VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately triangular - square - rectangular - oval - tear-drop - other (describe):

The margin/edge was chipped to form the item: y ~~n~~

The margin/edge was deliberately ground to smooth it: y - n - see comments

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n can't tell

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use:

Striations ~~are~~ extend across the object in one direction. Extremely smooth surface.

The type-variety from which this was made is: PN

Comments:

of the three sides, the curved edge appears smoothed from use compared to the other sides.  
On ~~the~~ side another side of the sherd shows slight indentations from forming the side, possibly chipping:
