VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular - square - rectangular - oval - tear-drop - other (describe):

The margin/edge was chipped to form the item: y - n

The margin/edge was deliberately ground to smooth it: y - n

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: z - heavy use on interior that extends wear (u. 8cm) in the interior surface. ~~The x~~ x = a chip from the edge from use.

The type-variety from which this was made is: PN

Comments:

- ① recent break
- ② ground flat
- ③ chipping to form shape
- ~~x = chip~~

The * exterior of z is in no way altered edge
or does it exhibit use in the slightest
⇒ solely interior edge used
