VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular – square – rectangular – oval – tear-drop – other (describe):

The margin/edge was chipped to form the item: y – n

The margin/edge was deliberately ground to smooth it: y – n

The margin/edge is smoothed from use: y – n

There is other use wear visible: y – n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: Heavily smoothed from use along the broken edge of the dimple base, extending 0.5cm over the interior – moderate smoothing on the edge opposite the dimple showing rounded interior and exterior edges but no appreciable smoothing was used on either face. – the protruding tip on this edge is faceted back to the interior.

The type-variety from which this was made is: Pueblo Nuevo Group (Dimple Base)
