PROYECTO VALLE DE CACAULAPA CATALOG FORM

DATE: ²⁰ July 2005

LOT NUMBER: ^{DU} PVN 202/φ18

SUBSTANCE: Ceramic

OBJECT: Used sherd

CATALOG #: DU/φ18-15

MULTIPLES? no

DRAWN BY: 66

PASTE GROUP (for ceramics):

EXCAVATOR:

CATALOGED BY: 66

MAXIMUM--HGT/LENGTH:

WIDTH:

THICKNESS:

VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately triangular - square - rectangular - oval - tear-drop - other (describe):

(trapezoidal)

The margin/edge was chipped to form the item: y - n

The margin/edge was deliberately ground to smooth it: y - n (margin slightly, but not to form a shape)

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: The point b/t 3a + 4a is rounded and smoothed to a soft texture that is definite use-wear. Also the point b/t 1b + 2b shows definite signs of use b/c it has worn a smooth slant into the interior.

The type-variety from which this was made is: ~~???~~ CAN

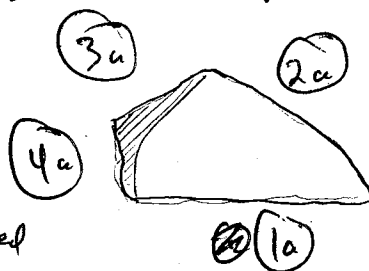

Comments:

1a good crisp flat edge.

2a not good and crisp but rough enough that it is probably erosion

Interestingly 2b, 3b, 4b, and 1b form a differentially worn ring around the entire interior face that appears and feels like the 1b + 2b point although it is not as rounded, but more rounded than the edges of 1a + 2a.
