PROYECTO VALLE DE CACAULAPA
CATALOG FORM

DATE: ²⁰ July 2005

LOT NUMBER: PUN 202 20 | 11

SUBSTANCE: Ceramic

OBJECT: Used sherd

CATALOG #: 20 | 11 - 3

MULTIPLES? no

DRAWN BY: GG

PASTE GROUP (for ceramics):

EXCAVATOR:

CATALOGED BY: GG

MAXIMUM--HGT/LENGTH:

WIDTH:

THICKNESS:

VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular - square - rectangular - oval - tear-drop - other (describe):

The margin/edge was chipped to form the item: y - n

The margin/edge was deliberately ground to smooth it: y - n (margin, but only lightly)

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: ① is definitely the main use wear. The interior rim is flanked and the exterior also exhibits some use, but not the rounding of the interior.

The type-variety from which this was made is: CAN

Comments:

② is a distinct worn patch, that is perhaps exaggerated bc of the color difference w/ the firing cloud, ~~indicated by "W"~~ indicated by "W", and the rest of the interior surface. However the interior ~~base~~ edge is worn and rounded, and the margin here is much more smooth relative to the other non-use margins. ③+④ are lightly ground, but still rough and exhibit no use wear, nor does the rest of ②.
