VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular - square - rectangular - oval - tear-drop - other (describe):

The margin/edge was chipped to form the item: y - n

The margin/edge was deliberately ground to smooth it: y - n (maybe ③+④ just to flatten not smooth)

The margin/edge is smoothed from use: y - n

There is other use wear visible: y - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: ① start down, very smooth margin w/ gently rounded edge interior edge, as well as a small rounding of the exterior edge, which does not wrap around to the exterior surface.

The type-variety from which this was made is: PN

Comments:

Interior surface heavily pockmarked  
Exterior edges and margins ②, ③, ④ exhibit no signs of wear.
