legs – a leg only.

For a working surface: The surface: does – does not show manufacturing marks – can't tell. If it does, they are (mark all that are appropriate): pecking – striations – grinding – smoothing – polishing.

There: is – is not a clear working surface – can't tell. If a working surface is visible, it is: smoothed only – shows both smoothing and use polish – shows use polish only.

The use area: does – does not extend to the side edge/edges  
does – does not extend to the top and/or bottom edge(s)

The area showing use measures:

For the underside: It does – does not show manufacturing marks – can't tell. If it does, they are (mark all that are appropriate): pecking – striations – grinding – smoothing – polishing.

For the edge(s): The edge(s) between the upper and lower surfaces is/are: sharp (relatively) – rounded – flattened – battered and/or chipped – damaged in some other way.

Draw the profile of the edge and surface on the reverse of the page.

For the leg(s): The first leg is: complete – a distal/end portion – a proximal (near the underside) portion.

Other legs are:

On the opposite side of the page, draw/trace the cross section at the base, if it preserved; draw/trace the shape near the junction with the underside.

The leg(s) does – does not have manufacturing marks – can't tell. If they are present, they include: pecking – striations – grinding – smoothing – polishing.

If broken, the broken surface is: unaltered – worn – battered – chipped – can't tell.

Comments:

vesicular basalt chips; irregular shapes, no evidence of working surfaces; they tend to have a broader end, like a striking platform, narrowing down to a thin edge opposite the striking platform;  
4 = 10.4 x 3.2 cm    2 = 10.4 cm x 2.1 cm = striking platform dimensions  
3 = 12.9 cm x 3.1 cm  
1 = 14.9 cm x 2.7 cm    vesicular basalt
