PROYECTO VALLE DE CACAULAPA
CATALOG FORM

DATE: ²⁰ July 2005

LOT NUMBER: PUN 202 EK/φφ3

SUBSTANCE: Ceramic

OBJECT: Used sherd

CATALOG #: EK/φφ3-3

MULTIPLES? no

DRAWN BY: 66

PASTE GROUP (for ceramics):

EXCAVATOR:

CATALOGED BY: 66

MAXIMUM--HGT/LENGTH: 2.7cm

WIDTH: 3.4cm

THICKNESS: .12 - .7cm
(the point)

VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular - square - rectangular - oval - tear-drop - other (describe): *trapezoidal*

The margin/edge was chipped to form the item: y - *0*

The margin/edge was deliberately ground to smooth it: y - *0*

The margin/edge is smoothed from use: y - *0*

There is other use wear visible: y - *0*

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: *1*, b/c it is so thinned, and the temper's texture is slightly smoother relative to *3* + *4*, this is the part that was used.

The type-variety from which this was made is: *TDT 2*

Comments: *Extremely Eroded, as in the entire piece is worn and the temper is sticking out roughing slightly all the surfaces.*

2 is a patch of remaining interior surface, while everything around it is so eroded it almost looks like a spall has popped off.

3 + *4* are soft and rounded, but, especially *4*, they both are less smooth than *1* and exhibit no diff. in texture from their surrounding surfaces.
