VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular – square – rectangular – oval – tear-drop – other (describe):

Cuppy Pentagon

The margin/edge was chipped to form the item: y - n (not intentionally)

The margin/edge was deliberately ground to smooth it: y - n

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: ① nice smoothed over interior edge w/ differential coloration and texture from the rest of the interior surface.

The type-variety from which this was made is: PN

Comments:

The exterior edges display no use whatsoever.

① has a smoothed margin connected to the clear use in the interior edge; however none of the other margins are smooth or patinated at all.

This was definitely a "pick-up-and-use" immediately into small piece.

(not firing)
