Is the color of the stand altered from reheating: yes no - can't tell

Give the Munsell designation for the stand: paste interior- 7.5YR 7/3 pink paste exterior- 7.5⁶/₄ light brown

Is there use wear: yes no

Describe the location and nature of the use wear if present:

The piece is: slightly - moderately - very - extremely - eroded / is not eroded.

Not drawn - Drawn - where? on back

Comments: No evident firing core, lots of darkening discolorization from burning. The clay stuck to the outside displays two globular colors. There are globs of clay stuck in the incisions on the handle. The ~~the~~ fragment sits flat on the broken half, although it is by no means smooth chipped. Rather the broken edge sits quite amazingly flat. The incisions on the handle also clearly demonstrate that the top rim is indeed the original as they flatten in to its original form
